TURN OVER

CamScanner

SECTION A

1. Write ***one*** natural source of sound in the environment.

   .....

2. How is the breathing of a toad different from that of a tadpole?

   .....

   .....

3. Mention the vitamin deficiency that causes poor eye sight.

   .....

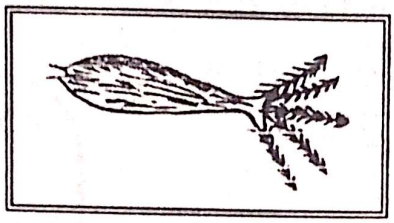

4. Write down ***one*** primary sex characteristic in girls.

   .....

5. State ***one*** advantage of re-using plastics to the soil.

   .....

The diagram shows a seed. Use it to answer questions 6 and 7.

6. How is the above dispersed in the environment?

   .....

7. State the adaptation of the above seed to its mode of dispersal.

   .....

8. How is the queen bee prevented from mixing eggs with honey in a modern bee hive?

   .....

   .....

9. State a reason why the wind pipe of the lungs is made up of rings of cartilage.

   .....

   .....

10. Give ***one*** advantage of sorting clothes before washing.

    .....

11. Name the blood cells that carry oxygen to the body cells for respiration to take place.

    .....

12. How does the screen of a V.I.P latrine help to control diarrhoeal diseases?

    .....

    .....

13. State the role played by chlorophyll during photosynthesis.

    .....

CamScanner

Use the diagram below to answer questions 14 and 15.

4. Which type of blood is carried by most blood vessels represented in the above diagram?

.....

5. State the function of structures marked "**J**" in the above blood vessel.

.....

6. State ***one*** way of conserving coal as a non renewable resource.

.....

7. Name the childhood immunisable disease spread by drinking unboiled milk from an infected cow.

.....

8. Why is free range system of rearing goats not commonly practiced in urban areas?

.....

9. Convert **$0^{o}C$** to **^{o}F**

0. State ***one*** role of a sanitary prefect in a school.

.....

1. How does photosynthesis in plants benefit animals in the environment?

.....

.....

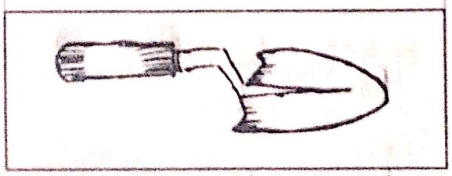

2. Give ***one*** effect of smoking to the circulatory system.

.....

3. Write one part of the ear which is not involved in the process of hearing.

.....

Use the diagram of a garden tool below to answer questions 24 and 25.

4. Mention the farm activity carried out using the above garden tool.

.....

CamScanner

25. State ***one*** way of preventing the above garden tool from rusting.

.....

26. By what process does food move through the alimentary canal?

.....

27. State any ***one*** sign of hook worm infestation in human beings.

.....

28. Give a reason why electric wires are fixed while sagging on poles.

.....

.....

29. Why should cereal crops be dried well before storage?

.....

30. What is the function of the stigma of a flower during pollination?

.....

31. Give ***one*** effect of upthrust force on objects put on water.

.....

32. How is yeast important in the process of baking?

.....

33. Give ***one*** PIASCY message in your school compound that creates awareness about the dangers of HIV/AIDS.

.....

34. State the importance of water during germination.

.....

.....

35. How is the placenta important to the foetus during pregnancy?

.....

.....

36. Write the recommended first aid for burns and scalds.

.....

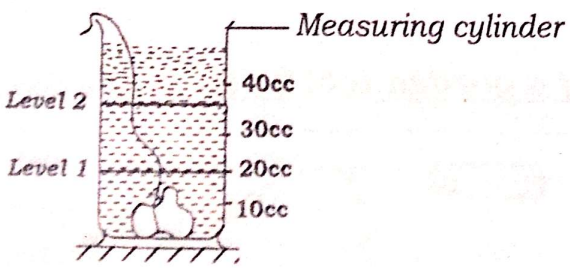

37. State ***one*** way of controlling echoes in theatres and cinema halls.

.....

38. Write the respiratory disease caused by smoking.

.....

Use the diagram below to answer questions that follow.

39. Name the method of finding volume shown in the diagram.

CamScanner

40. Calculate the volume of the stone.

SECTION B (60marks)

41. a) Mention any ***one*** source of food in the environment.

.....

b) Give a reason why sick people should be given food rich in vitamins.

.....

.....

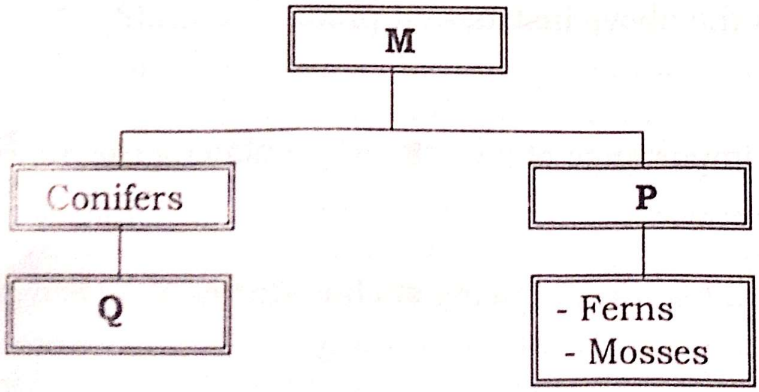

c) Mention the deficiency disease which is caused by lack of all food values in the body.

