P.3 MATHEMATICS LESSON PLANS TERM ONE 2026 – BY MR. JAYSON

LESSON PLAN 1

DATE	CLASS	SUBJECT / L. AREA	NO. OF CHILDREN	TIME
	Primary Three	Mathematics		60 Minutes

THEME	SUB-THEME	CONTENT
Set Concept	Definition of a set	Meaning of a set, examples of sets

COMPETENCES:

- **Subject Competence:** The learner defines a set and gives examples of sets from the environment.
- **Language Competence:** The learner uses the structure "A set of _____" to name different collections.

TEACHING METHODS/TECHNIQUES:

- Realia
- Question and answer
- Brainstorming
- Discussion
- Guided discovery
- Guided writing

LEARNING OUTCOMES:

By the end of this lesson, learners should be able to:

1. Define a set
2. Give at least 5 examples of sets
3. Identify sets in their surroundings

TEACHING/LEARNING MATERIALS:

- Real objects: balls, bottles, books, pencils, chalk
- Chart showing different sets
- Chalkboard/whiteboard
- Learners' books

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	- Greets learners warmly - Shows a collection of objects (e.g., 3 balls) - Asks: "What can you see?" "What are these?" - Tells learners that today we will learn about sets	- Realia - Question and answer - Brainstorming	- Respond to greeting - Observe objects - Answer: "balls" - Listen attentively
15 mins	**EXPLORE**	- Groups learners into small groups - Gives each group a collection of objects (or pictures) - Asks: "What do you have in your group?" "How would you call this collection?" - Moves around to observe and guide	- Group work - Discovery method - Observation	- Work in groups - Observe their collection - Discuss what they have - Share findings
15 mins	**EXPLAIN**	- Asks groups to share what they have - Defines: **A set is a collection of well-defined members put together**	- Lecture method - Question and answer - Use of charts - Expository	- Share their collections - Listen to definition - Copy definition

		- Writes definition on board - Gives examples: a set of balls, a set of girls, a set of boys, a set of bottles, a set of tables - Asks learners to give more examples		- Give their own examples - Take notes
15 mins	**ELABORATE**	- Asks learners to look around the classroom and identify sets - Asks: "What other sets can you see outside?" - Guides learners to mention: a set of desks, a set of chairs, a set of windows, a set of books - Discusses: "Why do we call these sets?"	- Observation - Discussion - Application	- Look around classroom - Identify sets in the room - Mention sets outside - Explain why they are sets
5 mins	**EVALUATE**	- Asks oral questions: - "What is a set?" - "Give two examples of sets" - Gives class work	- Oral assessment - Written assignment	- Answer questions - Copy class work
5 mins	**EXTEND**	- Tells learners to look for more sets at home and bring examples next lesson - Prepares them for next topic	- Home assignment - Reinforcement	- Listen to home task - Prepare for next lesson

CLASS WORK:

1. What is a set?
2. Give any five examples of sets.
3. Draw a set of 3 cups.

REMEDIAL ACTIVITY:

Learners who could not define a set will work with the teacher using real objects to form and identify sets.

LESSON EVALUATION:

STRENGTH:	AREAS WHICH NEED IMPROVEMENT:	WAY FORWARD:

LESSON PLAN 2

DATE	CLASS	SUBJECT / L. AREA	NO. OF CHILDREN	TIME
	Primary Three	Mathematics		60 Minutes

THEME	SUB-THEME	CONTENT
Set Concept	Drawing and naming sets	Drawing sets, naming sets drawn

COMPETENCES:

- **Subject Competence:** The learner draws and names different sets correctly.
- **Language Competence:** The learner describes drawings using "This is a set of _____."

TEACHING METHODS/TECHNIQUES:

- Demonstration
- Drawing
- Question and answer
- Guided practice
- Group work
- Guided writing

LEARNING OUTCOMES:

By the end of this lesson, learners should be able to:

1. Draw different sets
2. Name sets drawn
3. Count members in a set

TEACHING/LEARNING MATERIALS:

- Chalkboard/whiteboard
- Chalk/markers
- Drawing books
- Pencils
- Chart showing different sets drawn

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	- Greets learners - Reviews previous lesson on sets - Asks: "What is a set?" "Give examples" - Shows a drawing of a set on the board - Asks: "What do you see in this drawing?"	- Review - Question and answer - Use of drawings	- Respond to greeting - Answer review questions - Observe drawing - Identify the set
15 mins	**EXPLORE**	- Gives each group drawing materials - Asks groups to draw a set of their choice (e.g., set of balls, set of cups) - Moves around to guide and assist - Asks groups to show their drawings	- Group work - Discovery method - Drawing	- Work in groups - Discuss what to draw - Draw their chosen set - Share drawings
15 mins	**EXPLAIN**	- Demonstrates on board how to draw different sets: - Draw a set of 3 cups - Draw a set of 4 books - Draw a set of 5 balls - Explains that members should be well drawn and clear - Shows how to name the set below the drawing	- Demonstration - Lecture method - Step-by-step guidance	- Observe teacher's drawings - Listen to explanations - Take notes - Ask questions
15 mins	**ELABORATE**	- Gives learners individual work to draw: a) A set of even numbers less than 13	- Individual practice - Application - Guided practice	- Draw the given sets - Write names where required - Ask for help when

