TEKART LEARNING www.tekartlearning.com

PAPER ONE

SECTION A

1. Work out: 13 x 3

2. Write 33002 in words.

3. Express $^{6}/_{10}$ as a decimal.

4. Work out:

	Hrs	**Min**
	4	50
–	2	17

5. Find the next number in the sequence: 1, 3, 9, 27, _____

6. Simplify: 7y + 3x – 2y + 2x

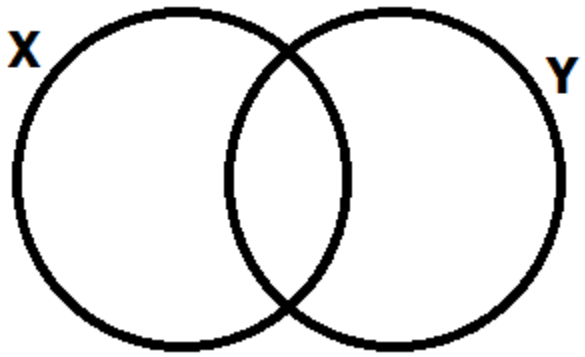

7. 8 pens cost sh. 4000, what is the cost of one pen?

8. What is the value of 4 in 6453?

9. The temperature in Kampala was $\bar{}8\ ^0C$ in the morning and $27\ ^0C$ in the afternoon. What was the difference in the temperature?

10. Mafabi bought a radio at sh.49000. He sold it and got a profit of sh.7000. How much money did he sell the radio?

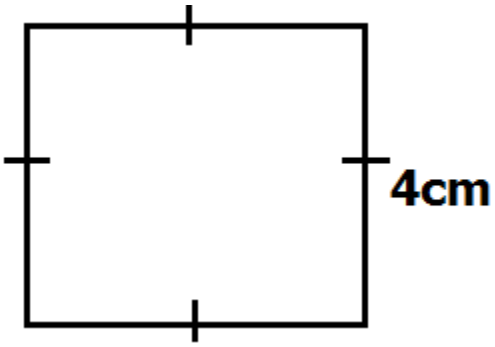

11. In the Venn diagram, shade the region representing X – Y.

12. Change 23_{ten} to base five.

13. Find the product of the 1st and 5th composite numbers.

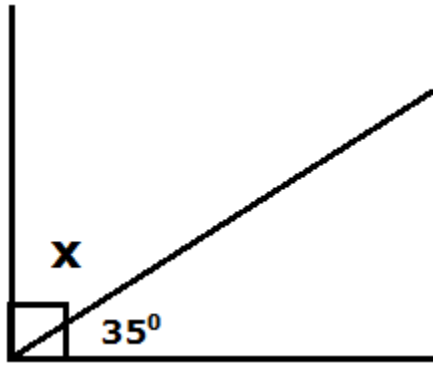

14. Calculate the area of the figure below.

15. Convert 4 metres to centimeters.

16. Draw parallel lines in space provided below.

17. Calculate the size of angle **x**.

18. How many $^{1}/_{6}$ pieces of soap can be cut from 3 bars of soap?

19. What morning time is shown on the clock face below?

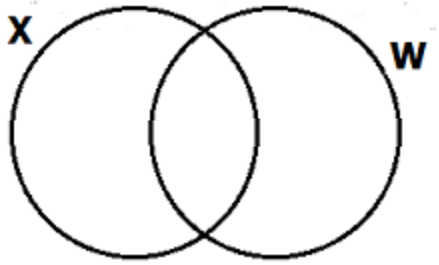

20. The tally marks show the number of pupils in a class. If 9 pupils were absent, how many pupils were present?

Section B (60 marks)

21. Given that W = {**f,e,w,r,i,o**} and set X = {**a,f,e,i**}.

(a) Represent the above information in the Venn diagram below. **(3 marks)**

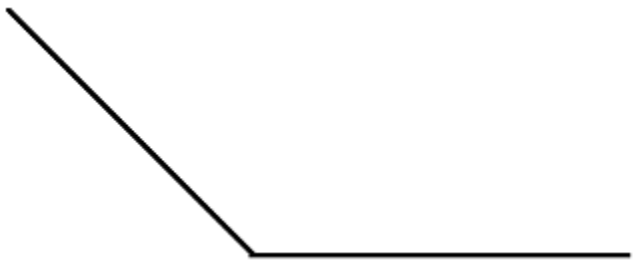

(b) Find W ∩ X **(1 mark)**

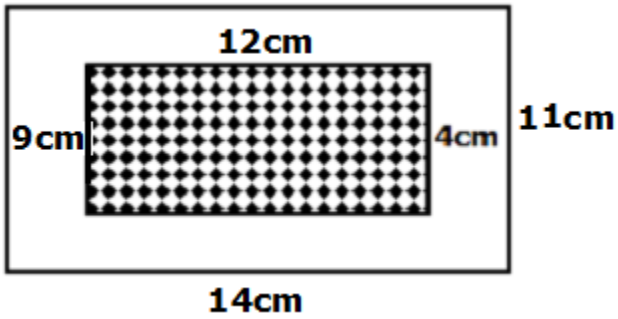

(c) Find W – X **(1 mark)**

22(a) Draw a circle of radius 3cm in the space provided below. (2 marks)

(b) Use a protractor to measure the angle below. **(2 marks)**

23. **The diagram below shows a table covered by a piece of cloth.**

(a) Calculate the area of the table. (2 marks)

(b) Work out the area of the piece of cloth. **(2 marks)**

(c) Find the area of the table that is not covered by the piece of cloth. **(1 mark)**

24(a) Mr. Golola covered a distance of 200km in 2 hours. What was his speed? **(2 marks)**

(b) A motorist driving at a speed of 56km/hr took 5 hours to cover a journey from Kampala to Soroti. Find the distance between the two places. **(2 marks)**

25(a) Find the LCM of 6 and 15. **(2 marks)**

(b) Calculate the sum of the first 5 prime numbers. **(2 marks)**

26. There are 37 classrooms in Kabojja Junior School. 25 of the classrooms have 48 pupils each and the rest have 45 pupils each.

(a) How many pupils are in the 25 classrooms? **(2 marks)**

(b) Find the total number of pupils in the school. (3 marks)

27. Olum went to the shop and bought the following items:

3 Kg of sugar at sh.3600 per Kg.

2 Kg. of rice at sh. 4000 per Kg.

3 litres of milk at sh.2400 per litre.

2 loaves of bread at sh.7000.

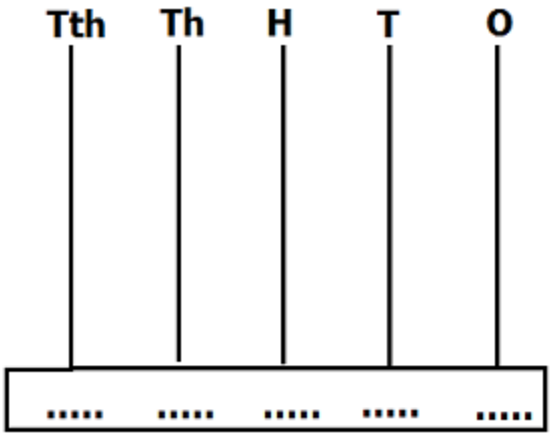

(a) Calculate the total expenditure. **(5 marks)**

(b) If he had sh.40,000, find the change. **(1 mark)**

28(a) Write 25,008 in expanded form. **(2 marks)**

(b) Round off 56,942 to the nearest thousands. **(2 marks)**

(c) Represent the above answer in (b) on the abacus below. **(2 marks)**

29. **Use the symbols > , < or = to complete mathematical statements.**

(1 mark each)

(a) $^{-}7$ _____ $^{+}7$

(b) 0.5 _____ $^{2}/_{5}$

(c) 120 minutes _____ 2 hours

(d) 5km _____ 500m

30. There are 120 pupils in P.5 at Nakasero Primary School. $^{2}/_{5}$ of them are girls and the rest are boys.

(a) Find the fraction of boys. **(2 marks)**

(b) How many girls are there? **(2 marks)**

(c) Work out the difference between the number of boys and girls in the class. **(2 marks)**

31 Solve:

(a) $4x = 20$ **(2 marks)**

(b) $\frac{y}{3} = 7$ **(2 marks)**

(c) $p + 8 = 11$ **(2 marks)**

32. The table below shows the number of eggs collected from Mr. Kato's poultry farm during the week.

Days of the week	Mon.	Tue.	Wed.	Fri.
Number of eggs collected	20	40	60	80

(a) On which day was the highest number of eggs collected? **(1 mark)**

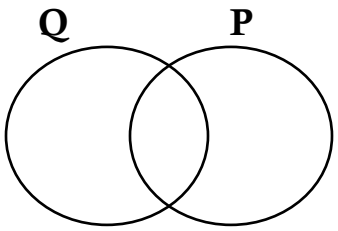

(b) Find the total number of eggs collected on Monday and Friday. **(2 marks)**

(c) Calculate the average number of eggs collected in the four days. **(2 marks)**

PAPER TWO
SECTION A

1. Multiply: 2x 0 x 2 =

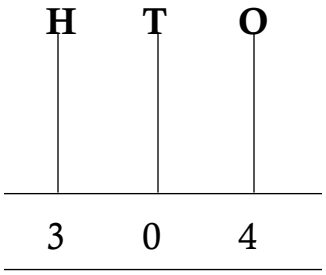

2. Shade P –Q

3. Write 44 in words.

4. Write the next number in the series.
1, 3, 5, 7, 9, _____

5. Complete the abacus below.

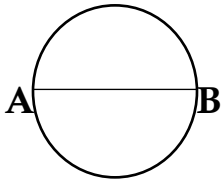

6. Add: $\frac{2}{3} + \frac{2}{5}$

7. Collect the like terms.
4p+ 6y −2p −2y

8. List all factors of 18

9. Name $\overline{AB}$

10. Juma bought a book at sh. 5000 and later sold it at sh. 7500. Calculate the profit made.

11. How many items are in 2 dozens?

12. Round off 29.673 to the nearest tenths

13. Multiply: 34 x 17 =

14.

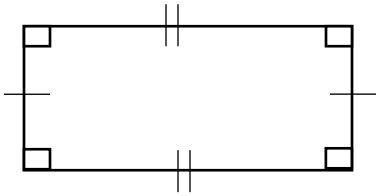

Work out	Hrs	Min
	2	40
+	1	30

15. Draw a sphere

16. Use > or < to complete the statement.

$\frac{2}{5}$ _____ $\frac{1}{5}$

17. How many lines of folding symmetry has the figure below?

18. Find the value of

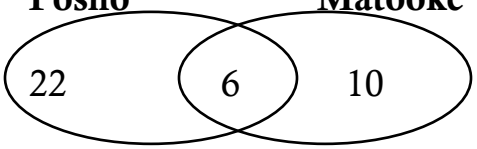

~~////~~ + ~~////~~ + /// = ____

19. Construct an angle of 90^0 using a ruler and a pair of compasses

20. How many twelves make up thirty six?

SECTION B

21. The Venn diagram below shows the number of pupils who like posho, matooke or both. Use it to answer the questions that follow.