.....

d) State ***one*** way of preventing food contamination.

.....

42. ***Use the table below about classification of plants to answer questions that follow.***

a) Identify the group of plants represented by letter "**M**".

.....

b) Which sub-group of plants (**M**) are represented by letter "**P**".

.....

c) Give ***one*** similarity between plants at "**P**" and a mushroom.

.....

.....

d) Mention ***one*** plant that can be placed at **Q**.

.....

CamScanner

43. a) Write **P.H.C** in full.

.....

.....

b) Mention ***one*** principle of P.H.C.

.....

c) How can P.H.C be promoted in a school?

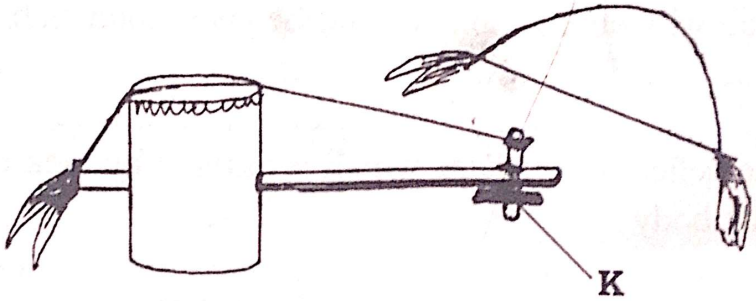

.....

.....

d) Give ***one*** example of a science oriented club in a school.

.....

44. ***Use the diagram of the musical instrument below to answer questions that follow.***

a) To which group of musical instruments does the above instrument belongs?

.....

b) How does the above instrument produce sound?

.....

.....

c) State the importance of part "**K**" when playing the above instrument.

.....

.....

d) State ***one*** advantage of using such instruments when producing music.

.....

.....

45. a) What term is used to describe anything that has mass and volume?

.....

b) State any ***one*** property of Liquids.

.....

c) Why is heat able to move through solids by conduction fastest than other states of matter?

.....

.....

CamScanner

d) Give any ***one*** way in which heat transfer by conduction is applied in our daily life.

.....

.....

46. a) Mention ***two*** similarities between birds and reptiles in terms of reproduction.

i) .....

.....

ii) .....

.....

b) How do birds like eagles depend on other birds in the environment?

.....

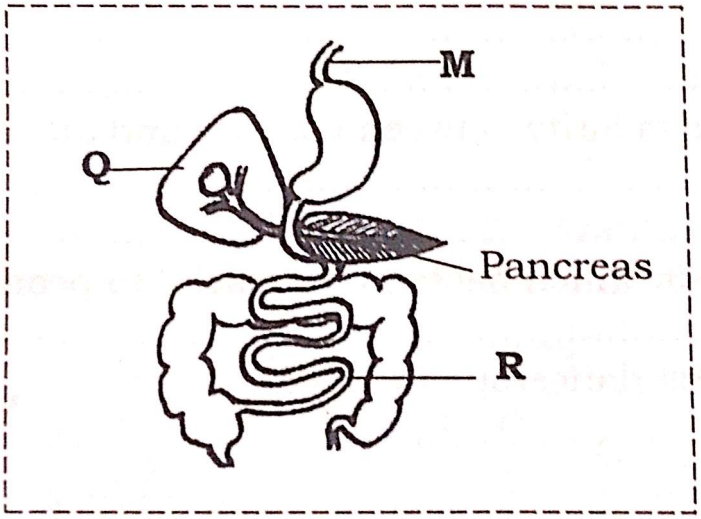

.....

c) Give ***one*** adaptation of birds of prey to their feeding habits.

.....

.....

47. ***The diagram below shows one of the systems of the human body. Use it to answer questions that follow.***

a) Name the body system shown in the above diagram.

.....

b) Which digestive juice is produced by organ marked **Q**?

.....

c) What happens to food when it reaches part "**R**"?

.....

.....

d) State ***one*** way of caring for the above system of the human body.

.....

.....

CamScanner

48. Sarah wanted to make local salt from plant materials. She collected the following: Dry banana peelings, filter, transparent beaker, water and a cup. Re-arrange the steps she followed below correctly to obtain the salt.

Wrong Order:

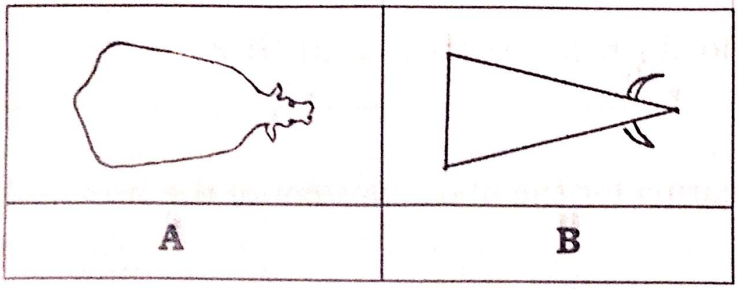

a) Place the filter on top of the beaker and pour the mixture of ash and water to obtain the local salt solution.
b) Burn the dry banana peelings into ash.
c) Taste the solution using the tongue and use it when cooking.
d) Put the ash into a cup and pour water into it and stir.