		b) A set of four names for girls c) A set of 3 names for wild animals d) A set of 4 mangoes - Guides and corrects where necessary		needed - Complete drawings
5 mins	**EVALUATE**	- Asks learners to exchange books and check each other's work - Asks oral questions about the activity - Collects some books for marking	- Peer assessment - Oral assessment	- Exchange books - Check peer's work - Answer questions
5 mins	**EXTEND**	- Gives more drawing exercises for homework - Prepares learners for next topic on set symbols	- Home assignment	- Copy homework - Prepare for next lesson

CLASS WORK:

1. Draw a set of 5 books.
2. Draw a set of 4 cups.
3. Name the sets drawn below (teacher to draw on board):
    - Drawing of 3 balls
    - Drawing of 2 tables

REMEDIAL ACTIVITY:

Learners who have difficulty drawing will practice with the teacher using dotted lines and tracing.

LESSON EVALUATION:

STRENGTH:	AREAS WHICH NEED IMPROVEMENT:	WAY FORWARD:

LESSON PLAN 3

DATE	CLASS	SUBJECT / L. AREA	NO. OF CHILDREN	TIME
	Primary Three	Mathematics		60 Minutes

THEME	SUB-THEME	CONTENT
Set Concept	Set symbols	Introduction to set symbols: ∪, ∩, ∅, ⊂, ∈, etc.

COMPETENCES:

- **Subject Competence:** The learner identifies and draws different set symbols.
- **Language Competence:** The learner names set symbols correctly (union, intersection, empty set, etc.).

TEACHING METHODS/TECHNIQUES:

- Use of charts
- Demonstration
- Repetition
- Question and answer
- Matching game
- Guided writing

LEARNING OUTCOMES:

By the end of this lesson, learners should be able to:

1. Identify at least 5 set symbols
2. Draw set symbols correctly
3. Name set symbols

TEACHING/LEARNING MATERIALS:

- Chart showing set symbols and their names
- Flash cards with symbols
- Chalkboard/whiteboard
- Learners' books

LESSON DEVELOPMENT (5Es MODEL)

TIME	STAGE	TEACHER'S ACTIVITY	METHODS/TECHNIQUES	LEARNERS' ACTIVITY
5 mins	**ENGAGE**	- Greets learners - Reviews previous lesson on drawing sets - Shows a symbol (e.g., ∪) on the board - Asks: "What do you think this is?" - Tells learners that today we will learn set symbols	- Review - Question and answer - Curiosity building	- Respond to greeting - Answer review questions - Look at symbol - Guess what it means - Listen
15 mins	**EXPLORE**	- Displays chart with set symbols - Points to each symbol without naming - Asks learners to observe carefully - Asks: "Which symbols look familiar?" "What do they remind you of?" - Lets learners discuss in pairs	- Use of charts - Observation - Pair work - Discussion	- Observe chart - Look at each symbol - Discuss in pairs - Share observations
15 mins	**EXPLAIN**	- Points to each symbol and names it clearly: ∪ - Union of/with ∩ - Intersection of/with ∅ - Empty set, void, null ⊂ - Subset of ∈ - Element of/member of ∉ - Not element of = - Equal to ≠ - Not equal to ≡ - Equivalent to n(B) - Number of elements in set B - Explains each symbol's meaning simply - Writes symbols on board for learners to copy	- Lecture method - Demonstration - Repetition - Use of charts	- Listen attentively - Repeat names after teacher - Copy symbols in books - Ask questions
15 mins	**ELABORATE**	- Plays "Match the Symbol" game - Gives learners flash cards with symbols and names - Asks learners to match symbols to their names - Draws symbols on board and asks learners to name them - Gives exercise: draw the following	- Game method - Matching activity - Application - Guided practice	- Participate in game - Match symbols to names - Name symbols on board - Draw symbols in books

		symbols: union, universal set, subset, empty set		
5 mins	**EVALUATE**	- Asks oral questions: - "What is this symbol?" (shows ∪) - "What does Ø mean?" - Gives class work	- Oral assessment - Written assignment	- Answer questions - Copy class work
5 mins	**EXTEND**	- Tells learners to practice drawing symbols at home - Prepares them for listing members in a set	- Home practice - Reinforcement	- Listen to home task - Prepare for next lesson

CLASS WORK:

1. Draw the following set symbols:
   a) Union of
   b) Universal set
   c) Subset of
   d) Empty set
2. Give the name of the set symbols drawn below:
   a) ∩ = _____
   b) ≠ = _____
   c) ∈ = _____

REMEDIAL ACTIVITY:

Learners who confuse symbols will work with flash cards in a small group for reinforcement.

LESSON EVALUATION:

STRENGTH:	AREAS WHICH NEED IMPROVEMENT:	WAY FORWARD:
