HYBRID LESSON PLAN

DATE	TIME	CLASS	No. OF PUPILS			TEACHER'S NAME
			BOYS	GIRLS	TOTAL	
22/9/2025	11:30 12:40	P.5	15	20	35	Mukisa Ivan

TOPIC: **MATTER AND ENERGY**

SUB-TOPIC: **Matter and Energy**

COMPETENCES: **The learner uses the given words to read, spell, write and pronounce the words correctly**

LANGUAGE:

SUBJECT: **U**ses the given terms on the chalk to define the meaning of; Cohesion, Adhesion, Viscosity, Matter, An Atom, Molecule,

CONTENT: Terms used in Matter and Energy.

Cohesion - This is the force of attraction between molecules of the same kind.

Adhesion - This is the force of attraction between btn molecules of different kinds.

METHODS: Real object, Guided discovery, Problem solving, Group discussion

SUGGESTED ACTIVITIES:Readin, pronouncing and writing the words correctly.

Defining the given terms correctly

LIFE SKILLS/VALUES: Explanation

Effective communication

Questions and answers

LEARNING AIDS: Science Dictionary

Chalk board illustration

REFERENCE: UNDERSTANDING SCIENCE PUPIL'S BOOK 5 PAGE 103

REMARKS: Taught succeeful
