# PRIMARY SIX S.S.T TERM I NOTES

## LOCATION OF EAST AFRICA

Qn: **What is location?**

Location is the position of a place.

East Africa is locate in the Eastern part of the African continent.

**What is a continent?**

A continent is a large piece of land surrounded by large water masses.

There are seven continents that make up the whole world namely;

i) Asia (largest).

ii) Africa (Second largest).

iii) North America.

iv) South America.

v) Europe.

vi) Antarctica.

v) Australia (Smallest).

**East African Geographical region is made up of five countries namely:**

i) Tanzania (Largest).

ii) Kenya.

iii) Uganda.

iv) Burundi.

v) Rwanda (smallest).

East African countries are joined by one other country to form East African community.

**East African Community has the following members**

i) Uganda

ii) Tanzania

iii) Kenya

iv) Rwanda

v) Burundi

vi) South Sudan

N.B: South Sudan is the newest member of the East African community.

## POSTION OF EAST AFRICA ON THE MAP OF AFRICA

**Questions**

1. How many countries make up East African geographical region?

2. Compare Uganda and Kenya in terms of;

I) Location.

ii) Geographical location.

**East African Countries, size and capital cities.**

| Country | size($km^2$) | Capital city |
|---|---|---|
| Tanzania | 94,5367 | Dodoma |
| Kenya | 58,0367 | Nairobi |
| Uganda | 23,6040 | Kampala |
| Burundi | 27,830 | Gitega |
| Rwanda | 26,798 | Kigali |

Neighbours of East Africa.

| Country | Capital city | Direction |
|---|---|---|
| South Sudan | Juba | North |
| Ethiopia | Addis Ababa | North |
| Somalia | Mogadishu | North East |
| DRC | Kinshasa | West |
| Mozambique | Maputo | South |
| Malawi | Lilongwe | South |

| | | |
|---|---|---|
| Zambia | Lusaka | South west |
| Indian Ocean | | East |

NB; East Africa is bordered by the Indian ocean in the East

The relief feature that washes off the coast of East Africa is Coastal plain

Along the Indian Ocean, there are three major islands namely:

i) Zanzibar (largest)

ii) Pemba

ii) Mafia

**A MAP SHOWING EAST AFRICAN AND HER NEIGHBOURS**

**BACKGROUND OF EAST AFRICAN COUNTRIES.**

**A) UGANDA**

- Uganda's capital city is Kampala.
- Uganda 's major airport is Entebbe international Airport.
- Uganda is a landlocked country.
- Uganda uses port Mombasa of Kenya and Port Dar- es- salaam of Tanzania to import and export her goods.
- Uganda was ruled by Britain from April 1894 to 1962.
- The first executive prime minister and first executive president of Uganda was Dr. Apollo Milton Obote.
- The first president of Uganda was Sir Edward Mutesa II.

**B) KENYA**

- It's the second largest country in East Africa.
- Its capital city is Nairobi and the chief sea port is Mombasa.
- It was colonized by Britain from 1895 – 1963.
- Mzee Jomo Kenyatta led Kenya to independence in 1963.
- NB; The name Kenyatta means Kenya's lamp.

**C) TANZANIA**

- It's the largest country in East Africa.

- Its capital city is Dodoma.
- It was colonized by Germany but later Britain took over the control of Tanganyika after the first world war.
- The political party that led Tanganyika to independence was Tanganyika African National Union(TANU).
- It was led to independence by Mwalimu Julius Kambarage Nyerere in 1961

Qn: Why was the capital city of Tanzania transferred fromDar – es- salaam to Dodoma?

- Dodoma is centrally located.
- Dodoma is spacious and well planned.
- To separate administrative centre from the commercial centre.

## C) BURUNDI

- Burundi was colonized by Germany and later mandated to Belgium after the first world war.
- Its capital city is Gitega
- It is a land locked country but uses port Mombasa and Dar – es- salaam for over sea trade.
- Burundi got independent in 1962 underkingmwambutsa.

## E) RWANDA

- This is the smallest country in East Africa and its capital city is Kigali
- It is a landlocked country but uses port Mombasa and port Dar – es-salaam for over seatrade.
- It was colonized by Germany but later mandated to Belgium after the first world war.
- It got independence in 1962 under Gregory Kayibanda as the president.
- Hutu Emancipation Movement(PERMEHUTU) was the political party that led Rwanda to Independence.

Locating East Africa Using lines of Latitude and lines of Logitude.

Lines of latitude.

- These are imaginary lines drawn on a map running from East to West.
- These lines are measured in degrees.

- East Africa is located on the lines of latitude $5^{o}N$ and $11^{0}S$ of the equator.

Qn: **What is latitude?**

Latitude is the distance of a place North or south of the equator.

N:B The general name given to all lines of latitude is parallels.

- The equator is the major line of latitude and it is marked $O^{O}$

Why is the equator marked $O^{O}$?

- It is the midpoint of all lines of latitude.
- It is the starting point of all lines of latitude.

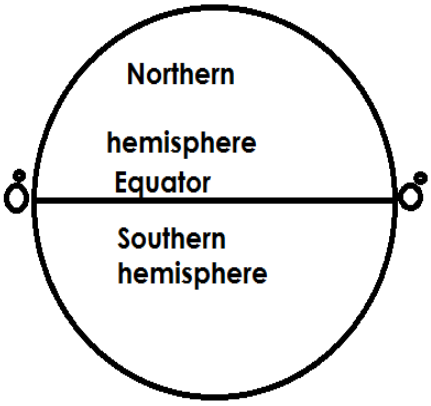

Why is the equator called the major line of latitude?

- It divides the earth into two equal parts (hemispheres).

What is a hemisphere?

- A hemisphere is a half of the earth divided by the equator or prime meridian

Hemisphere as divided by the equator

Northern hemisphere _____ Half of the world North of the equator.

Southern hemisphere _____ Half of the world south of the equator.

Qn: Mention the East African countries found in the southern hemisphere.

2. Mention the East African countries found in both hemispheres.

Lines of latitude include:

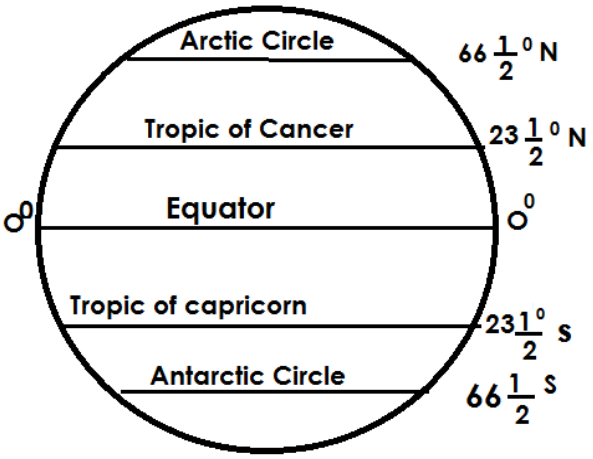

i) Equator (major) $O^O$

ii) Tropic of cancer ($23\frac{1}{2}^O N$)

iii) Tropic of Capricorn ($23\frac{1}{2}^O S$)

iv) Arctic Circle ($66\frac{1}{2}^0 N$)

v) Antarctic Circle ($66\frac{1}{2}^0 S$ )

Countries crossed by the equator.

Somalia, Uganda, Kenya, DRC, Gabon, Congo Brazzaville

Importance of lines of latitude.

- They help to locate places on a map.
- They determine the climate of an area.

Qn: Name the line of latitude that determines the climate of an area.

Equator

2. How does latitude influence the climate of an area?

- Areas near the equator are hotter than areas far from the equator

3. Why are areas near the equator hot?

- They receive direct sunrays.
- The sunrays travel a shorter distance.

**EQUINOX.**

Equinox is a period when the sun is overhead the equator.

The sun overheads the equator twice in a year.

i) 21st march.

ii) 23rd September.

N:B The sun is overhead the tropic of cancer on 21st June and the tropic of Capricorn on 22nd December.

Movement of the earth.

i) Earth's revolution.

ii) Earth's rotation.

Effects of the earth's rotation.

- It causes days and nights.
- It causes ocean currents.

Effects of the earth's revolution.

- It causes change in seasons.
- It causes change in years.

**Lines of longitude**.

These are imaginary lines drawn on a map running from North to South

East Africa lies between $29^0$E and $42^0$ E of the Greenwich meridian.

Qn: **What is longitude?**

Longitude is the distance of a place East or west of the prime meridian.

**Lines of Longitude include;**

i) Greenwich meridian /Prime Meridian ($0^0$).

ii) International Date line (IDL) – $180^O$ E or W.

N:B : The general name for all longitudes is meridians.

Qn: Why is the Greenwich Meridian called so?

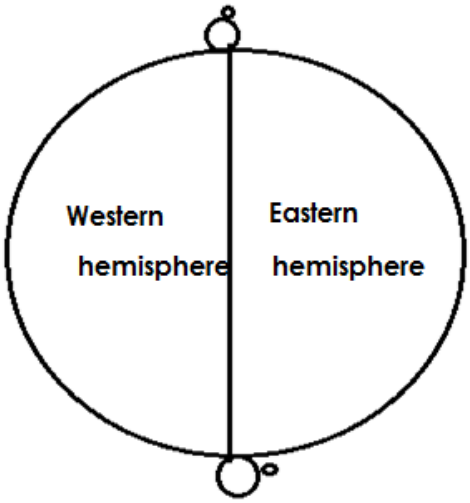

It passes through a town England called Greenwich.

2. Why is the Greenwich meridian marked $O^{O}$?

It is the midpoint of all longitudes

3. Why is the Greenwich meridian called the major line?

It divided the world into two equal partsi.e.; Eastern hemisphereand Western hemisphere.

**African countries crossed by the prime meridian.**

i) Ghana.

ii) Algeria.

iii) Burkina Faso.

iv) Mali.

Qn: Name the African town crossed by the Prime meridian

- Accra.

**Importance of Greenwich Meridian.**

- It locates places on a map.
- It determines time.

Qn: What name is given to the line of longitude marked $180^{0}$?

International date line.

2. Give one importance of International Date Line.

It determines dates and days.

**Similarities between Equator and Greenwich meridian.**

- Both are marked $O^{O.}$
- Both locate places on a map.
- Both divide the world into two equal parts.

**Ways of locating places on a map.**

- By using latitudes and longitudes (Grid reference)
- By using a compass direction

**Other ways of locating places include.**

- Using the position of sun.
- Using major landmarks /physical features.
- Using shadows.

Qn: **What is grid reference?**

This is a way of locating places on a map using latitudes and longitudes.

## TIME ZONE

What is time zone?

This is an area experiencing the same local time.

Examples of time zone in Africa

i) East African Standard time(EAT)

ii) Central African standard time (CAT)

iii) Greenwich mean time(GMT)

**Calculating time**

Example1

It is 2:00a.m at Greenwich mean time. What time will it be at a place which is $30^0$E at GMT.

Solution

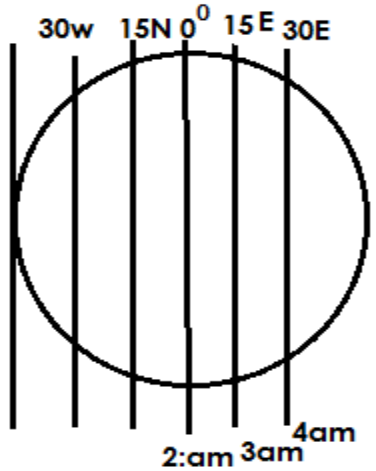

$15^0$ = 1hr

$30^0 = \frac{30}{50}$ = 2hrs

2: 0 0

+2 : 0 0

4 : 0 0 a.m

= 4:00am

2. It is 6:30p.m at GMT. What time will it be at a place which is $45^0$W of the GMT?

Solution

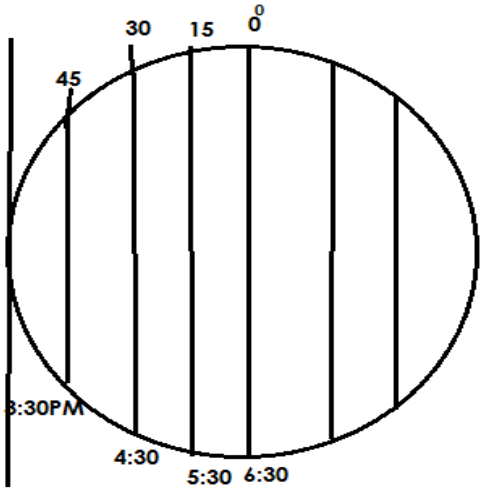

150 = 1hr

450 = $\frac{45}{15}$ = 3hrs

6 : 3 0 pm

—3 : 0 0 pm

3 : 3 0 pm

= 3: 3 0 pm

3. It is 11: 00a.m at GMT . What time will it be at a place which $45^0$E of the GMT?

Solution

$15^0$ = 1hr

$45^0 = \frac{45}{15}$ hrs = 3hrs

11 : 00 a.m

+ 3 : 00 hrs

13 : 00hrs = 1: 00 pm

4. It is 1: 00 pm at GMT. What time will it be at a place which is $30^0$ W of the GMT?

Solution

150 = 1hr

300 = $(\frac{30}{15})$ hr

2 hr

1: 00 p.m

—2 : 00 p.m

1 3 00hrs

2 00

11: 0 0 am

5. It is 2: 00pm in Kampala.What time will it be in Rwanda?

150 = 1hr

150 = $(\frac{15}{15})$ hr

= 1hr

1 : 00p.m

— 2: 00 pm

1 : 00p.m

6. It is 1:00 Pm in Ghana. What time will it be at the African Standard time?

Solution

150 = 1hr

450 = $(\frac{45}{15})$ hr

1: 0 0 pm

3 : 0 0

4: 00 p.m

Sample Questions

1. Why is the time zone of Uganda different from that of Rwanda?

   Uganda and Rwanda are in different time zones.

2. What name is given to the time zone of the following regions?

I**) East Africa**

East Africa standards Time (EAT)

ii) **Central Africa**

Central African standard Time (CAT)

iii) **West Africa**

Greenwich Mean Time (GMT)

3. Why do Uganda, Kenya and Tanzania have the same time?

   They are found in the same time zone

4. Why do the people of Mombasa see the sun earlier than those in Kampala

   Mombasa is further in the East than Kampala

   Mombasa is more Easterly than Kampala

5. Why does the sun appear to rise in the East?

   The earth rotates towards the East

**LANDLOCKED COUNTRIES**

What are landlocked countries?

These are countries without seaports

**Examples of landlocked countries**

i) Uganda

ii) South Sudan

iii) Ethiopia

iv) Zambia

v) Rwanda

vi) Malawi

vii) Burundi

Qn: How did the following countries become landlocked?

i) Ethiopia

After the separation of Eritrea from Ethiopia.

ii) South Sudan

After its separation from Sudan

2. How did the independence of Eritrea affect Ethiopia?

- Ethiopia became landlocked.
- Ethiopia reduced in size.

3.Name the landlocked countries that border East Africa.

i) South Sudan

ii) Ethiopia

iii) Malawi

iv) Zambia

4. Mention the neighbours of East Africa which are non landlocked.

i) Mozambique

ii) Somalia

iii) DRC

5. Name the sea ports Uganda uses to import and export her goods.

i) Port Mombasa

ii) Port Dar – es – salaam

6. Apart from port Dar – es – salaam, name any other port Tanzania uses to import and export her goods.

   Port tanga

7. **Mention the economic activities carried out at a sea port.**

   - Tourism
   - Trade
   - Fishing
   - Shipbuilding
   - Transport
   - Mining
   - Ship repairing

8. **Give the meaning of the following terms**

i) **Imports.**

   These are goods entering a country.

ii) **Exports**

   These are goods moving out of a country.

9. How is port Mombasa economically important to Uganda's economy?

   It handles most of Uganda 's imports and exports

10. How is Kenya important to Uganda's economy?

i) It has a sea port that handles Uganda's imports and exports

ii) It provides market to Uganda's goods.

11. Give three economic importance of Kenya to Uganda

   - It provides market for Uganda's goods.
   - It offers jobs /employment to Ugandans.
   - It handles Uganda's imports and exports.

Problems facing landlocked countries

   - Delay of goods in transit.
   - High tax charges.
   - High transportt costs.

- High way robbery.

**How can the problems of landlockedness be solved?**

- By befriending coastline countries.
- By developing air transport.
- By developing railway transport.

Coastline countries /non landlocked countries.

These are countries with sea ports.

**Non landlocked countries in East Africa.**

- Kenya
- Tanzania

**Advantages of non landlocked countries.**

- Easy importation and exportation of goods.
- Low transport costs.

**Disadvantages of non landlocked countries.**

- Attacks from pirates

**COMMON MARKERS/REGIONAL ECONOMIC GROUPINGS/ECONOMIC BLOC.**

**What is a common market?**

This is a group of countries united to promote trade.

Or

This is an organization which brings different countries together with a common interest especially trade.

**Examples of common markets in Africa.**

i) East African Community(EAC).

ii) Common Market for Eastern and Southern Africa(COMESA).

iii) Economic Community of West African states(ECOWAS).

iv) Southern African Development Community (SADC).

V) Inter government Authority on Development (IGAD).

VI) Economic Community of Central African States (ECCAS).

Conditions necessary for the success of a common markets

- Countries should be geographically close to one another.
- Countries should be at least at the same level of development.
- All countries should have political stability.

## EAST AFRICAN COMMUNITY (EAC)

- Historical background of East African Community
- It started as East African High Commission (EAHC) in 1948.
- The headquarters of EAHC were in Nairobi – Kenya.
- It was formed to unite the three East African Countries by then.
- The Withdraw of Tanganyika from the EAHC led to its collapse.
- The EAHC was later replaced by the East African Common Service Organisation (EACSO).
- The EACSO was formed after Tanganyika had gained independence in 1961.
- It took over all the organs of the EAHC.

Qn: **Which organization united the countries of East Africa before 1961?**

EAHC

2. **Name the organization that replaced the EAHC.**

EACSO

**Departments /services of EAHC.**

i) Higher Education.

ii) East African railways and Harbours.

iii) East African Literacture Bureau.

iv) East African Posts and Telecommunication.

v) East African Income Tax Department

vi) Research Institutions

## Factors for the collapse of EAHC.

- Division of member states / lack of unity.
- Lack of economic power by the organization.
- Failure to unite the East African countries into a federation

## Formation of EAC.

- EAC replaced EACSO.
- It was formed in 1967.
- The headquarters of EAC were located in Arusha – Tanzania.
- It was formed by the three heads of state who led the then East African Countries to Independence.
- The meeting for forming EAC was chaired by the UN expert called **Kfeld Philip**.

## Founder of the EAC

| Name | Country | Year of Independenc |
|---|---|---|
| Mwalim Julius Nyerere | Tanzania | 1961 |
| Dr. Apollo Milton Obote | Uganda | 1962 |
| Mzee Jomo Kenyatta | Kenya | 1963 |
| | | |

## Reason /objectives/aims for forming EAC

- To promote regional trade
- To promote peace and security.
- To promote international friendship.
- To promote regional economic development.
- To equally share the services of the former EACSO.
- To promote unity among member states.
- To create employment for people.
- To control smuggling.

## Symbols of EAC.

i) EAC anthem.

ii) EAC flag.

iii) EAC emblem/ EAC cout of arms.

iv) EAC constitution.

v) EAC motto.

N:B A teacher shall be required to guide the learner to draw the EAC flag and EAC anthem.

Qn: **Who composed the EAC anthem?**

John Mugango from Tanzania

**The EAC flag**

Qn: **What do the following represent on the EAC flag?**

i) **Blue Colour.**

Lake Victoria symbolize the unity of East African Community Member states.

ii) **White, Black, Green, Yellow and Red.**

Represent thedifferentcolours of the flag of each of the member states.

iii) **Handshake.**

it represents unity of East African Community Members

**The EAC emblem**

**Features on the emblem.**

i) **Industrial wheel.**

It represents the industrial growth

ii) **Hand shake.**

It chows unity of East African community Members

Qn: **Write down the motto of the East African community.**

One people one destiny

**Achievements of EAC of 1967.**

i) it promoted regional trae.

ii) It promoted development among member states.

iii) It created employment for people in the region.

iv) It promoted international friendship.

v) It helped to start industrial protects in East Africa

**Collapse of the EAC of 1967.**

The EAC of 1967 collapsed in 1977.

**Below were the heads of state at the Collapse of EAC in 1977.**

| Country | President |
|---|---|
| Uganda | H.E Idi Amin Dada |
| Tanzania | H.E Mwalim Julius Nyerere |
| Kenya | H.E Jomo Kenyatta |

**Reasons for the collapse of EAC of 1967.**

- Shortage of funds
- Amins attempt to take over western Kenya.
- Disagreements among member states.
- Different political ideologies.
- Unequal distribution of resources.
- The closure of boundaries between countries.

## Effects of collapse of EAC.

- It increased smuggling.
- It led to closure of borders.
- It decreased market for goods produced in East African.
- It limited the movement of people, goods and services.
- It led to decline of some industries.
- It led to decline of economies of some countries.
- It led to wars /political instability.
- Some people lost jobs.

Qn: **How did Amin contribute to the collapse of EAC?**

His attempt to take over western Kenya

Misunderstanding with Nyerere.

## THE REVIVAL OF EAST AFRICAN COMMUNITY (EAC)

- The move to revive the EAC started in1994
- Several agreements were signed in preparation for the revival
- On 30th November 1999, the new EAC Came into existence at Amri Abed Memorial Stadium in Arusha, Tanzania.
- The EAC was officially launched on 15thJan , 2001

N.B: Between 1994 – 1999, EAC was being called East African Cooperation.

### Presidents who revived EAC

| Country | President |
|---|---|
| Uganda | H.E Y.K Museveni |
| Tanzania | H.E BenjaminMpaka |
| Kenya | H.E Daniel Arap Moi |

### Countries that joined EAC.

| Country | Year |
|---|---|
| Rwanda | 2007 |
| Burundi | 2007 |
| South Sudan | 2016 |

Qn: How did the above countries join EAC?

- After applying and signing the EAC Charter.

**Reasons for reviving EAC.**

- To promote trade.
- To promote peace and security.
- To promote unity /international friendship.
- To fight smuggling.
- To form a common tariff /taxes.
- To allow free movement of people, goods and services.
- To form a common language.
- To form a common currency.

**Organs/structures of the revived EAC.**

**They include the following;**

i) Secretariat.

ii) Summit.

iii) Council of ministers.

iv) East African legislative Assembly(EALA).

V) Coordinating committee.

vi) Sectoral Committee.

vii) East African court of justice.

**THE SUMMIT**

- It is made up of heads of state from member countries.
- It is the main organ of the EAC.
- The summit meets once in a year to discuss annual process, reports and hosting head of state becomes the chairperson for that year.

NB: **President Paul Kagame** of Rwanda is the Current chairperson of EAC.

**Duties of the summit**

- It gives the general direction towards the goals and objectives of the EAC.
- It discusses the issues submitted by the council of ministers
- It reviews the states of peace, security and good governance in the community.
- It chooses the chairperson and the hosting country of the next summit.

**THE SECRETARIAT.**

- It is the executive organ of the community.
- It has the headquartes in Arusha, Tanzania.
- It is headed by the secretary General and assisted by three deputies.

Duties of secretariat.

- It runs the daily affairs of the EAC.
- It prepares the EAC budget.
- To prepare and submit the EAC budget.
- To manage the finances of the EAC.
- To monitor the community activities.

N:**B Hon liberate Mfumukeko** from Burundi is the current secretary General of EAC.

**EAST AFRICAN LEGISLATIVE ASSEMBLY (EALA).**

- It was founded in 2001.
- Its headquarters are in Arusha, Tanzania.
- It is made up of nine members from each member state and seven (7) ex – officials.

**Duties of EALA.**

- It makes laws a for the EAC.
- It approves the EAC annual budget.

N:B The current speaker of EALA is Hon: **Martin Ngoga from Rwanda.**

## THE COORDINATING COMMITTEE

- It consists of permanent secretaries responsible for EAC affairs from each member state.
- It is answerable to the council of ministers.
- It implements the decisions made by the council of ministers and the summit.

## THE SECTORAL COMMITTEES

- There are several committees like Human resources management committee, social dialogue committees etc
- They are established by the council of ministers and recommended by the coordinating committee.
- They are responsible for the preparations and implementations of the programmes of EAC.

## THE EAST AFRICAN COURT OF JUSTICE.

It consists of judges appointed from each member state.

It ensures that the constitution of the community is followed.

It also ensures that laws are observed in members states.

### Departments/services of EAC.

i) East African Development Bank (EADB) – Kampala

ii) East African posts and telecommunication – Kampala

iii) East African Railway and Harbours – Mombasa

iv) East African civil Aviation Board – Soroti

### Defunct department/services of EAC.

i) East African Examinations council – Nairobi

2. East African currency Board

Qn: **Name the EAC departments that were responsible for the following;**

i) Setting examinations_____

ii) Communications_____

iii) Printing currency_____

**Duties of EADB.**

- It finances developmental projects of member countries.
- It provides loans to member countries.
- It provides jobs to people in from member countries.

N:B: **The headquarters of EADB are found inKampala**

**Benefits of EAC to member states**

- It has promoted free movement of people, goods and services.
- It has created a wider market.
- It has created peace and security.
- Member states get goods they can't produce.
- Member countries get loans from EADB.
- People get jobs /employment from EAC.
- Smuggling has been controlled.

**How EAC has promoted trade.**

- By creating a wider market.
- By promoting peace and security across boarders.
- By allowing free movement of traders.
- By improving on transport and communication.

**Problems/challenges of EAC.**

- Shortage of funds.
- Lack of a common language.
- Lack of common currency.
- Lack of a common tariff/taxes.
- Snuggling of goods.
- Production of similar goods.
- Civil wars /political instability.
- Terrorism.

- Different political ideologies.

## THE PEOPLE OF EAST AFRICA.

East Africa is said to be the cradle land of man kind

Qn: **Why is East Africa referred to as the cradle land of man kind?**

- It is where the oldest human skull was found.
- The oldest human skull was discovered at Olduvai Gorge in Northern Tanzania.
- It was discovered by Dr. Louis Leakey in 1959.
- The earliest man was called **Zinjanthropus.**
- **Zin**j means black and **Anthropus** means man.

N:B : The term Zinjanthropus means Blackman.

Qn: **What does the term pre – historical period mean?**

It means the period before written history.

## HISTORY

Qn: **What is history?**

History is the study of past events.

It helps to know the past, relate it to the present and predict the future.

### Sources of history

i) Oral tradtion

ii) Written records

iii) Archaeology

iv) Anthropology

v) Linguistics

### Oral tradition.

It is the primary source of history (oldest)

It is made up of legends, riddles and myths.

Oral tradition is not an accurate source of history because information changes basing on the teller.

Qn: **What does the term myth mean?**

A myth is a traditional story which is not true but believed by many people.

2. **Give two advantages of oral tradition?**

- It encourages thinking among people.
- Information is readily available.
- It caters for illiterates and the blind.
- It is cheap tog get information.

3. **Give one disadvantages of oral tradition**

- When the person with the information dies, the information ceases.
- The person with the information narrates to suit their interests
- Information can easily be changes.

Qn; **What are legends?**

Legends are oral stories of long ago told from one generation to another.

**Examples of legends told in Uganda.**

i) Legends of Kintu and Nambi(Central).

ii) Legends of the spears and the bead.(Northern).

iii) Legends of mundu and seera(Eastern).

iv) Legends of Isaza and Nyamiyonga (Western).

v) The three sons of Ruhanga(Western).

Qn: Name the three sons of Ruhanga

**Linguistics.**

This is the study of languages.

**Anthropology.**

This is the study of human society and culture.

**Written records /written history.**

- This is recorded information about past events.
- It is the most accurate source of history because information cannot be easily changed.

**Advantages of written history.**

- Information can last for long.
- It is more accurate.
- It is used for used for future reference.

**Disadvantages.**

- It is expensive to record information.
- It requires a lot of skills.
- It caters for literates only.
- Some history may be changed by the writers.

**Sources of written history.**

i) Journals.

ii) internet.

iii) Newspapers.

iv) Novals.

v) Magazines.

vi) Diaries.

vii) Text books.

viii) Letters.

## ARCHAEOLOGY.

- This is the scientific study about the remains of early man.

OR

- This is the scientific study about the fossils.
- The remains of early man and other remains are called fossils.

Qn: **Give the meaning of the following terms?**

i) **Excavation.**

This is the digging out the remains of early man from underground.

iI) **Stratigraphy.**

This is the classification of the excavated fossils depending on the depth of the ground.

iii) **Archaeologists.**

These are people who dig and study about fossils

2. **Give two ways the archaeologistis identified the right places for excavation.**

- By chance
- By identifying the old remains of early man on the ground.
- **Archaeologists and their findings.**

| Archaeologist | Finding |
|---|---|
| Dr. Louis leakey and his wife | They discovered the oldest human skull at olduvai Gorge in Tanzania. |
| Dr. posnansky | He discovered the remains of the Bachwezi at Bigobyamugenyi in ssembabule in Uganda. |
| Chitik and Js Kikman | They excavated the remains of the Portuguese at the coast of East Africa. |
| Dr. Richard Leakey | He found the remains of early man at Kobifora near L. Turkana in Kenya |

Qn: Why was every information got by the archaeologists handled with care?

- To avoid damage of evidence.

**Ways of determining the date /period of artifact.**

i) Excavation.

ii) Typology.

ii) Carbon – 14 dating.

## What are fossils?

These are remains of early man.

N:B The excavated fossils are kept in a museum.

Qn: **What name is given to a person who takes care of a museum?**

Curator.

## Museum.

A museum is a place where artistic, cultural and historical items are kept for public viewing.

## Examples of museums in East Africa.

| **Country** | **Museum** |
|---|---|
| Uganda | Uganda Museum (Kampala)<br>Kabale Museum |
| Kenya | Nairobi<br>Kisumu<br>Fort Jesus<br>Meru |
| Tanzania | Dar – es- salaam<br>Arusha |
| Burundi | Gitefa<br>Burundi Geological museum |
| Rwanda | Butare<br>Kabgayi<br>Ruhengeri |
| South Sudan | National Archive Museum |

## Importance of museums.

- They are source of employment/jobs.
- They promote tourism.
- They are used for educational research.
- They create market for local craft materials.

**Archaeological sites.**

These are places where remains of early man are found.

**Examples of archaeological sites in East Africa.**

1. **Uganda**

   Nyero rock paintings, bigobyamugenyi, paara,sango bay, magozi, Luzira, Nsongezi

2. **Kenya.**

   Kanam, Kariandusi, Yalaalegi, Kanjera, fort ternam, olorgesaile, Rusinga Island

3. **Tanzania.**

   Olduvai gorge, lake Eyasi, Kisese,Apis rock, Kondoa, cheke.

4. **Rwanda.**

   Nyrankuba, Nvugwe forest, Isimilia.

5. **Burundi.**

   Nyungwe.

**Sample Questions.**

1. Why is East Africa referred to as the cradle land of man kind?
2. Give the meaning of the following terms

i) Zinj

ii) Anthropus

iii) Zinjanthropus

iv) Zenj empire

3. Name the country in East Africa where the oldest human skull was discovered?
4. Why is Oldvai Gorge remembered in the history of East Africa?
5. State the economic importance of oldvai gorge to Tanzania?

6. What is history?

7. Mention three sources of history.

8. Name the oldest source of history.

9. What was pre historical period?

10. Mention any two sources of written history

11. State the reason why it was wrong for the Arabs to name the area along the coast Zenj Empire?

- The area did not have an emperor.

**A MAP SHOWING STONE AGE SITES EAST AFRICA.**

## STAGES OF DEVELOPMENT OF EARLYMAN (EVOLUTION OF MAN)

Stages of early man development include the following;

ii) Stone age

ii) Iron age

### Stone age period.

Qn: What does the term stone age period mean?

This was the time when early man used tools made out of stones.

Why was stones age period called so?

It was called so because early man used tools made out of stones.

### Stages of stone age period.

There are three stages of stone age period namely;

i) Old stone age period (palaeolithic)

ii) Middle stone age period (metholithic)

iii) New stone age period(Neolithic)

**Old Stone Age period.**

- This was the first stage of Stone Age.
- In this period, early man lived a wildlife way of life.
- He was a hunter and gatherer.

**Characteristics of early man in the old stone age.**

- He had no permanent homes.
- He had hairly body.
- He used tools made out of stones.
- He moved naked.
- He ate row meat.

**Places where early man lived.**

- Under big trees.
- River banks.
- In caves.

Qn: Why did early man live near lakes and rivers?

- To carryout fishing.
- To trap animals that would come to drink water.
- To get water for drinking.

Qn: Why did early man live under bigs and coves?

- To get shelter

Ways early man obtained food.

- By gathering wild fruits
- By hunting
- By fishing
- By collecting wild honey
- By uprooting some plants

**Examples of early man's food.**

- Honey, Row meat, insects, fish, wild fruits, plant roots

**Examples of early man's tools**

- Bolas, Bone needle, club, Hand axe,

- Spear, cleaver, pick, Thumbnail, scrapper, bow and arrow

**Materials early man used to make tools.**

- Bones
- Stone
- Sticks
- Skins
- Threads
- Banana fibres
- Clay

**Methods early man used to kill animals**

- Using spears
- Using bolas
- Using bow and arrow
- Digging pit traps

**How early man lived a primitive life?**

- He ate row meat
- He moved naked
- He lived in caves

Diagram of early man's tools

**Uses of early man's tools**

a) **Hand axe**

- For skinning animals
- For sharpening tools
- For uprooting
- For chopping meat
- For shaping tools

b) Bolas

- For trapping fast running animals

c) **Spear**

For hunting

NB: The discovery of fire marked the end of the old stone age and the beginning of the middle stone age.

**Uses of fire to early man**

- For protection against wild animals
- For roasting meat
- For warmth during cold days and nights
- For hardening tools
- For lighting in caves.
- For shaping tools.

Qn: How did early man discover fire?

By rubbing dry sticks together

Qn: Which discovery enabled early man to live in caves?

Discovery of fire

**MIDDLE STONE AGE PERIOD (METHOLITHIC)**

The following were the changes in the middle stone age;

- Man made better tools.
- Man started living in caves.
- Man started using animal skin's as blankets.
- Man's brain started developing.

NB: The discovery of farming marked the end of the middle stone age and the beginning of the new stone age.

Qn: What discovery enable early man to live a settled life?

- Discovery of farming

2. Why did early man live a settled life after the discovery of farming?

- To take care of his crop

NB: In the middle stone age period, man tamed the first animal (Dogs)

- As man's thinking ability started developing, he was then called Homosapien.

## NEW STONE AGE (NEOLITHIC)

- The discovery of farming marked the beginning of the New stone Age

### Changes made in the New stone age

- Man had a welldeveloped brain.
- Man started to live in simple huts.
- Man started growing crops and rearing animals.
- Man lived in villages and communities.
- Man discovered iron smelting.
- Man made better tools like arrows and bows.

NB: The discovery of iron smelting marked the end of the stone age period.

### Examples of animals kept by early man

- **Dogs**
- Goats
- Sheep
- Cattle

### Uses of a dog to early man

- For hunting
- For protection against wild animals
- For providing company

## IRON AGE

Qn: What was iron age period?

This was the time when earlyman used tools made out of iron.

A person who makes tools out of iron is called a **black smith**

The idea of iron smelting started **at Meroe by the cushites**

Qn: Which people introduced iron smelting in East Africa /Uganda?

Bachwezi

Qn: How is Meroe important in the history of East Africa?

It is where the idea of iron smelting began

**Examples of tools made from iron**

- Knives
- Axes
- Hoes
- Panga
- Bow and arrows

How did the discovery of iron change the life of early man?

- He made better tools for hunting.
- He made better tools for farming.
- He made better weapons for defence.
- It increasedfood production.

Give the meaning of the terms below

i) Blacksmith

A person who makes tools out of iron.

ii) Blacksmithing

The act of making tools out of iron.

Qn: Which discovery of early man increased food production?

- Iron smelting

**Sample questions**

1. Give the meaning of the following terms

a) Stone age period

b) Iron age period

2. What discovery enables earlyman to do the following

a) Living in caves

b) Living a settled life

3. Why did earlyman live a settled life after the discovery of farming?

4. How did earlyman protect himself from his enemies?

## EARLY MIGRATIONS TO EEST AFRICA.

i) Migration

This is the movement of people from one place to another for settlement.

ii) Immigration

This is the process of coming into a foreign country for permanent settlement.

iii) Immigrant

A person who comes into a foreign country for permanent settlement

iv) Emigration

The process of leaving one country for another country for permanent settlement.

v) Emigrant

A person who leaves a country to another country for permanent settlement.

### Ethnic groups in East Africa

Qn: What is an ethnic group?

An ethnic group is a group of people with the same origin and speak related languages.

What is a tribe?

A group of people with the same origin culture and speak the same languages.

Qn: What is another name for an ethnic group?

Tribal group

Characteristics of an ethnic group

- People have the same origin.
- People speak related languages.
- People have similar occupation.
- People have the same traditional practices.
- People have the same traditional beliefs.

Causes of early migrations to E.Africa

- Over population in their homelands
- Civil wars in their homelands
- Natural disasters in their homelands
- Epidemic outbreak in their homelands.
- Famine outbreak in their homelands
- Internal and external conflicts in their homelands

Problems faced by early migrants during their migrations

- Attacks from dangerous wild animals.
- Poor transport and communication
- Shortage of food and water
- Difficult in crossing physical features
- Attacks from hostile tribes.

Major Ethnic groups in East Africa

i) Bantu

ii) Cushites/hamates

iii) Nilotics/River- lake Nilotes/Luo speakers

iv) NiloHamites

v) Sudanic

**BANTU ETHNIC GROUP**

- It is the largest ethnic group in Uganda, East Africa and Africa at large.
- They had their origin in Cameroon highlands.
- They first settled in congo basin before entering East Africa.

- They entered E. Africa through the Western direction.
- They have a common rootword in most of their sentences "NTU" when referring to people.
- The main occupation of the Bantu is crop farming/cultivation.
- When they entered East Africa, they settled in the interlacustrine region and displaced the Bushmen.
- The Bushmen are believed to be the original inhabitats of East Africa.

Characteristics of Bantu ethnic group

- People have the same origin.
- Their main economic activity is cultivation.
- People have a common root word "ntu"

Groups of Bantu in East Africa

i) Coastal /Eastern Bantu

ii) Southern Bantu

iii) Western Bantu

iv) Highland Bantu

v) Central Bantu

Qn: What are interlacustrine regions?

These are regions between the great lakes of East Africa.

Examples of great lakes of East Africa

i) L. Victoria

ii) L. kyoga

iii) L. Albert

iv) L. Edward

v) L.Tanganyika

Qn: Why did the Bantu settle in the interlacustrine region?

- Presence of good climate.
- Presence of fertile soils

**Sample Questions**

1. Name the last Bantu group to enter East Africa.
2. Name the last Bantu tribe to enter East Africa.
3. Where did the Ngoni migrate from to enter East Africa?
4. Name the cradle land of the Ngoni.
5. **Give two reasons why the Ngoni migrated to East Africa**
   - Due to civil wars of king Shaka of the Zulu
   - Due to internal and external conflicts
6. **Who was the leader of the Ngoni in East Africa?**

   Zwangendaba
7. **What name was given to the journey of the Ngoni to E.Africa?**

Mfacane.

**Bantu tribes in East Africa**

| UGANDA | KENYA | TANZANIA |
|---|---|---|
| Baganda | Akamba | Chagga |
| Banyankore | Kikuyu | Nyamwezi |
| Banyoro | Meru | Ngoni |
| Batooro | Abaluhya | Yao |
| Basoga | Pokombo | Fipa |
| Bagisu | Taita | Gogo |
| Bakiga | | Ngindo |
| Bamba | Embu | Sukuma |
| Bakonzo | Gusii | Pogoro |
| Bagwere | Baziba | |
| Banyole | Zaroma | |

NB : The Hutu is the only Bantu tribe in Rwanda and Burundi

**Highland Bantu**

- They live on Mountain slopes. They include the following

1. **Mt. Elgon**

   Bagisu

2. **Mt. Rwenzori**

   Bakonzo/ Bakonjo

   Bamba

3. **Mt. Kilimanjaro**

   Chagga

4. **Mt.mufumbira**

   Bafumbira

   Name the Bantu tribe that lives in Kenya Highlands

   Kikuyu

   Similarities between the Bagisu and the chagga in terms of ;

a) Culture

   Both carryout circumcision

b) Ethnicity

   Both are Bantu tribes

c) Settlement

   Both live on mountain slopes

d) Occupation

   Both grow Arabica coffee

   What is the importance of circumcision to the Bagisu?

- It iniates boys into adulthood
- It promotes culture

   Causes of Bantu Migration

- Internal and external conflicts
- Epidermic diseases

- Civil wars
- Famine outbreak
- Overpopulation
- They wanted to lookfor good climate

**Effect of Bantu Migration (Negative)**

i) They displaced the Bushmen

ii) They led to population increase where they settled

iii) They caused wars and conflicts where they passed

**Positive effects**

i) They introduced new crops.

ii) They introduced new cultures/languages.

iii) They formed kingdoms and chiefdoms.

iv) They introduced the growing of bananas on plantations.

What enabled the Bantu to form Kingdoms?

- They lived a settled life/ They had permanent settlements.

## THE NILOTICS /RIVER- LAKE NILOTES

The River- lake nilotes are also called Nilotics /Luo speakers.

They speak Luo Language.

Qn: Why were the river lake Nilotics called so?

- They lived along the river Nile.

Qn: Why did the river lake Nilotes settle near rivers?

- To carryout fishing

N:B They were mainly pastoralists /cattle keepers

- They originated from Bahr – el – ghazel in the present day southern south Sudan.
- They entered East Africa from the North and first settled at Pubungu the present day Pakwach.

Qn: Why is Pubungu remembered in the history of East Africa?

- It is where the river lake Nilotes firs settled in East Africa
- After misunderstandings, they split into several groups.
- Some remained in Uganda while others went to Kenya.

**The River - lake nilotes are related to the following tribes in South Sudan:**

i) Dinka

ii) Nuer

iii) Madhi

iv) Anwale

**Tribes under River – lake nilotes in E.Africa**

i) Alur} in Uganda

ii) Japadhola} in Uganda

iii) Acholi} in Uganda

iv) Jaluo} in Kenya

NB:**TheJaluo in Kenya are divided into three sub groups namely:**

i) Jok – Ojok

ii) Jok – Omolo

iii) Jok -owiny

**Sample Questions**

1. How did the following groups come into existence?

a) Alur

Through the intermarriage of the lendu and the luo.

b) Luo Baito

Through the intermarriages of the luo and the bito

2. Who was the founder of the Luo Babito?

IsingomaRukidiMouga

3. Name the dynasty of the Luo Batbito.

Luo – babito dynasty

4. Name the Nilotic tribe in Tororo district.

Japadhola

**Effects of migration of the Nilotics (Positive)**

- They introduced luo language.
- They introduced new crops.
- They introduced pet names.
- They formed Luo babito dynasty.
- They introduced short horned cattle.

**Negative effects**

- They displaced people in areas where they settled.
- The luoinvasion led to the decline of Bunyoro- Kitara Empire.
- They caused wars in areas where they passed.
- They led to overstocking of animals.

**Reasons for the migration of the Nilotics.**

- To look for water and pasture for their animals.
- Disease outbreak in their cradle land.
- Overpopulation in their cradle land.
- Internal and external conflicts.
- Famine outbreak in their homeland.

**PLAIN NILOTES.**

- They are also called Nilo hamates

Qn: Why were the plain Nilotes called so?

- They settled in plain areas
- They migrated from Ethiopia and entered East Africa through the North of
- L. Turkana
- They were pastoralists /cattle keepers.

- They migrated when looking for water and pasture for their animals.

**Tribes under plain Nilotes in East Africa**

| Uganda | Kenya | Tanzania |
|---|---|---|
| Karimajong | Turkan | |
| Iteso | Masai | Masai |
| Jie | Samburu | |
| Kuman | | |
| Langi | | |
| | | |
| | | |

Qn: Why didn't Karimajong form Kingdoms?

They had no permanent settlement.

Reasons why some plain nilotes changed from pastoralism to mixed farming.

- They settled in areas with fertile soils.
- They settled in areas with favourable climate.
- They were influenced by their neighbours the Bantu.

**HIGHLAND NILOTES**

- They migrated from Ethiopia.

Qn: Why were the highland Nilotes called so?

- They settled in highland areas of East Africa.
- They entered East Africa from the North.

**Tribes under highland nilotes**

| Uganda | Kenya | Tanzania |
|---|---|---|
| Sabiny | Marakweti | |
| Pokot | Kipisigis | Dadong |
| | Pokot | |
| | Sabiny | |
| | Nandi | |
| | Kalengin | |

N: B The sabiny in Uganda live on the slopes of Mt. Elgon.

- The sabiny grow millet, wheat and maize.

**CUSHITES/HAMITES**

They were mainly pastoralists.

They came from the Horn of Africa(Somalia).

Qn; It was the first ethnic group to enter East Africa and it is the smallest in East Africa

They were divided into two namely:

i) Eastern cushites

ii) Southern cushites

Qn: Mention the countries found in the horn of Africa

i) Somalia

ii) Eritrea

iii) Djibouti

iv) Ethiopia

Qn: From which direction did the Hamites enter Uganda?

- South West

**Tribes under cushites**

| **Uganda** | **Kenya** | **Tanzania** | **Rwanda** | **Burundi** |
|---|---|---|---|---|
| Bahima | Boran | Mbugu | Tutsi | Tutsi |
| Bahinda | Somali | Hamwa | Hima | Hima |
| Basita | Galla | Iraqw | | |
| | Oroma | | | |
| | Rendille | | | |
| | Dohalo | | | |
| | | | | |

Qn: Name the descendants of the Bachwezi in Uganda.

- Bahima.

**SUDANIC**

They migrated from Juba in South Sudan.

Qn: What was the major occupation of the sudanic?

- Cattle keeping

2. Name the place in Uganda where the sudanic settled.

- West Nile

**Tribes under the sudanic**

i) Kakwa

ii) Madhi

iii) Lugbara

iv) Okebu

iii) Lendu

**MAP SHOWING THE MIGRATION OF THE ETHNIC GROUPS**

## ORGANISATION STRUCTUREOF THE BANTU IN THE PRE –C OLONIAL EAST AFRICA

Give the meaning of the terms below:

a) Pre –colonial period

This was the time before colonialism.

b) Pre – colonial East Africa

This was the time before colonialism in East Africa

ThepeopleofprecolonialEast Africa were politically, socially and economically organized.

**How were the people of E.Africa organized during pre – colonial time?**

a) Politically

- They formed kingdoms
- They formed empires
- Through chiefdoms
- Through clans
- Through principalities

b) Economically

- They carried out iron smelting
- They carried out barter trade
- They reared domestic animals
- They carried out crop growing
- They carried out fishing

c) Socially

- They carried out hunting
- They carried out wrestling
- By worshipping small gods
- Through rock painting
- Through food gathering according to age and sex

Qn: Name the two systems of governance that existed during the pre colonial society

a) Centralised governance

b) Decentalised / Non – centralized governance

**What was:**

i) Centralized governance

This was a system of governance where kingdoms were formed and kings were the supreme rulers.

ii) Non – centralized / decentralized governance

This was a system of governance where chiefdoms were formed and chiefs were the supreme rulers.

**KINGDOMS**

- A kingdom is an area ruled by a king or Queen.
- Most Kingdoms were formed by the Bantu in the interlacustrine region.
- Those kingdoms were called interlacustrine kingdoms.

**The current kingdoms in East Africa are.**

| **Kingdom** | **Title of ruler** |
|---|---|
| Buganda | Kabaka |
| Busoga | Kyabazinga |
| Bunyoro | Omukama |
| Toro | Omukama |
| Rwenzururu | Omusinga |

Qn:**What title is given to the leaders of the following chiefdoms**?

- Acholi_____Rwot
- Iteso_____Emorimor Alur Rwoth
- Japadhola_____Adhola
- Bugisu_____Umukuka

## Characteristics of Kingdoms

- They have hereditary rulers.
- They have royal regalia.
- They have a single supreme king at a time.
- They have social and cultural institutions.
- The king has absolute powers.
- They have burial places called royal tombs.

## Advantages of kingdoms

- They promote culture.
- They promote unity
- They promote morals
- They limit power struggle.
- They mobilize people for national tasks e.g. immunization.
- They promote development.
- They employ people.
- They give scholarships and bursaries to students.

## Disadvantages of kingdoms

- They promote tribalism.
- They promote dictatorship.
- They create division among people.
- The royal family is given more respect than other people.
- There is unequal distribution of wealth among people.
- They promote regional development rather than national development.

## Ancient Kingdoms in East Africa

- Ankole
- Buganda
- Bunyoro
- Rwanda
- Urundi
- Wanga
- Toro
- Karagwe

A MAP SHOWING ANCIENT AND CURRENT KINGDOMS IN EAST AFRICA

## BUNYORO KITARA EMPIRE

- It was founded by the Batembuzi/Abatembiuzi.
- Abatembuzi founded the Tembuzi dynasty.
- The first tembuzi ruler was **Ruhanga.**
- He lived with his brother **Nkya.**
- The tembuzi dynasty lasted for 4 or 5 regimes.
- The Batembuzi were referred to as demi -gods by historians.

Qn: Why were the Batembuzi referred to as demi – Gods by Historians?

They used to perform miracles

Qn: How did the tembuzi dynasty come to an end?

After the arrest of King Isaza in the Underground world

Qn: What factor led to the final collapse of the Tembuzi Dynasty?

The arrest of King Isaza in the underground world

NB: The last ruler of the Tembuzi dynasty was **Isaza**

## THE BACHWEZI IN BUNYORO KITARA EMPIRE

- The Bachwezi are believed to have succeeded the Batembuzi in Bunyoro Kitara Empire.
- They founded the Chwezi dynasty to replace the Tembuzi Dynasty.
- **Ndahura**, the grandson of Isaza was the founder of the chwezi dynasty and their first ruler.
- **Wamala** was the last ruler of the Chwezi Dynasty.
- The Bachwezi were succeeded by the Luo.
- The luo founded the Luo Babito dynasty

## Economic contributions of the Bachwezi

- They introduced long horned cattle.
- They introduced salt mining atL.Katwe.
- They introduced coffee cultivation.
- They introduced iron smelting.
- They introduced pottery.
- They introduced bark cloth making.

## Social contributions of the Bachwezi

- They introduced local chess.
- They introduced cow hides sandals.
- They introduced the building of grass hatched houses.

## Political contributions of the Bachwezi

- They introduced royal regalia.
- They introduced centralized monarchy.
- They introduced reed palaces.
- They introduced a ditch system of protection.

Qn: What are royal regalia?

These are symbols of a kingdom.

Examples

i) Royal Stool

ii) Royal drum

iii) Royal spear and shield

iv) Roaya drum

Qn: Where did the Bachwezi establish their headquarter in Uganda

Bigobyamugenyi

Factors for the collapse of the Chwezi Dynasty

- Death of the beloved cow.(Bihogo)
- The lou invasion (Final blow)
- The empire was too large to be ruled by one person.
- Epidermicdiseasr outbreak
- Internal and external conflicts
- Prolongef drought and feminine
- Weak army
- Weak leadership
- Greed for power by princenss

Qn: What factor led to the final collapse of the chwezi dynasty?

The Luo invasion

NB:The collapse of the Chwezi Dynasty marked the collapse of Bunyoro Kitara empire and Bunyoro Kingdom was founded.

Factors for the collapse of Bunyoro Kitara Empire

- Luo invasion.
- Internal and external conflicts.
- Big size of the empire to be ruled by one person.
- Epidermic disease outbreak.
- Prolonged drought and famine.
- Weak army.
- Weak leadership.

Qn: What factors led to the final collapse of the bunyoro Kitara Empire?

The Luo invasion

Qn:How did the luo invasion lead to the Collapse of Bunyoro Kitara Empire?

- It caused wars among the Banyoro.
- It caused disunity among the Banyoro.

Qn: How did the size of Bunorokitara empire lead to its collapse?

It was too big to ruled effectively by one person.

**BUNYORO KINGDOM**

- It was founded by IsingomaRukidiMpuga a twin brother to Kato Kimera.
- IsingomaRukidiMpuga founded the Luo Babito dynasty to replace the chwezi dynasty.
- Their local ruler was given a title of Omukama
- Isingoma's twin brother Kato Kimera is believed to be the founder of Buganda Kindgom according to Luo tradition.
- The famous ruler of Bunyoro Kingdom was Omukama Kabalega and His trained army was called **Abarusura**

Qn:Who were the abarusura?

A barusura were the trained soldiers of Omukama Kabalega.

**BUGANDA KINGDOM**

- Buganda Kingdom is believed to have been founded by Kato Kimera according to Luo tradition and Kintu according to Ganda tradition.
- The title given to the King of Buganda is **Kabaka.**
- The Kabaka is the political head and commander in chief of the Kingdom.
- He appoints ministers and chiefs to assist him in managing the kingdom.
- Buganda was divided into counties(Amasaza), sub counties( Amagombolola) and parishes( Emiruka)

Factors for the growth of Buganda Kingdom

- It had strong army.
- It had powerful leaders.
- The baganda were united.
- Presence of fertile soils and enough food supply.

- Buganda acquired guns from the Arabs.
- It was strategically located on the shores of L. Victoria.
- Buganda was small insize and easy to control.
- Decline of Bunyoro Kitara.

Qn: **How did the following factors help Buganda to Expand?**

a) Acquisition of guns from the Arabs

- They protected themselves against enemies.
- They used guns to raid their neighbours.

b) Strategic location near Lake Victoria

L.victoria provided natural protection against their enemies in the south.

c) Small size

It was easy to be ruled by one king.

d) Fertile soils

It improved food production

**WANGA KINGDOM**

- It was the only kingdom in the presentday Kenya.
- It was founded by Abaluhya.
- The title given to the traditional leader was **Nabongo**
- The first capital city of Wanga was Imanga
- The most famous Kings of wanga were **WamukoyaNetya** and his son **Osunduwa**.
- The last king of Wanga was Mumia.
- Nabongo Mumia became a famous collaborator of the British Colonialists.

NB: Wanga kingdom does not exist today

Qn: How did Wanga Kingdom came to un end?

After the British colonial government rejected their king

**KARAGWE KINGDOM**

- Its founder was **Ruhinda**, the founder of Ankole Kingdom.
- The major clans were Banyambo and Basita

- The title given to the leader of Karagwe was **Muharambwa**.
- Muharambwa was responsible for supervising land, blessing hoes and harvests and blessing women to bear children.
- **Ndagara** was the most successful King of Karagwe
- King Rumanika welcomed the first European Explores to Karagwe.
- These were John Speke and James Grant.
- Due to external interference from the Arabs and Buganda Kingdom, Karagwe collapsed.

NB: Karagwe Kingdom does not exist today.

## NYAMWEZI EMPIRE

- The Nyamwezi people were named so by the coastal dweller as the people from the direction of the moon.
- The lived in small independent chiefdom.
- Each Chiefdom was ruled by achief called Ntemi or Mtemi
- The Mtemi was the spiritual and political leader
- The famous leaders of Nyamwezi were Mirambo and NyunguYaMawe.

Qn: What does the term Nyamwezi mean?

Nyamwezi means people of the moon.

2. Why were the Nyamwezi called so?

They came from the direction of the moon.

## CHIEF MIRAMBO

- He was the most famous leader of the Nyamwezi
- He established his capital at Urambo in Ugowe Chiefdom
- He built a strong army called Ruga – Ruga
- His empire grew stronger during the long distance trade because he controlled the trade routes.
- Mirambo was strong and he used his army to defeat his enemies.
- Mirambo died in 1884 and his empire collapsed.

Qn: Who were the Ruga – Ruga?

These were the trained soldiers of chief mirambo.

2. Compare Abarusura and Ruga – Ruga?

- Both promoted peace and security.
- Both helped to expand their territories.

**NYUNGU YA MAWE**

NyunguYamMawe meant a pot of stones.

He established his capital at Kiwele

He participated in the long distance trade and got guns to expand his empire.

NyunguYamMawe died he was succeeded by his daughter.

**CULTURE**

Culture refers to customs, beliefs and values of a given society

Or

Culture refers to social norms of a given society

**Types of culture**

i) Material culture

ii) Non material culture

Material culture includes physical things like:

i) Clothes

ii) Crafts

iii) Weapons

iv) Food

Non material culture include invisible things like;

i) Beliefs

ii) Mode of conduct

iii) Taboos

iv) Security

v) Language

vi) Name

Evidence of culture in Uganda

- Naming of children
- Circumcision
- Marriage
- Burying the dead
- Religious beliefs
- Twin initiations

Importance of culture

- It promotes morals.
- It promotes unity.
- It promotes peace and harmony.
- It promotes heritage.
- It promotes leadership training.

Ways of preserving culture

i) Through initiation /culture ceremonies.

ii)Through organizing cultural shows /galas.

iii) Through telling myth and legends.

iv) Through teaching local languages.

v) Through listening to programmes about culture

Vi) Through dressing in cultural wears

vii) Instilling cultural values and moral in children.

Qn; How is culture practiced in schools?

i) Through performing cultural shows /galas/

ii) Through telling myth and legends

iii) Through teaching local languages

v) Through music, dance and drama(MDD)

## Social activities

Social activities are ceremonies /functions that bring people together.

Examples of social activities

- Funeral rites
- Burial ceremonies
- Child naming
- Cultural circumcision
- Wrestling
- Twin initiation

Importances of social activities

- They promote unity
- They promote culture
- They promote peace /harmony
- They promote tourism
- They promote morals
- They help children to know their relatives.

## LONG DISTANCE TRADE

Qn: Give the meaning of the terms below:

i) Trade

Trade is the buying and selling of goods.

ii) Long distance Trade

Long distance trade was the trade conducted between the coastal people and the people of the interior of East Africa.

iii) Why was long distance trade called so?

It involved moving long distances.

- Traders in Long distance trade moved in Caravans

iv) Why did traders in Long Distance Trade move in caravans?

i) For protection against enemies.

ii) To carry good in large quantities.

Qn: What is a caravan?

A caravan is a large group of traders moving together.

NB: Barter trade was the major medium of exchange during LDT.

Qn: Why was barter trade considered as the major medium of exchange during L.D.T?

There was no any other form of currency

**Participants in Long Distance Trade**

| UGANDA | KENYA | TANZANIA |
|---|---|---|
| Baganda | Akamba | Yao |
| Banyoro | | Ngoni |
| | | Nyamwezi |
| | | Hehe |
| | | Gogo |

The coastal Arabs brought goods to the interior of East Africa to exchange for other goods.

Goods brought by the Arabs in East Africa

- Guns
- Cosmetics
- Mirrors
- Swords
- Beads
- Cloths
- Household items
- Ornaments

Goods Arabs got from the Interiors

- Slaves
- Minerals
- Ivory
- Hides and skins
- Tortoise shells
- Rhinoceros horns

Qn: How did L.D.T effect the number of elephants in East Africa?

- They were killed for ivory.

Effects of the Long DistanceTrade

positive effects

i) It led to growth and expansion of kingdoms.

ii) It led to spread of Islam.

iii) It led to the development of some towns.

iv) New trade items were introduced.

v) Swahili culture was introduced.

vi) Kings and chiefs became rich.

Negative effects

i) It led to slave trade.

ii) It led to inter tribal wars.

iii) Death of many people.

iv) Some families broke up.

How did Swahili culture and language come into existence?

After the intermarriage of the coastal Bantu and the Arabs.

Note:**A part from ethnic groups, there are some other groups of people who came to East Africa namely:**

i) Arabs

ii) Indians

**Arab traders**

- They came from a continent called Asia in countries like Saudi Arabia and Persia.
- They sailed across the Indian Ocean using boats called dhows.
- The dhows were pushed by the monsoon winds across the Indian Ocean to and from the coast of E. Africa.
- Monsoon winds are called so because they are seasonal

**Sample Questions**

1. Name the first group of foreigners to come to East Africa
   - Arab traders
2. How were the monsoon winds helpful to the early Arab traders?
   - They helped to blow the dhows of the Arabs to and from the coast of E. Africa
3. Name the first Arab trader to come to East Africa.
   - Ahmed Bin Ibrahim
4. Name the king of Buganda who welcomed the first Arab traders
   - Kabakasuuna II
5. Which gift was brought to the King of Buganda by the first Arab traders?
   - Mirrors

**Reasons for the coming of Arabs to E. Africa**

i) To trade

ii) To spread islam

iii) They were running away from religious wars.

**Why Arabs settled at the coast of E. Africa**

- Presence of good climate at the coast.
- The coast was strategically located.
- To spread Islam at the coast with the coast.
- To trade with the coastal people.
- Presence of fertile soils at the coast.

**Why did Islam take long to spread in East Africa?**

i) African men feared circumcision.

ii) Arabic language was hard for Africans.

iii) Arabs were hated due to their slave trade.

iv) Arabs were more interested in trade than spreading Islam.

Methods Arabs used to spread Islam

- Discriminating nonmuslims in trade.
- Taking non muslims as slaves.
- Building quaranic schools.
- Through jihads.

**ZENJ EMPIRE**

- Zenj empire means land of the blackman.
- It was founded by an Arab trader called Hassan Bin Ali
- It stretched from Mogadishu in Somalia to sofala in Mozambique.
- The zenj empire was a trading empire
- The largest and richest town was Kilwa
- The main trading market was Zanzibar

Qn: Why was it wrong for the Arabs to name the area at the coast Zenj empire?

Other coastal towns were:

i) Dar es salaam

ii) Malindi

iii) Mombasa

iv) Tanga

The major activity at the coast was **trade**.

Qn: Name the major cash crops grown at the coast of E. Africa

- Cloves

Qn: Mention any two products obtained from cloves.

i) Spices/ food flavours

ii) Perfumes

NB: Salt was used to preserve meat, hides and skins

Some slaves were used to carry goods as porters

**Seyyid said** was the most famous sultan of Zanzibar

**Effects of the Arabs in E. Africa**

**Positive effects**

i) They spread islam.

ii) They introduced new crops like cloves, coconuts.

iii) They introduced cowrie shells.

iv) They introduced new culture and languages.

v) They developed some coastal towns.

v) They introduced Zebu cattle (short horned cattle).

vi) They linked East Africa to Asia.

vii) They introduced the building of houses using stones.

viii) They introduced new trade items.

Negative effects

i) They introduced slave trade

## SLAVE TRADE

Qn:What is slave trade?

Slave trade is the buying and selling of people as slaves.

It was introduced by the Arabs in E. Africa

Qn: What is slavery?

- This is the act of being a slave. **OR**
- This is the owning of a person by another person working in hard conditions without payments

Who is a slave?

This is a person owned by another person and is forced to work for them without pay.

Why slaves were needed?

i) To work in plantations

ii) To work in mines

iii) To do domestic work

iv) To work as porters

How slaves were obtained.

- By raiding villages
- Through inter tribal wars
- Through barter trade
- Capturing lonely people

NB: The main slave trade market in E. Africa at the coast was **Zanzibar**

- The main inland slave trade market in East Africa was **Tabora/ Kazeh**

Prominent / notorious slave traders

i) Tippu Tip (Ahmed Bin Muhammad)

ii) Abu sand

iii) Msiri

iv) Fundikiri

Countries where slaves were taken

i) Soudi Arabia

ii) America

iii) Spain

iv) India

V) Holland

vi) France

vii) Mauritius

ABolition of slave trade in east Africa.

- The move to abolish slave trade started within the British parliament.

People /personalities who fought against slave trade

- William Wilberforce
- Granville sharp
- Adam smith
- Henry Thorton
- Thomas Clarkson
- Sir Samuel Baker
- Dr. David Livingstone

NB: Adam smith urged in his book that "A paid worker works better than a slave"

Dr. David Livingstone wrote a book about the evils of slavetradepreached about it.

How did the following people fight against slave trade?

a) Dr. David Livingstone

- He preached against it
- He wrote books/reports against it
- He collected funds to fight against it.

b) Sir Samuel Baker

- He gave guns to the Acholi to fight slave trade
- He built forts.

Qn: Name the European country that helped to fight slave trade in

East Africa

Britain

Methods used to end slave trade in East Africa.

i) Signing treaties with local kings and chiefs

ii) Constructing the Uganda railway

iii) Sending Christians missionaries

iv) Closing slave trade markets

v) Declaring it illegal

Why slave trade took long to end.

i) African Kings and Chiefs supported it.

ii) Many European countries wanted to continue getting cheap labour.

iii) There was great need for slaves outside East Africa.

**Treat signed to end slave trade**

i) Moresby treaty

- It was signed in1822.
- It stopped Arabs fromselling slaves to any Christian country.

ii) Harmmerton treaty

- It was signed in1845
- It stopped the export of slave from Africa to any other country

iii) Frere treaty

- It was signed in1873
- It closed all slave trade markets in the world

**Effects of slave trade**

Negative effects

- It led to depopulation/death of people.
- It led to destruction of property.
- It led to separation of families.
- It led to famine.
- It created inter tribal wars.
- It led to shortage of labour.

Positive effects

- Some kings and chiefs became rich.
- It led to growth and expansion of some kingdoms.
- Some kingdoms got guns for protection.
- New trade items were introduced.
- It linked East Africa to the outside world.

How did slave trade lead to famine?

- Strong men and women who would cultivate were taken as slaves

Qn:How did the construction of the Uganda railway help to end slave trade in East Africa?

- Trains were used to transport goods instead of slaves.
- It made the movement of the British troops easy who fought against slave trade.

## BARTER TRADE

Qn: What is barter trade?

This is the exchange of goods for goods or service.

Advantages of barter trade

- It promotes friendship.
- It enables people to get what they wanted.

Disadvantages of barter trade

- It involves cheating.
- It is time wasting.
- There is no standard unit of measurement.
- It is difficult to move with bulky goods over long distances.
- There is coincidence of wants.

NB: Barter trade was replaced by **monetory trade.**

Monetary trade is the use of money as a medium of exchange.

Qn: What is the legal tender of Uganda?

Shillings

Money refers to acceptable medium of exchange.

**Qualities of money**

- It should be portable.
- It should be divisible.
- It should be durable.
- It should act as a standard stock value.

**Cowries shells** was the first form of money to be introduced in East Africa by the Arabs

**Rupees** was the second form of money to be introduced in East Africa by Indians

**TYPES OF TRADE**

There are two types of trade i.e

i) Home trade

ii) International trade

Home trade

This is a type of trade carriedoutwithin a country.

International trade

This is a type of trade carried out outside the country.

Terms used under international trade

i) Bi – lateral trade

This is the trade carriedout within two countries

ii) Multi – lateral trade

This is the trade carried out in more than two countries /many countries.

## INDIAN TRADERS

They came from india

Most of them came to construct the Uganda railyway

Qn: How did the Indian Community come into existence in East Africa?

- After the completion of the Uganda railway
  The Indian money lenders were called **Banyans**

Contributions of the Indians to East Africa

- They built Uganda railway
- They promoted banking
- They built schools
- They introduced rupees as a form of currency
- They set up industries
- They introduced new crops

Qn: Why AldinaVisram remembered in the History of Uganda?

- He opened the first shop in Kampala.
- He started the banking system in Uganda

## POPULATION OF EAST AFRICA

Qn: What is population?

Population is the total number of people living in an area at a given time.

Terms related to population

i) Population Census

This is the general counting of people in an area at a given time.

ii) Population distribution

This is the way people are spread in an area.

iii) Population density

This is the total number of people in an area per square Kilometer.

Iv) Population explosion

This the sudden increase of the number of people in an area.

v) Population growth

This is the gradual increase of the number of people in an area.

vi) Even population

This is when the number of people in an area is almost the same per square kilometer.

vii) Dense population

This is when an area has more people than the size of the land.

viii) Sparse population

This is when an area has few people compared to the size of land.

ix) Over population

This is when the number of people in an area is more than the available resources.

x) Under population

This is when the number of people in an area is less than the available resources.

xi) Census night

This is the night before population census is carried out.

xii) Optimum population

This is when the available resources are equal to the number of people.

xiii) Moderate population

This is when an area has neither few nor many people.

xiv) Population size

This is how large or small the number of people in an area is.

xv) Enumerator

These are people trained to carryout population census

xvi) Population structure

This is the composition people interms of sex and age.

xvii) Demography

This is the study of population

xviii) Population projection

This is the estimation of the population for the next coming period.

**Reasons Why the government conducts population census**

- To know the number of people and plan for them.
- To know the birthrates and death rates.
- To know the population structure.
- To know people's standards of living
- To know the number of foreigners in a country.
- To know people's Bio – data.
- To know he education level.

**Information corrected during census**

- Occupation
- Sex
- Age
- Religion
- Education level
- Marital status
- Nationality
- Number of children
- Name

**Reasons why the following information is corrected during Census.**

a) Sex / gender

- To know the number of males and females.
- To know the population structure.

b) Marital status

- To know the number of married people in a country.

c) Age

- To know the population structure.
- To know the life expectancy of people.

d) Education level

- To know the number of literates and illiterates

e) Occupation

- To know the number of employees and unemployed

**Problems faced during population census**

i) Shortage of funds.

ii) Poor transport system.

iii) Ignorance among people/ some people give wrong information.

v) Bad weather changes.

Qn: **Name the body in Uganda responsible for population Census**

Uganda Bureau of Statistics (UBOS)

2. Name the ministry responsible for population census.

Ministry of Finance, Planning and Economic Development

Reasons why populations census takes long to be conducted

i) It is expensive

ii) To allow population change to take place

NB: Population census is conducted after ten years.

**Factors that influence population distribution**

i) Climate

ii) Social services

iii) Nature of soils

iv) Government policy

v) Employment opportunities

vi) Economic activities

vii) Urbanisation

How do the following factors effects population distribution?

a) Nature of soil

Areas with fertile soils are more populated than areas with poor soils.

b) Climate

Areas with good climate are more populated than areas with poor climate.

c) Social services

Areas with better social services are more populated than areas with poor social services.

d) Economic activities

Areas with many economic activities are more populated than areas with few employment opportunities.

e) Employment opportunities

Area with many employment opportunities are more populated than areas with few employment opportunities.

f) Government policy

Areas gazette by law like game parks have few people.

## Factors that influence population growth

- Early marriages
- High fertility rate in women
- Polygamy
- Urbanization
- Uncontrolled migrations
- Improved social services
- Fertile soils
- Good climate
- Cultural belief

Qn:What is urbanization?

This is the turning of a village into a town.

Qn:List down 3 causes of urbanization

- Presence of jobs
- Better social services
- Government policy

### Causes of low population

- Insecurity
- Poor climate
- Poor social services
- Political instabilities/civil wars
- Lack of jobs
- Poor soils

### Advantages of low population

- It is easy to provide social services
- Low cost of living
- Many job opportunities
- Enough land
- Low crime rates

Disadvantages of low population

- Shortage of market
- Shortage of labour
- Under use of resources
- Low tax base

Advantages of high population

- It creates enough labour.
- It increases tax base.
- It creates high market for goods.
- It promotes maximum use of resources.
- It attracts investor.

Disadvantages of high population

- It leads to land fragmentation.
- Easy spread of diseases.
- High crime rate.
- Development of slums.
- Poor sanitation.
- Shortage of jobs.

Qn:What is a slum?

A slum an area in a city /town with poor drainage and poor housing system.

What is land fragmentation?

This is the division of land into small plots.

State the main cause of land fragmentation

Over population/high population.

Causes of high population in a home

- Desire of a certain sex
- Religious beliefs
- Desire for prestige
- Ignorance about family planning

## Ways of checking/controlling high population in an area

i) Encouraging the use of family planning.

ii) By promoting girl child education.

iii) By discouraging early marriages.

iv) By discouraging polygamy.

v) Encouraging mothers to extend breast feeding periods.

Artificial / man – made hazards that check on population

- Accidents
- Poison
- Civil wars

## REFUGEES

Qn: Who is a refugee?

A refuge is a Person who is forced to leave his/her country due to disasters.

Causes of refugees in a country

- Prolonged drought
- Civil wars
- Earthquake
- Storms
- Volcanic eruptions
- Landslides

Qn: What is a disaster?

Adisasteris anything that causes massive destruction of people and death of people.

Types of disaster

I) Natural disasters

ii) Artificial disasters

What are natural disasters?

These are events that cause massive destruction of property and death of people when man has no control over them.

Examples of natural disasters

- Lightning
- Landslides
- Volcanic eruption
- Tsunami
- Earthquake
- Storms
- Floods
- Prolonged drought

What are artificial disasters?

These are events that cause massive destruction of property and death of people when man has control over them.

Examples of artificial disasters

- Civil wars
- Epidemic diseases
- Accidents
- Poison

Qn: Name the ministry responsible for refugees in Uganda.

Ministry of Relief, Disaster Preparedness and Refugees

Organisations responsible for refugees in Uganda

i) Red cross Society

ii) World vision

iii) United Nations High Commissioner for Refugees (UNHCR)

How do the above organizations help refugees?

- They provide them with shelter
- They provide them with food
- They provide them with health services

- They relocate them to safer places

Causes of population explosion

i) Refugee influx

ii) Volcanic eruption

iii) Floods

iv) Disease outbreak

v) Volcanic eruption

vi) Land slides

**Calculating population density**

The total population of Iganga townis 80,000 people covering an area of 400km .Calculate the population density

P.D = No. of people

Land area

$$= \frac{80000}{400}$$

$$\frac{200}{1}$$

P.D = 200 People /$km^2$

2. The population of Mateete town council is 84,000 people covering an area of 240km . Find its population density

P.D = No. people

Land area

$$= \frac{84000}{240}$$

P.D = 350 people /$km^2$

## P.6 SST - TERM TWO

### MAJOR RESOURCES IN EAST AFRICA

Qn: What is a resource?

A resource is anything man uses to meet his needs.

Types of resources

i) Natural resources

ii) Artificial resources

Natural resources

These are components of the environment that exists on their own and meet man's needs.

Examples of natural resources

i) Land

ii) Minerals

iii) Waterbodies

iv) Wild life

v) Vegetation

vi) Sun

vii) Air

Artificial Resources

These are things made by man to meet his needs.

Examples of artificial resources

- Electricity
- Buildings
- Clothes
- Weapons
- Laptops

- Computers
- Telephones
- Vehicles
- Manufactured drugs

**Types/groups/categories of natural resources**

i) Renewable resources

ii) Non renewable resources

Renewable resources

These are resources which can easily be replaced naturally after use

Or

These are resources which can be recycled.

Examples of renewable resources

- Land
- Water
- Plants
- Air
- Sunshine
- Animals

Non renewable resources

These are resources that can't be replaced naturally after use.

Or

These are resources which cannot be recycled.

Examples of non renewable resources

- Minerals
- Rocks

What is resource conservation?

This is the management of resources to prevent them from extinction.

## LAND

Why is land called the major natural resource?

- Most of other resources are found on land.
- It is where man does most of his activity.

Why land is called a natural resource?

It exists on its own and satisfies man's needs.

Importance of land

- It is used for crop growing
- It is used for brick laying
- It is a base for constructing industries.
- It is a base for road construction

Ways of conserving land.

- Through bush fallowing.
- Through contour ploughing.
- Through terracing.
- Through discouraging land pollution.

Ways people misuse land

i) Dumping polythene bags on land.

ii) Dumping industrial wastes on land.

iii) Dumping plastics on land.

iv) Over using fertilizers.

State the proper way of managing polythene bags in the environment.

- By recycling them

Name the body in Uganda responsible for protecting the environment

National EnvironmentManagementAuthority(NEMA)

Human activities that destroy land

- Brick laying
- Road construction

- Mining
- Over stocking
- Monoculture

## WILD LIFE

Qn:What is wildlife?

Wildlife refers plants, animals and birds living in a natural habitat.

## VEGETATION OF EAST AFRICA

Qn: What is vegetation?

Vegetation is the plant cover of an area

Qn: Why is it wrong to say that vegetation is the green plant cover of an area?

Not all vegetation is green.

Components /Elements of vegetation

- Grass
- Forests
- Swamps
- Crops
- Shrubs
- Thickets

Types /forms of vegetation

i) Natural vegetation

ii) Planted vegetation

Natural vegetation

This is the plant cover of an area that grows on its own

Components of natural vegetation

- Natural forests
- Shrubs
- Swamps
- Thickets

Vegetation zones/natural forms of vegetations

Qn: What is a vegetation zone?

This is an area with the same plant cover/vegetation.

The vegetation zones include;

i) Equatorial /tropical rainforests

ii) Savanna vegetation

iii) Semi desert vegetation

iv) Mountain vegetation

v) Mangrove vegetation

**Equatorial vegetation**

Write another name to mean equatorial vegetation.

- Tropical rainforests

Why are tropical rainforests called so?

- They grow in areas that receive a lot of rainfall.

Areas with equatotial vegetation in E. Africa

i) Around the shores of L.VIctoria

ii) NorthWestern Uganda

iii) SouthWestern Uganda

Characteristics of tropical rainforests

- They are thick
- They form canopies
- They grow tall
- They produce hard wood

- They have a variety of tree species
- They are evergreen
- They have buttress roots
- They have broad leaves

Qn: **Why do trees in tropical rainforest have the following?**

a) Broad leaves

- To increase on the rate of transpiration.

b) Buttress roots

- To hold them firmly in the soil.
- To give extra support.

c) Evergreen

They don't shed their leaves at the same time.

d) Grow tall

- To compete for sunlight

e) Produce hardwood

- They take long to mature

f) Form hard wood

- Due to different tree species that grow at different heights

Tree species in equatorial forests

i) Mahogany

ii) Mvule

iii) Rosewood

iv) Ebony

v) Greenheart

vi) African walnut

What is a canopy?

- This is an umbrella like layer found on top of tropical rainforests.

Major divisions of a canopy

i) Emergent canopy

ii) Main canopy

iii) Under canopy

Qn: What name is given to the climbing plants that use big trees as theirsupport in tropical rainforests?

Lianas

Activities done in tropical rainforests

i) Lumbering (major)

ii) Mining

iii) Trade

iv) Fishing

v) Hunting

vi) Farming

vii) Tourism

**Lumbering**

Lumbering is the cutting down of mature trees for commercial purposes.

Qn: Why is road construction difficult in tropical rainforests?

- Due to thick forests
- Due to soggy soils

Problems faced by people who live in tropical rainforests

- Attacks from vectors
- Poor transport system
- Attacks from dangerous wild animals

**Mangrove Vegetation**

Qn: State the location of mangrove forests in East Africa

- Along the coast of E. Africa

Qn: Give the reason why mangrove forests grow at the coast

- Presence of salty water

Qn: Why are there no mangrove forests in Uganda?

- Uganda has no salty water

Characteristics of mangrove forests

- They produce hard wood
- They are evergreen
- They take long to mature
- They grow well in salty water
- They have breathing roots

Qn: Which type of wood is got from mangrove forests?

Hardwood

Qn: Why is wood from mangrove forests commonly used to buildships or boats?

- It is hard and waterproof

**Swamps**

These are waterlogged areas with vegetation

Give two other names to mean swamps

i) Wetlands

ii) Marshes

Importance of swamps

- They control floods
- They provide raw materials to craft industry
- They help in rain formation
- They are fishing grounds
- They filter water
- They provide water for home use
- They promote tourism

Disadvantages of swamps

- They harbor dangerous animals
- They are breeding places for vectors
- They make road construction difficult

Qn:How do swamps hinder road construction?

- It is hard to construct bridges in swamps

Qn: How do swamps filter water?

- They have papyrus which trap all the dirt in running water

Qn: How do swamps control floods?

- They collect running water

**Savanna Vegetation**

Qn: Describe savanna vegetation

- It is a large area of grass with scattered trees
- Savanna is a type of natural vegetation which covers the largest part of East Africa

Types of Savanna

i) Savanna grassland /wet savanna

ii) Savanna woodland/dry savanna

Qn: In which type of climate do we find savanna vegetation

- Tropical climate

Savannah grasslands

- They are located in tropical regions.
- The savanna grasslands have plenty of pasture and this explains why most game parks are located there.
- Most trees in savanna grasslands are deciduous.
- They shed their leaves during a dry season to reduce the rate of transpiration.

Characteristics of savanna grassland

- It has tall grass and scattered trees
- Trees have long roots in order to tap underground water.
- It has deciduous trees.
- It is green in wet seasons and dry in dry seasons.

**Savanna woodland /Dry savanna**

Qn: Give any one example of savanna woodland

Miombo woodland of central Tanzania

Characteristics of dry savanna

- It has short grass
- It has long tap roots
- It has deciduous trees
- It has thorny trees

Trees common in dry savanna vegetation

i) Acacia

ii) Cactus

iii) Baobab

iv) Euphorbia

Qn: Give a reason why the above trees grow in dry savanna

- They are resistant to drought.

Qn: State the major economic activity done in miombo woodland

- Bee keeping / Apiculture

Qn: A part from bee keeping, name any other two activities done in miombo woodlands

- Tourism
- Trade

Qn: Give one product got from miombo woodlands

- Honey

Qn: Why is livestock farming impossible in miombo woodlands?

- It is dry
- It is infested with tsetse flies

Qn: How can tsetse flies be controlled in an area?

- By spraying using insecticides
- By using tsetse fly traps
- By clearing bushes around houses

Qn: Why is miombo land sparsely populated?

- It is dry
- It is infested with tsetse flies

Factors that favour bee keeping in miombo woodlands

- Presence of flowers
- The place is spacious
- The place is quiet

Qn: What hazard is commonly practiced in savanna grassland during dry seasons?

- Bush burning.

**Semi desert vegetation**

- This is a type of natural vegetation found in semi desert areas
- These areas have little vegetation

Why?

- They receive little rainfall
- It consists of shrubs, thorny trees and rough scattered grass

Tree species in semi desert vegetation

- Cacti
- Baobab
- Poppies

Characteristica of semi desert vegetatiom

i) Trees have thick barks

ii) Plants have long roots

iii) Trees have thin leaves

iv) Trees are short

v) plants are thorny

**Mountain vegetation.**

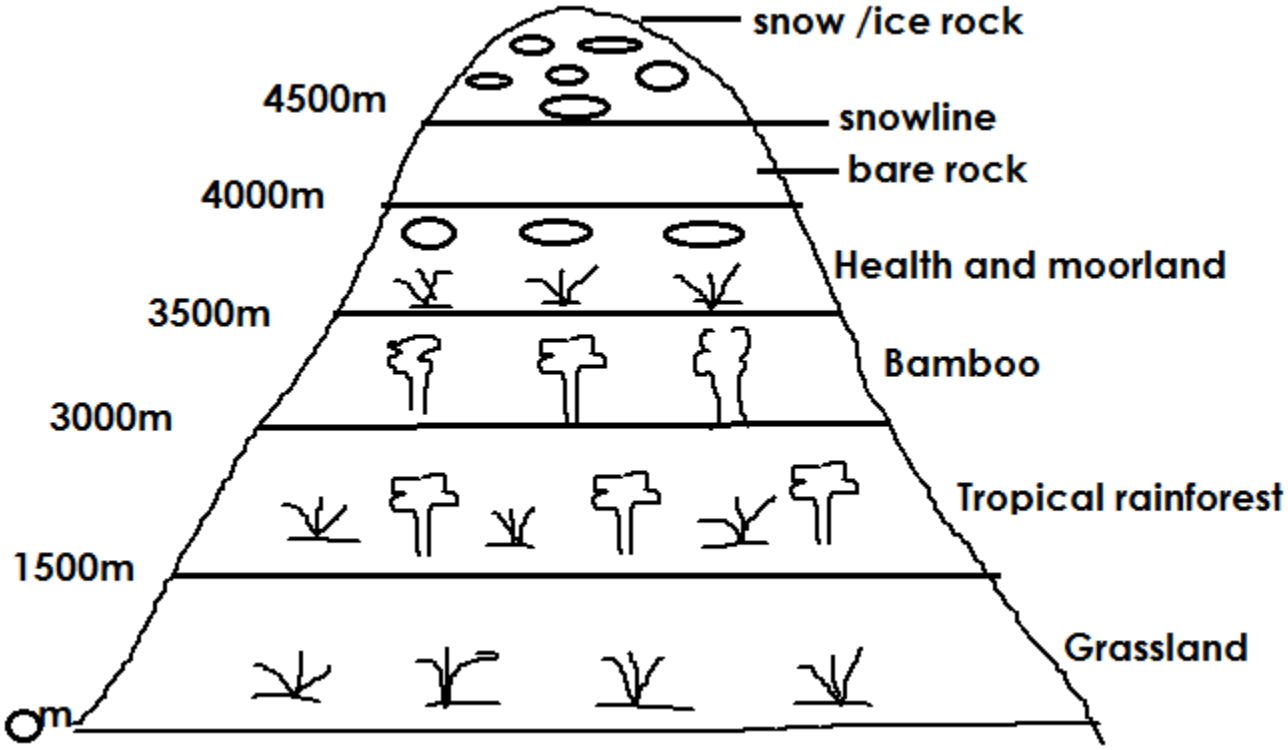

QN: Write another name for mountain vegetation

- Montane vegetation

Qn: What determines the vegetation cover on a mountain?

- Variation /difference in altitude

Draw mountain vegetation

Qn: On which side of the mountain do tropical rainforests grow?

- Wind ward side

Qn: Why is it impossible for vegetation to grow on high mountain peask?

- Some peaks are snow capped
- Some peaks are rocky

Economic activities done in mountainvegetation.

- Lumbering
- Tourism
- Mining

Qn: What scientific name is given to vegetation?

- Flora

## PLANTED VEGETATION

This is the plant cover of an area that exists/grows under the influence of man.

**Examples of planted vegetation**

- Planted forests
- Vegetable gardens
- Crops
- Flowers
- Planted grass

**Characteristics of planted vegetation**

- They take a short time to mature.
- Trees provide softwood.
- Trees are well spaced.
- Trees are of the same species.
- Seedlings are first grown in a nursery bed.
- Trees mature at the same time.

Qn: Why do trees in planted forests produce softwood?

- They take a short time to mature/ They mature faster.

Qn: Why is tree harvesting easy in planted forests?

- Trees are well spaced.

Qn: Why do trees in planted forests mature at the same time?

- They are planted at the same time

Tree species in planted forests

- Cypress
- Fir
- Cedar
- Spruce

Products from softwood

- Papers
- Pencils
- Wooden rulers
- Plywood
- Softboards
- Match boxes

Factors influencing vegetation distribution

They include the following:

i) Climate

ii) Nature of soils

iii) Human activities

iv) Altitude

v) Relief

vi) Government policy

**Ways the above factors influence vegetation distribution.**

a) Climate

Areas which receive a lot of rainfall have more vegetation than those with poor climate.

b) *Nature of the soil*

Areas with fertile soils have more vegetation than those with poor soils.

c) Altitude

Different vegetation grows on different altitude

d) Human activities

Human activities like afforestation, re – afforestation and agro-foresty promote vegetation growth while human activities like deforestation discourages vegetation growth.

e) Relief

Mountainous areas have more vegetation than lowland areas.

f) Government policy

Areas protected by law have more vegetation than other areas.

**Forest conservation**

This is the protecting of the existing forests.

Qn: Name the bodies responsible for conservation of the following in Uganda

i) Forests

National Forestry Authority (NFA)

ii) Swamps

National Environment Management Authority.(NEMA)

iii) Game parks

Uganda Wildlife Authority.(UWA)

Human activities that conserve vegetation

- Afforestation
- Agro – forestry
- Re – afforestation

Human activities that destroy vegetation

- Deforestation
- Bush burning
- Over stocking
- Over grazing

Reasons why people carryout deforestation

- To get timber /wood
- To get firewood/wood fuel
- To get land for farming /industrialization

**Dangers /effects of deforestation**

- Leads to drought
- Leads to global warming
- Leads to soil erosion
- Leads to animal migration
- Leads to shortage of food for animals
- Destroys homes for wild animals

Importance of vegetation

- It promotes tourism
- It controls soil erosion
- It is a source of food
- It helps in rain formation
- It is a source of herbal medicine
- It controls global warming

Dangers of vegetation

- Hiding places for wrong doers/ bandits
- Breeding places for vectors
- They make road construction difficult
- It limits land for human settlement
- Some vegetation is poisonous

Qn: How does vegetation modify climate?

- It helps in rain formation

Qn: How does vegetation purify air?

- It absorbs carbondioxide and releases oxygen

**How does natural vegetation influence people's lives?**

- People in equatorial vegetation carryout lumbering.
- People in savannah vegetation carryout farming.
- People living in semi desert carryout nomadic pastoralism.
- People living in mountain vegetation carryout tourism.

Qn: **Briefly explain the following terms**

a) Tourism

This is the business of providing services to tourists.

**Or**

This is the act of travelling to new and interesting places for pleasure or study purpose.

Categories of tourists

i) Domestic /local tourists

ii) International tourists

b) Poaching

This is the illegal hunting of animals in game parks.

c) Animal cropping

This is the legal hunting of animals in game parks.

d) Encrooachment

This is the illegal settlement of people in game park.

e) Wildlife

These are plants, animals and birds that live in natural habitats

f) Game parks

These are large areas of land put aside by the government to conserve wildlife

g) Game reserves

These are areas set aside by the governmentto be turned into game parks.

h) Zoo

This is a place where wild animals and birds are kept in cages for public viewing.

