SECTION A

Questions **1** to **40** carry one mark each.

1. Name the item we use to scrub our body when bathing.

   .....

2. State the danger of keeping clay toy cars in wet environment.

   .....

3. Give any one advantage of constructing a rabbit hutch with a wire mesh.

   .....

4. How can a mother ensure healthy teeth among her children?

   .....

5. In which way can tapeworm infestation cause starvation among infants?

   .....

   .....

6. Give any one way of caring for domestic birds.

   .....

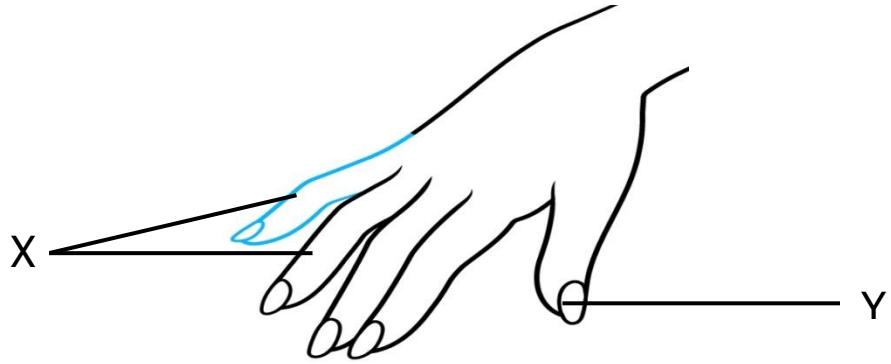

7. Identify any one vector that can hide in overgrown hair on the human body.

   .....

8. How do road humps reduce the risks of traffic accidents on busy roads?

   .....

The diagram below shows part of the human body. Study and use it to answer questions 9 and 10.

9. Name the parts marked with letter **X**.

.....

10. State the function of part of the part marked with letter **Y** to the P.4 child.

.....

11. Why do people in rural areas prefer using firewood to electricity?

.....

12. What is the function of kidneys in the human body?

.....

13. Give a reason why each classroom at school should have a dustbin.

.....

14. Mention any one way people take food into their bodies.

.....

15. What do we call the removing of maize grains from the maize cob?

.....

16. State any one factor necessary for development of bean seeds into seedlings.

.....

17. Suggest any one biological way of controlling mosquitoes in a home.

.....

18. Name any one type of clouds in the sky.

.....

The illustrations below show farmers harvesting different crops. Carefully study them and answer questions 19 and 20.

M

N

19. Identify the method of harvesting shown in **N**.

.....

20. Name any one crop that can be harvested using the method illustrated in **M**.

.....

21. Why can't the sub layer of soil support plant growth?

.....

22. State the importance of ORS to a victim of diarrhea.

.....

23. Give any one component of a first aid kit.

.....

24. In which way do plants improve the health of people?

.....

25. Where in the human body is brain located?

.....

26. Which group of people commonly fetch firewood at home.

.....

27. Draw the food staff we obtain from water bodies in the space provided blow.

28. Name any one vector that can be found in a living room.

.....

29. What is the importance of sunglasses in the management of sunny weather?

.....

30. How can the school health committee promote personal hygiene among children at school?

.....

31. Give any way in which a farmer makes sand soil suitable for plant growth.

.....

32. State any one way in which animals move from place to another.

.....

33. Identify the region of the tooth found in gum.

.....

34. Why should we wash hands before making ORS locally at home?

.....

35. Mention any one factor that a livestock farmer can consider when choosing a breed of rabbits to rear.

.....

36. Give any way of managing the effects of drought in an area.

.....

37. Name any one domestic animal.

.....

38. Why do we group prop roots under adventitious roots?

.....

Below are items always kept together by Mary . Carefully study it and answer questions 39 and 40.

39. Which problem is most likely to occur to the people in that family?

.....

40. Give any one sign of the above problem in a family member.

.....

SECTION B

Questions **41** to **55** carry four marks each.

41. (a) What are living things?

.....

.....

(b) Identify anyone group of living things in environment.

.....

(c) State any two characteristics of a cat as a living thing organism.

(i) .....

(ii) .....

42. (a) Mention any one common accident in the kitchen.

.....

(b) Give any two factors that can lead to road traffic accidents.

(i) .....

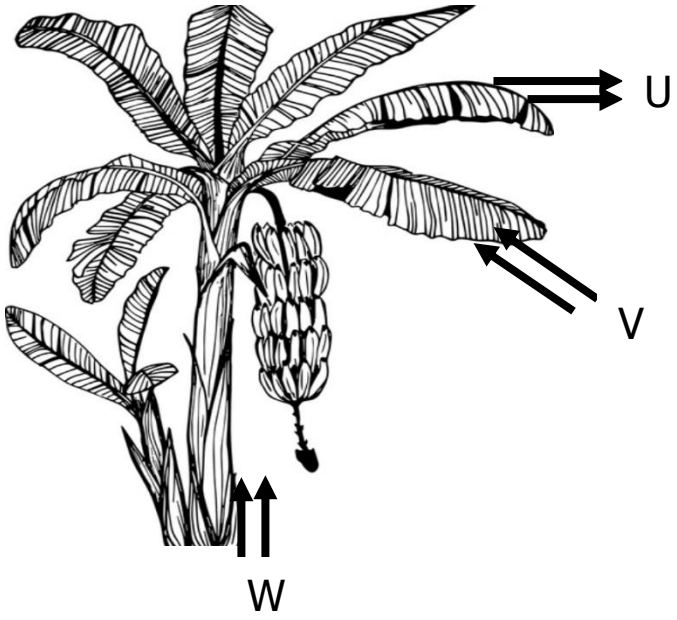

(ii) .....

(c) What is the major reason for giving first aid to causalities?