(a) How many pupils like Matooke? (2 marks)

(b) How many pupils like posho? (2 marks)

(c) How many pupils like only one type of food? (1 mark)

22. In a club of 40 members, $\frac{3}{8}$ are males and the rest are females.

(a) Find the fraction for females. (1 mark)

(b) Find the number of males (2 marks)

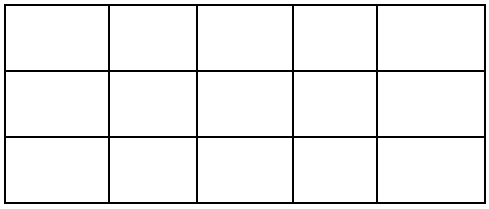

(c) How many are females. (2 marks)

23. (a) Write 8000 + 600 + 50 + 4 in short form (2 marks)

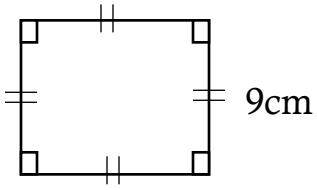

(b) Write 524 in expanded form (2 marks)

(c) Write 98764 in words. (1 mark)

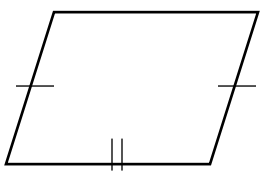

24. (a) Find the area of the figure below. (2 marks)

(b) Calculate the total distance around the figure given below. (2 marks)

(c) Name this shape. (1 mark)

25. Musa is 20 cm taller than Joseph who is 120cm tall

(a) Find the height of Musa (2 marks)

(b) Calculate total height. (2marks)

(c) What is their average height? (1 mark)

26. Solve the equations below. (2 marks each)

(a) $k + 6 = 20$ (b) $3y = 18$

(c) Fill in the missing number.

$6 + \square = 10$

27. (a) Wambuzi planted 12756 cabbage seedlings in May and 6896 seedlings in June. How many seedlings did she plant in the two months altogether? (2 marks)

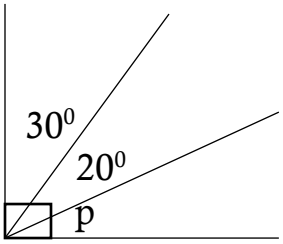

(b) Divide $75 \div 25 =$ _____ (2 marks)

---

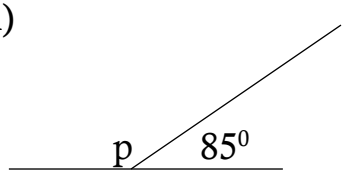

28. (a) Find the supplementary angle of 100^0 (2 marks)

(b) Find the value of P in degrees. (2 marks each)

(i)

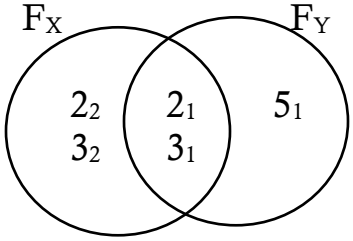

(ii)

29. (a) Convert 13_{five} to base ten. (b) Add $4_{five} + 3_{five}$ (2 marks each)

---

30. The diagram below shows the prime factors of y and x.

(a) Find the value of: (2 marks each)

(i) X

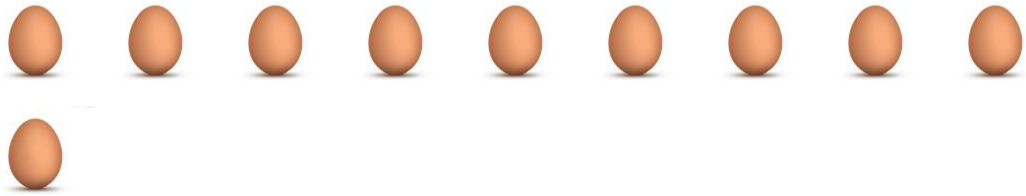

(ii) Y

(b) Find the LCM of x and Y (2 marks)

---

31. Using a ruler, a sharp pencil and a pair of compasses only, construct an equilateral triangle of sides 6cm (4 marks)

32. The pictograph below represents the number of eggs collected by a poultry farmer in one week.

Sunday	
Monday	
Tuesday	
Wednesday	
Thursday	
Friday	
Saturday	

 epresents 10 eggs

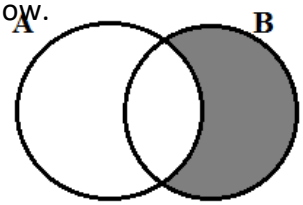

(a) How many eggs were collected from Sunday to Wednesday? (2 marks)

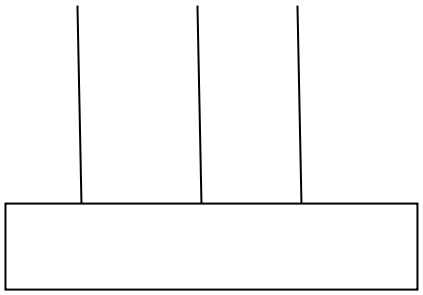

(b) How many more eggs were collected on Saturday than on Thursday? (2 marks)

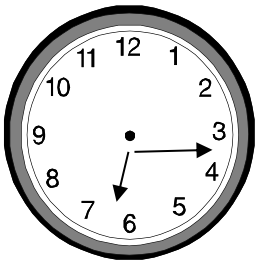

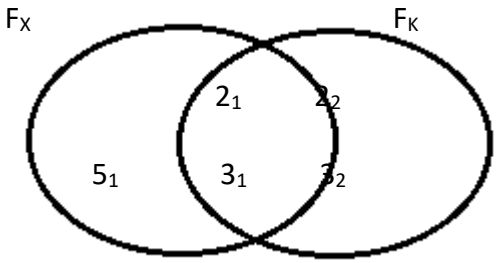

(c) How many eggs were collected on the third day? (1 mark)

PAPER THREE
SECTION A: 40 MARKS

Questions 1 to 20 carry two marks each.

1.	Work out: 3 0 4 + 2 3 _____ _____	2.	Write “forty thousand four” in figures
3.	What is the next number in the sequence below? 2, 3, 5, 7, 11,_____	4.	Describe the unshaded part in the Venn diagram below. 
5.	Work out: $\frac{2}{3} - \frac{1}{2}$	6.	Calculate the LCM of 6 and 9
7	Express XLVI in Hindu Arabic numerals	8.	In the space below, draw an angle of 60^0 by the help of a protractor.

9.	Round off 38.65 to the nearest whole number	10.	Write $\{2_1,\ 3_1,\ 3_2,\ 5_1\}$ as a single number.
11.	Show 213_{five} on the abacus below 	12.	The cost of 4 apples is sh32,00. What is the cost of 5 similar apples?
13.	Find the mean of 3, 7, 0, 2, and 3	14.	Change 2 ¼ to an improper fraction
15.	Solve for x: $x - 12 = 6$	16.	Draw a triangular pyramid in the space provided below.

17.	What time is shown on the clock face below  	18.	Simplify 3k – p + 2p + 5k
19.	Peter is facing North East and turns in a clock wise direction to south direction. Through what angle does he turn?	20.	In village, there are 423459 women, 342537men and 123457children. What is the total number of people in that village?
	SECTION B (60MARKS)		
21.	Two numbers have been prime factorized, study the Venn diagram and answer the questions that follow.  	22.	Apio scored the following marks in End of term I exams MTC: 90; ENG: 45; SCIE: 75; SST: 66; RE: 64 a) Calculate her range (1mk)

	a) Find the value of X. (2mks) b) Find the value of K. (2mks) c) What is the GCF of X and K? (1mk)		b) What was Apio's mid- mark? (1mk) c) Work out her average mark (2mks)

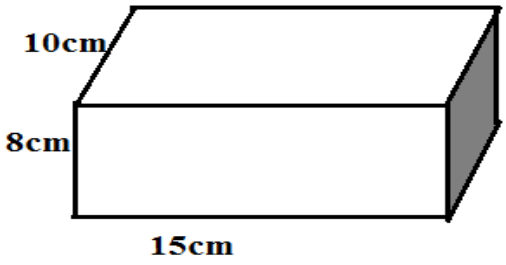

23. Use a ruler, a pencil and a pair of compasses only to construct a regular hexagon in a circle of radius 3.5cm (4mks)

24 a) Work out (2mks each)

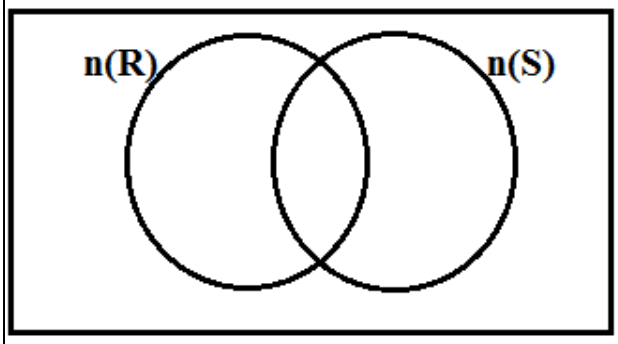

i)
$$\begin{array}{r} 435 \\ \times\ 24 \\ \hline \\ \hline \end{array}$$

ii) $212 \div 2$

25 Study the diagram below and answer the questions that follow.

a) Name the figure (1mk)

	b) Write 4135 in expanded form using values. (2mks)		b) work out the area of the shaded part. (2mks)
c)	How many edges has the figure above? (1mk)	27.	What is the greatest common factor of 18 and 24? (2mks)
26	Given that: Set R={ 1, 2, 3, 4, 4, 6, 7} and S= { 2, 3, 5, 7, 11} a) Complete the Venn diagram below (3mks  		b) Find the square root of 16. (2mks) c) List down the first three multiples of 3. (1mk)

	b) Find n(RnS) (2mks)		
28	On a journey to Jinja, a taxi carried 14 passengers and a coaster carried 26 passengers. a) How many people were carried by the two vehicles altogether? (2mks)	b)	If each passenger in both a taxi and a coaster paid sh 6000 as fare. How much money was collected altogether? (2mks)

29. On a farm, there are 120 animals. $\frac{2}{5}$ of the animals are goats and the rest are cattle.

a) What fraction of the animal are cattle? (2mks)

b) How many goats are on the farm. (2mks)

c) How many more cattle are there than goats? (2mks)

30 Work out the following (2mks @)

a) $3\ 1\ 2_{five}$

$+\ 1\ 2\ 3_{five}$

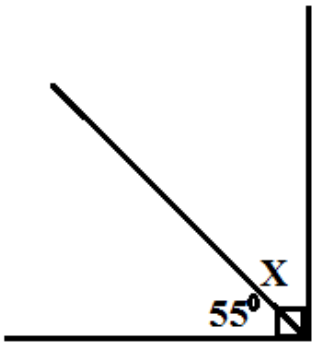

b) $4\ 1\ 3_{five}$

$-1\ 0\ 4_{five}$

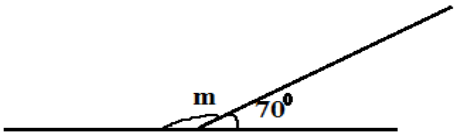

b) Express 203_{five} in base ten (2mks)

31. Solve for the unknowns (2mks @)

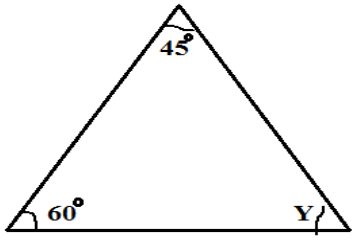

a)

b)

c)

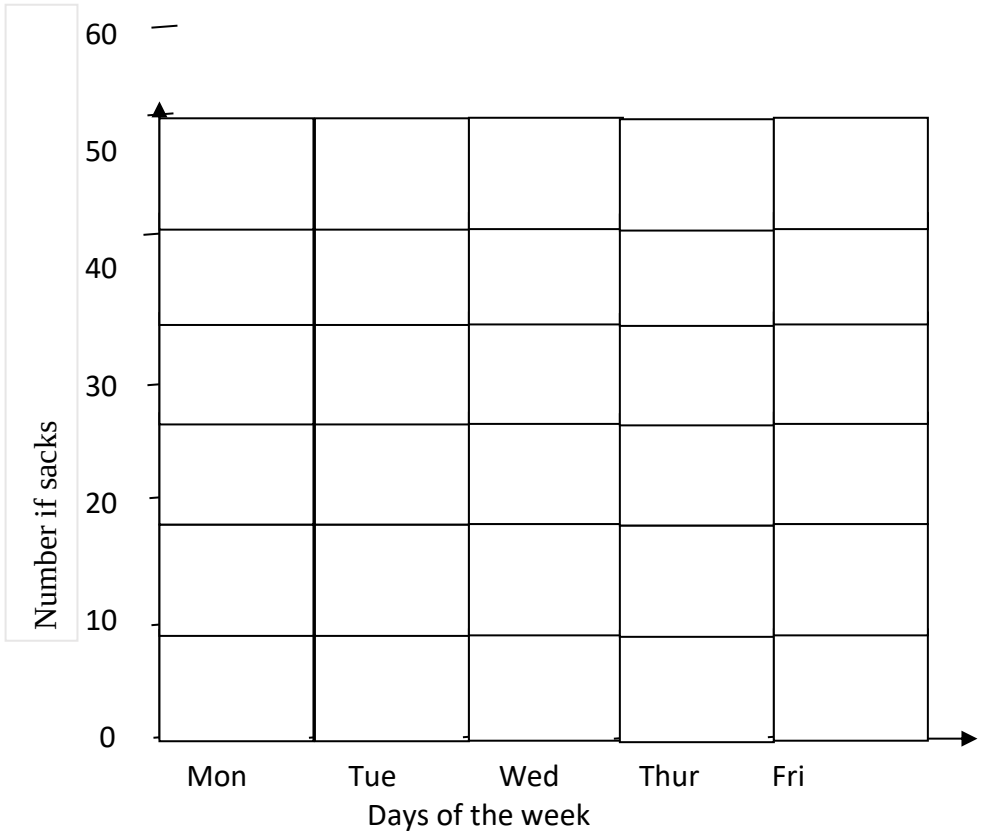

32. The table below shows the number of sacks of maize flour produced by a grain milling company in week.

Study and use it to answer the questions that follow.

