TOTAL		

SECTION A: 40 MARKS

Questions **1** to **40** carry one mark each

1. Name the main natural source of heat in the environment.

   .....

2. State any **one** use of a razorblade in promoting personal hygiene.

   .....

3. Why do poultry farmers keep broilers on their farms?

   .....

4. Give the main role of a queen bee in a bee hive.

   .....

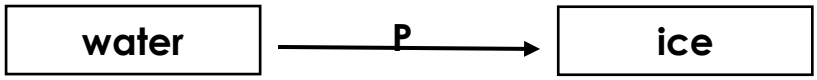

5. Name the weather instrument used for measuring rainfall received in an area.

   .....

6. State any **one** way of caring for your uniforms.

   .....

   The illustration below shows a physical change that exists between states of matter. Use it to answer question 7 and 8.

7. Name the physical process marked P.

   .....

8. What causes the above physical process?

   .....

9. State any **one** way of controlling soil erosion in hilly areas.

   .....

10. Mention the body organ that is affected by trachoma.

    .....

11. How do bacteria reproduce?

    .....

12. Why is a banana plant classified as a perennial crop?

    .....

The diagram below shows a type of teeth. Use it to answer questions **13** and **14**.

13. Name the tooth above.

    .....

14. How is the above tooth adapted to its function?

    .....

15. How are spiracles similar to gills in fish in function?

    .....

16. Give any **one** use of food to the body.

    .....

17. Which health practice should be done first before eating food?

    .....

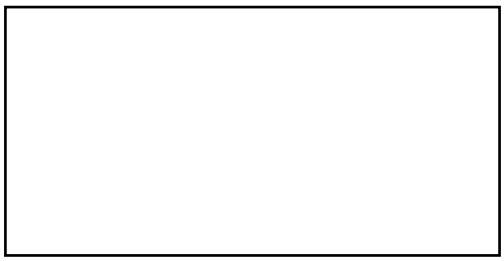

18. Name the method of finding the volume of a stone.

    .....

19. State any **one** characteristic of chemical change.

    .....

20. Draw a pistil in the space provided below.

21. Which food value repairs the worn-out body tissues?

    .....

22. State any **one** way P.5 pupils prevent themselves from mosquito bites.

    .....

23. Why is oxygen not used in fire extinguishers?

    .....

24. Mention any **one** condition needed by a viable seed to germinate.

    .....

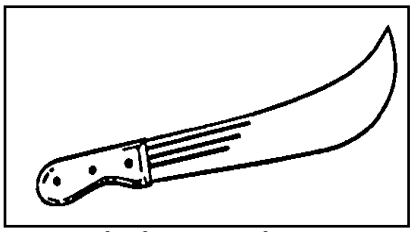

25. Name any **one** element of weather that requires people to use umbrella.

    .....

26. Give any **one** cause of accident at schools.

    .....

    Study the garden tool below carefully. Use it to answer questions **27** and **28**.

27. Name the garden tool shown above.

    .....

28. How can the above garden tool be prevented from rusting?

    .....

29. Which vaccine is given to children at the age of 9 months?

    .....

30. State the role of a nurse at school.

    .....

31. Give any **one** way of keeping your classroom clean.

    .....

32. Name the animal fibre got from goats.

    .....

33. What advice would you give to a mother whose child is suffering from Kwashiorkor?

    .....

34. What are weeds?

    .....

    .....

35. Mention the force of attraction between molecules of the same kind.

    .....

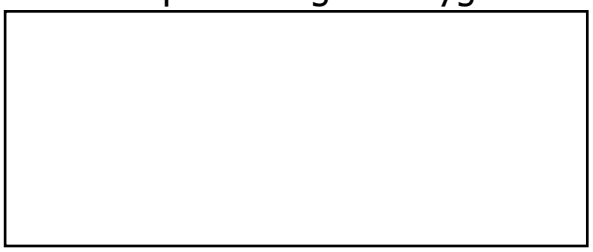

36. Name the sense organ for smelling.

    .....

37. Why should a rabbit hutch be made of wire mesh?

……

38. Draw an item used for promoting oral hygiene in the space provided below.

39. How useful are teeth in the digestion of food?

……

40. How do snakes move from one place to another?

……

SECTION B: 60 MARKS

Questions 41 to 55 carry four marks each.

41. a) What are poultry vices?

……

……

b) Give any **two** examples of poultry vices.

i) ……

ii) ……

c) State any **one** farm practice done by farmers to control the above mentioned poultry vices.

……

42. a) Mention any **two** items used to keep your classroom clean.

i) ……

ii) ……

b) State any **two** ways of promoting sanitation at school.

i) ……

ii) ……

43. a) Give any **two** characteristics of insects.

i) ……

ii) ……

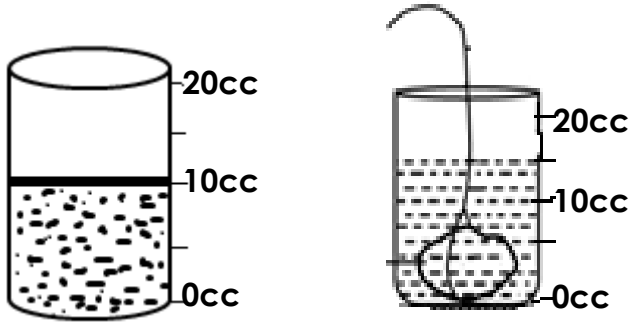

b) Where on insects are the wings and legs attached?

.....

c) Why do houseflies die when their abdomen sink in a tin of cooking oil?