I) Carvivores

These are animals that feed on flesh only.

Examples

- Lions
- Tiger
- Leopard
- Cheetah

j) Herbivores

These are animals that feed on vegetation only.

Examples

- Elephants
- Mountain gorillas
- Zebras
- Giraffes
- Cows
- Goats

k) Omnivores

These are animals that feed on flesh and vegetation.

Example

Warthog/ wild pigs

l) Insectivores

These are animals which feed on insects e.g Chameleon

m) Marine parks

These are game parks that are lakes as well.

n) Game

These are wild animals.

d) Sanctuary

This is an area where animals and birds which are threatened by extinction are kept.

Reasons why tourism is called an industry

- It is a source of income.
- It is a source of employment /jobs.
- It is a source of government revenue.
- It is a source of forein exchange.

Qn: Why is tourism called an invisible trade?

- It does not involve physical exchange of goods but it earns income.

Qn: Why is tourism called an invisible export

- It does not involve physical exchange of goods but foreign exchange /forex is earned

Examples of invisible exports

- Hydro electricity
- Skilled labour
- Insurance
- Tourism
- Education

Examples of visible exports

- Agricultural produce.
- Minerals
- Plastics

Qn: Under which type of natural vegetation are most game parks in East Africa?

Savannah

Why?

- Presence of enough pasture /food for animals
- Presence of enough water foranimals

**Examples of game parks in East Africa**

| Uganda | Kenya | Tanzania | Rwanda | Burundi |
|---|---|---|---|---|
| Murchison falls | Tsavo | serengeti | Akagera | Kibira |
| Queen Elizabeth | Mt. kenya | Ruaha | Nyungwe Forest | Ruvuba |
| L. Mburo | Aberdare | Mikumi | Ruhengeni | Rusizi |
| Mgahinga | sibiloi | Mahale | Mari | |
| Bwindi impenetrable | Marsabit | Uzungwa | | |
| KidepoValley | Mt.Elgon | Katavi | | |
| Mt. Elgon | Nairobi | Malka | | |
| Mt. Rwenzori | L. Nakuru | Tarangire | | |
| R. Semliki | L. Baringo | | | |
| | Meru | | | |

Qn: Name the largest game ark in the following countries

a) Uganda _____ Murchison falls

b) Kenya _____ Tsavo

c) Tanzania _____ Ruaha

NB: Ruaha is the largest in East Africa

Qn: Name the habitat for the following animals

Mountain gorillas _____ thick forests

**Why?**

Presence of fruits

b) Hippopotamuses/ Hippos -_____ Water

Qn: Name the game park in East Africa famous for the following

I) Flamingo birds_____Lake Nakuru in Kenya

Lake Baringo in kenya

ii) Lions _____ Tsavo in Kenya

iii) Mountain gorillas_____ Bwindi Impenetrable in Uganda

Mgahinga in Uganda

**Why?**

Presence of bamboo

Qn: Why is Bwindi Impenetrable called a gorilla camp?

- Presence of many mountain gorilla.

iv) Ostriches _____ Kidepo valley in Uganda

v) Crocodiles _____ Murchison falls in Uganda.

Tourist attractions in East Africa

- Game parks
- Physical features
- Coastal beaches
- Culture
- Climate
- Vegetation
- Historical sites

Qn: Name the body responsible for tourism in Uganda.

- Uganda Tourism Board

Qn: Name the ministry for tourism in Uganda.

- Ministry of Tourism, Wildlife and Antiquities

Importance of game parks

- They promote tourism.
- They provide government revenue.
- They are source of employment /jobs.
- Promote development of infrastructure.
- They create market for local produce.
- Source of foreign exchange to the government.

Problems faced by game parks

- Poaching
- Insecurity in some areas
- Drought
- Poor transport system
- Bush fires
- Animal diseases
- Encroachment
- Shortage of funds

Ways of solving the above problems

- Enforcing laws against poaching
- Constructing better roads
- Improving on veterinary services in national parks
- Discouraging settlement on parks land
- Training more game rangers and wardens

Reasons why people carryout poaching

- To get meat
- To get medicine
- To get money
- To get hides and skins

Reasons for animal cropping

- To reduce overgrazing in game parks.
- Due to disease outbreak.
- When the number of carnivores is more than herbivores.
- To get money to run the game park

Dangers caused by poaching

- It leads to animal migration
- It leads to extinction of some animal species
- It reduces the number of animals in game parks
- It reduces the number of tourists
- It reduces on the government revenue

Importance of vegetation to animals

- It is a source of food to animals
- It is a source of medicine to animals
- It is a home for wild animals

Qn: How do game parks create market for the local produce?

- Tourists buys local produce on their way to and from game parks

Lakes in East Africa that double as game parks

i) lake Nakuru in Kenya

ii) Lake Baringo in Kenya

iii) Lake Mburo in Uganda

iv) Lake Amboseli in Kenya

Qn: Why are there no crocodiles in Kidepo valley game park?

- Lack of permanent water bodies.

Problems faced by people near game parks

- Contraction of diseases
- Attacks from dangerous animals
- Restless nights due to animal noise

- Crops are destroyed by animals

Dangers of tourists

- Some come as spies to a country
- Some come as terrorists
- Some transmit diseases into a country
- Some bring bad cultural practices into a country

Ways of improving tourism in East Africa

- By maintaining political stability
- By improving transport and communication
- By enforcing laws against poaching
- By constructing better hotels and lodges
- By making more advertisement on mass media
- By gazetting more tourist attractions

Why tourism industry in Kenya is more developed than in Uganda

- Kenya has better transport system than that of Uganda
- Kenya has more tourist attractions than Uganda

Problems facing the tourism industry

- Poor advertisements on mass media
- Insecurity in some parts
- Poor accommodation facilities
- Shortage of funds
- Poor transport system

## CLIMATE OF EAST AFRICA

Qn: What is climate?

Climate is the average weather condition of a place studied and recorded for along time.

Or

This is the usual weather pattern of an area of an area.

Qn: Write down the two major aspects/factors/elements of climate

i) Temperature

ii) Rainfall

Qn: What is weather?

This is the state of the atmosphere at a given time.

Or

This is the atmospheric condition of an area at a given time.

Elements /components of weather

- Cloudcover
- Temperature
- Airpressure/ Atmospheric pressure
- Chilly
- Mist
- Wind
- Sunshine
- Humidity
- Fog

Conditions/types of weather

- Rainy weather
- Sunny weather
- Humid weather
- Foggy weather
- Cloudy weather
- Windy weather
- Chilly weather
- Misty weather

NOTE:

| **Element** | **Type/condition** | **Units** | **Instrument** | **Use** |
|---|---|---|---|---|
| Rainfall | Rainy | millimeters(mm) | raingauge | measures the amount of rainfall |

| | | | | |
|---|---|---|---|---|
| | | | | received in an area |
| Sunshine | Sunny | Hours | sunshine recorder | records the number of hours the sun shines in a day |
| Temperature | Hot/cold/warm /cool/chilly | Degrees | six's thermometer | measures the highest and lowest temperature of a day |
| cloud cover | Cloudy | Okta | ceilometer | measures atmospheric pressure |
| Air pressure | - | Millibars | barometer | Measures atmospheric preasure |
| Wind (Direction) | Windy | - | windvane windsock windcock | Shows direction of wind |
| Wind(speed) | Windy | kilometers per hour | Anemometer | Measures the speed of wind |
| Fog | Foggy | | | |
| Mist | Misty | | | |

Similarities between climate and weather

- Both are atmospheric conditions
- Both are determined by the same elements

Difference between climate and weather

- Climate is constant while weather changes from time after time.
- Climate is unreal while weather is real.

Meteorological centre

This is a place where weather elements are studied and recorded from.

Another name to mean a meteorological centre is weather station

Elements of wind measured at a weather station

i) Direction of wind

ii) Speed of wind

NB: The largest national meteorological station in Uganda is found at Entebbe in Wakiso district.

Qn: Why is a windsock not a true weather instrument?

- It is not found at a weather station.

Qn: Name any three places where a wind sock is found.

i) Airport

ii) Airfield

iii) Airstrip

Qn: **How do we call people who study about?**

a) weather _____ meteorologists

b) Climate _____ climatologists

Qn: Give the meaning of the following terms

i) Meteorology

This is the study of weather

ii) Climatology

This is the study of climate

iii) Weather forecasting

This is the future telling of weather changes.

Qn: How is weather forecasting important to the following?

a) Farmers

i) It helps farmers to plan for their farming activities.

ii) It helps farmers to target market

iii) It helps farmers to know when to plant and harvest

b) Travellers

- It helps travellers to put on the right clothes.
- It helps travellers to choose the suitable means of transport.

Qn: **Define the following terms**

a) **Isohyets**

These are imaginary lines drawn on a weather map joining places with the same amount of rainfall.

b) **Isobars**

These are imaginary lines drawn on a weather map joining places with the same air pressure.

c) **Isotherms**

These are imaginary lines drawn on a weather map joining places with the same temperatures.

d) **Contours**

These are imaginary lines drawn on a weather map joing places with the same altitude.

e) **Isonephs**

These are imaginary lines drawn on a weather joining places with the same cloud cover.

f) **Doldrum**

These are areas where the North East and South East trade winds meet.

g) **Solstice**

This is the time in a year when the sun is at its furthest point North or South of the equator.

h) **Isohels**

These are imaginary lines drawn on a weather map joining places with the same amount of sunshine.

## CLIMATIC ZONES/ REGIONS OF EAST AFRICA

QN: What is climate zone?

This is an area with the same type of climate.

They include the following:

i) Equatorial climate

ii) Tropical climate

iii) Semi desert climate/ semi arid climate

iv) Mountain climate

A MAP OF EAST AFRICA SHOWING CLIMATICS ZONES

## Equatorial climate

Qn: State the location of equatorial climate

- It lies with in $5^0$N and $5^0$S of the equator.
- It is found in areas near the equator.

Qn: Describe equatorial climate

- It is hot and wet throughout the year.

Characteristics of equatorial climate

- It receives high temperatures throughout the year.
- It receives heavy rainfall throughout the year
- It has a double rainfall Maxima
- It receives high humidity

Qn: What causes double rainfall maxima in equatorial regions?

- The influence of the equinox

Qn: What causes high humidity in equatorial regions?

i) High evaporation rate

ii) High transpiration rate

Qn: During what time of the day do equatorial regions commonly receive rainfall?

In the afternoon

Why?

- It is when evaporation takes place

Qn: Why is there hardly dry season in equatorial regions?

- Heavy rainfall is received throughout the year.

Crops grown in Equatorial climate

- Banana
- Coffee
- Oil palm
- Cocoa
- Tea
- Rubber
- Sugarcanes

Why is rainfall heaviest between March and September in Equatorial regions?

- Due to equinox

- The sun is overhead the equator in those monthS

Characteristics of equinox

i) Days and nights have the same length.

ii) Heavy rainfall is received.

Which houses are built in equatorial regions?

- Houses with slanting roots

Why?

- For easy flow of rainwater

Why do people in equatorial regions wear thick clothes?

- To keep themselves warm
- Due to cold temperatures

**Tropical climate**

1. State the location of tropical climate

- It is located in areas within the tropics

It is located $5^{O}$to $15^{o}$S or N of the equator.

2. Describetropical climate

- It is hot and wet

Characteristics of tropical climate

- It receives high rainfall
- It receives high temperature
- It has high humidity
- It has distinct wet and dry season

3. **What happens when one;**

a) Moves away from the equator?

- The amount of rainfall decreases
- One experiences low temperatures

b) Moves nearer/towards the equator?

- The amount of rainfall increases.
- One experiences high temperatures.

4. Name two types of rainfall received in tropical regions

i) Convectional rainfall

ii) Relief/ orographic rainfall

Qn: Why is tropical climate experienced in most parts of E. Africa?

- It lies within the tropics

5. Why do forested areas receive convectional rainfall?

- Due to high transpiration rate

6. Why is convectional rainfall received near water bodies?

- Due to high evaporation rate

7. Give one reason why areas along the equator receive a lot of rainfall

- Due to high temperatures which help in evaporation and transpiration.

**Semi desert climate**

Qn: What is a semi desert?

This is an area bordering a major desert.

Qn: Describe semi desert climate

- It is hot and dry

Characteristics of semi desert

- It receives little rainfall
- It experiences cold nights
- It receives low humidity
- It experiences high temperatures during day

Causes of semi desert

i) Dry winds

ii) Cold Ocean currents

iii) Human Activities like deforestation.

Crops grown in semi desert

i) Millet

ii) Wheat

iii) Sorghum

Economic activities done in semi desert

i) Nomadic Pastoralism(major)

ii) Tourism

iii) Trade

iv) Mining

Areas in East Africa where semi desert is experienced

i) North Eastern Uganda (Karamoja sub region)

ii) Central Tanzania

iii) North Eastern Kenya (Nyika Plateau)

Qn: Why do the following areas experience semi desert

a) North Eastern Uganda

- It receives dry winds
- lack of permanent water body
- little vegetation

b) North Eastern Kenya

- It is in the rain shadow of Ethiopian highlands
- It receives dry winds

c) Central Tanzania (Miombo woodland)

- It receives dry winds

Qn: How is farming made possible in the dry areas of East Africa?

- Through irrigation

Problems faced by people in semi desert

- Shortage of water
- Shortage of pasture
- High temperatures

## MOUNTAIN CLIMATE

- It is also called montane climate

Qn: State the location of mountain climate

- It is experienced in high altitude areas/mountainous areas

Areas in East Africa that experience mountain climate

i) Mt. Rwenzori

ii) Mt. Kenya

iii) Mt. Kilimanjaro

## Characteristics of mountain climate

- It has cool temperatures
- It has high humidity
- It receives relief rainfall
- Vegetation changes with increases in altitude.

Economic activities done in mountain climate

- Mining
- Tourism

- Quarrying
- Lumbering
- Trade

**Factors influencing climate of East Africa**

i) Altitude

ii) Latitude /distance from the equator

iii) Distance from large water bodies

iv) Ocean currents

v) Human activities

vi) Prevailing winds

vii) Vegetation cover

viii) Relief

Qn: Describe how each of the above factors the climate of East Africa

a) **Altitude**

- Areas on a high altitude are cooler/wetter than areas on a low

Altitude

b) **Latitude**

- Areas near equator are hotter than areas far from the equator
- Area near the equator receives more rainfall than those faraway from the equator

Qn: Why are places near the equator hot?

- They receive vertical sunrays/direct sunrays.
- Sunrays move a shorter distance.

2. **What do we call the latitudes**

a) Near the equator

Low latitude

b) Far from the equator

High latitude

c) **Distance from large water bodies**

- Areas near large water bodies receive more rainfall than those farfrom large water bodies.

d) **Ocean Currents**

- These are masses of water steadily flowing in a particular direction
- Warm ocean currents bring rain while cold ocean currents bring dry conditions

e) **Human activities**

- Human activities like deforestation reduce the amount of rainfall received while human activities like afforestation help in rain formation.

Qn: **What is global warming?**

This is the constant rise in world's temperatures

Causes of global warming

i) Deforestation

ii) Swamp drainage

iii) Bush burning

iv) Vehicles in poor mechanical conditions

Qn: Which gas is responsible for global warming?

Carbondioxide

Effects of global warming

- Death of people and animals
- Drought
- Melting of snow
- It causes acidic rainfall
- Excessive heat in the atmosphere

Ways of reducing global warming

- By afforestation
- By re – afforestation
- Treating fumes from factories
- Agro – forestry
- By abandoning old vehicles

## CLIMATE CHANGE

- This is the constant variation of weather patterns of an area for along period of time.

Indicators of climate change

- Global warming
- Floods
- Lightning
- Tsunami
- Drought
- Heavy rainfall
- Storms/hurricanes

Causes of climate change

- Deforestation
- Bush burning
- Swamp drainage
- Industrialization /pollution

Effects of climate change

- Food shortage /famine
- Loss of lives of people
- Death of animals
- Drought
- Wilting of crops
- Reduction of water levels in water bodies

f) **Prevailing winds**

Qn: What is wind?

Wind is moving air in the atmosphere.

Qn: What causes wind to blow/ wind movement

- Difference in atmospheric pressure
- Difference in temperature

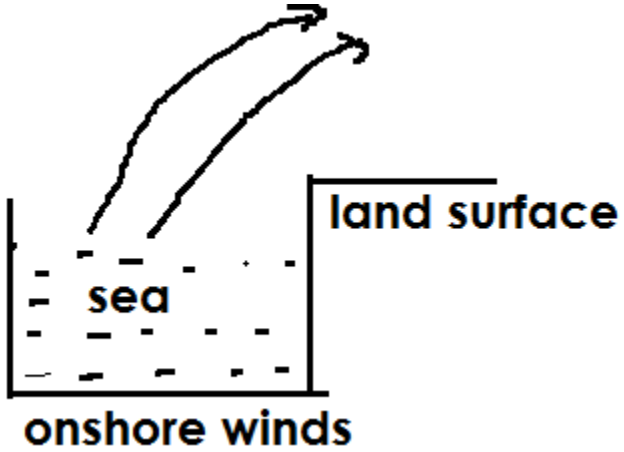

Qn: What name is given to the winds that blows?

i) **From the sea**

- Onshore winds

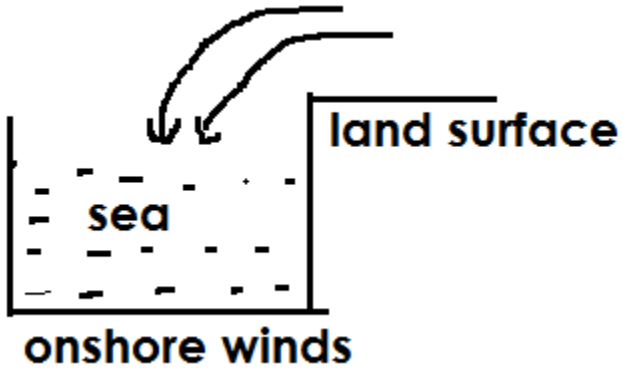

Diagram

ii)

- Off shore winds

Diagram

Qn: <u>Why are prevailing winds called so?</u>

- They blow frequently in a particular direction

2. <u>Why are prevailing winds called?</u>

a) **Trade winds**

- They helped early traders to sail their dhows on the Indian ocean

b) **Monsoon winds**

- They are highly seasonal

**<u>Examples of trade winds</u>**

i) North East trade winds

ii) South East trade winds

3. <u>How are winds named?</u>

- According to the direction from where they are blowing

4. <u>How do the following winds affect the climate of E. Africa</u>?

i) **Warm moist winds**

- They bring rainfall in East Africa

ii) **Dry winds**

- They bring dry conditions

Qn: Which winds in East Africa are responsible for dry conditions.?

- North East trade winds

**Why?**

- They are dry

Qn: Why are North East Trade winds dry?

- They blow from a dry area.

Qn: Name the winds responsible for rainfall in East Africa

- South East trade winds

**Why?**

- They carry moisture.

A MAP OF EAST AFRICA SHOWING PREVAILING WINDS

## BREEZES

QN: What is a breeze?

This is gentle wind that blows over an area

- A breeze is caused by the differences in air pressure

Types of breezes

i) Land breeze

ii) Sea breeze

Sea breeze

This is the movement of cool air from the sea towards land.

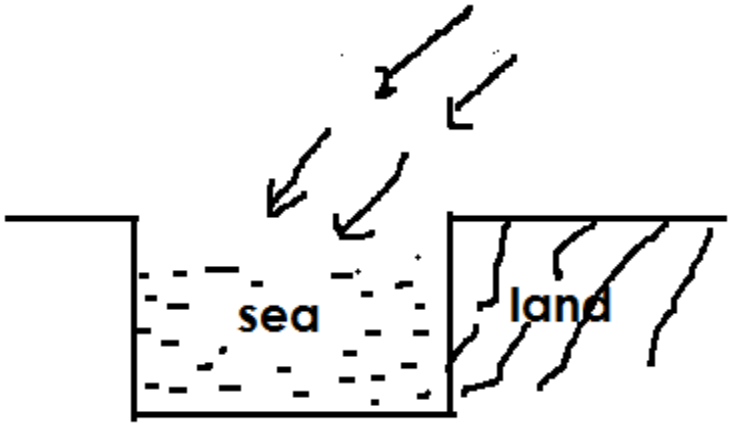

- Sea breeze occurs during day
- Lake shores usually receive heavy rainfall because of the influence of sea breeze.

Diagram showing sea breeze

Land breeze

- This is the movement of cool air from land to the sea
- Land breeze takes place during night

Diagram showing land breeze

Qn: **How the following factors influence climate of an area?**

i) **Vegetation cover**

Areas with thick vegetation receives more rainfall than those with little or vegetation.

ii) **Reliefs**

Mountaionous areas receive more rainfall than low land areas.