Days of the week	Mon	Tue	Wed	Thur	Fri
Number of sacks	40	50	35	40	60

a) Represent the above information on the bar graph below (5mks)

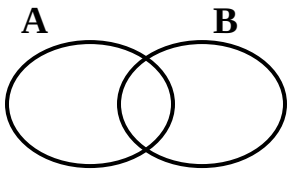

PAPER FOUR

SECTION A

1. Add 27 + 13

2. Write in short: x + 2x + 3x

3. Shade A−B

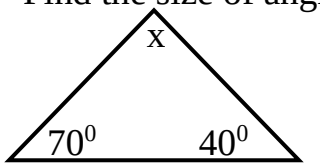

4. Express 4m as cm

5. What number has been prime factorized to give $\{2_1, 2_2, 3_1, 5_1\}$

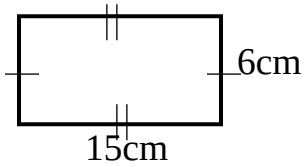

6. How many items are in 3 dozens?

7. Find the size of angle x

8. Write 54 in Roman numerals

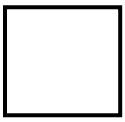

9. Find the perimeter of the figure below.

10. Write the next number in the sequence 1, 3, 6, 10, 15, _____

11. Find the LCM of 8 and 12

12. How many lines of folding symmetry has the figure below?

13. List all factors of 12

14. A coin is rolled once. What is the probability of a head showing up?

15. The radius of a circle is 14cm. Find its diameter

16. Draw an angle of 60^0 using a protractor

17. Musa is 6 years older than John. Find their total age

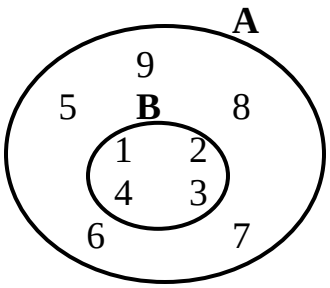

18. 4 pens cost sh. 2800. What is the cost of 2 pens?

19. Add:
$$\begin{array}{r} 3\,4\,2\,1\,1\,6 \\ +\quad 3\,2\,7\,5 \\ \hline \\ \hline \end{array}$$

20. Find the square of 10

SECTION B

21. Study the Venn diagram below and use it to answer the questions that follow.

(a) Find the number of elements in $A \cap B$ (2marks)

(b) List all elements of set A (2 marks)

(c) Find the $n(A-B)$ (1 mark)

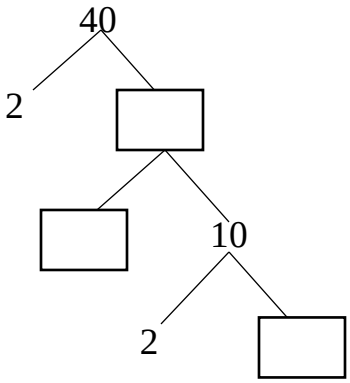

---

22. (a) Round off 2967 to the nearest hundreds (2 marks)

(b) Find the sum of the value of 9 and the place value of 6 (2 marks)

(c) Expand the above number using values (2 marks)

23. (a) Complete the factor tree (3 marks)

(b) Find the GCF of 15 and 25 (2 marks)

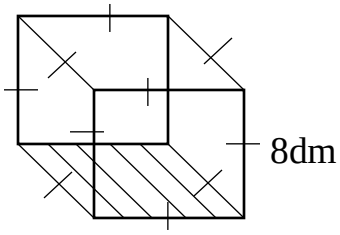

---

24. (a) A mother gave out ¾ of her cooking oil to a friend. If she had 80 litres, how many litres did she give out. (2 marks)

(b) How many litres did she remain with? (2 marks)

(c) Convert $\frac{29}{7}$ to a mixed number (2 marks)

25. The figure below is a cube. Use it to answer the questions that follow.

(a) Calculate the area of the shaded part. (2marks)

(b) Work out its volume. (2 marks)

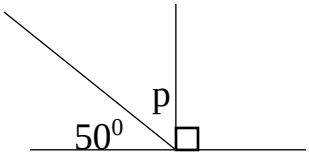

26. Multiply

(a) $2_{five} \times 3_{five}$ (2 marks)

(b) Add: $14_{five} + 43_{five}$ (2 marks)

27. (a) 2y and 30^0 are complementary angles. Find the value of y (2 marks)

(b) Calculate the size of angle P in degrees (3marks)

28. Solve: (a) $2y + 4 = 12$ (3 marks)

(b) $\frac{p}{5} = 10$ (2 marks)

---

29 Work out: (2 marks each)

(a)

	weeks	days
	4	2
−	2	5

(b)

	Hrs	Min
	5	40
+	2	25

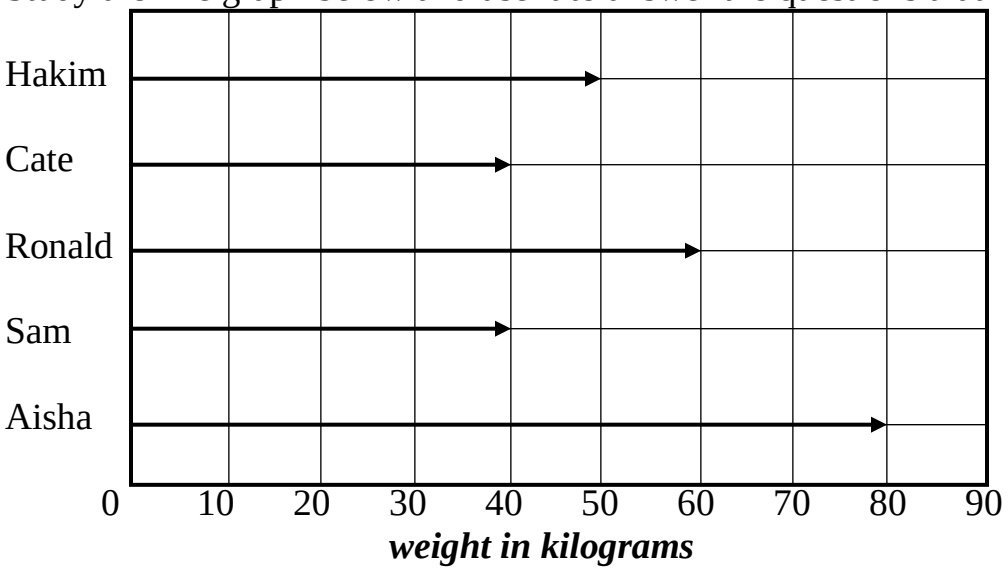

(b) Convert 2hrs to minutes.

30. Using a pair of compasses and a ruler only, construct a regular hexagon in a circle of radius 4cm. (4 marks)

31. (a) A lorry can carry 4800 crates of soda. Each crate contains 24 bottles of soda. How many bottles does it carry? (3 marks)

(b) Divide 84 ÷ 12 (2 marks)

32. Study the line graph below and use it to answer the questions that follow.

(a) Name the pupils with the same weight. (1 mark)

(b) How much heavier is Aisha than Sam (2 marks)

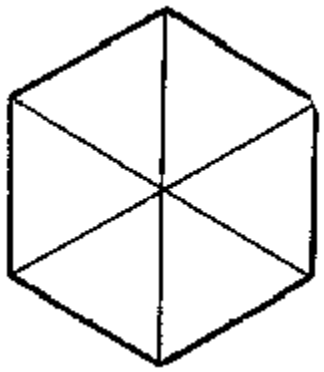

(c) What is the total weight of 5 pupils? (2 marks)

PAPER FIVE

Section A:

1. Subtract: 79 from 103.

2. Shade $\frac{2}{3}$ of the figure below.

3. Write XLIX in Hindu Arabic numerals.

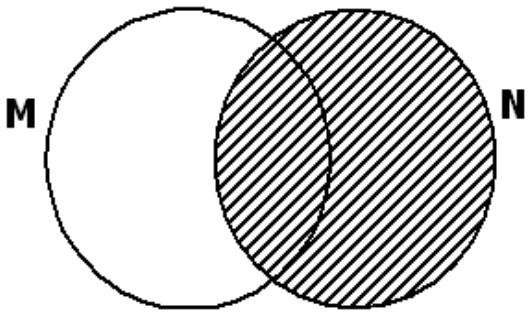

4. List down the first 3 multiples of 4.

5. Given that  represents 10 trees, how many trees are represented by:

 ?

6. Kato planted 11 trees in a straight line 2 metres from one tree to another. What was the distance between the first and last tree.

7. Describe the shaded part in the Venn diagram below.

8. What name is given to the figure below?

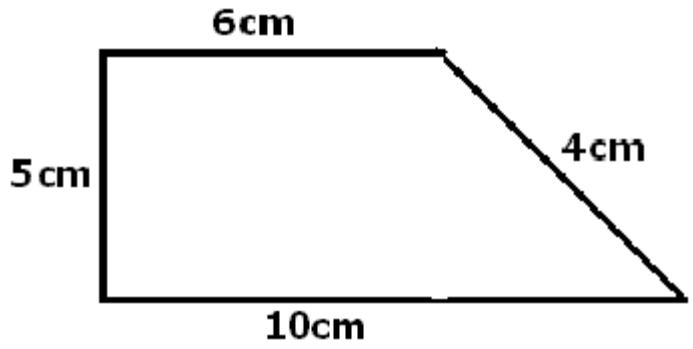

9. Round off 7489 to the nearest hundred.

10. Simplify: 7y + 3x + 2y + 5x.

11. A workman started working at 8 o'clock and spent 2 hours and 30 minutes doing the work. At what time did he complete the work?