.....

44. A P.5 class carried out an experiment about finding the volume of an irregular object below. Use it to answer questions that follow.

a) Name the method of finding the volume shown above.

.....

b) How much water was used for finding the volume of the irregular object in the experiment about?

.....

c) Calculate the volume of the irregular object in the measuring cylinder.

45. a) State any **one** way soil is formed.

.....

b) How are bacteria important in soil formation?

.....

c) Give any **two** human activities which affect the environment.

i) .....

ii) .....

46. a) Name the domestic animal kept for wool production.

.....

b) Apart from wool, give any **two** other products got from domestic animals.

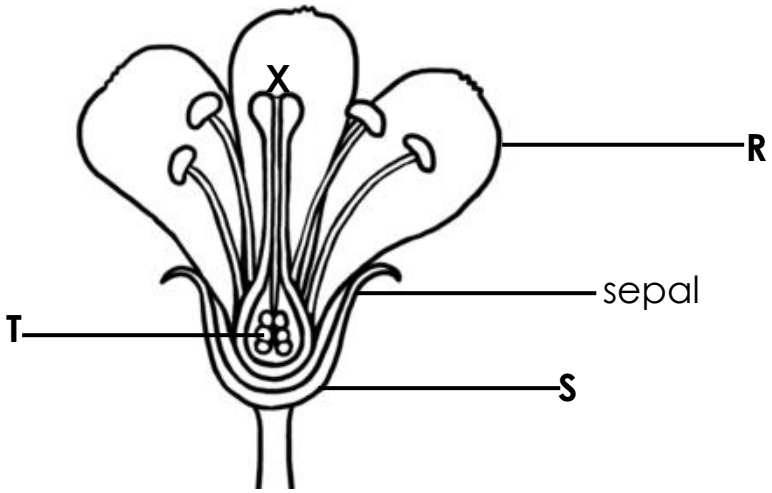

i) .....

ii) .....

c) Give any **one** reason of keeping domestic animals.

.....

47. The diagram below is of a flower. Use it to answer questions that follow.

a) Name the part marked with letter R and S above.

i) R .....

ii) S .....

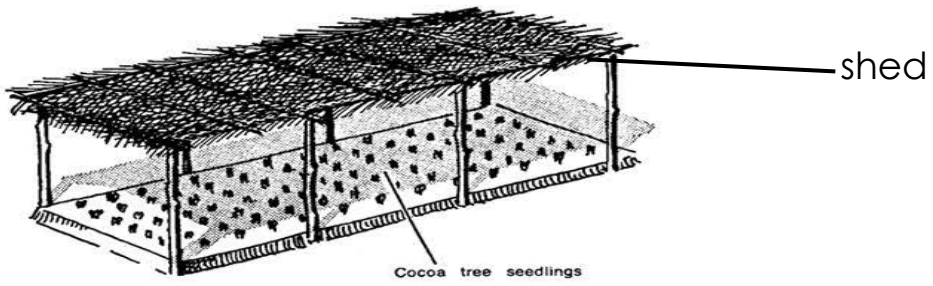

b) Mention the plant process which takes place at the part marked with letter X on the diagram above.

.....

c) What does the part marked with letter **T** develop into after fertilization?

.....

48. Study the type of garden below. Use it to answer questions that follow.

a) Name the type of garden shown above.

.....

b) Give any **two** activities done to care for crops grown in the above type of garden.

i) .....

ii) .....

49. a) What is weather?

.....

.....

b) Give any **two** elements of weather.

i) .....

ii) .....

c) State any **one** way a **P.5** pupil can manage rainy weather.

.....

50. a) Mention any **two** natural sources of water we use at home.

i) .....

ii) .....

b) State any **two** uses of water at home.

i) .....

ii) .....

51. Complete the table showing the immunization schedule shown below.

Disease	**Immunization site**
polio	_____
_____	right upper arm
tetanus	_____
_____	left upper arm

52. a) What are deficiency diseases?

.....

.....

b) Give any **two** examples of deficiency diseases.

i) .....

ii) .....

c) State any **one** sign of poor feeding in children.

.....

53. a) Mention any **two** groups of living things in the environment.

i) .....

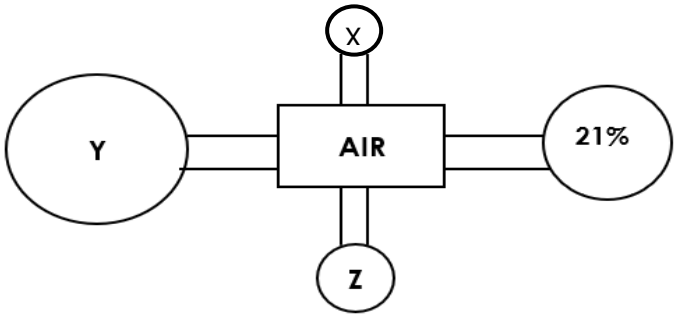

ii) .....

b) Give any **two** characteristics of living things.

i) .....

ii) .....

54. Study the illustration of components of air below. Use it to answer questions that follow.

a) Name the components of air marked with letter X and Y.

i) **X** .....

ii) **Y** .....

b) State any **one** use of gas marked with letter Z to plants.

.....

c) Why is the gas that occupies 21% not used in fire extinguishers?

.....

55. (a) Mention any **two** advantages of using modern methods to preserve food.

(i) .....

(ii) .....

(b) State **two** ways in which parents can ensure the availability of enough food at home.

(i) .....

(ii) .....
