53 – 55		
TOTAL		

SECTION A: 40 MARKS

Questions **1** to **40** carry **one** mark each.

1. Name the type of teeth that grow first in babies.

   .....

2. State the reason for chewing food properly before swallowing.

   .....

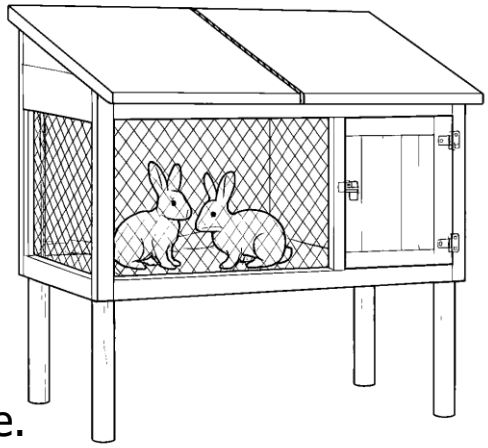

3. Give any **one** way of improving soil fertility.

   .....

4. Mention any **one** importance of proper sanitation in an area.

   .....

   The diagram below shows a rabbit hutch. Study and use it to answer questions **5** and **6**.

5. Name the type of hutch shown above.

   .....

6. State the reason for putting a wire-mesh during construction.

   .....

7. Write down the property of air which helps in drinking soda using a straw.

   .....

8. Identify any **one** way P.5 children can control accidents on their way to school.

   .....

9. Give the number of teaspoonful of sugar that are required when preparing one litre of ORS locally.

.....

10. Write any **one** thing poultry farmers add to layer feeds to increase calcium content.

.....

11. Give the meaning of the term **heat energy**.

.....

.....

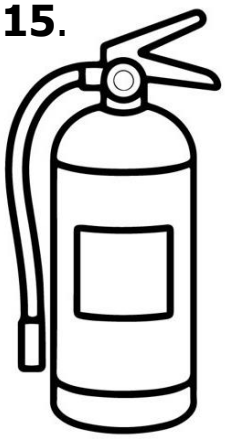

12. State the reason of adding ash to organic matter when making compost manure.

.....

13. Mention any **one** use of carbohydrates in our bodies.

.....

The diagram below shows an equipment commonly found at school. Use it to answer questions **14** and **15**.

14. Identify the gas used in the equipment above.

.....

15. Give **one** reason why the above equipment is always painted red.

.....

16. State the use of water to a germinating seed.

.....

17. Mention any **one** way in which school children can prevent tooth decay.

.....

Turn Over

18. Apart from protection from harsh weather condition, state any other reason for planting seedlings in a nursery bed.

.....

19. Give the reason why farmers harvest some of their crops during dry season.

.....

20. State the importance of boiling water for drinking in our homes.

.....

21. Mention any **one** characteristic of sinking objects.

.....

22. Give the reason why an object weighs less when placed in water.

.....

23. State any **one** characteristic of tuber crop pests.

.....

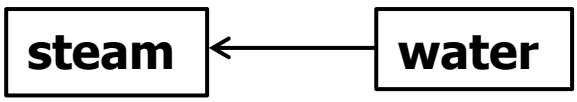

24. Mention any **one** way P.5 children can care for an HIV/AIDS patient.

.....

25. Name the root system possessed by a soya bean plant.

.....

The illustration below shows a physical change. Study and use it to answer questions that follow.

26. Identify the physical change in the environment shown above.

.....

27. Apart from the above change, write **one** other change of state that takes place in the absence of heat.

.....

28. Name the type of immunity acquired through recovery from an illness.

.....

29. Mention any **one** cause of malnutrition among children.

.....

30. Give a reason why BCG vaccines is given to babies at birth.

.....

31. State any **one** importance of conducting health parades at school.

.....

32. Mention the way tapeworms get to enter in a human body.

.....

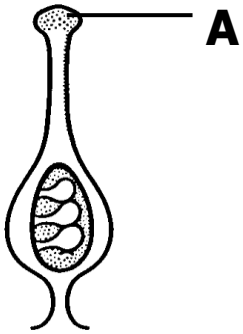

33. Identify **one** sign of a dehydrated person.

.....

34. Give any **one** reason why animals move from one place to another.

.....