12. Find the perimeter of the figure below.

13. There are 158 pupils in P. 4. If there are 74 girls in the class, how many boys are in the class?

14. Subtract: $\frac{5}{7} - \frac{3}{7}$

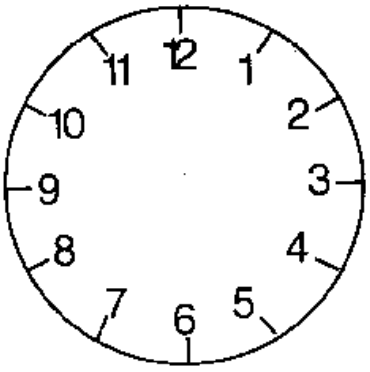

15. Find the next number in the sequence: 7, 12, 17, 22, _____.

16. Write down the factors of 18.

17. A book costs Shs. 3,500. Find the cost of 3 similar books.

18. Find the missing number: 36 ÷ ☐ = 9.

19. Show a half past 11 o'clock on the clock face below.

20. Add:

	Kg	g
	2	650
+	5	300

Section B

21(a) List the first four even numbers. **(2 marks)**

(b) List odd numbers between 3 and 11. **(2 marks)**

(c) Find the sum of the numbers listed in (b) above. **(2 marks)**

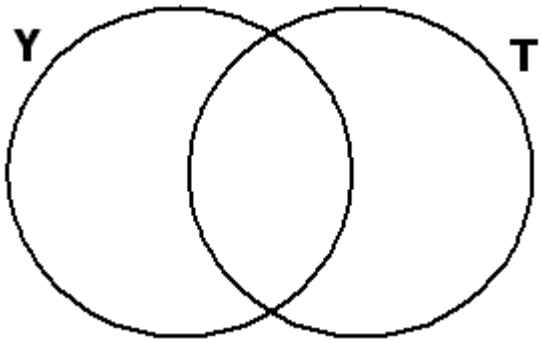

22. Given that set Y = {all vowel letters} and

Set T= {the first five letters of the alphabet}

(a) List all members of set Y. (1 mark)

(b) Write all members set T. (1 mark)

(c) Use the information above to complete the Venn diagram below. (3 marks)

(2 marks)

(b) What is ¼ of 16 oranges? (2 marks)

(c) Francis had $^{7}/_{9}$ of sugarcane. He gave Tom $^{5}/_{9}$, what fraction did he remain with?

(2 marks)

24. Use <, > or = to complete the mathematical statements. (1 mark each)

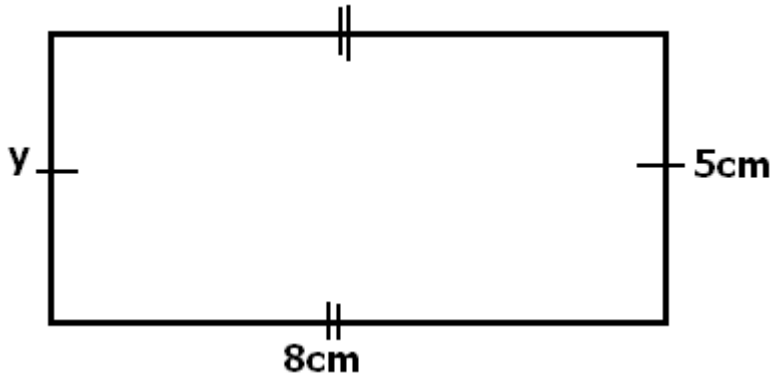

(a) A third _____ $^{1}/_{3}$

(b) XXXI _____ XLIV

(c) 5x3 _____ 24 ÷ 2

(d) 2 metres _____ 100cm

25. The figure below is of a rectangle.

(a) What is the value of y? (1 mark)

(b) Work out the area of the figure. (2 marks)

(c) What is the perimeter of the figure? (2 marks)

26. Find the missing number in the boxes.

(a) $\square$ **+ 7 = 19** (2 marks)

(b) 15 – ☐ = 7 (2 marks)

27. Janet is 18 years old. Peter is 5 years younger than Janet.

(a) How old is Peter? **(2 marks)**

(b) Find their total age. **(2 marks)**

(c) How old will Janet be after 3 years from now? **(2 marks)**

28. Below is a price list of some items in Mr. Kisaka's shop.

1 Kg of sugar costs shs.2500

1 bar od soap costs shs. 4000

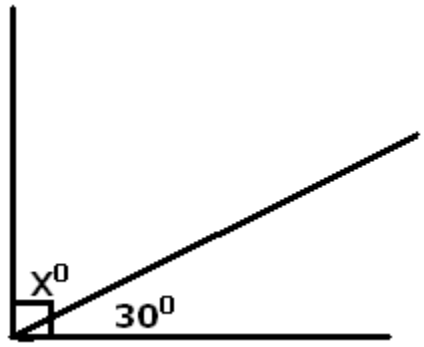

1 packet of salt costs shs. 600

(a) Madina bought 2 Kg. of sugar. How much did she pay? **(2 marks)**

(b) Adrian bought 1 bar of soap and 2 packets of salt. How much did he pay? **(2 marks)**

(c) How much money did Madina and Adrian spend altogether? **(2 marks)**

29(a) Find the size of angle x in the figure below. **(2 marks)**

(b) Draw a cuboid in the space provided below. (2 marks)

30(a) Find the difference of the value of 3 and 5 in 2,305. **(2 marks)**

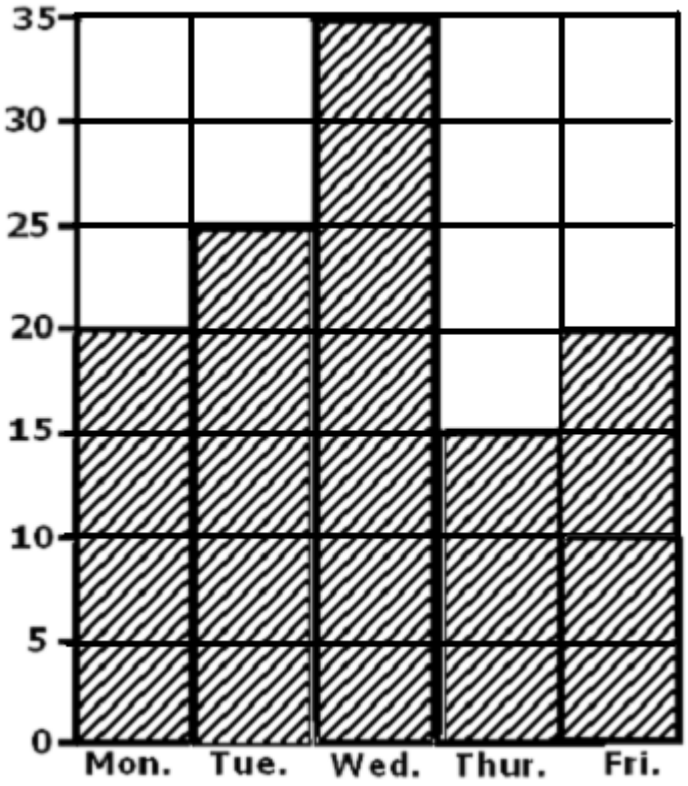

(b) Expand 25,836 using values. **(2 marks)**

31(a) Subtract: **(2 marks)**

$$\begin{array}{r} 5\ 6\ 4\ 1 \\ -\quad 3\ 5\ 9 \\ \hline \\ \hline \end{array}$$

(b) Change 123_{five} to base ten. **(2 marks)**

32. The graph shows the number of books used in a P. 5 stream School in a certain week. Use the graph below and answer the questions that follow:

(a) Which day has the largest number of books used? **(1 mark)**

(b) On which days was the same number of books used?

(c) What is the lowest number of books used?

(d) Find the total number of books used in a week?

PAPER SIX

SECTION A:

1. Subtract: 64 – 31.

2. Write 50,471 in words.

3. Simplify: $^{7}/_{9} - {}^{1}/_{3}$

4. Write 59 in Roman numerals.

5. Construct a circle of radius 4cm in the space provided below.

6. After buying a goat for sh.24000, Kapere sold it to his neighbour and made a loss of sh.5700. For how much money did Kapere sell the goat?

7. There are sixteen pupils in a class.If each pupil is given half a litre of juice? How many litres do they drink altogether?

8. A rope of 3 metres was cut into pieces measuring 60cm each. How many pieces were got from the rope?

9. Simplify: $^{+}3 + {}^{-}7$

10. Change $^{1}/_{5}$ into a decimal fraction.

11. A teacher uses  to represent 4 girls that fail a Math test. How many girls are represented below? 

12. Find the missing number in the sequence: 1, 4, 9, 16, _____.

13. Given the set M = {o, r, a, n, g, e, s} and set N = {m, a, n, g. o, e, s}, find n(M ∩ N).

14. Prime factorise 48.

15. Divide 8181 by 9.

16. A forty minute lesson started at 8:20 a.m. At what time did it end?

17. Find the compliment of 50^0.

18. Convert 142_{five} to base ten.

19. Find the LCM of 6 and 8.

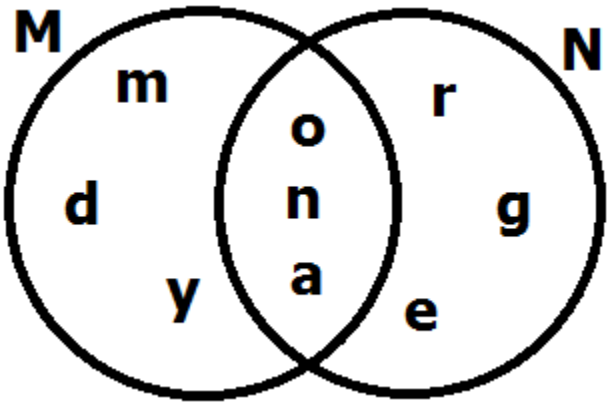

20. Find the place value of 2 in the number 8.026

Section B (60 marks)

21(a) A car took 2 hours to travel from Jinja to Iganga at a speed of 60km/hr. Find the distance between Jinja and Iganga. **(2 marks)**

(b) A bus driver covered 316 Km in 4 hours. Find the speed at which the bus was traveling. **(2 marks)**

22. **Study the Venn diagram given below and answer the questions that follow.**

(a) List down:

(i) Members of set M. **(1 mark)**

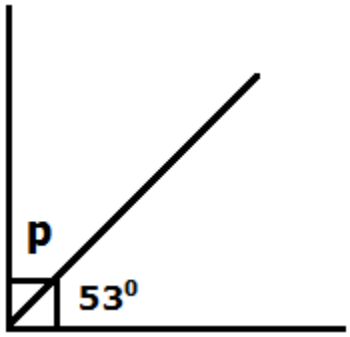

(ii) Members of set N. **(1 mark)**

(b) Find:

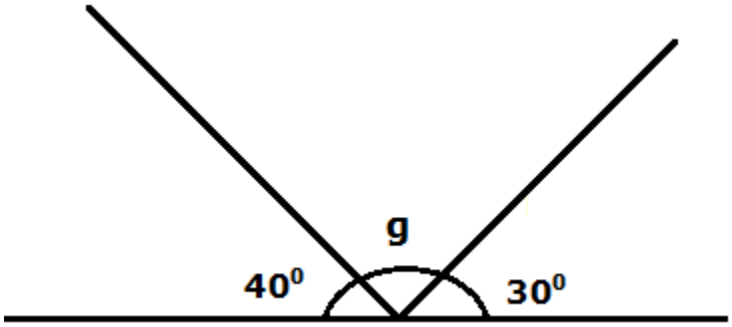

(i) M – N **(1 mark)**

(ii) n(M ∩ N) **(2 marks)**

23(a) Find angle **p** in the figure below. **(2 marks)**

(b) Work out the value of angle g in the figure below. **(3 marks)**

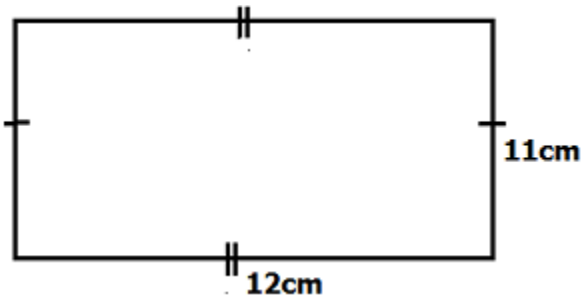

24(a) What is the product of the value of 7 and the value of 8 in 15708? **(3 marks)**

(b) Round off 4980 to the nearest hundred. **(2 marks)**

25(a) What is the sum of the first 4 composite numbers? **(2 marks)**

(b) Find the GCF of 8 and 12. **(2 marks)**

26. **The figure below is a map of a garden.**

(a) Calculate the area of the garden. **(2 marks)**

(b) A farmer walked around the garden twice. What distance did he cover? (3 marks)

27. Paul bought the items shown in the table below from Pakasa Supermarket.
2 Kg. of sugar at sh.3200 per Kg.

1 Kg of salt at sh.1800 per Kg.

3 loves of bread at sh.3000 per loaf.