.....

.....

43. **The diagram below is of a plant process. Study it carefully to answer the questions about it.**

(a) Which plant process is shown in the diagram above?

.....

(b) Name the raw materials for the above process shown by arrows **V** and **W**.

(i) V.....

(ii) W.....

(c) How does the by-product shown by arrows **U** support the life of animals?

.....

Give two uses of carbon dioxide in soda industries.

(i) .....

(ii) .....

44. (a) Which property of air enables people to do each of the following activities?

(i) Drawing liquid medicine from a bottle using a springe.

.....

(ii) Spraying pesticides using a knapsack sprayer.

.....

45. (a) Write any one component of a balanced diet.

.....

(b) Give the difference between preserving food and preparing food.

.....

.....

(c) Suggest any one way of preserving and preparing beans at home.

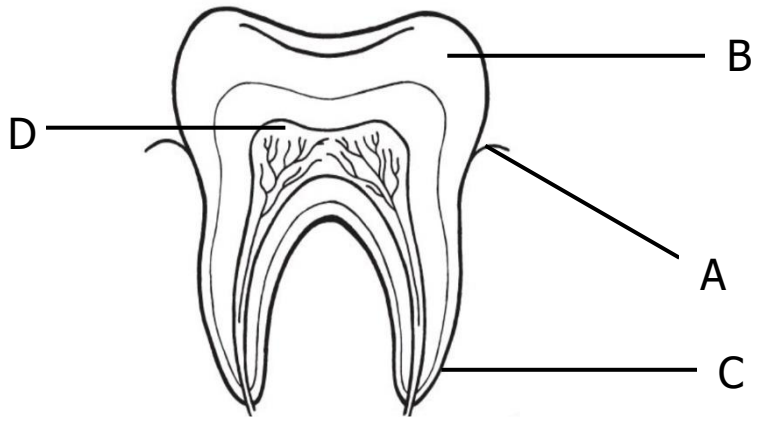

(i) Preserving beans

.....

(ii) Preparing beans

.....

The diagram below shows the internal structure of the human tooth. Use it to answer questions 46.

46. (a) Name the part labelled **A**.

.....

(b) Which mineral salt helps in the formation of part labelled **B**?

.....

(c) What is the function of part labelled **C**.?

.....

(d) Why is part labelled **D** regarded as the living part of the tooth?

.....

47. (a) In which two ways do weeds reduce crop yields?

(i) .....

(ii) .....

(b) Give two biological ways of controlling weeds in the garden.

(i) .....

(ii) .....

48. (a) Name any one weather instrument you know.

.....

(b) Which part of the sunshine recorder focusses sunrays?

.....

(c) Mention the component of a rain gauge that shows the amount of rainfall received.

.....

(d) Why is rainfall measured in millimeters?

.....

49. (a) Identify any two plants that grow in wetlands.

(i) .....

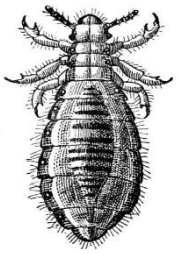

(ii) .....

(b) State two ways in which plants support the life of people.

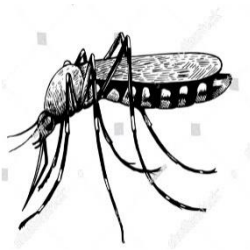

(i) .....

(ii) .....

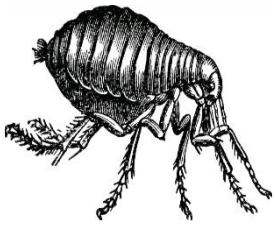

Study the vectors below to answer question 50.

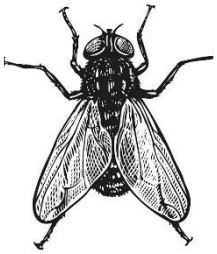

P

Q

R

S

50. (a) Name the vector marked **P**.

.....

(b) Identify any one disease spread by vector marked **R**.

.....

(c) In which kind of environment does vector **Q** breed from?

.....

(d) How can we control the breeding of vector marked **S** in the environment?

.....

.....

51. (a) Write the main natural source of energy on earth.

.....

(b) Mention one form of energy we get from the above source.

.....

(c) Give any two importance of the source of energy named in (a) above.

(i) .....

(ii) .....

52. (a) How is a tapeworm different from the hookworm in terms of feeding? (2 marks)

.....

.....

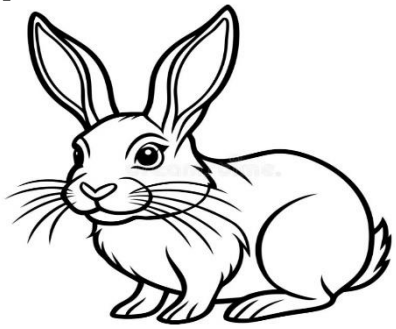

(b) Where in the human body do tapeworms and hookworms live?

.....

(c) Give the function of hooks on hookworms.

.....

53. **Below is a diagram of a domestic animal. Use it to answer the questions that follow.**

(a) Name the domestic animal above.

.....

(b) How do we call the habitat for the domestic animal above?

.....

(c) What is the gestation period of the above animal?

.....

(d) What term describes the act of giving birth by the above animal?

.....

54. (a) Write the meaning of personal hygiene?

.....

.....

(b) State the use of each of the following during bathing.

(i) water .....

(ii) soap .....

(iii) towel .....

55. **The sentences below show the steps taken to clean utensils in a wrong order. Study and re-arrange them to describe the right steps taken to clean utensils.**

(a) Dry utensils with a towel.

(b) Wash the utensils to remove dirt.

(c) Pour water in the washing container.

(d) Place them in the rack.

(a) .....

(b) .....

(c) .....

(d) .....