The diagram below shows part of a flower. Use it to answer questions **35** and **36**.

35. Name the part of a flower shown in the diagram.

.....

36. Mention the plant process that takes place on part marked **A**.

.....

37. Identify what would happen to a piece of metal made of iron when left outside in the night.

.....

38. State the way animals benefit from the process of photosynthesis.

.....

39. Give the reason why a rain gauge is always placed above the ground.

.....

Turn Over

40. Mention **one** reason why electric wires are loosely fixed on poles.

.....

SECTION B: 60 MARKS

41. (a) Name any **one** agent of pollination.

.....

(b) Give the reason why a maize plant is able to carry out cross pollination.

.....

.....

(c) Write down any **two** characteristics of insect pollinated flowers.

(i) .....

(ii) .....

42. (a) Mention any **two** conditions provided to a chick during brooding.

(i) .....

(ii) .....

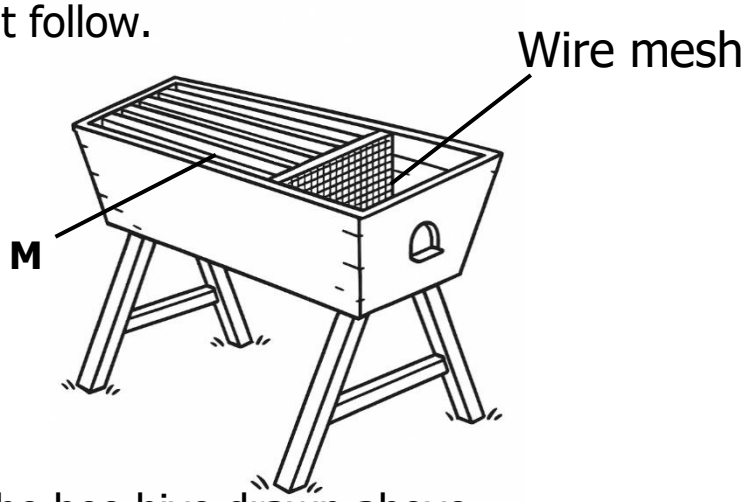

(b) Give any **one** reason why poultry farmers prefer artificial brooding.

.....

(c) State the importance of ventilation in an incubator for poultry eggs.

.....

43. The diagram below shows a modern bee hive. Use it to answer questions that follow.

(a) Name the bee hive drawn above.

.....

(b) State the use of the hive chamber marked **M**.

.....

(c) Give the reason why the partition in the middle is made up of wire-mesh

.....

(d) Mention any **one** advantage of using the above modern bee hive.

.....

44. (a) Write down any **two** agents of soil erosion in an area.

(i) .....

(ii) .....

(b) Explain how deforestation is able to cause soil erosion. (02 marks)

.....

.....

45. How does each of the following animals protect itself against the enemies?

(i) bee .....

(ii) millipede .....

(iii) snail .....

(iv) chameleon .....

46. (a) Name **two** common examples of fractures in humans

(i) .....

(ii) .....

(b) Give any **one** way in which fractures can be managed.

.....

(c) Mention any **one** required first aid for a person who has got fracture.

.....

47. (a) Name any **two** types of stems in plants.

(i) .....

(ii) .....

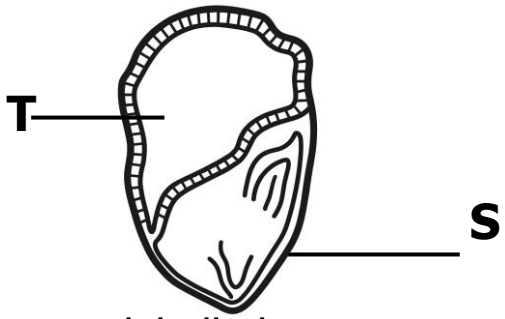

(b) Give any **one** plant whose stem can be used as a planting material.

.....

(c) State any **one** way in which stems support human life

.....

48. The diagram below shows internal parts of a maize grain. Use it to answer questions that follow.

(a) Name parts labelled:

S .....

T .....

(b) Give the reason why the above maize grain is regarded as a fruit.

.....

(c) Identify the part of a bean seed which has the same function as part .....

49. (a) Give the meaning of the term **balanced diet**.

.....

.....