(a) How much money did he spend altogether? **(4 marks)**

(b) If he had sh.20,000/-, how much change did he remain with? **(2marks)**

28. Arrange the following fractions in ascending order: $^{5}/_{6}$, $^{7}/_{12}$ and $^{5}/_{8}$ **(5 marks)**

29(a) Find the number in the box: **(2 marks each)**

(i) $17 - \square = 9$

(ii) $\square \times 6 = 42$

(b) Collect the like terms: $2k + 6m - k + m$ **(2 marks)**

30. **Use <, > or = to complete the statements below.** **(1 mark each)**

(a) 30×0 _____ $0 + 30$

(b) 5 Kg. of stone _____ 6 Kg of feathers

(c) 4 weeks _____ 28 days

(d) 2400m _____ 2 Km.

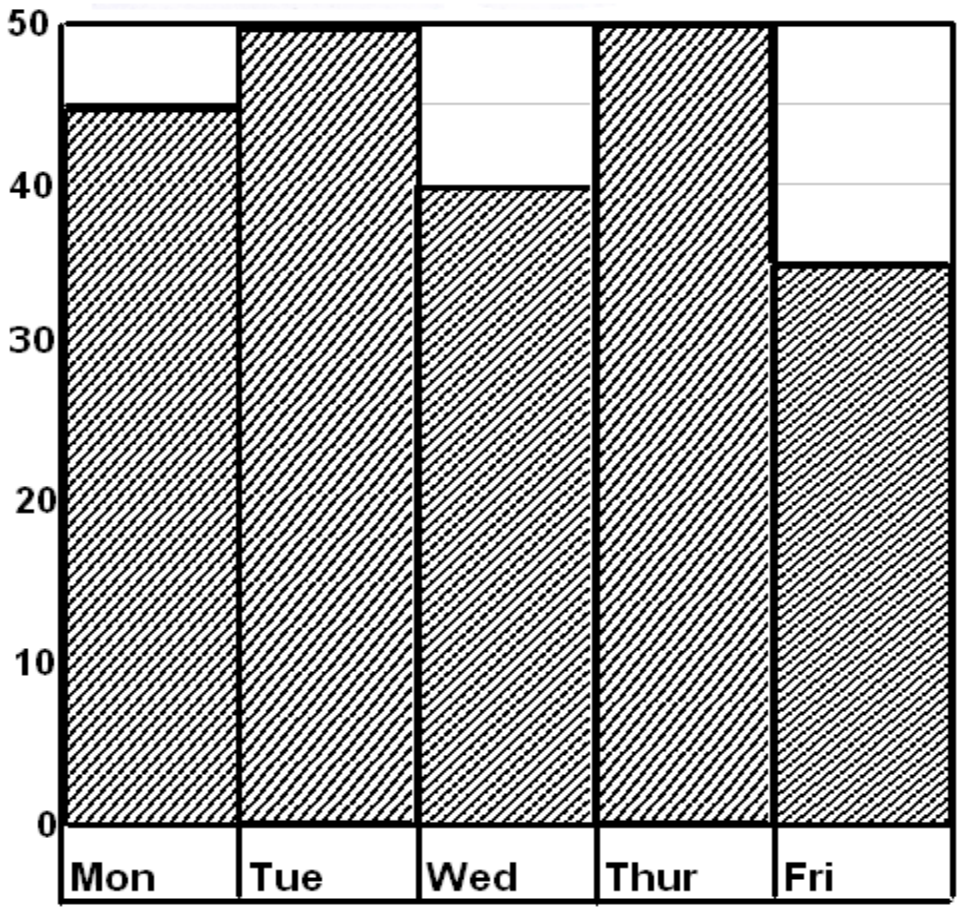

31. A school hired 12 buses and 13 taxis to take students to a tour. A bus carried 65 students while a taxi carried 14 students.

(a) How many students travelled by bus? **(2 marks)**

(b) Find the number of students who travelled by taxi. **(2 marks)**

(c) How many students are in the school? **(2 marks)**

32. **The graph below shows a certain week's attendance of Primary Five W class of 50 pupils. Use it to answer the questions that follow.**

(a) Find the total attendance on Monday and Thursday? **(2 marks)**

(b) How many pupils missed school on Friday? **(1 mark)**

(c) Work out the mean attendance of pupils that week. **(2 marks)**

PAPER SEVEN

SECTION A

1. Add: 4 7 6 + 43 =

2. Write 49 in Roman numerals.

3. Solve : x + 3 = 12

6. Work out: $\frac{3}{4} - \frac{1}{2}$

7. Divide 40 cakes equally among 8 girls. How many cakes will each get?
8. Find the missing numbers in the sequence:

2, 3, 5, 7, ____, _____

9. If set P = { a, b, c, d} and set Q = { d, e, a, i} find P∩Q

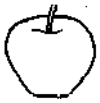

10. Identify the value of 9 in the figure 6932.

11. How many lines of folding symmetry has the figure?

12. Multiply: 25 x 24

13. Write the morning time shown on the clock face below.

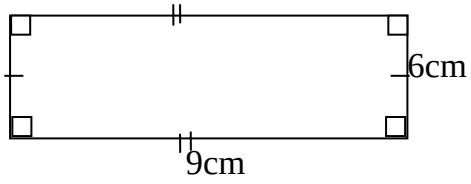

14. If  represents 9 apples, how many apples are represented by ?

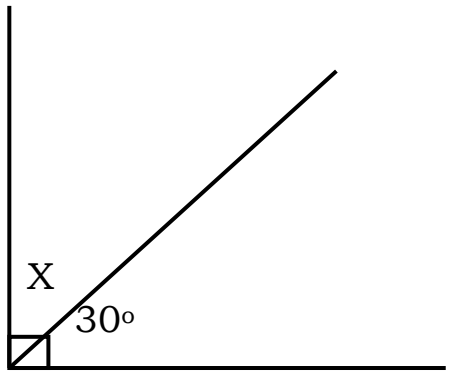

15. Express $\frac{10}{3}$ as a mixed fraction.

16. Given that A = {Multiples of 4 less than 20} List down all members of set A.

17. Find the area of the figure below.

18. Find the value of x in the diagram below.

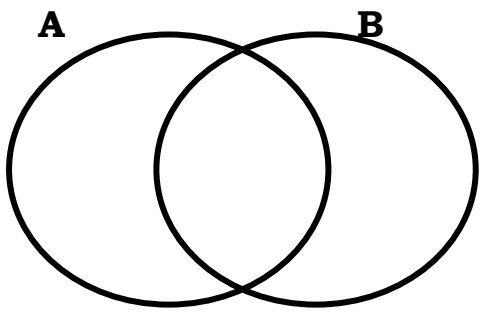

19. What is ¼ of 20 balls?

20. Write the place value of 5 in 3548

SECTION B

21. Given that A= {1, 3, 5, 7, 9}
    B = { 2, 3, 5,7,11,13,17}

    (a) Represent the above information on the Venn diagram below.

(b) Identify members of A∩B

(c) Find n(AUB)

22. Given the following digits;
5, 0, 8 and 2.

(a) Find the largest number that can be formed using all the digits above.

(b) Form the smallest possible figure using all the above digits.

(c) What is the sum of the largest and smallest possible figures that are formed using all the above digits?

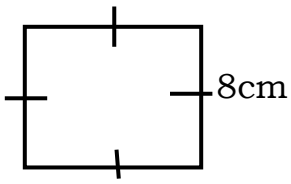

23. Akankwasa went to Shoprite supermarket and bought the following items;

2 dozens of books at sh.5000 per dozen
4 kg of sugar at sh. 200 each kg.
1 bar of soap at sh. 3000/=
5 pencils at sh. 200/= per pencil.

(a) Calculate Akankwasa's total expenditure.

(b) If she went with sh.25,000/= , find the change she remained with.

24. Study the quadrilateral below and answer the questions that follow.

(a) Name the quadrilateral shown above.

(b) Find the perimeter of the figure.

(c) Find the area of the figure.

25. (a) List down all even numbers Between 4 and 12.

(b) Find the sum of the first five odd numbers.

(c) Work out the LCM of 4 and 6

26. Bravo had a cake and cut it into 10 equal parts. He gave 3 parts of Michael, 5 parts to Juliet and he ate the rest.

(a) What fraction of the cake that Brave ate?

(b) Find the fraction of the cake that Bravo ate.

(c) Find the total fraction of the cake that Michael and Juliet received altogether.

27. In Cleveland Hill Primary School, there are 643 girls and 357 boys.

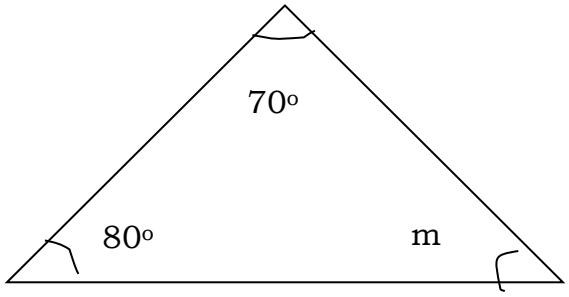

(a) How many pupils are in Cleveland Hill Primary School?

(b) How many more girls than boys are in Cleveland Hill Primary School?

(c) If last Monday 48 girls and 152 boys , were absent, how many pupils were present in the whole school that day?

28. (a) What is the supplement of 130°?

(b) Find the unknown angle in the figure below.

29. A mathematics lesson began at 8:00am and ended at 10:30am. For how long was the lesson?

(c) Express 150 minutes as hours.

30. Use >, < or = to complete the statements below correctly.

(a) 4 + 12 _____ 6 x 4

(b) 120 - 40 _____ 70 + 10

(c) 48 hours _____4 days

31. Solve for the unknown:

(a) $a + 4 = 10$

(b) $m - 4 = 2$

(c) If $X = 8$ and $Y = 5$ evaluate $Y + X$

32. **Study the pupil's attendance records at Cleveland Hill Primary School**
and answer questions that follow;

Class	**Number of pupils present**	**Number of pupils absent**
P.1	68	02
P.2	104	06
P.3	85	07
P.4	77	23
P.5	88	32
P.6	90	15
P.7	70	20

(a) Which class had a highest number of pupils present that day?

(b) Which class has the highest number of pupils?

(c) Find the total number of absentees that day.

(d) How many more pupils attend class in P.2 than in P.4 on that day?