**Interpretations of climatic tables and graphs**

Under this, we shall be able to;

i) Calculate annual rainfall or temperature

ii) Calculate mean amount of rainfall or temperature

iii) Calculate the rainfall range and temperature range

iv) Identify the economic activities done in a particular area

vi) Describe the relationship between rainfall and temperature

vii) Describe the vegetation of an area

**Rain statistics of different types of climate**

| **Climate** | **Rainfall** | **Observvation** |
|---|---|---|
| Equatorial | over 1500mm | i) Two rainfall maxima<br>ii) High temperatures and rainfall |
| Tropical | 850 – 1500mm | i) One rainfall maxima<br>ii) Distinct wet and dry seasons<br>iii) High temperatures and rainfall |
| Semi desert | 250 – 500mm | i) High temperature<br>ii) Little rainfall |

Example

1. Study the table below and answer the questions that follow

| Month | J | F | M | A | M | J | J | A | S | O | N | D |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Temp($^0$c) | 23 | 21 | 20 | 20 | 21 | 23 | 26 | 211 | 20 | 20 | 21 | 24 |
| R/fall(mm) | 170 | 80 | 180 | 200 | 210 | 175 | 250 | 150 | 190 | 200 | 190 | 250 |

a) Name the type of climate shown above

- Equatorial climate

b) Give any two characteristics of the climate shown above

- It experiences high temperatures
- It receives heavy rainfall throughout the year

c) **Calculate the**

i) Rainfall range

R = H – L

= 250mm – 80mm

R = 170mm

ii) Temperature range

R = H – L

R = $26^0C$ - $20^0C$

R = $6\ ^0C$

d) Name the type of natural vegetation found in the above areas

- Tropical rainforests/ Equatorial vegetation

e) State the relationship between rainfall and temperature in the table above

- Rainfall increased with increase in temperatures and vice versa

2 **Study the climaticgraphbelow and answer the questions** that follow

3. Study the climatic table below and answer the questions that follow

| Month | J | F | M | A | M | J | J | A | S | O | N | D |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Temp($^0$c) | 24 | 23 | 22 | 21 | 20 | 18 | 17 | 18 | 18 | 20 | 23 | 24 |
| R/fall(mm) | 200 | 175 | 100 | 25 | 20 | - | - | - | - | 50 | 100 | 175 |

a) Name the type of climate shown above

- Tropical climate

b) Describe the type of climate shown above

- it is hot and wet

c) State any three economic activities done in the above areas

- farming
- tourism
- mining

d) Identify the month which received the highest amount of rainfall

- January

e) Calculate the annual rainfall

200 + 175 + 100 + 25 + 20 + 50 + 100 + 175

= 845 mm

f) Calculate the temperature range

R = H – L

R = $24^0C - 17^0C$

R = $7^0C$

4. **Study the climatic graph below and answer the questions that follow**

5. Study the table below and answer the questions that follow

| Month | J | F | M | A | M | J | J | A | S | O | N | D |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Temp($^0$c) | 27 | 27 | 26 | 25 | 22 | 20 | 20 | 23 | 26 | 27 | 29 | 30 |
| R/fall(mm) | 125 | 75 | 50 | 10 | 7 | 5 | 3 | 3 | - | 7 | 3 | 35 |

a) <u>Which type of climate is shown above?</u>

- Semi desert climate

b) Name the type of natural vegetation that grows in the above type of climate

- Semi – desert vegetation

c) Identify the major economic activity done in the above climate

- Nomadic pastoralism

d) Calculate the mean annual temperature of the above place

$$\frac{27 + 27 + 26 + 25 + 22 + 20 + 20 + 23 + 26 + 27 + 29 + 30}{30}$$

$$= \frac{284}{12}$$

$$= 24^0C$$

6. **Study the graph below and answer the questions that follow**

Qn: <u>How does climate influence people's way of life?</u>

- People in dry areas carryout nomadic pastoralism
- People in equatorial climate practice lumbering
- People tropical climate carry out farming.
- People in dry areas put on light clothes
- People in cold areas put on thick clothes.

## FARMING IN EAST AFRICA

- Farming is the growing of crops and rearing of animals.

Qn: Why is farming /agriculture referred to as the backbone of East Africa's economy?

- Most people in E. Africa carryout farming.
- It is the major income earner for the people of East Africa.

Crops are grouped into two i.e

i) Cash crops

ii) Food crops

Classification of cash crops

i) Traditional cash crops

ii) Non traditional cash crops

Traditional cash crops

These are crops that were originally introduced by the colonialists for sale.

Examples of traditional cashctrops

- Cotton
- Coffee
- Tea
- Sisal
- Cocoa
- Oil palm
- Pyrethrum
- Tobacco

Non traditional cash crops

These are crops that were originally grown for food but nowadays

Canbe sold.

Examples of non traditional cash crops

- Maize
- Rice
- Sweet potatoes
- Tomatoes
- Millet
- Cassava
- Beans
- Cow peas

Qn: Why is the government is encouraging the growing of non traditonla cash crops?

i) To promote food security

ii) To provide raw materials to agro based industries

Qn: What are agro based industries?

These are industries that use agricultural produce as their raw materials e.gKakira Sugar factory, Lugazi sugar factory. Nile Breweries, mukwano.

**Crops and their products**

| **Crops** | **Product** |
|---|---|
| coffee | coffee, husks, bullets |
| cotton | cotton wool, clothes, threads |
| Sisal | ropes, sacks, carpets, bags |
| oil palm | Cooking oil, soap, palmwine |
| tobacco | Cigarettes, snuff, cigar |
| Pyrethrum | Insecticides |

**Coffee growing in East Africa**

Coffee is the chief /major export crop of Uganda

Why?

- It is the major incomes earner for Uganda.
- It is the major foreigner exchange earner for Uganda.

Types of coffee

i) Robusta coffee

ii) Arabica coffee

Robusta coffee

- It is the commonest type of coffee grown in East Africa.
- It grows well in the flat areas of E. Africa like central Uganda.
- In Uganda, it was introduced by the Bachwezi.

Arabica coffee

It grows well on the slopes of volcanic mountains in East Africa.

Qn: Why is Arabica coffee grown on the slopes of volcanic moountains?

- Presence of volcanic fertile soils

Areas in East Africa where Arabica Coffee is grown

i) slopes of Mt Elgon

ii) Slopes of Mt. Mufumbiro

iii) Slopes of Mt. Kilimanjaro

Clonal Coffee

- This is improved robusta coffee and it is the newest in East Africa

Advantages of Clonal Coffee

- It matures faster
- It is resistant to harsh climate
- It is resistant to crop pests and diseases

Qn: Give advantages of robust coffee over Arabica coffee

- Robusta coffee matures faster than Arabica Coffee
- Robusta is more resistant to crop pests and diseases than Arabica Coffee
- Robusta coffee is more resistant to harsh climate than Arabica coffee

Qn; Why is Arabica coffee not grown in Central Uganda?

- Central Uganda does not have fertile volcanic soils

**Conditions necessary for proper coffee growth**

i) Reliable rainfall

ii) Fertile soils

iii) High temperatures

Qn: How is coffee harvested?

- By hand picking

**Cotton growing in East Africa**

It is one of the traditional cash crosp grown in East Africa.
It is fibre crop
It is harvested by hand picking

Qn: Give the meaning of the following terms

a) Ginnery: This is a place where cotton seeds are separated from lint

b) Lint: This is cotton without seeds

c) Ginning: This is the separation of cotton seeds from lint

d) Spinning: This is the making of threads from lint

Qn: What is the best season for harvesting cotton?

Dry season

**Why?**

- To prevent harvested cotton from getting dirty

Conditions necessary for cotton growing

- Moderate rainfall
- Regular weeding
- Fertile soils
- Moderate temperature

Qn: Why cotton growing has declined in E. Africa.

- Introduction of other fibre crops
- Price changes/fluctuation
- Climate change

**Tea growing in East Africa**

- Tea is a beverage crop
- It is mainly grown in highland areas of E. Africa
- It is harvested by plucking

Conditions necessary for proper tea growth

- Reliable rainfall
- Warm temperatures
- Well drained fertile soils
- Gently sloping land
- Relative humidity
- Acidic soils

Qn: Why is tea grown on gently sloping land?

- To allow easy flow of running water.

**Tea growing areas in East Africa**

| **Country** | **Area** |
|---|---|
| Kenya | Kericho(Kenya highland) |
| Tanzania | Mbeya, Iringa, Bukoba, Korogwe |
| Uganda | Bushenyi,Mukono,Mityana, Kabarole |

| | |
|---|---|
| Rwanda | Rusizi,Gatare,Nyabihu |
| Burundi | Mugamba, Rwengula, Kayonza |

NB: Kericho is the largest tea estate in East Africa

Qn; How is Kericho economically important to the government of Kenya?

- It is where tea is grown on a large scale
- It promotes tourism
- It creates jobs for people
- It earns revenue to the government

**Tobacco**

- Tobacco was first grown in America
- It was introduced by the British American tobacco (B.A.T)
- It is harvested by plucking

Qn: Why has tobacco growing declined in Uganda?

- Closure of tobacco factory in Uganda
- Lack of ready market

Conditions necessary for tobacco growing

- Well drained fertile soils
- Reliable rainfall
- Moderate temperatures

Methods of preserving tobacco

i) Air curing

ii) Fire /flu curing

**Sugarcane**

- It was introduced in East Africa by foreigners from Asia
- It is grown from stem cuttings

- It is harvested by stem cutting

**Sugarcane growing areas in East Africa**

| **Country** | **Area** |
|---|---|
| Uganda | kinyara, Lugazi, Kakira |
| Kenya | Nyanza province, Nyando |
| Tanzania | Kilombero valley, Bukoba |

**Cocoa**

- It is a traditional cashcrop
- It is harvested by cutting

Conditions necessary for cocoa growing

- Fertile soils
- Reliable rainfall
- High temperatures
- Tree shades
- Timely pruning

Qn: Why is Cocoa fermented?

- To remove the white sticky pulp
- To give it good flavour/scent
- To prevent cocoa beans from germinating.

Qn: Why is cocoa interplanted with other trees?

- To provide shade
- To protect cocoa plants from strong wind

Districts in Uganda where Cocoa is grown

i) Buikwe

ii) Mukono

iii) Bundibugyo

iv) Kapchorwa

Cocoa products

- Chocolate
- Beverages
- Cosmetics

Qn: Who are out growers?

- These are people who grow crops on a small scale.

**Problems facing farmers**

- Crop pests and diseases
- Prolonged drought
- Poor transport
- Shortage of capital
- Poor methods of farming
- Poor veterinary services

Solutions to the problems above

- By spraying using pesticides
- By encouraging the use of modern farming methods
- By using irrigation to overcome climatic changes
- By getting loans from banks to get capital
- By constructing better roads

Types of farming in East Africa

- Subsistence farming
- Mixed farming
- Plantation farming
- Livestock farming
- Irrigation farming

**MIXED FARMING**

- This is the growing of crops and rearing of animals on the same piece of land but different plots

Advantages of farming

- Double income is earned
- A farmer gets a balance diet

- It is a source of employment

Disadvantages of mixed farming

- It requires a large piece of land
- It is expensive to manage
- It requires skilled labour

Advantages of mixed farming to animals

- It is a source of food
- Animals get oxygen from plants
- Animals get shade from plants

Advantages of mixed farming to crops

- It is a source of manure
- Crops get carbondioxide from animals

## PLANTATION FARMING

- This is the growing of one perennial crop on a large scale for sale.

Examples of crops grown on Plantation

- Tea
- Banana
- Cocoa
- Sisal
- Coffee
- Sugarcane
- Oil palm
- Pineapples

Advantages of plantation farming

- It promotes tourism
- Source of government revenue
- Source of employment /jobs
- A farmer gets high yield
- It leads to development of infrastructures

Qn: Why is plantation farming not commonly practiced?

- It requires a large piece of land
- It requires skilled labour
- It is expensive to start

Qn: Why is plantation farming not commonly done in Rwanda?

- It is mountainous /hilly
- Shortage of land/high population

## SUBSISTENCE FARMING

This is the growing of crops and rearing of animals for home use.

- It is the commonest type of farming npractised in East Africa.

Qn: Why is subsistence farming commonly practiced in East Africa?

- It requires less capital
- It requires a small piece of land
- It requires less labour
- Simple tools are used

Qn: Why do most farmers in East Africa use hand hoes?

- They are cheap

3. What is farm mechanization?

- This is use of modern farming machines on the farm

4. Why is farm mechanization not commonly practised in East Africa?

- It is expensvive
- It requires skilled labour

5. Give two disadvantages of subsitence farming

- Low yields are got
- It encourages the use of poor farming methods

## IRRIGATION FARMING

This is the artificial supply of water to crops for proper growth

Advantages of irrigation farming

- Crops are grown throughout the year
- It increases crop yields
- Promotes food security
- Controls crop pests and diseases

Disadvantages

- It is expensive to manage
- It requires skilled labour
- It leads to soil leaching
- It leads to siltation
- It may encourage the breeding of vectors

Methods of irrigation

i) Canal /furrow/ gravity flow

ii) Sprinkler

iii) Bucket

Canal/furrow/gravity flow method.

This is when canals are constructed to allow water to flow to all parts of the garden

This method is possible on gently sloping land

Sprinkler method

- This is where water is transported through the pipes to the garden and pumped out inform of rain.

Advantages of sprinkler method

- Less labour is needed
- It saves time
- It does not need land to be leveled
- It is good in hilly areas

Disadvantages of sprinklers

- It encourages soil leaching
- It is expensive
- It requires permanent water source

Bucket method

- This is where water is collected in a bucket and supplied to crops in the garden

## Irrigation schemes In East Africa

**Qn:** What is an irrigation scheme?

- An irrigation scheme is an area where planned farming is carried out by watering crops.

### Examples of irrigation schemes in East Africa

| Country | irrigation scheme | main crop | Source of water |
|---|---|---|---|
| Uganda | Doho | Rice | R. Manafwa |
| Uganda | Mubuku | Vegetables, Maize | R. Sebwe |
| Uganda | Kibimba/Tilda | Rice | L.Victoria |
| Uganda | Kakira | Sugarcane | L.Victoria |
| Uganda | Kinyara | Sugarcane | R. Kafu |
| Uganda | Kiige | Citrus Fruits | Victoria Nile |
| Tanzania | Kilombero | Sugarcane | R. Kilomero |
| Kenya | MweaTebere | Rice | R. Thiba,<br>R. Nyimimbi |
| Kenya | Ahero Pilot | Rice, Maize | R.Nyando |

Qn: Why is Kenya having the largest number of irrigation schemes in East Africa?

- Most parts of the country are dryonly.

## LIVESTOCK FARMING

This is the rearing of farm animals

Give the meaning of the following terms

a) Pastoralism

- This is the keeping of large number of animals as cultural practice

b) Nomadism

- This is the act of moving from one place to another

c) Nomadic pastoralism

- This is the movement of people with their animals from one place to another looking for water and pasture.

Examples of pastoral tribes in East Africa

i) Karimajong

ii) Turkana

iii) Masai

iv) Samburu

Areas in East Africa where Pastoralism is done

i) Karamoja sub – region/ North Eastern Uganda

ii) North Eastern Kenya/Nyika Plateau

iii) North Western Kenya

## SAMPLE QUESTIONS

1. What does the term Nyika Mean?

- Nyika means wilderness /barrenness

2. Why is nomadic pastoralism practised in North Eastern Uganda?

- It is dry /semi desert

3. How has the government helped the karimajong to live a settled life?

- By construction valley dams

4. How has the government tried to solve the problem of illiteracy in Karamoja sub regions?

- By introducing U.P.E
- By introducing ABEK (Alternative Basic Education for Karamoja)

Reasons why pastoralists keep large herds of cattle

- It is their culture
- For prestige
- For paying bride price

Problems facing pastoralists

i) Cattle rustling

ii) Animal disease and parasites

iii) prolonged drought leading to shortage of water and pasture

iv) Poor veterinary services

v) Over stocking

Ways of solving the above problems

- By ensuring security to stop cattle rustling
- By constructing valley dams to over come water shortage
- By improving on veterinary services
- By cross breeding

Qn; **What is cattle rustling**?

- This is the traditional stealing of cattle among pastoral tribes.

Qn: How did the government of Uganda solve cattle rustling in Karamojong?

- By disarming the karimojong
- By setting up anti – stock theft unit (A.S.T.U)

**DAIRY FARMING**

- This is the rearing of cattle for milk production.

Conditions necessary for dairy farming

i) Cool climate

ii) Enough pasture

iii) Enough water

Areas in East Africa where dairy farming is practised

i) Kenya highlands

ii) Mbarara

iii) Moshi

Qn: Give two reasons why diary farming is suitable in the Kenya highlands?

- Presence of cool climate
- Presence of enough water and pasture
- The area is free from tsetse flies

Qn: Give any two modern methods of keeping cattle in the Kenya highlands

i) Paddocking/rotational

ii) Zero grazing

**CATTLE RANCHING**

- This is the rearing of cattle for beef production

Qn: What is a ranch?

- This is a farm on which beef cattle are kept.

NB: Kenya has the most developed cattle ranches in East Africa

Characteristics of cattle ranching

- There is no communal grazing

- There is one type of live stock kept
- They are large
- Modern methods of keeping cattle are used.

Examples of ranches in Uganda

- Nyabushozi ranch
- Ssingo ranch
- Kisoziranch
- Kabula ranch
- Buruli ranch
- Maruzi ranch
- Achwa ranch

## GIVE THE MEANING OF THE FOLLOWING TERMS

a) Floriculture

This is the growing of flowers on a large scale for sale

Uses of flowers

- They are used for decoration
- They are used during burial ceremonies
- They are used to show love
- They are used to make perfumes

b) Apiculture

This is the rearing of bees for commercial purpose

c) Viticulture

This is the growing of grapes for making wine

d) Horticulture

This is the growing of fruits and vegetables

e) Sericulture

This is the breeding of silk worms

f) Aquaculture

This is the rearing of fish

g) Arable farming

This is the growing of crops only

h) Market gardening

This is the growing of vegetables on a small scale for sale

Why is farming called an industry?

- It is a source of income
- It is a source of jobs/employment
- It is a source of government revenue

Importance of agriculture to economies of East African countries

- It earns foreign exchange
- It is a source of employment
- It leads to development of infrastructure
- It provides raw materials to agro based industries
- It promotes tourism

Problems facing agriculture in East Africa

- Shortage of funds
- Crop pest and diseases
- Price fluctuation
- Poor transport system
- Shortage of land
- Climatic changes

Qn: Write NAADS in full

Nationla Agriculture advisory services

Roles played by NAADS

- It teaches better farming methods
- It provides improved seeds to farmers
- It helps farmers to get market for their produce

Problems facing NAADS

- Shortage of funds
- Corrupt officials
- Climatic changes

## MINING IN EAST AFRICA

Qn: What is mining?

Mining is the extraction of minerals from underground.

What are minerals?

These are valuable substances found on or under the earth's surface.

Types of minerals

i) Metalic minerals

ii) Non metallic minerals

iii) Fuel minerals

Examples of metallic minerals

- Copper
- Iron
- Gold
- Tin
- Silver
- Mercury
- Zinc
- Cobalt
- Lead

Examples of non metallic mineral

- Diamond
- Salt
- Soda ash

- Asbestos
- Limestone
- Graphite
- Phosphates

**FUEL MINERALS**

- These are minerals that give out heat and light when heated

Examples

- Crude oil/petroleum
- Coal
- Natural gas
- Ignite
- Uranium

Types of mining

i) Modern mining

ii) Traditional mining

**Methods of mining used in East Africa**

a) Drift mining

This is where minerals are extracted from rock layers.

b) Open cast mining

This is the extraction of minerals by digging away top soil and rocks.

c) Alluvial

This is the extraction of minerals from alluvial soils e.g. gold

d) Underground mining

This is the extraction of minerals which are very deep in the ground.

e) Drilling

This is the method of extraction minerals like crude oil using a machine called Derrick

| Minerals | Location | importance |
|---|---|---|
| Limestone | • Odukuru hill in Tororo<br>• Hima in Kasese<br>• Mombasa(Kenya)<br>• Mtwara (Tanzania)<br>• Rusizi(Rwanda) | For making cement |
| Copper | Kilembe | • for making bullets<br>• for making coin currencies<br>• for making electric wires<br>• for making pipes<br>• for making helmets<br>• for making electric kettles<br>• for making ornaments<br>• for making artificial hips |
| Gold | Busia<br>Kotido<br>Kassanda<br>Kaabong<br>Nyanzi, Rusizi<br>Muyingo in Tanzania<br>Mara,mbeya<br>Kisumu in Kenya | • For making gold medals, trophies<br>• For making artificial teeth<br>• For making watche<br>• For making jewellery/ornaments |
| Cobalt | Kilembe | |
| Phosphates | Tororo(Osukuru hill)<br>Arusha(Tanzania) | for making artificial fertilizers |
| Sodaash | L.magadi(Kenya)<br>L. Natron (Tanzania) | For making glasses |
| Crude oil | Albertine region | For making Kerosene, |

| | | |
|---|---|---|
| | | diesel, bitumen, tar, dye, paint, petrol etc |
| Asbestos | Tororo district | For making roofing sheets |
| Salt | L. Katwe<br>L. Magadi(Kenya)<br>Mandawa(Tanzania) | For human consumption |
| Diamond | Mwandi (Tanzania) | For cutting glasses and for cutting other metals |
| Coal | Lukwa (Tanzania)<br>R. Akagera, Kiwiri in Rwanda | for power generation |

## OIL REFINERIES

- An oil refinery is a place where crude oil is turned into various oil products

Examples of oil refineries in E. Africa

i) Mombasa

ii) Dar – es – salaam

Qn: Which ministry is responsible for mining in Uganda?

The Ministry of Energy and Mineral Development

Importance of mining

- It is a source of employment /jobs
- It is a source of government revenue
- It promotes tourism
- It creates market for local goodS
- It leads to development of infrastructure

Problems facing mining in East Africa

i) Shortage of funds

ii) Poor transport

iii) Prices changes /price fluctuation

iv) Shortage of skilled labour

v) shortage of mining equipmemt

vi) Collapsing of mines

vii) Some minerals are located in remote areas

viii) Low level of technology

Problems caused by mining in E. Africa

- It has led to environmental pollution
- It has led to displacement of people
- It has led to clearing away of existing vegetation
- It has led to death of people due to accidents in mines

Why some minerals are not yet exploited in East Africa

- Due to poor transport
- Due to low level of technology
- Due to shortage of funds
- Due to shortage of mining equipment
- Due to shortage of skilled labour

## PHYSICAL FEATURES OF EAST AFRICA

1. Name the physical regions of East Africa

- The rift valley and western highlands
- The central highlands
- The coastal plains
- The Eastern plateau
- The central plateau

2. What is a coastal plain?

- It is a narrow strip of land along the coast.

3. Why is the coast of E. Africa hot yet it is near the Indian ocean?

It is on a low altitude

- 4. Which relief feature is found at the coast of East Africa?
  Coastal plain

5. Name the arms of the rift valey in E. Africa

i) Eastern arm

ii) Western arm

6. **Identify the lakes in the following arms of the rift valley**

a) Eastern arm

- L. Turkana
- L. Natron
- L. Eyasi
- L. Elmenteita
- L. Baringo
- L. Magadi
- L. Naivasha
- L. Manyara

b) Western

- L. Albert
- L. Edward
- L. Kivu
- L. Tanganyika

7. Name the deepest lake in East Africa

- L. Tanganyika

8. Identify the inland ports on L. Tanganyika

- Port Kigoma
- Port Ujiji

9. What shows that western arm of the rift valley is the deepest in E. Africa?

- It has the deepest lake in East Africa called Tanganyika

10. What is the largest fresh water lake in the rift valley of East Africa?

L. Malawi

11. Name the major dams on the following rivers in East Africa

a) **River Tana**

- Gitaru(largest)
- Kamburu
- Masinga
- Kindaruma
- Kambere

Qn; Why is the seven forks dam project called so?