(b) Name the cause of the following deficiency diseases in infants:

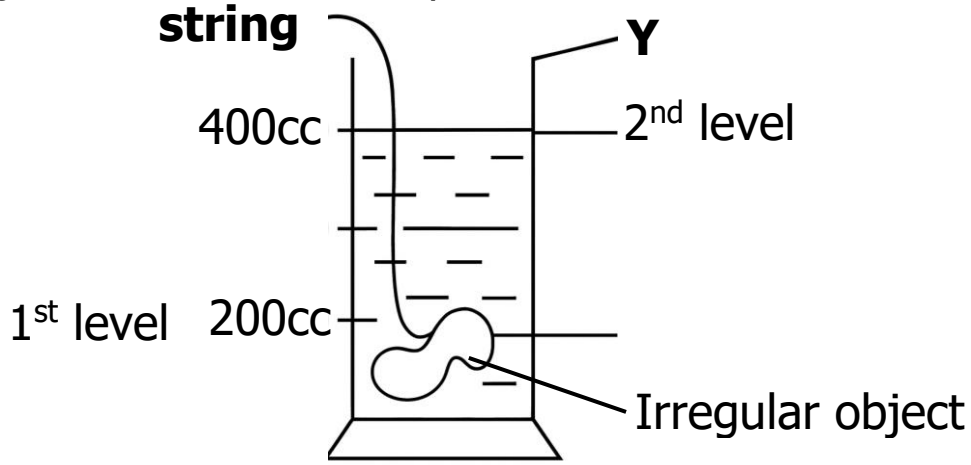

(i) Marasmus .....

(ii) Scurvy .....

(c) State the reason why young children should eat more proteins.

.....

50. The diagram below shows the method of finding volume of an irregular object. Use it to answer questions that follow

(a) Name the container marked **Y**.

.....

(b) Find the volume of the irregular object.

.....

(c) Give the reason why the string was used.

.....

(d) State the reason why the volume of water in the container rises when the object is lowered into it.

.....

51. (a) Mention any **two** ways of caring for crops in the garden.

(i) .....

(ii) .....

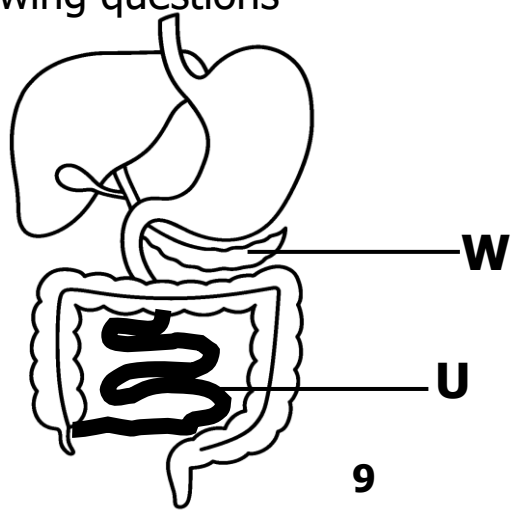

(b) Give the importance of transplanting seedlings in the evening.

.....

(c) Name the correct garden tool farmers use for transplanting.

.....

52. The diagram below is part of the human alimentary canal. Use it to answer the following questions

Turn Over

(a) Name the part marked with letter **W**.

.....

(b) State any **one** adaptation of part marked **U** to its function of food absorption.

.....

(c) Write down **one** disorder and disease of the above system.

(ii) Disorder:.....

(ii) Disease:.....

53. (a) Name the soil layer which is suitable for crop growing.

.....

(b) Mention any **two** ways in which dumping of polythene bags into the soil is dangerous.

(i) .....

(ii) .....

(c) Identify the component of soil formed through decomposition of organic matter.

.....

54. (a) Give a reason why filtered water is not suitable for drinking.

.....

(b) State any **two** ways filtration is useful in our daily life.

(i) .....

(ii) .....

(c) Mention any **one** way in which crop farmers can separate beans from husks.

.....

55. Match the following terms in list **A** and their meanings in list **B**.

A	**B**
Density	Pull or Push
Mass	Force that pulls objects towards the centre of earth
Force	Amount of matter in an object
Gravity	Ratio of mass per unit volume

(i) Density.....

(ii) Mass .....

(iii) Force .....

(iv) Gravity .....

END