PAPER EIGHT

SECTION A

1. Add; 42 + 12

2. Set A = {a, b, c, d, e}
   B = {1,2,3,4,5} what is the relationship between set A and B.

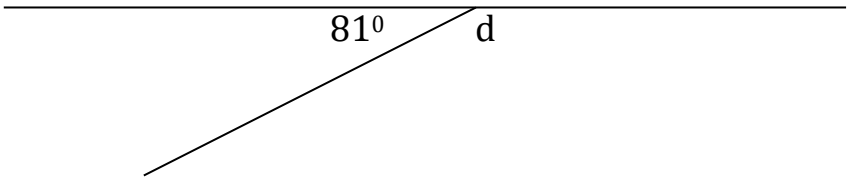

3. What is ½ of 12 apples?

4. It is a quarter to 5 O'clock in the morning, express this time in digital form.

5. Solve ; n + 4 = 11

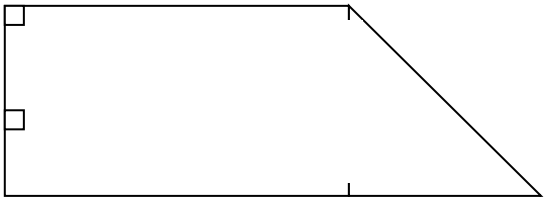

6. The cost of a duck is sh. 5500, find the cost of 5 similar ducks.

7. In the figure below, find the value of d.

8. Expand 5649 using values.

9. Name the geometric figure below

10. Find the square root of 64.

11. Armida tossed a dice, what is the probability that a prime number showed up?

12.Express 99 as Roman numerals

13. Collect the like terms and simplify; 4y – 2x +y + 4x

14. Convert 2 ½ hours to minutes.

15. Zalwango had 5768 mangoes, if he gave 148 to Dorcus, how many mangoes did she remain with?

16. Reduce $\frac{15}{21}$ to its lowest terms

17. Zulaika ran 5km. Express the distance she ran in metres.

18. Find the sum of the first five even numbers.

19. Lwanga scored the following marks in a series of tests; 60,40,45,60 and
20. Calculate his average score.

20. Prime factorise 50 and give your answer in multiplication form.

SECTION B

21. Mr. Kabaata had sh.20,000 and bought the items as shown below;

- 3books at sh.1500 each
- 4pencils at sh.750 each
- 1 ½ kg of posho at sh.3200 per kg

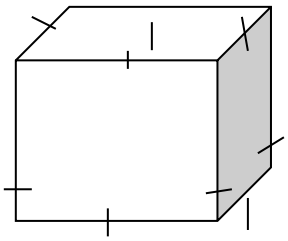

a) Work out his total expenditure.
(4marks)

b) Calculate his change.
(1mark)

22 a) Add; $\frac{1}{2} + \frac{1}{3}$
(2marks)

b) Arrange $\frac{2}{3}, \frac{1}{4}$ *and* $\frac{1}{2}$ *in increasing order.*
(4marks)

23. Below is a solid figure, use it to answer questions

5cm

a) Find the number of faces.
(1mark)

b) Work out the volume of the above figure.
(2marks)

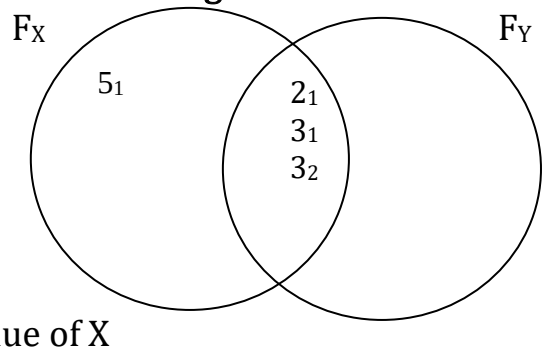

c) Work out the area of the shaded face.
(2marks)

24. Given that x = 2, d = 4 and y = 3. Find the value of;
a) x + y + d
(1mark)

b) 2x + y (2marks)

c) 3d + 2d - x (2marks)

25. **Study the Venn diagram below and answer questions that follow.**

a) Find the value of X (2marks)

b) Work out the HCF of X and Y. (1mark)

c) Calculate the L.C.M of X and Y
(2marks)

26. a) Find the value of the underlined digit in 0.5<u>6</u>2
(2marks)

b) Work out; 5.4 - 6.52 + 8.3
(2marks)

27. Use $>, <$ or $=$ to fill in the following. (1marks each)

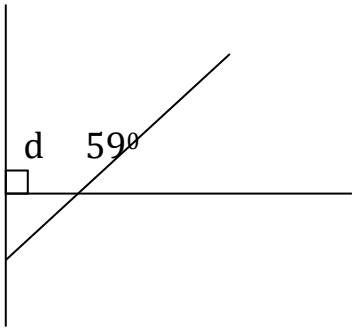

a) 0.5 _____ ½

b) 2m _____300cm

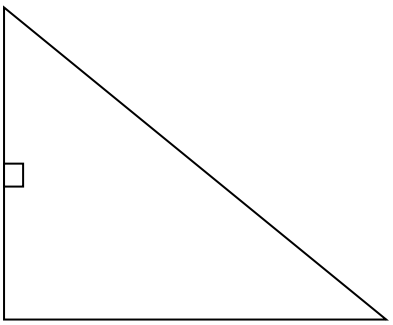

c) 2 weeks _____17 days

28. Find the value of the unknown angles. (2marks each)

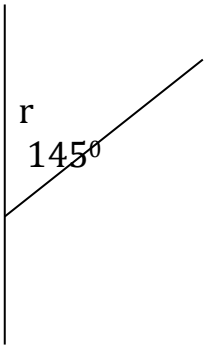

a)

b)

c)

29 a) Work out; Hours Minutes
(2marks)

	10	45
-	3	50

b) Amoo started sleeping at 8:20 pm. If she woke up at 11:45pm, how long did she take sleeping? (2marks)

30. In a class of 84 pupils, $\frac{5}{12}$ are girls and the rest are boys.

a) Find the fraction for boys.
(2marks)

b) How many girls are in the class?
(2marks)

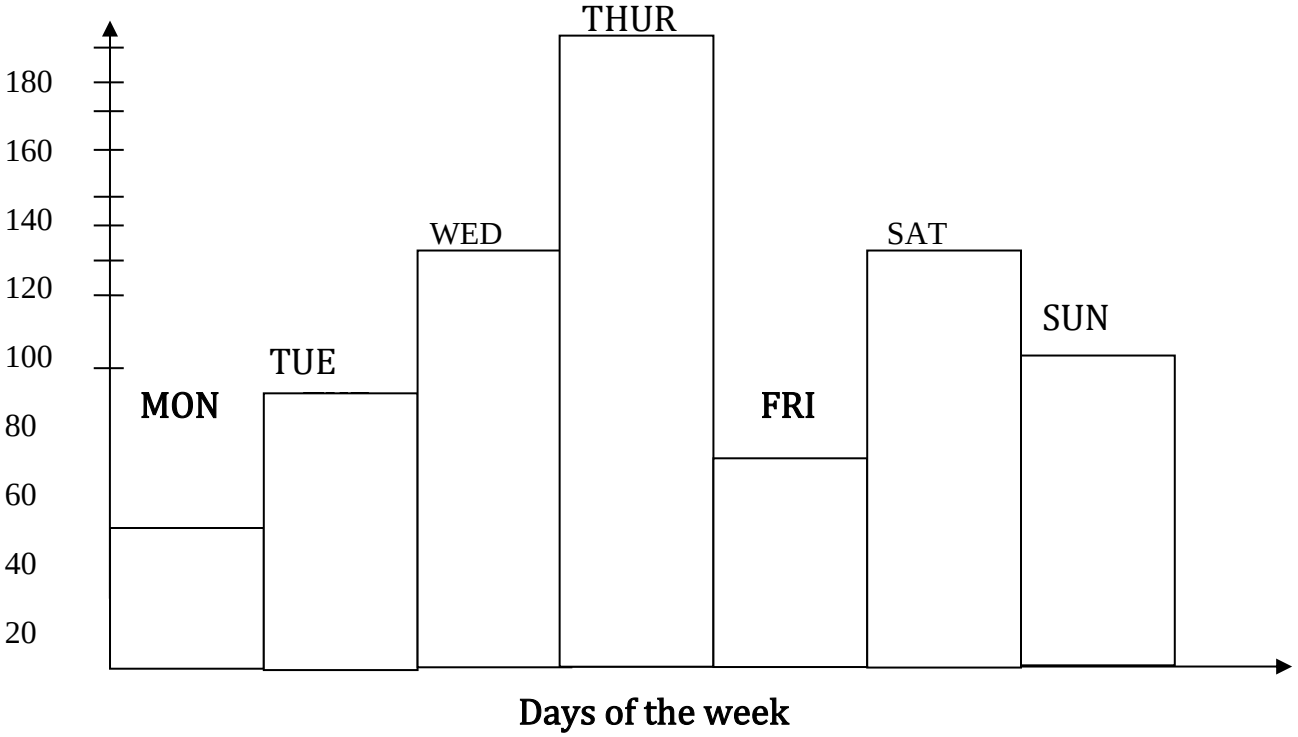

c) How many more boys than girls are in the class?
(2marks)

31. a) Find the value of 2 in 321_{five}
(1mark)

b) Convert the above number to decimal base.
(2marks)

c) Express 42_{ten} in base five. (2marks)

32. <u>The bar below shows how mr. Lumonde collected his eggs in a certain week, use it to answer questions that follow.</u>

a) Which two days had the same collections?
(1mark)

b) Calculate the average number of eggs that were collected on the first four days of the week.
(2marks)

c) How many more eggs were collected on Thursday than Wednesday?
(2marks)

PAPER NINE

SECTION A:

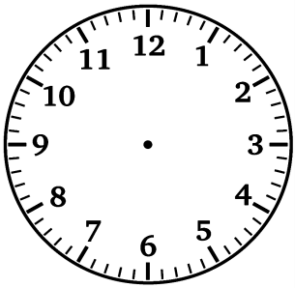

1. Work out:

$$\begin{array}{r} 3\ 2\ 6 \\ +\ 5\ 1\ 0 \\ \hline \\ \hline \end{array}$$

2. Given that **Z** = {0, 2, 4, 6, 8}, find n(**Z**).

3. Find the value of 6 in 9677.

4. Show "twenty-five minutes past nine" on the clock face below.

5. Work out the sum of the next two numbers in the sequence.

   5, 10, 15, 20, 25, _____, _____

6. Simplify:

$$\frac{1}{2} + \frac{1}{3}$$

7. Solve and fill in the missing number.

$$\square \div 4 = 20$$

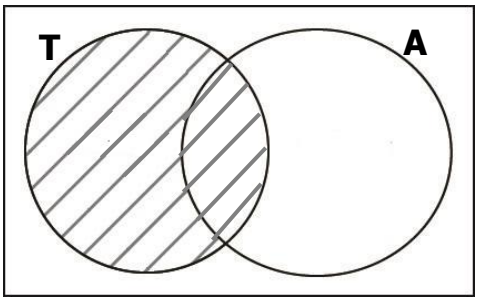

8. Using a ruler, a sharp pencil and a pair of compasses only, construct an angle of 90^0.

9. A hospital is 20km from a school. How far is it in metres?

10. Given that  represents 8 girls, how many girls are represented by  ?

11. A mathematics lesson started at 8:50a.m. and ended at 9:30a.m. For how long did it last?

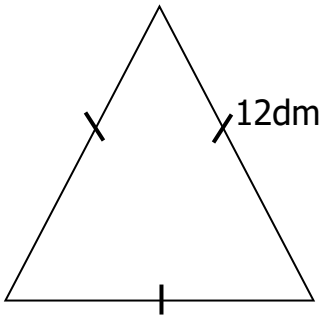

12. Describe the shaded region on the Venn diagram below.

13. Express 28 in Roman numerals.

14. Convert 24_{five} to base ten.

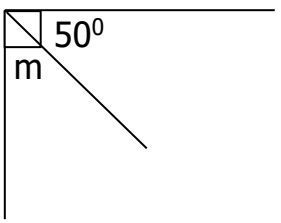

15. Calculate the distance round the shape below.

16. Expand 8496 using place values.

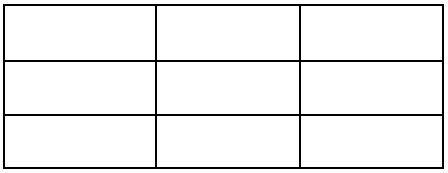

17. A kilogram of sugar costs sh.4000. If two sisters bought 5kg of sugar each, how much did they pay altogether?

18. Calculate the value of m in the diagram below.

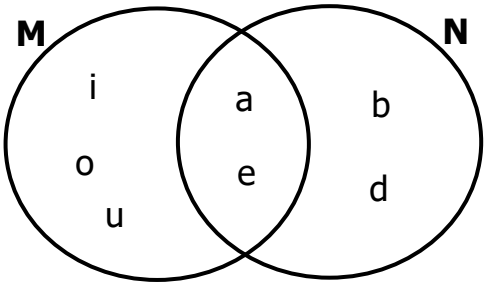

19. Mr. Mugisha has 32 goats. Draw tallies to show the number of goats he has.

20. Shade $\frac{2}{3}$ of the figure below.

SECTION B:

21. Study the Venn diagram below and answer the questions that follow.

a) List down the elements of set M. (2 marks)

b) Find:

i. $M \cap N$
(1 mark)

ii. n(MUN)
(2 marks)

22. Work out:

a)
$$\begin{array}{r} 9\ 4\ 3\ 2 \\ +\ 5\ 8\ 7 \\ \hline \\ \hline \end{array}$$
(1 mark)

b)
$$\begin{array}{r} 5\ 2\ 3 \\ \times\ 2\ 4 \\ \hline \end{array}$$
(2 marks)

c) 6 - 12 + 6 (2 marks)

23. At a graduation party attended by 80 guests, $\frac{1}{4}$ of them were males and the rest were females.

a) Find the fraction of females guests. (2 marks)

b) How many male guests attended the party? (1 mark)

c) If $\frac{2}{3}$ of the female guests took soda, how many female guests took soda? (2 marks)

24. Using a sharp pencil, a ruler and a pair of compasses only, construct an equilateral triangle **MTC** of side 6cm. (5 marks)

25. Sherinah went shopping with sh.30,000 and bought these items;

A kilogram of sugar for sh.4000
A loaf of bread for sh.4500
A packet of tea leaves for sh.1000

a) Calculate her total expenditure. (2 marks)

b) How much money did she remain with? (2 marks)

c) Write her change in words. (1 mark)

26. Given the number 7516,

a) (i) expand it using values (2 marks)

ii. round it off to the nearest hundreds (2 marks)

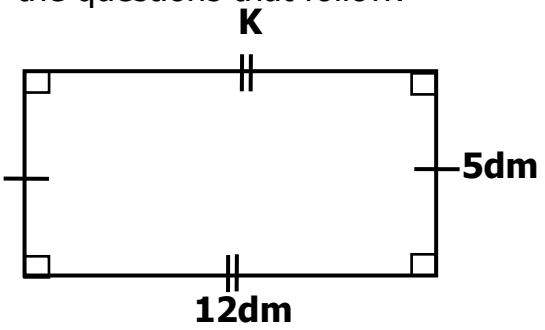

b) write the even number that comes just after 7516. (1 mark)

27. a) Find the Lowest Common Multiple of 6 and 8. (2 marks)

b) Work out the sum of the factors of 15. (2 marks)

c) Circle all multiples of 7 in the numbers given below.
16, 27, 56, 46, 53 (1 mark)

28. Study the figure below and answer the questions that follow.

a) What is the value of K? (2 marks)

b) Name the shape. (1 mark)

c) Calculate its area. (2 marks)

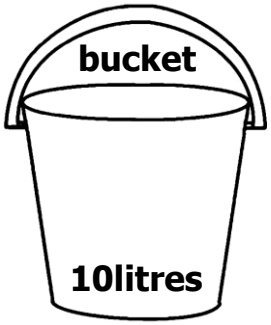

29. Paul is 12 years old. His sister Janine is 3 years older than him.

a) How old is Janine? (2 marks)

b) Find their total age. (2 marks)

c) How old was Paul 2 years ago? (1 mark)

30. The diagrams below show a bucket and a cup. Use them to answer the questions that follow.

a) Which container holds more water? (1 mark)

b) Change the capacity of the bucket to millilitres. (2 marks)

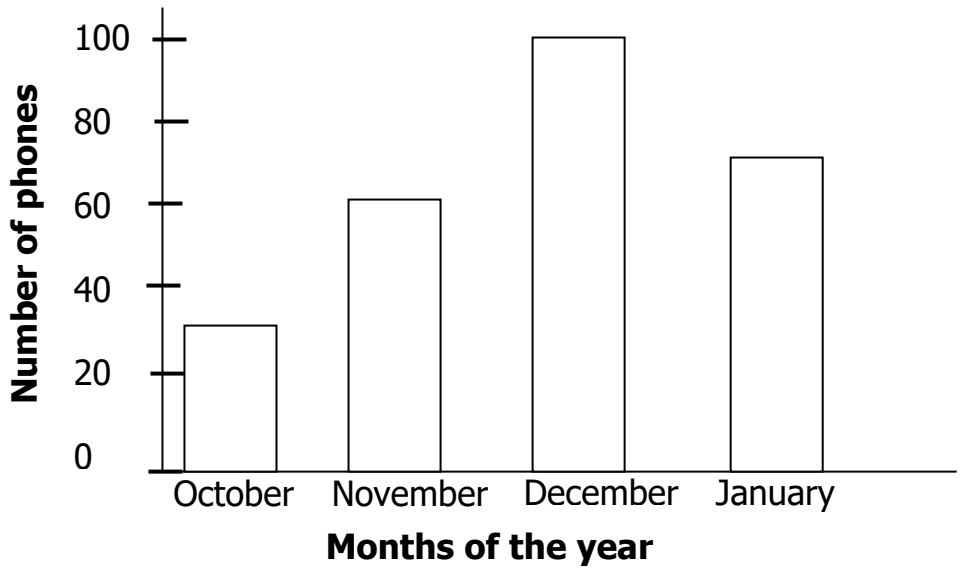

c) How many cups full of water are needed to fill the bucket? (2 marks)

31. a) Simplify; 5m + 2n + 3m + 4n (2 marks)

b) (i) Given that x = 6, y = 3 and z =7, find the value of x + y + z (2 marks)

ii. If ☐ + z = 19, find and fill in the missing number. (2 marks)

32. <u>The bar graph below shows the number of phones sold at shoprite in four months. Study it carefully and answer the questions that follow.</u>

a) In which month was the least number of phones sold? (1 mark)

b) Find the difference of the highest and lowest number of phones sold. (1 mark)

c) Work out the total number of phones sold in the four months. (2 marks)

PAPER TEN

SECTION A

1. Add: 1 5 2
   + 3 4

   _____

2. Solve: w + 4 = 8

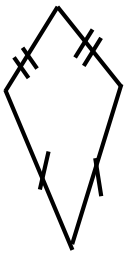

3. Find the next number in the sequence.

   1, 3, 6, 10, _____, _____

4. Write "Two thousand twenty-two" in figures.

5. Expand 5 4 3 using values.

6. How many lines of folding symmetry has the shape below?

7. Expand 8403 using place values.

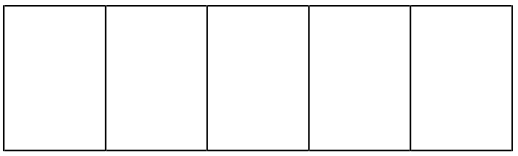

8. Write 25 in Roman numerals.

9. If  represents 25 houses, how many houses are represented by?

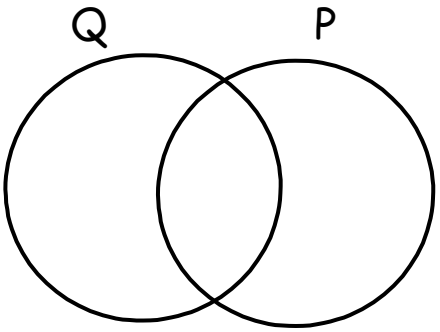

10. A plate costs Shs. 3,000, how much will Maberi pay for 3 similar plates?

11. Shade this fraction $\frac{3}{5}$

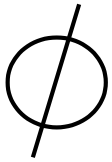

12. Work out: $\frac{2}{7} + \frac{3}{7}$

13. Shade Q n P on the Venn diagram below.

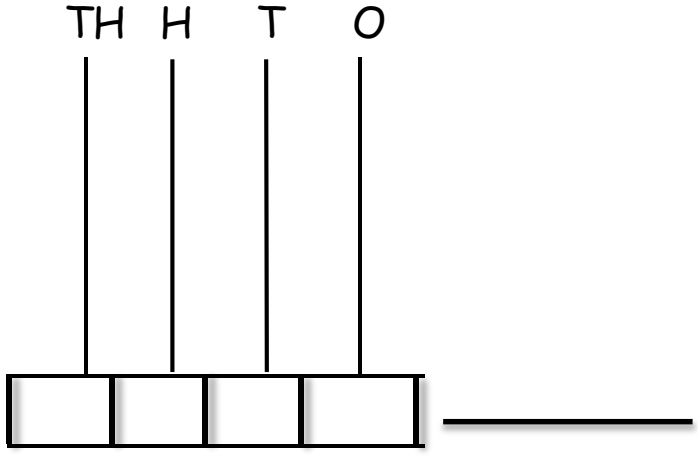

14. Name the set symbol below.

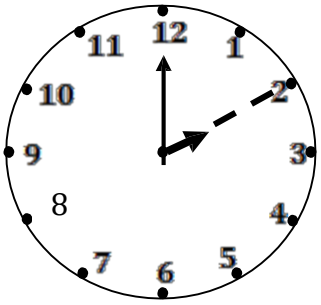

.....

15. Work out the value of 8 in the number 5834.

16. Show 5763 on the abacus below.

17. Tell the time on the clock face.

.....

18. Given that set P = $\{1, 2, 5\}$. List down all sub sets of set P?

19. Multiply: 2 6 3

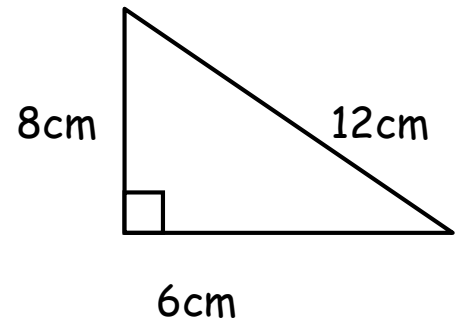

× 2

20. If set Y = $\{a, e, i, o, u\}$

Find n(Y)

SECTION B

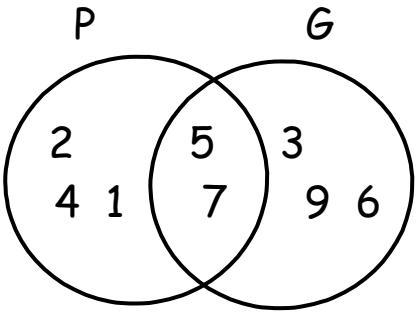

21. The figure below is a triangle.

a) Find its perimeter. (2mks)

b) Work out its area. (2mks)

22. Below is a Venn diagram showing elements of Set P and G

a) List down the elements of Set P (2mks each)

b) Find the elements of Set G

c) Write down the elements of (P u Q)

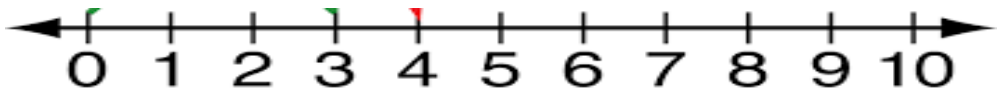

23. Given that: m = 5 and n = 2.
Find:
i) m + n + m (2mks)

ii) m - n (2mks)

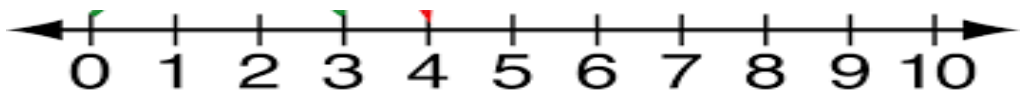

iii) n x m (2mks)

24. Work out the following numbers using the given number line.

a) 5 + 3 = (2mks)

b) 3 x 3 = (2mks)

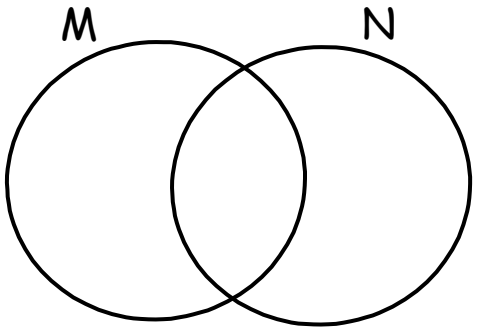

25. Draw the following geometric shapes. (5 mks)

cone	square	kite	triangle	circle

26. Given that set M = $\{b,r,e,a,d\}$ and set N = $\{g,r,a,d.e\}$

a) Using the Venn diagram, show the above sets. (3mks)

b) From the above diagram, find:

i) (M) only (1mk)

ii) (M ∩ N) (1mk)

27. Given that  = 10 cups. Study the pictograph below and answer the questions that follow.

Name	No. of cups
Ali	
Abass	
Epidu	
Roniel	
Stuart	

a) How many cups did Abass get?