Correct Order:

a) .....
.....
b) .....
.....
c) .....
.....
d) .....
.....

49. a) Give any ***one*** similarity between bacteria and amoeba.
.....
.....
b) State ***one*** way in which bacteria are useful to people.
.....
c) How are bacteria dangerous to plants?
... .
. .....
c State ***one*** way of controlling diseases caused by bacteria in our homes.
. .....

50. ***Use the diagram below showing shapes of types of cattle to answer questions that follow.***

a) Identify the products obtained from the types of cattle in **A** and **B**.
i) **A** .....
ii) **B** .....
.....

b) Give ***one*** example of the type of cattle represented in "**B**" above.

.....

c) Mention ***one*** way of controlling ectoparasites in cattle.

.....

.....

51. a) Name the accident whose first aid is giving "a kiss of life"

.....

b) Mention ***one*** place where the above accident occurs.

.....

c) Which body organ is mainly affected by the above accident?

.....

d) State ***one*** way of controlling the above accident in (**a**) in our communities.

.....

52. a) What is *teenage pregnancy*? .....

.....

b) State any ***one*** cause of teenage pregnancies in our communities.

.....

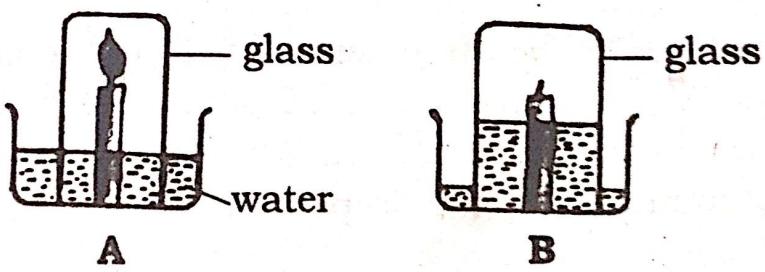

c) How is teenage pregnancy dangerous to a school going child?

.....

d) State ***one*** way in which a senior woman teacher can help adolescen girls to avoid teenage pregnancy.

.....

53. ***A primary five class carried out an experiment on burning as shown below. Use it to answer questions that follow.***

a) Why did the candle continue burning in "**A**" for sometime?

.....

b) State a reason why the candle went off in "**B**" after sometime.

.....

.....

c) Why did the volume of water inside the glass rose in **B**?

.....

d) State any characteristic of chemical changes.

.....

.....

CamScanner

54. a) What are essential drugs?

.....

.....

b) State any one quality of essential drugs.

.....

c) Mention **one** factor considered when prescribing essential drugs.

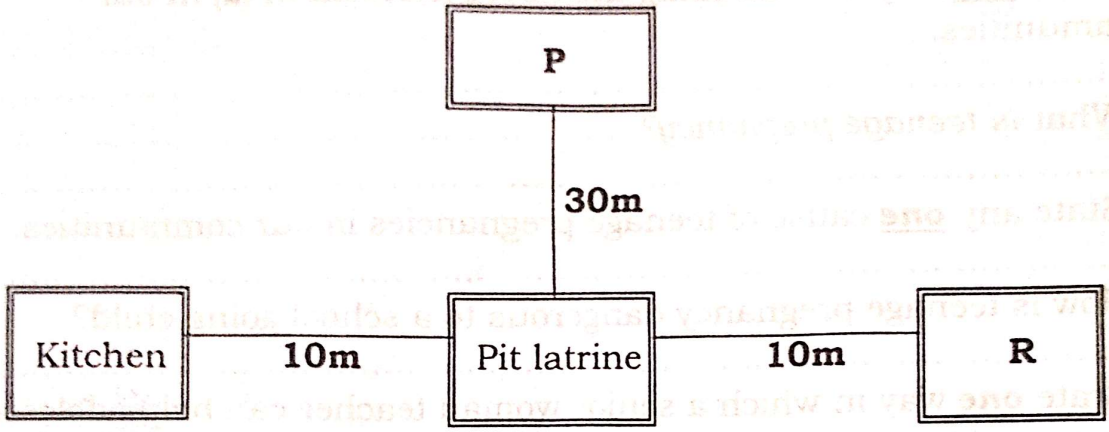

.....

d) Give **one** way of preventing drug poisoning at home.

.....

.....

55. ***Use the illustration below to answer questions that follow.***

a) Name the structures that can be put or constructed at **P** and **R** from the pit latrine.

i) **P** .....

ii) **R** .....

b) Why should structure "**P**" be **30** meters away from the pit latrine?

.....

.....

c) State ***one*** way of maintaining the proper use of toilets in our schools or homes.

.....

.....
