The Spectrum Examinations Hub

End of Term III Assessment – 2025

P.3 Literacy 1A (Science)

Time Allowed: 2 hours

Name: _____Stream_____

School_____

SECTION A:

1. What is a balanced diet?

   .....

2. State one way through which people destroy the environment.

   .....

3. Why can't plants make their food at night?

   .....

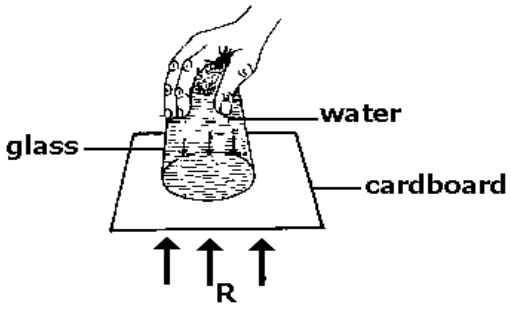

4. Write any one use of the sun in the environment.

   .....

5. How is a latrine important in a school?

   .....

The diagram below shows an experiment about air. Use it to answer questions 6 and 7.

6. Name the property of air shown in the above experiment.

   .....

7. What happens to water if the cardboard paper is removed?

   .....

8. Name one insect that is eaten by man.

   .....

9. Name one good thing man gets from trees.

.....

10. What organ does a person use to smell food?

.....

11. Which part of a flower produces and stores pollen grain?

.....

12. Name the clouds that bring rain.

.....

13. Which process in the water cycle forms water vapour?

.....

14. Identify any one natural change in the environment.

.....

15. Give one way though which water can be made safe for drinking.

.....

16. Why is a table regarded as a non-living thing?

.....

17. Mention any one importance of keeping cats in our homes.

.....

18. Name one insect that undergoes three stages of growth.

.....

19. How are legs important to a goat?

.....

20. How is wind useful to man?

.....

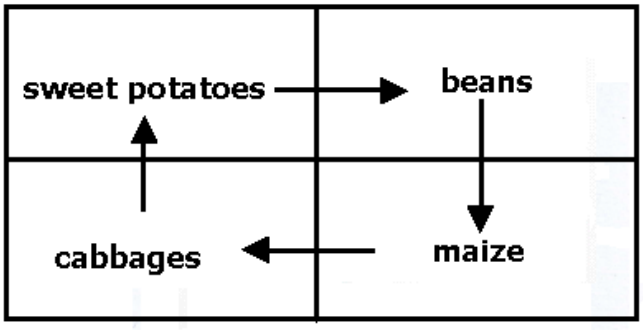

21. Name one wild animal.

.....

22. What instrument is used to measure temperature?

.....

23. Name the method of crop growing shown in the diagram below.

.....

24. What is a pest?

.....

25. How many cotyledons does a bean seed have?

.....

26. Name one material from which bricks are made.

.....

27. What does a fish use to breathe?

.....

28. Mention one importance of a stem to a plant.

.....

29. Mention one practice that leads to contamination of water sources.

.....

30. Give one reason why people grow crops.

.....

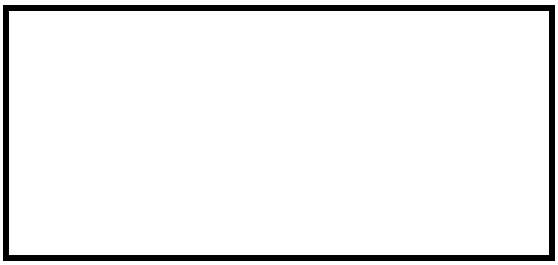

31. How is washing hands before eating food useful to P.3 children?

.....

32. What is first aid?

.....

33. In the space below, draw the garden tool used for watering crops.

34. Give one way you can keep your home clean.

.....

35. Mention one way through which diseases spread.

.....

36. Give one way of controlling soil erosion in a crop garden.

.....

