25. State any **one** biological change in plants.

CamScanner

26. How is a female anopheles mosquito dangerous to people?

The diagram below shows a root system of certain plants. Study it carefully and answer questions 27 and 28.

27. Name the part marked **X**.

28. How is part marked **W** useful to the system shown above?

29. Give any **one** example of a good planting material.

30. Give **one** viral disease that affects birds.

31. Why do some objects float on water?

32. How are kidneys useful in our bodies?

33. State **one** block in the village food path.

34. What is meant by "**deep litter system**" as used in poultry keeping?

35. Identify any **one** way of improving on soil fertility.

36. What is a **first aid kit**?

37. Name the best method for harvesting sweet potatoes.

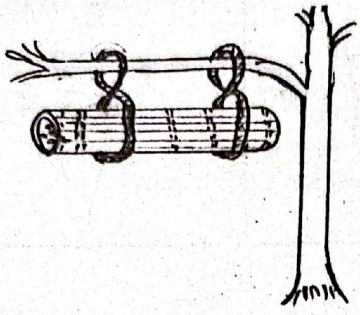

38. On which part of an insect are legs attached?

CamScanner

39. Give any **one** example of a thermometric liquid.

_____

Use the diagram drawn below and answer question 40.

40. Name the traditional bee hive shown in the diagram above.

_____

SECTION B

41. a) Give the meaning of **first aid.**

_____

_____

b) Name the type of injury caused by each of the following;

i) **Hot water** _____

ii) **Glowing charcoal** _____

c) Name any **one** component of first aid kit which is used to keep a fracture in one position.

_____

42. a) What name is given to the manufactured rabbit feeds?

_____

b) Write down any **two** reasons why people keep rabbits.

i) _____

ii) _____

c) Which disease of the rabbits causes sudden death?

_____

43. a) What is **immunity**?

_____

_____

b) Mention the **two** types of immunity.

i) _____

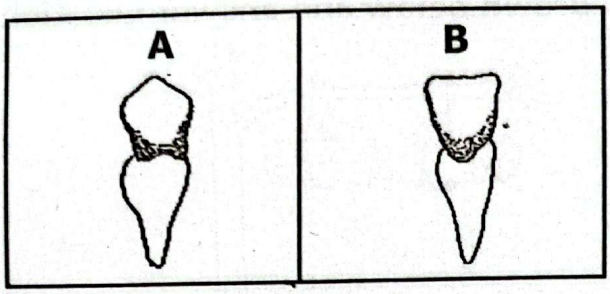

ii) _____

c) Give **one** reason why children are immunized.

_____

CamScanner

44. **The diagrams below show types of teeth A and B. Study and use them to answer the questions that follow.**

a) Name the types of teeth **A** and **B.**

i) **A** _____

ii) **B** _____

b) Name the type of teeth that grow first in human beings.

_____

c) Write down **one** disorder of the teeth.

_____

45. a) Name the gas that occupies the least percentage in the atmosphere.

_____

b) What is the percentage of nitrogen in the atmosphere?

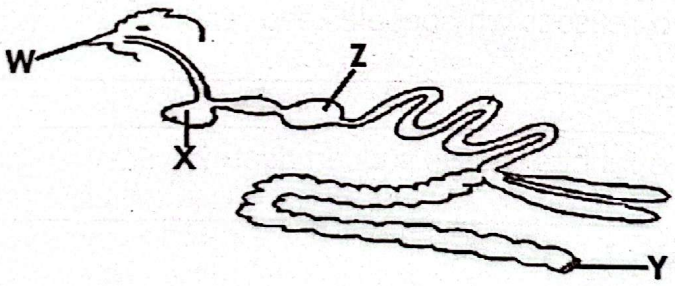

_____

c) Identify **two** examples of rare gases.

i) _____

ii) _____

46. **Use the diagram below to answer the questions that follow.**

a) Name the parts marked **X** and **Y.**

i) **X** _____

ii) **Y** _____

b) How is part marked with letter **Z** useful to a bird?

_____

c) State what happens to the food while in the crop of a bird?

_____

CamScanner

47. a) Identify any **two** elements of weather.

i) _____

ii) _____

b) State **one** reason why people put on sweaters during cold weather.

_____

c) What is the importance of a rain gauge at a weather station?

_____

48. a) Give the meaning of the term **biological change.**

_____

_____

b) Give any **two** examples of biological changes.

i) _____

ii) _____

c) State **one** advantage of biological changes in the environment.

_____

49. a) Name any **one** organism that makes fresh meat go bad.

_____

b) Name any **three** ways of preventing fresh meat from going bad.

i) _____

ii) _____

iii) _____

50. a) State **one** way in which a nursery bed is important to a farmer.

_____

_____

b) Name **two** vegetable crops commonly grown in a nursery bed.

i) _____

ii) _____

c) Give **one** way in which a farmer can care for crops in a nursery bed.

_____

_____

51. a) Mention any **one** vice in a deep litter house.

_____

b) Give any **one** cause of poultry vices in a deep litter house.

_____

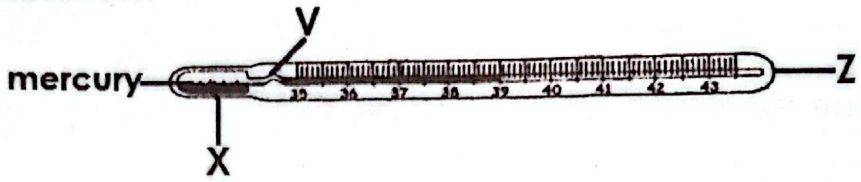

c) State any **two** ways of controlling poultry vices.

i) _____

ii) _____

CamScanner

52. **Below is a diagram of a clinical thermometer. Use it to answer the questions that follow.**

a) Name the parts labeled **V** and **Z**.

i) **V** _____

ii) **Z** _____

b) State the importance of part marked **V**.

_____

_____

c) Apart from the tongue, mention any **one** part of the human body where the clinical thermometer can be placed when measuring body temperature.

_____

53. a) State any **one** difference between a bean plant and a millet plant in terms of;

i) **venation** _____

ii) **germination** _____

b) How does growing of beans help to promote soil fertility?

_____

_____

c) What food value do we get after eating beans?

_____

_____

54. How do the following animals protect themselves against their enemies?

i) **Chameleon** _____

ii) **Wasp** _____

iii) **Bedbug** _____

iv) **Snail** _____

55. a) Name any **two** components of a clean home.

i) _____

ii) _____

b) State any **one** reason why people should ensure cleanliness of their homesteads.

_____

c) Write any **one** way how a P.6 child can ensure cleanliness of their home.

_____