(2mks)

b) Who got the least number of cups? (1mk)

c) How many cups were given to all the children? (3mks)

28. Use the magic square below to answer all the questions that follow

9	m	7
b	6	n
5	x	3

a) Find the magic sum. (2mks)

b) Find the value of;

i) m (1mk)

ii) x (1mk)

iii) n (1ms)

29. Write these numbers in words.
    a) 5,630 (2mks)

    b) 3,045 (2mks)

30. Below is a shopping list.

Item	Price
Sugar	Sh. 3,000 per kg
Beans	Sh. 1,500 each kg
Soap	Sh. 2,000 per bar
salt	Sh. 1,000 each kg

a) How much money will Muhammad pay for 2kg of sugar?
(2mks)

b) Find the cost of 3kg of salt? (2mks)

31. Use digits 8, 5, 4 and 2 to form:

a) The highest and lowest 4 digits numerals. (3mks)

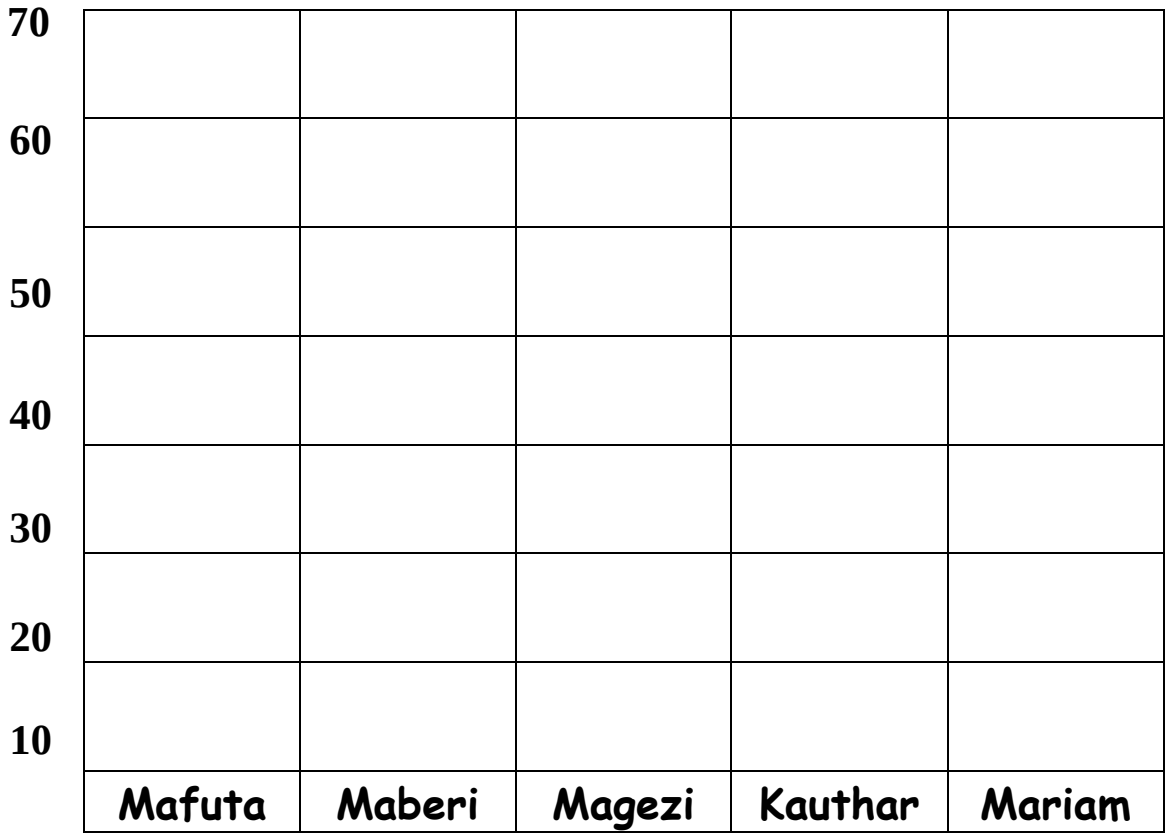

b) Find the sum of the highest and lowest numerals formed. (2mks)

c) Calculate the difference between the highest and lowest numerals formed. (2mks)

32. A table below shows the marks scored by some pupils of primary five in a Mathematics test last week. Use the information on the table to shade the bar graph below

(5mks)

Marks	40	70	50	70	20
Names	Mafuta	Maberi	Magezi	Kauthar	Mariam

PAPER ELEVEN

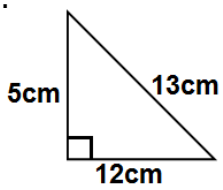

SECTION : A (40 Marks).

1. Divide 6 ÷ 2 =

2. Solve y + 6 = 13.

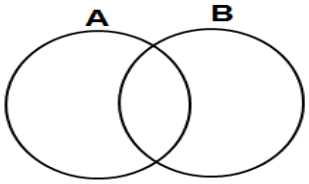

3. Find the square of 9.

4. Calculate the area of the figure below.

5. Write 2011 in words.

6. Shade A U B in the Venn diagram below.

7. Change 2.5kg to grammes.

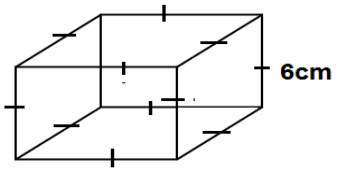

8. Write down the next two numbers in the sequence below;
1, 4, 9, 16, ___, ____

9. 5 pens cost sh. 6,000/=, find the cost of 7 similar pens at the same rate.

10. Subtract 204_{five}
$-\ 113_{five}$

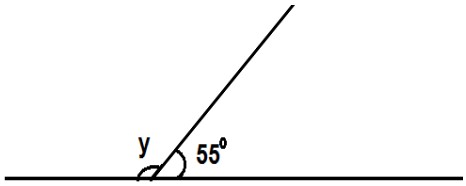

11. Arrange the following integers in ascending order. $^{-}6$, 0, $^{-}4$, $^{-}3$, 4.

12. Find the volume of the cube below.

13. Reduce to the lowest term $\frac{16}{40}$.

14. Find the value of the angle marked y in the figure below.

15. Round off 17.673 to the nearest tenths.

16. James bought a cow at sh. 860,000 and sold it at shs. 900,000. Work out his profit.

17. Work out

	Wks	Days
	5	4
+	1	5

18. Expand 27.392 using indices.

19. Mayanja is 16 years old. Kamya is 9 years older than Mayanja.

a) How old is Kamya. (1mk)

b) Find their total age. (1mk)

20. Using a sharp pencil, a ruler and a pair of compasses only, construct an angle of 60^0 in the space provided below.

SECTION : B (60 Marks)

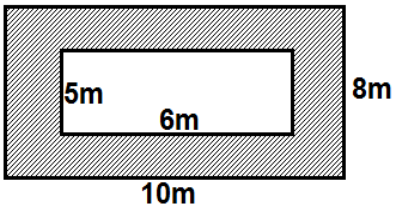

21. Given that a=3, b=4 and c=5. Find the value of ;

i) abc (1mk)

ii) (a + c) – b (2mks)

iii) $\frac{bc + 4}{a}$ (2mks)

22. Study the figure below and answer the questions that follow.

a) Find the area of the outer rectangle. (2mks)

b) Find the area of the inner rectangle. (2mks)

c) Calculate the area of the shaded part. (1mk)

\

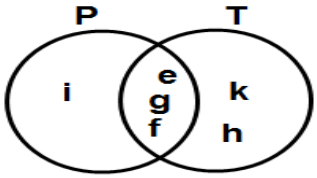

23. Namatovu scored the following marks in a series of Maths tests.
40, 70, 20, 60 and 60.

a) What was the range of her scores? (1mk)

b) Find the median mark. (1mk)

c) Calculate her average score. (2mk)

24. Study the Venn diagram below and answer the questions that follow.

a) Find (i) Set (P ∩ T) (1mk)

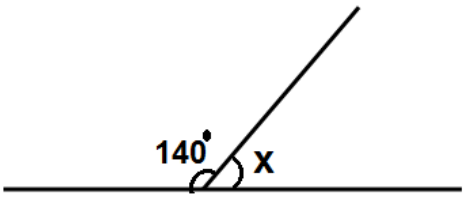

ii) Set (T - P) (1mk)

iii) n(P U T) (2mks)

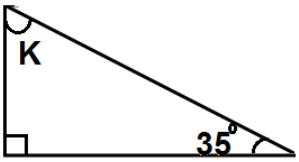

b) How many subsets can be formed from Set T only? (1mk)

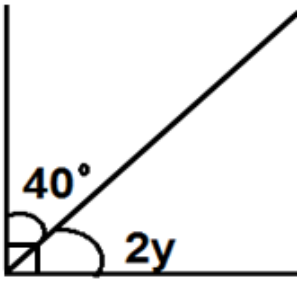

25. Calculate the size of the unknown angles in each of the figures below. (2mks)

a)

b) (2mks)

c) 

(2mks)

26. Richard went to the market and bought the items as shown below.

Item	**Quality**	**Unit cost**	**Total cost**
Rice	2kg	2000/= per kg	sh_____
Soap	3 bars	_____ @ bar	sh.3600
Salt	_____kg	1000 per kg	sh. 2000
milk	2litres	____ per litre	sh. 2400
Total			_____

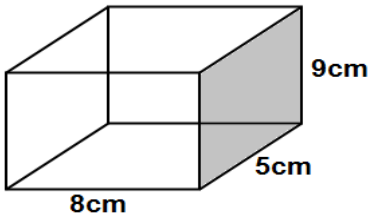

Complete the shopping bill above. (Show the working) (5mks)

27a) Change 32_{five} to base ten. (2mks)

b) Express 14_{ten} to base five. (2mks)

c) Add : $\begin{array}{r} 1\ 0\ 1\ 1_{two} \\ +\quad 1\ 1_{two} \\ \hline \end{array}$ (2mks)

28. The figure below is a rectangular prism. Study it carefully and use it to answer the questions that follow.

a) How many vertices does it have? (1mk)

b) Find its volume? (1mk)

c) Calculate the area of the shaded part. (2mks)

29. There are 60 teachers in Dumo P/S School $\frac{1}{5}$ of them teach upper school and the rest teach the lower school.

a) Find the fraction of teachers that teach the lower school. (2mks)

b) If the Head teacher gave 2 pens to each teacher in the upper school, what was the total number of pens given out? (3mks)

30a) **Use >, < or = to complete the following correctly.**

i) - 4 _____ 0 (1mk)

ii) 3kg _____ 3500g (1mk)

b) Work out:

i) $^{-}4 + {}^{-}2 =$ (1mk)

ii) $+3 + {}^{-}5 =$ (1mk)

31. Find the smaller angle between South West and North. (2mks)

b) Namuli was facing East. She turned anti-clock wise to face North West. Through what angle did she turn? (2mks)

c) Construct an equilateral triangle ABC of sides 5cm each. (2mks)

32a) Write down multiples of 7 less than 30. (1mk)

b) Find the GCF of 8 and 12. (2mk)

c) Work out the square root of 36.

TekArt Learning