Seven dams were constructed on it

b) **R. pangani**

- Hale dam
- NyumbaYamugu dam
- Pangani falls dam

c) **River Nile**

- Nalubaaledam(largest)
- Kiira dam
- Bujagali dam
- Isimba dam

12. Mention the types of mountains E. Africa

- Block mountain/Horst mountains
- Volcanic Mountains

Examples of Block Mountains in E. Africa

- Mt. Usambura in Tanzania

- Mt. Pare in Tanzania
- Mt. Uluguru in Tanzania
- Aberdare ranges in Kenya
- Mt. Matthew in Kenya
- Mt. Ndoto in Kenya
- Mt. Rwenzori in Uganda

**Volcanic mountain in E.Africa**

| **Country** | **Moutain** | **Highest Peak** |
|---|---|---|
| Uganda | Mt. Elgon<br>Mt. Mufumbiro<br>Mt. Moroto | Wagagai<br>Muhavura<br>Sokdek |
| Kenya | Mt. Kenya | Batian |
| Tanzania | Mt. Kilimanjaro | Kibo |

13. Name the highest peak of Mt. Rwenzori

- Margherita

14. Identify any one active volcano in E.Africa

- Mt. Kilimanjaro

16. Mention the three snowcapped mountains of East Africa

- Mt. Rwenzori
- Mt. Kenya
- Mt. Kilimanjaro

**CORAL REEFS**

- These are limestone rocks made from tiny dead creatures called polyps.
- Coral reefs are common at the East African coast

**Why?**

- The East African coast has warm/high temperatures

Importance of coral reefs

i) They promote tourism

ii) They provide raw material to cement making industry

iii) They protect ports from strong sea waves

Give two reasons why the East African Coast has got few natural harbours.

i) Presence of deep waters at the coast

ii) The E.African coast is indented

iii) Presence of coral reefs

Disadvantages of coral reefs

- They make fishing difficult
- They hinder the movement of marine vessels/ships
- They decompose into poor soils

17. Name one crop that grow well in decomposed coral reefs

- Coconuts

18. What are polyps?

Those are tiny dead sea creatures.

**INSELBERGS**

- Inselbergs are isolated hill.
- They are commonly found in the Nyika plateau of Kenya.
- The erosion forces were responsible for the formation of inselbergs.

Examples of inselbergs in E. Africa

i) Tororo rock in Uganda

ii) Musaijamukulu in Hoima

iii) Labwor in Uganda

iv) Mawezi rock in Uganda

v) Morongoro in Tanzania

## A MAP OF E. AFRICA SHOWING MAJOR PHYSICAL FEATURES

## TRANSPORT AND COMMUNICATION IN EAST AFRICA

Qn: What is communication?

Communication is the sending and receiving of messages.

Types of communication

i) Verbal communication

ii) Non - verbal communication

iii) Written communication

### Traditional means of communication

These are means of communication that were used long ago before the introduction of modern means.

Examples of traditional means of communication

- Drums
- Smoke
- Trumpets
- Horn
- Whistles
- Rock pictures

Advantages of traditional means oc communication

i) They are cheap and easy to use

ii) They are readily available

iii) They cater for both literates and illiterates

iv) They promote unity

Disadvantages of traditional means of communication

i) They cover a small area

ii) They are show

iii) They require a lot of interpretation like gestures

iv) They are tiring

v) They are not effective

vi) They don't give feed back

Modern means of communication

- Those are means of communication that were introduced by foreigners.

Examples of modern means of communication

- Telephones
- Newspaper
- Radios
- Magazines
- Telex
- Televisions
- Letters
- Billboards
- Internet
- Telegraph

Qn: Name the commonest means of communication in East Africa

Radios

Qn; What is the quickest means of communication in East Africa

Telephones

Advantages of modern means of communication

- They are quick/fast

- They cover awider area
- They are effective
- They give feedback.

## MASS MEDIA

- Mass media is a modern way of communicating to many people at once.

Examples of mass media means

i) Televisions

ii) Radios

iii) Internet

iv) Magazines

v) Newspaper

Types of mass media

i) Print media

ii) Electric media

### PRINT MEDIA

It comprises newspapers and magazines

### NEWSPAPER

Qn: Mention any four examples of Newspapers read in East Africa

**Advantages of newspaper**

i) They provide current news

ii) They provide educative information

iii) They provide stories of entertainment

iv) They are used for advertisements

**Disadvantages of newspaper**

i) They donotfavour the blind

ii) They are expensive to buy daily

iii) Some promote pornography

iv) They do not favour illiterates

v) They take long to reach remote areas

Qn; Why are newspapers not commonly used in East Africa?

- They are expensive to buy on daily basis
- They take long to reach rural areas
- Some people are illiterates

Qn: How are Newspaper important to trader?

- They help traders to advertise their goods

Qn: How are newspapers dangerous to school children?

- Some newspapers show pornography.

**ELECTRIC MEDIA**

- It comprises radios and television
- Radios are the commonest means of communication

Qn: Mention any fourradiostationsfound in East Africa

Qn: What is the main government radio station in Uganda?

- Uganda Broadcasting Corporation(UBC)

Why does UBC broadcast in many languages?

- To send information to all people
- To ensure equality of all tribes

Why are radios used by many people?

- They broadcast in all languages
- They are affordable /cheap

Advantages of radios

- They are cheap
- They favour the blind
- They favour the illiterates
- They educate people
- They entertain people

Disadvantages of radios

- They are expensive to maintain
- Some programmes on radios teach immoral behaviour
- They donot cater for the deaf

Qn: How are radios important to traders?

- They help traders to advertise goods

Advantages of radios over other means of communication

- Radios are cheaper than other means of communication
- Radios are easier to operate than other means of communication

## TELEVISIONS

Qn: Mention any four television stations in East Africa

Qn: Why are televisions not commonly used in East Africa?

- They are expensive to buy
- Some areas have poor network
- Some areas do not have electricity

**Advantages of televisions**

- They provide current news
- They entertain people

- They cater for both literates and illiterates
- They provide audio visual information

**Disadvantages of televisions**

- They are expensive to buy
- Some TV programmes show pornography
- They are not portable
- Some television signals do not reach remote areas
- They do not cater for the blind and deaf

## TELECOMMUNICATION

Telecommunication means include:

i) Telephones

ii) Telex

iii) Telegraphs

iv) Telefax

Telecommunication companies in Uganda

i) MTN

ii) Airtel

iii) Africel

iv) K2 Telecom

v) Uganda Telecommunication Limited (UTL)

Services provided by telecommunication companies

i) Mobile Phones service

ii) Landline services

iii) Facebook services

iv) Twitter services

v) Whats App Services

Advantages of telephones

- They are quick
- They are portable
- They are reliable and convenient
- They cater for both literates and illiterates
- They promote international business

**Disadvantages of telephones**

i) They are expensive to buy and maintain

ii) They do not cater for the blind

iii) Some areas do not have telephone networks

iv) They cause illness

v) They promote lies

**Importance of mobile phones to people**

- They are used for communication
- They are used for keeping money
- They entertain people
- They are used for research
- They are used for advartisments
- They are used for shooting videos

Qn: Which government body controls communication companies in Uganda?

- Uganda Communications Commission (UCC)

Qn: Under which ministry are communication companies in Uganda

- The ministry of ICT and National guidance

Challenges of Modern means of communication

- They are expensive to buy and maintain
- Most of them do not cater for illiterates
- They show pornography to people

- Most of them need electricity to operate well
- Some of them are dangerous to people's health if overused

## TRANSPORT

Transport is the movement of people or goods from one place to another.

### Types of transport

- Water transport
- Air transport
- Road transport
- Railway transport
- Pipeline transport

### Importance of transport

i) It promotes trade

ii) It promotes tourism

iii) It promotes industrialization

iv) It links rural areas to urban centres

vi) It eases the movement of goods and services

### Reasons why transport is called an industry

- It creates jobs for people.
- It is a source of income.
- It is a source of foreign exchange.

### Factors considered before choosing a means of transport

i) Distance to be covered

ii) Efficiency

iii) Goods to be transported

iv) Cost of transport

v) Destination of goods or people

v) Weather

**Traditional means of transport**

- Camels
- Donkeys
- Canoes
- Dhows
- Horses
- Rafts
- carts

Modern means of transport

- Aeroplanes
- Ships
- Trains
- Pipes
- Helicopters
- Ferries
- Boats

## ROAD TRANSPORT

It is the commonest type of transport used in East Africa.

Qn: List down any four means of road transport

**Types of roads**

i) Tarmac roads

ii) Murram roads

Importance of tarmac roads over murram roads

- Tarmac roads are more durable than murram roads
- Tarmac roads are not easily affected by weather changes unlike murram roads
- They are not dusty unlike mirram roads

Why are murram roads common in East African Countries?

- They are cheap to construct and maintain

**Why are murram roads impassable during**

a) Rainy season

- They are slippery
- They are muddy

b) Dry season

- They are dusty

**FEEDER ROADS**

- These are roads which link rural areas to urban centres

  Or

- These are minor roads that connect to major roads

Importance of feeder roads

- They help farmers to transport their produce to market centres
- They help people to access service easily

Major roads in East Africa

East Africa is crossed by two major roads I'e

i) The great North road

ii) The Trans – African Highway

Qn: Mention the countries crossed by the above roads

**Note**: The construction of the above major roads was funded by the world Bank

**Advantages of road transport**

- It provides door to door services/it is flexible
- It is cheap
- It is common

- It is easy to maintain

**Disadvantage of road transport**

- It is affected by bad weather
- Accidents are common
- It is affected by traffic jam
- It is expensive over long distances

Why are there many potholes on Ugandan Roads?

- Due to heavy trucks
- Due to heavy rainfall

Qn: Name the body responsible for the construction of major roads and bridges

- Uganda National Roads Authority (UNRA)

Qn: **Which ministry is responsible for constructing major roads?**

- Ministry of works and Transport

**Types of road signs**

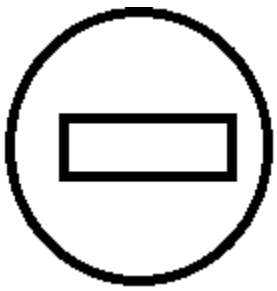

i) Prohibitory road signs

ii) Mandatory road signs

iii) Warning road signs

iv) Informative /information road signs

**No entry**

**No entry for pedestrians**

No over taking

End speed Limit

speed limit

Parking

No parking

Humps a head

Children crossing/ school a head

Double bend

Stop

Men at work

Narrow road

Round about

## AIR TRANSPORT

This is the movement of people and goods from one place to another using air transport means.

- This is the quickest /fastest type of transport

Means of air transport

i) Helicopters

ii) Aeroplanes

iii) Jets

iv) Parachutes

v) Air balloon

vi) Rockets

Qn: Name the quickest means of air transport

- Aeroplanes

**Major airports in East Africa**

An airport is a place where aeroplanes land and take off

They Include;

i) Entebbe international Airport

ii) Dra – es – salaam international airport

iii) Arusha international airport

iv) Kilimanjaro international airport

v) Nairobi international airport

vi) Jomo Kenyatta international airport

viii) Mombasa international airport

Advantages of air transport

- It is quick /fast
- It is the most comfortable
- It is not affected by traffic jam
- It has a fixed time table
- It is not mostly affected by physical features

**Disadvantages of air transport**

- It is expensive
- It is affected by bad weather
- It is not common
- There are limited chances of survival incase of an accident

**SAMPLE QUESTIONS**

1. Why is it shorter from Kabale to Gulu by air transport than road transport?

- It is not affected by physical features unlike road transport
- It takes a direct path unlike road transport

2. Why is air transport not commonly used in East Africa?

- It is very expensive

3. **Define the following terms**

a) **Perishable goods**

These are goods which can go bad easily

**Examples**

i) Tomatoes

ii) Fish

iii) Flowers

iv) Milk

v) Vegetables

Qn: Name the best type of transport for transporting perishable goods

- Air transport

**Why?**

- It is quick/ fast

4. Name the body in Uganda responsible for air transport

- Civil aviation Authority (C.A.A)

5. State the difference between airport and airfield strip

- An airport handles international flights while an airfield handles internal flights

**Causes of air accidents**

- Bad weather
- Mechanical default
- Pilot error

**WATER TRANSPORT**

- This is the movement of people or goods using water means.
- It is the cheapest and slowest type of transport
- It is suitable for carrying bulky goods and fragile goods

**Means of water transport**

- Boats
- Ships
- Canoes
- Ferries
- Rafts
- steamers

**Sample Questions**

1. What are bulky goods?

- These are heavy goods

Examples

- Cement
- Minerals
- Iron bars
- Timber
- Vehicles

2. What are fragile goods?

These are goods which can get broken easily.

Examples

- Glasses
- Flasks

3. Why is water transport suitable for fragile goods

- It is smooth

## PORTS

A part is an area where ships load and offload goods or passengers

### Types of ports

i) Sea ports

ii) Inland ports

NB: A sea port is found at the coast while an inland port is found at the lake.

### Major ports found in East Africa

i) Port Mombasa

ii) Port Dar –es – salaam

Qn: Why does Uganda use Port Mombasa instead of port Dar – es- salaam?

- Port Mombasa is nearer Uganda than port Dar – es – salaam

### Hinterland

- A hinterland is an area served by aport

Examples of inland ports on L.Victoria

| Uganda | Kenya | Tanzania |
|---|---|---|
| Port bell | port Kisumu | Port Bukoba |
| Port Jinja | Port Asembo | Port Mwanza |
| Port Bukakata | | Port Musoma |

Inland ports on L. Malawi

- Port manda

**Advantages of water transport**

- It is cheap
- It carries bulky goods
- It is not affected by traffic jam

**Disadvantages of water transport**

- It is slow
- It is not flexible /it does not offer door to door service
- It is affected by piracy
- It can be affected by bad weather

Causes of water accidents

i) Strong windsand waves/storm

ii) Overloading of boats

iii) Boats in bad conditions

iv) Water hyacinth

v) Dangerous water animals

Qn; Give one safe way of moving on water

- By wearing life jackets

Qn: How do life jackets help to save lives of people in case of water accidents?

- They keep passengers afloat incase of an accident.

**PIPELINE TRANSPORT**

- It is the best type of transport for transporting goods in liquid form.

Goods transported by pipeline

- Water
- Crude oil (petrol, diesel, paraffin)
- Sewage
- Natural gas

**Advantages of pipeline**

- It does not pollute the environment
- It requires little labour
- It is quick
- It reduces traffic jam

**Disadvantages**

- It is expensive to install /construct
- It is not flexible /it does not offer door to door services
- It can lead to great losses in case of leakage

**RAILWAY TRANSPORT**

- This is the movement of passengers and goods using trains
- Trains are the only means of railway transport

**Types of rain**

i) Passenger trains

ii) Cargo train

**Advantages of railway transport**

i) It is cheap

ii) It is not affected by traffic jam

iii) It is less affected by weather changes

iv) It is time tabled

v) It carries bulky goods

**Disadvantages of railway transport**

- It is not flexible/ it does not offer door to door services
- It is slow
- It is not common
- Railway lines are expensive to construct

**Railway lines in East Africa**

a) **Tanga – Korogwe railway**

- It was the first railways line to be constructed in East Africa in1893.
- It was constructed by the Germans in Tanganyika
- It started from Tanga in 1893 to Korogwe in 1902

Qn: Why was the Tanga – Korogwe railway called so?

- It begun from Tanga and ended at Korogwe

Qn; Name the country in East Africa where the first railway was built.

- Tanzania

Qn: Which company facilitated the construction of Tanga Korogwe railway?

- GEACO

Qn: Name the people who built Tango-korogwe railway line

- Germans

Qn: Why was Tanga – Korogwerailwayline constructed?

- To transport cash crops like cotton and sisal
- To make transport easy

B) **The Uganda Railway**

- Its construction started in Mombasa in 1896 and ended at port Kisumu in 1901.

Qn: Why was the Uganda railway called so?

- It was mainly built to link Uganda to the coast.
- The idea of constructing the Uganda railway was suggested by the founder of IBEACO, Sir William Mackinnon
- It was constructed by the Indian coolies and funded by the British Government

**Reasons for the construction of the Uganda railway**

- To link Uganda to the coast(Economic)
- To ease transportation of goods (economic)
- To make British administration easy(political)
- To stop slave trade (social)

**Pioneers of the Uganda railway**

1. Sir William Mackinnon

- He brought the idea of constructing the Uganda railway

ii) Capt. Mac Donald

- He was the chief surveyor of the Uganda railway

iii) Col. Patterson

- He killed man eaters at Tsavo

iv) Sir George Whitehouse

- He was the chief engineer and overall supervisor of the Uganda railway.

v) Sir Guildford Molesworth

- He was the last engineer to carryout the final inspection of the already built railway

**Problems faced by the builders of the Uganda railways**

i) Shortage of labour

ii) Maneaters at Tsavo

iii) Attacks from hostile tribes

iv) Tropical diseases

v) Lack of supplies like foodandmedicine

vi) Rift valley escarpments and mountains that made the construction difficult and expensive

**Solutions to the above problems**

i) Indian coolies were brought to solve the problem of labour.

ii) Hostile tribes were fought and defeated.

iii) Man eaters were killed by Col. Patterson

iv) Bridges were constructed across the rift valley

**Effects /results of the Uganda Railway**

**Positive effects**

i) Uganda was linked to the East African coast

ii) Slave trade was stopped

iii) British administration in the interior became easy

iv) Transportations of goods became easy

v) Trade was made easy

vi) Many trading centers developed along the railways

**Negative effects**

i) Kenaya highlands were opned up for the white settlers

ii) East Africa's resources were exploited

iii) Some lost their land

iv) Indians became agents of colonialism

v) Some people lost their lives during the fighting

**Why Africans refused to build the Uganda railway.**

- They were underpaid
- They feared to leave their families
- They were workingunder poor conditions

**Sample Questions**

1. Why was the Uganda railway called so?

   - It mainly was built to link Uganda to the coast

2. Name the builders of the Uganda railway

   - Indian coolies

3. Why were the Indian coolies called so?

   - They were unskilled

4. Which town in East Africa was store during the construction of the Uganda railway?

   - Nairobi

5. Why was it difficult to construct the Kenya Uganda railway in the Eastern arm of the rift valley?

   - It was difficult to construct bridges in the rift valley
   - It was difficult to level the escarpments

6. What problems did the Indian coolies face at the places below?

a) **Tsavo**

   - Man eaters

b) **Voi**

steep escapment

7. How did the Kikuyu and masai effect the construction of the Uganda railways?

- They attacked and killed some Indian coolies
- They stole the building equipment
- They dismantled the already built railway

8. How did the construction of the Uganda railway help to end slave trade?

- Goods were carried by trains instead of slaves
- It made the movement of the British troops easy who fought against slave trade.

9. How did the Indian community come into existence?

- They came to construct the Uganda Railway and some never went back

10. How was the problem of labour shortage solved during the construction of the Uganda railways?

- Through bringing Indian coolies

11. Why didn't the Nandi and Masai want the railway to pass through their land

- They never wanted to loosetheir land

12 Why was the Uganda railway extended to the following areas;

a) **Jinja to Namasagali**

- To transport cotton

b) **Kampala to Kasese**

- To transport copper

c) **Kampala to port bell**

- To transport imports and exports

d) **Tororo to Pakwach**

- To transport tobacco and other agricultural produce

13. Why was copper transported from Kasese to Jinja?

- For smelting

## TANZAM /TAZARA RAILWAY

- TANZAM stands for Tanzania- Zambia
- TAZARA stands for Tanzania – Zambia railway
- TANZAM railway begun at KapiriMposhi in Zambia and ended at

Port Dar –es-saalam in Tanzania

Qn: When did the construction of the TANZAM railway begin and end?

It began in 1970 and ended in1975

Qn: Which two governments financed the TANZAM railway?

i) Tanzania

ii) Zambia

Qn: Why was the TANZAM railway constructed?

i) To link Zambia to the coast

ii) To ease the transportation of copper from Zambia to the coast

iv) To open up the remote areas of South Western Tanzania

iv) To transport agricultural produce

Qn; Which experts/people constructed the TANZAMrailway?

- Chinese experts

Qn; <u>Outline the importance of the construction of the TANZAM railway /effects</u>

- Zambia was linked to the coast
- Transportation of copper from Zambia to the coast became easy
- Remote areas of South Western Tanzania were opened up
- Transportation of agricultural produce became easy
- It promoted friendship between Tanzania and Zambia
- It boosted trade between Tanzania and Zambia
- It created employment for people in Tanzania and Zambia

NB: TANZAM railway is the longest in East Africa with

a) 147 stations

b) 310 bridges

c) 21 tunnels

Qn: <u>Name the proposed railway which is going to link all member countries of EAC</u>

- East African Standard Gauge Railway

## <u>A MAP SHOWING RAILWAY SYSTEMS IN EAST AFRICA</u>

## P.6 TERM THREE NOTES

## FOREIGN INFLUENCE IN EAST AFRICA

Qn: What is foreign influence?

These were the different changes that were brough about by different groups of people who came to Africa.

Groups of foreigners who came to East Africa

i) Traders

ii) Explolers

iii) Missionaries

iv) Colonialists /administrators

v) Settlers

**TRADERS**

- Trade came to buy and sell items.
- Traders are grouped into three namely;

i) Arab traders

ii) Indian traders

iii) European traders

**EXPLORERS**

Qn: Who is an explorer?

An explorer is a person who goes to a foreign land to study about its geographical nature.

Or

This is a person who goes to a foreign land to discover new things about it.

- There are two groups of explores who came to East Africa namely:

i) European explorers

ii) Portuguese explorers

Qn: Why was Africa referred to as Dark Continent by the Europeans?

- They knew little about the interior of Africa

Qn: Why did the Europeans fear to enter the interior of Africa

- Due to thick forests
- Due to hot desert
- Presence of dangerous wild animals
- Presence of hostile tribes

Reasons for the coming of the explorers to East Africa

- To discover physical features/geography
- To learn the cultures of people of East Africa
- To gain fame and prestige
- To fight against slave trade
- To learn more about the natural wealth of E. Africa

Qn: Name two organizations that sent explores to East Africa

i) Roya Geographical Society (RGS)

ii) London Missionary society

Qn; How was R.G.S important to early European explorer?

- It provided them with sketch maps
- It funded their journeys
- It trained them before their journeys

Qn; Why did most European explorers who came to East Africa first reported to Zanzibar?

- To get permission from the sultan
- To learn Swahili
- To get porters
- To get guides
- To get interpreters

Qn: How is Bagamoyo connected to the coming of the early European Explorers?

- It was the entry point for most explorers to the interior of East Africa.

Qn: Why did most explorers who came to East Africa pass via Bagamoyo not Kenya?