37. Mention one item you can use to keep your body clean.

.....

38. Give one method of weeding crops.

.....

39. Name any one common disease.

.....

40. Where do mosquitoes breed?

.....

SECTION: B

41. Write one example of each type of crop named below.

(a) cereal crop

.....

(b) leguminous crop

.....

(c) vegetable crop

.....

(d) root crop

.....

42. (a) What is a vector?

.....

(b) State the vectors that spread the following diseases.

(i) diarrhoea

.....

(ii) malaria

.....

(c) Give one danger of untreated diarrhoea to a patient.

.....

43. (a) What component of soil is formed from rotting plants and animals?

.....

(b) Name two types of soil.

(i) .....

(ii) .....

(c) From which layer of soil does man get stones for building?

.....

44. (a) Write one example of a non flowering plant.

.....

(b) What does the following parts of a seed develop into after germination?

(i) plumule

.....

(ii) radicle

.....

(c) Give one condition needed for a seed to germinate.

.....

45. (a) Name one product got from each of the following:

(i) cow.....

(i) hen .....

(b) What do cows feed on?

.....

(c) Name the home of a cow.

.....

46. (a) Write down any two reasons why a wasp is grouped under insects.

(i) .....

(ii) .....

(b) How is the adult stage of a butterfly useful to a farmer?

.....

(c) Why do bees visit flowers?

.....

47. (a) Name two sources of water in our community.

(i) .....

(ii) .....

(b) Write one importance of water to man.

.....

(c) Mention one item used in water harvesting.

.....

48. **Study the experiment below and answer the questions that follow.**

(a) What part of air did the candle in **A** need to burn?

.....

(b) Why did the candle in B go off?

.....

(c) What gas was produced in large quantities in **B**?

.....

(d) State the use of candles at home.

.....

49. (a) What causes AIDS?

.....

(b) Give two common ways HIV/ AIDS is spread among people.

(i) .....

(ii) .....

(c) Give one way of preventing the spread of HIV/ AIDS.

.....

50 (a) Give the responsibilities of the following people at home:

(i) mother.....

(ii) father.....

(b) What type of family is a mother, father and their children?

.....

(c) How can a family protect its young ones from diseases like polio, T.B, tetanus, measles, etc?

.....

51. Given the following list of animals: **elephant, zebra, dog, lion**

(a) Write the animal that cannot be grouped with others.

.....

(b) Give a reason for your answer in (a) above.

.....

(c) What does a lion feed on?

.....

(d) Name one animal that moves by hopping.

.....

52. (a) What is weather?

.....

(b) Identify the type of weather that helps a P.3 pupil to fly a kite.

.....

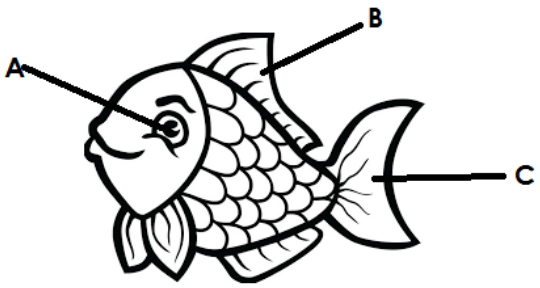

(c) Give one danger of long periods of sunshine to the environment.

.....

(d) Why is it good to harvest crops during the dry seasons?

.....

Below is a diagram of a water animal. Use it to answer questions. 47.

53. (a) Mention the animal shown above.

.....

(b) Name the part labelled **A.**

.....

(c) Where does the above animal stay?

.....

(d) How is part **B** useful to a fish?

.....

54. (a) Write two of the 4F's in the germ path.

(i) .....

(ii) .....

(b) Give two ways used to control the spread of germs through the 4F's.

(i) .....

(ii) .....

55. (a) Mention one cause of accidents at home.

.....

(b) Who is a casualty?

.....

(c) Give two reasons why we give first aid.

(i) .....

(ii) .....