- They feared man eaters in Kenya
- Tanzania had clear routes to the interior
- They feared hostile tribes in Kenya

Name the explores who came to East Africa

i) John Hanningspeke

ii) Sir Samuel Baker

iii) Dr. David Livingstone

iv) Richard Burton

v) James Grant

vi) Dr. Fischer

vii) Henry Morton Stanley

**John Hanning Speke and Richard Burton**

1. What was Speke's country of birth?
   - Britain
2. What was Speke's profession?
   - Soldier
3. What was Burton's country of birth?
   - Wales
4. What was Burton's profession?
   - An actor
5. Who were the first two European explorers to enter the interior ofE.Africa?

i) John Speke

ii) Richard Burton

6. How many journeys did Speke make to East Africa?

- Two

7. How many journeys did Burton make to East African?

- One

8. Name the explorer John Speke came with during the second journey

- James Grant

9. Name the organization that sent Speke to East Africa

- Royal Geographical Society

10. Name the president of R.G.S who sent John Speke for

a) His first Journey

- Lord Ripon

b) Second Journey

- General Murchison

11. Why did John Speke and Richard Burton go back to Europe as enmies?

- They disagreed about the source of R. Nile

12. Why were John Speke and Burton sent to East Africa?

- To find the source of R. Nile

13. Why were explorers much interested in finding the source of R.Nile?

- To gain fame /prestige

14. Name the two gun men who escorted Speke and Grant from the coast to the interior.

i) MwinyiMabruk

ii) Sidi Bombay

15. **Identify the local name for L. Victoria in the following countries**

| **Country** | **Local name** |
|---|---|
| Uganda_____ | Lake Nalubale |
| Kenya_____ | Lake Sango |
| Tanzania_____ | Lake Nyanza |

16. Why was lake Nalubaale called so by the local people ?

- It was a home of gods

17. Why is it wrong to say that John Speke was the first person to see the source of R. Nile?

- The local people /natives had already seen it

18. Name the King of Karagwe who welcomed John Speke and Richard Burton

- King Rumanika

19. How was King Rumanika helpful to early European explorers?

- He provided them with shelter
- He provided them with food
- He provided them with medical care

20. What happened to Burton and James Grant at Karagwe?

- Both fell sick

21. Name the features John Speke discovered

i) Lake Victoria

ii) Source of R. Nile

iii) Ripon falls

22. Why did John Speke name the following features so?

i) Lake Victoria

- To honour the Queen of England called Victoria

ii) Ripon Falls

- To honour the president of R.G.S

23. Name the first European to enter Uganda.

- John Speke

24. Name the king of Buganda who welcomed Speke

- Kabaka Mutesa1

25. Where did Speke meet Sir Samuel Baker?

- At Gondokolo

**SIR SAMUEL BAKER**

1. What was Baker's country of birth

- Britain

2. What was Baker's profession?

- Engineer/Author

3. Name the explorer who came to East Africa with his family

- Sir Samuel Baker

4. Name the wife of Sir Samuel Baker

- Lady Florence Baker

5. Why was Sir Samuel Baker much loved by the people of Northern Uganda?

He stopped slave trade in Acholi.

6. How did Sir Samuel Baker stop slave trade in Acholi?

- He gave the Acholi guns fro protection
- He built forts for protection

7. Mention the forts that were built by Sir Samuel Baker.

i) Fort Patiko/ Baker's fort

ii) Fort Foweira

8. Name the group of slave traders who carried out slave trade in Northern Uganda.

- Khartoumers

9. Mention the physical features Sir Samuel Baker Discovered

i) Lake Albert

ii) Murchison falls

10. Name the President of R.G.S who sent Sir Samuel Baker

- General Murchison

11. Why did Sir Samuel Baker name the Following features so?

i) Lake Albert

- To honour the husband of the Queen of England

ii) Murchison falls

- To honour the second president of R.G.S

12. What was the local name for L. Albert?

L. Mwitanzige

13. Name the explorer who traced for the source of R. Nile from its mouth

- Sir Samuel Baker

**NB**: Sir Samuel Baker in1963 was appointed as the first governor of the equatorial province by Khedive Ismael from Egypt

Qn: Who was the king of Bunyoro by the time Sir Samuel Baker arrived in Bunyoro?

- Omukama Kamurasi

## HENRY MORTON STANLEY

Qn: What was Stanley's country of birth?

- Britain

2. What was his profession?

- Journalist

3. How many journeys did he make to Africa?

- Three journeys

| His journeys | Physical features discovered |
|---|---|
| 1st journey 1871 – 1872_____ | |
| 2nd journey 1874 – 1875_____ | Mt.Rwenzori, L. Edward, L. George, R. Lualaba |
| 3rd journey 1877 – 1879_____ | |

4. What was the purpose for the following journeys?

I) First Journey

- To look for Dr. David Livingstone

ii) 2nd Journey

- To prove whether L.Victoria was the source of R. nile

iii) 3RD Journey

- To rescue EminPash from the Mahdists

Qn; Why did H.M Stanley name Mt. Rwenzori mountains of the moon

It is snow capped

Causes of the Madhist revolt in Sudan

Qn: Name the organizations that sponsored H.M Stanley

i) Daily Telegraph of London

ii) Herald Tribune of New York

- During his second journey, he circumnavigated L.victoria in his canoe called**Lady Alice.**
- He proved that Lake Victoria was the source of R. Nile
- He reached Kabaka's palace with Mafta in1875 and met Mukisa the Katikiiro(Prime Minister) of Buganda by then who introduced them to KabakaMutesa 1.
- On Kabaka request, Stanley wrote a letter to the Queen of England inviting the missionaries to come to Uganda.
- The letter was given to Lenant De Bellefonds to take to England who was later murdered by the Madhi soldiers in Sudan.

Qn: Why did Stanley circumnavigate L.victoria?

- To prove whether Lake Victoria was the source of R. Nile

Qn; Name the interpreter H.M Stanley moved with from Zanzibar

- Mafta

Qn: In which African country did Stanley work as a colonial agent?

- DRC

Qn: Why was he sent to DRC?

- To start Belgium administration

Qn: Name the European country which employed Stanley as their agent in Africa

- Belgium

Qn: Who employed H.M Stanley as a colonial agent in Africa?

- King Leopold 2 of Belgium

Qn: How is H.M Stanley connected to the coming of the missionaries in Uganda?

- He wrote a letter on behalf of KabakaMuteesa 1 inviting missionaries

Qn: Give two reasons why Kabaka Muteesa1 invited missionaries to Uganda

- To teach his people how to read and write (formal education)
- To spreads Christianity

Qn; Why didn't KabakaMutesa 1 write a letter to invite the missionaries

- He was illiterate

Qn: Why did Kabaka Mutesa1 and Mwanga turn against missionaries?

- They preached against his religion
- They disobeyed him

## DR. DAVID LIVINGSTONE

1. What was livingstone's country of birth?

- Scotland

2. What his profession?

- Medical doctor

3. How many journeys did he make to Africa?

- Three journeys

4. Outline the region he explored in Africa

i) East Africa

ii) South Africa

iii) Central Africa

NB: **Livingstone made three different journeys to Africa in the following years as follows:**

i) 1st journey 1852 – 1856

ii) 2nd journey 1858 – 1863

iii) 3rd journey 1866 – 1873

Qn: Name the organization that founded his:

a) **1st and 2nd journeys to Africa**

- London Missionary Society

b) **Third journey to A frica**

- He funded himself

Qn; Write down the features he saw and named as the first whiteman

a) **On his first journey**

i) Lake Ngami in Namibia

ii) Kalaharidesert

b) **On his 2nd journey**

i) Lake Malawi

ii) Victoria falls in Zambia

iii) River Zambezi in Zambia

c) **On his 3rd journey**

i) River Ruvuma

ii) River Congo

iii) Lake Banguela in Zambia

Qn: Which strange thing did Livingstone find in Africa that made him sad?

Slave trade

Qn: How did livingstone show eveil towards slave trade?

- He preached against it
- He wrote books /reports against it
- He mobilized funds to stop it

Qn: Which organization was formed due to livingstone'scompaign to spread Christianity in Africa?

- Universities Mission to Central Africa (UMCA)

Qn: Where did Stanley meet Livingstone in Africa?

At port Ujiji on L.Tanganyike

Qn: Where did Livingstone die from and When?

Chitambo village in Zambia in 1873

Qn: Name the two servants of Dr. David Livinstone

i) Sussi

ii) Chuma

Qn: Where was he buried?

Westerminsters Abby in London

**Why?**

- He was referred to as a hero

**Contributions of Dr. David Livingstone**

- He fought against slave trade
- He treated sleeping sickness
- He spread Christianity
- He saw and named physical features
- He taught practical skills

**JOSEPH THOMPSON**

Qn: What was Thompson's country of birth?

- Scotland

2. Name the organization which sent Thompson to Africaa.

- R.G.S

3. Why was Thompson sent to Africa?

- To find the shortest and direct route from the East Africa coast to L.Victoria

4. Name the first explorer to pass through the land of the masai and Nandi successfully

- Joseph Thompson

5. Name the Physical features Thompson discovered

i) Mt. Elgon

ii) L. Baringo in Kenya

**COUNT TELEKI**

Qn: What was Teleki's country of birth?

- Hungry
- He was the first European explorer to see LTurkanana(Rudolf) and L.Stephania in Ethiopia

Dr. FISCHER

- He was a German Doctor
- He was the first explorer to see L. Naivasha in Kenya in 1883
- He spent little time in Africa

**Why?**

- Due to fear of hostile tribes

**CHAILE LONG**

- He was the first explorer to see L.Kyoga

**Effects of the coming of explorers to East Africa**

- They renamed some physical features
- They linked East Africa to Europe
- Some stopped slave trade
- They paved way for the coming of missionaries and colonialists
- They made reports about African culture
- They drew sketch maps of Africa

Qn; **How did explorers pave way for the coming of the colonialists**

- They drew sketch maps that guided colonialists to the interior
- They reported about the mineral wealth of Africa
- They asked their home governments to stop slave trade
- They reported about Africa's culture

- They reported about the political situation in Africa
- They identified parts goods for settlement

**Problems faced by early European explorers**

- Language barrier
- Hostile tribes
- Attacks from dangerous wild animals
- Tropical diseases
- Poor geographical location
- Shortage of food and water

Qn: Name the two European explorers who made two journeys to East Africa

i) H.M Stanley

ii) John Speke

iii) Dr. David Livingstone

Qn; Mention any two ways in which the work of the early explorers contributed to the development of East Africa

i) They linked Africa to Europe

ii) Some stopped slave trade

iii) Some taught practical skills

## PORTUGUESE EXPLORERS

- The Portuguese are people from Portugual.
- They were the first Europeans to reach the coast of E. Africa

Why the Portuguese come to the E. Africa?

i) To control the coastal trade

ii) To spread Christianity

iii) To find a sea route to India

iv) To get new trade items

Why the Portuguese were interested in settling at the coast of East Africa?

i) To control the coastal trade

ii) To spread Christianity

iii) To create a resting base for their sailors

iv) To find market for their finished goods

v) Due to fertile soils

vi) Due to good climate

vii) The coast was strategically located

**Examples of Portuguese who come to Africa**

i) Dinz Diaz

ii) Bartholomew Diaz

iii) Vasco da Gama

iv) Francisco de A'lmeida

Qn: What was the major reason for the coming of Portuguese to Africa?

- To find a sea route to India

Qn: Give two reasons why the Portuguese were interested in finding the sea route to India

i) They were highly taxed in Turkey

ii) The Turkish war had blocked the Northern route

Qn: Name the first group of Europeans to come to E. Africa

Portuguese

**Mention the contributions of the following people in the discovery of the searoute to India**

a) **Prince Henry the Navigator**

- He built a school for sailors called sagres in Portugual
- He invented a compass
- He funded the Portuguese explorers
- He provided sketch maps for Portuguese explorers
- He built caravelships for oversea trade

NB: He was nicknamed the navigator because he was much interested in sailing.

b) **Dinis Diaz**

- He was the first Portuguese explorer to come to Africa
- He discovered cape verde

c) **Bartholomew Diaz(1487 – 1488)**

- He was sent by King John 2
- He was the first Portuguese explorer to reach the coast of South Africa
- He named the southern Tip of Africa "Cape of storms"

**Why?**

- It is because he was going todie from there due to heavy storms.
- From here, he returned to Portugal.

d) **Vasco da Gama (1497 – 1498_**

- He was sent to Africa by King Emmanuel the Fortunate
- He named the cape of storms "Cape of Good Hope"

**Why?**

- He was full of hope of discovering the sea route to india
- He named the Present day Natal that "DiesNatalis" because he spent his Christmas of 1497 there.
- He reached the East African coast and the Arabs did not welcome him

**Why were the Portuguese not welcomed by the Arabs st the coast of East Africa?**

- The Arabs thought that the Portuguese were going to control the coastal trade.
- They never wanted the spread of Christianity the Portuguese were intendind to do.

**NB**: Vasco da Gama was only welcomed by the **Sultan Sayyid Ali** of Malindi who gave him the captain called **Ahmed Bin Majid** to guide him to india

Qn; How did the Arabs know that the Portuguese were Christians?

- The Portuguese had crosses on their boats.

QN: Mention any three problems the Portuguese faced during their journey to Africa

i) Tropical diseases

ii) Poor transport system

iii) Shortage of food

iv) Storms

Why the Portuguese easily established their rule at the coast of E.Africa?

i) They had strong army

ii) They used surprise attacks

iii) They had strong weapons

iv) The people at the coast were not united

Why the Portuguese rule collapsed /declined?

- Constant attacks from the Arabs
- Shortaage of funds
- Portugal was far from East Africa
- The Portuguese were harh and cruel
- The Portuguese officials were corrupt

Trade items Portuguese got from East Africa

i) Slaves

ii) Minerals

iii) Ivory

Trade items the Portuguese got from India

i) Silk
ii) Spices
iii) Minerals (gold)

Qn: Where did the Portuguese set up their headquarters in East Africa?

- Fort Jesus

Qn: Where did the Portuguese establish their headquarters in Africa?

- Mozambique

Qn: What evidence shows that Portuguese once lived in East Africa?

- Fort Jesus

Why the Portuguese built fort Jesus in E. Africa

i) For protection

ii) To act as an administrative base

iii) To act as a resting base for sailors

iv) To acts as a base for repairing their ships

Economic importance of Fort Jesus to Kenya

i) It promotes tourism

ii) It creates jobs for people

iii) It earns revenue to the government

**Effects of the Portuguese rule in East Africa**

**Positive Effects**

i) They built for Jesus

ii) They introduced new crops

iii) They spread Christianity

iv) They linked Africa to Europe

v) They introduced the wearing of gomesi for women

Crops that were introduced by the Portuguese

i) Guavas

ii) Yellow Maize

iii) Pineapples

iv) Cassava

v) Pawpaw

**Negative effects**

i) They destroyed some coastal towns

ii) They promoted slave trade

iii) They charged high taxes

Iv) They displaced coastal people

v) They caused constant wars at the coast

Qn: Name the group of people who introduced the Zenji empire at the coast

- Arabs

Qn; Which group of people destroyed the Zenj empire?

- Portuguese

Qn; Which people took over the control of the East African coast after the collapse of the Portuguese rule?

- Arabs

## A MAP OF EAST AFRICA SHOWING EXPLORATION ROUTES

## MISSIONARIES

Qn; Who is a missionary?

Amissionary is a person who goes to a foreign land to spread the word of God

Qn: What is a mission Station?

This is a place where missionaries settled and worked from

**Reasons for the coming of missionaries**

i) To spread Christianity (major)

ii) To introduce formal education

iii) To stop slave trade

iv) To introduce western culture

v) To teach practical skills

**Missionary groups that came to East Africa**

i) White fathers

ii) Mill Hill fathers

iii) Verona Fathers

iv) Protestant Missionaries

v) Roman Catholic Missionaries

Qn: Name the first missionaries to come to E. Africa

i) Johan Rebman

ii) Jacob Erhardt

iii) Ludwig Krapf

Qn: Who wrote to the Queen of England Inviting missionaries to Uganda?

- Henry Morton Stanley

Qn; Name the King of Buganda who invited missionaries to Uganda

- KabakaMuteesa 1

Qn: How did KabkaMuteesa 1 Contribute to the coming of missionaries to Uganda?

- He invited them

**LUDWIG KRAPE**

- He was a German explorer and Protestant Missionary
- He was the leader of CMS in E.Africa
- He was the first missionary to reach East Africa

Contributions of Ludwig Krapf

i) He established the first Mission Station in E. Africa at **RabaiMpya**near Mombasa

ii) He wrote the first Kiswahili dictionary

iii) He translated the New Testament into Kiswahili

iv) He was the first European to see Mt. Kenya

**JOHANN REBMAN**

- He joined Krapf in East Africa in 1846
- He visited the Chagga people and became the first Europen to see Mt. Kirimanjaro

**JACOB ERHARDT**

- He was a German explore and Christian missionary
- He was the first European explore to draw the sketch map of E. African in1850

**DR. STEER**

- He worked among freed slaves in Zanzibar
- He built a large cathedral at Zanzibar

**PROTESTANT MISSIONARIES**

- It was the first group of missionaries to come to Uganda in 1877
- It was sent by the Church Missionary Society (CMS)

Qn: Mention the first three protestant missionaries to come to Uganda in 1877

i) Shelgold Smith

ii) Rev. C.T. Wilson

iii) O'Neil

Qn; Who was the leader of CMS in Uganda?

- Alexander Mackay
- Alexander Mackay was a teacher, carpenter and missionary.

Qn: List down the contributions of Alexander Mackay

i) He introduced the first printing press

ii) He taught practical skills

iii) He spread Christianity

Examples of practical skills taught by Alexandre Mackay

i) Carpentry

ii) Building

Writing 3R'S in full as taught by Missionaries

i) Reading

ii) Writing

iii) Arithmetiv

How did Alexander Mackay Contribute to the spread of Christianity inUganda?

i) He printed prayer books

ii) He printed hymn books

Give two ways people of E. Africa contributed to the spread of Christianity

i) They provided land where churches were built

ii) They sent their children to missionary schools

iii) Some became missionaries

Give one reason why mission stations were built on hills

- For protection

**Roman Catholic Missionaries**

This was the second group of missionaries to come to Uganda in 1879 from France.

It has the following representatives

i) Fr. Simon Lourdel

ii) Brother Aman's Delmas

NB: Fr. Simon Lourdel was the leader of RCM in Uganda

**Effects of Missionary work in East Africa (positive)**

**Social effects**

i) They introduced western culture

ii) They spread Christianity

iii) They stopped slave trade

iv) They treated the sick

v) They introduced formal education

**Economic effects**

i) They taught practical skills

ii) They introduced new crops

iii) They constructed roads

iv) They introduced legitimate trade

**Negative effects**

i) They undermined African culture

ii) They caused religious wars

iii) They divided people according to sects

iv) They made many people to die as martyrs

**Problems faced by Missionaries**

i) Language barrier/ Language difficult

ii) Tropical diseases

iii) Hostile tribes

iv) Poor transport and communication

v) Harsh weather conditions

vi) Shortage of food.

Qn; **How did the missionaries solve the problems below?**

a) **Language Barrier**

- By hiring interpreters
- They learnt African local languages
- They taught literacy

b) **Hostile Tribes**

- By befriending African Chief
- They gave gifts to African chiefs and kings
- They emphasized the Ten Commandments
- They asked their home government for protections

c) **Poor transport**

- They constructed roads
- They introduced bicycles
- They hired porters

**d) Food shortage**

- Thy befriended natives to give them food
- Some carried their own food

How did missionaries pave way for the coming of colonialists?

- They constructed roads that made movement of colonialists easy
- They asked for protection from their home governments
- They asked their home governments to stop slave trade
- They reported about African culture
- Their preaching softened African's minds against resistence

Qn: Name the Bishop Who was murdered on orders of Kabaka Mwanga

- Bishop James Hannington

Qn: How did the Bisop meet his death?

- He was speared

Qn: Why was Bishop James Hannington murdered?

He used a wrong route to enter Bugansa

Qn; Why did Buganda Kingdom kill all the foreigners who tried to enter it using the Eastern Route

- The Baganda believed that any foreigner who would enter through the east would overthrow the king

Qn: In which place was Hannington murdered?

Chief Luba's palace

## COLONIALISTS/ADMINISTRATORS

Qn: Give the meaning of the following terms

a) Colonialism

This is when a weak country is fully controlled by a powerful country politically, socially and economically.

b) Colonialists

These are people from stronger countries who rule others in weaker countries on behalf of their home governments.

c) Colony

This is a weak country controlled and developed by a powerful country with the aim of having permanent settlement.

**Examples of colonies in E.Africa**

Kenya

d) **Protectorate**

This is a weak country controlled and defended by a powerful country with an aim of economic exploitation.

**Examples of protectorates in E. Africa**

- Uganda
- Tanzania
- Burundi
- Rwanda

e) **Mandate Territories**

These were formers colonies of Germany that were handed over to the league of nations after the first world war.

**Examples of mandates in E.Africa**

- Tanzania
- Rwanda
- Burundi

f) **Trusteeships**

These were former colonies of Germany and Italy that were handed over to UN after the second world war.

Qn; Name the European countries that took over the following countries after the First World War

i) Tanzania_____ Britain

ii) Rwanda_____ Belgium

iii) Burundi_____ Belgium

**Scramble and Partition of East Africa**

Qn; Give the meaning of the following terms

a) **Scramble of Africa**

This was the struggle among European countries to get colonies in Africa

b) **Partition of Africa**

This was the peaceful division of Africa among European countries

European countries that struggled for E. Africa

i) Britain

ii) Germany

**Reasons for the coming of colonialists/reasons for scramble and partition**

- To get market for their finished goods
- To get raw materials for their home industries/minerals
- To get colonies in East Africa
- To invest their surplus capital
- To stop slave trade
- To gain political pride
- To protect the missionaries
- To get land for settlemen

**BERLIN CONFERENCE**

This was an international meeting held in Berlin to find peaceful ways of dividing Africa among European powers.

Qn: Why was Berlin conference called so?

It was held in Berlin the capital city of Germany in 1884 NOV – 1885 Feb

Qn: Who chaired the Berlin Conference?

- Chancellor Otto von Bismarck

Qn: Why was Berlin conference held?

- To get peaceful ways of dividing Africa among European powers( major)
- To discuss means of stopping slave trade in Africa
- To put guidelines to be followed when getting territories in Africa

QN: What was the major result of the Berlin conference?

- Africa was divided among European countries

**Resolutions of the Berlin conference**

i) Any European country was free to claim for land in Africa

ii) The colonial masters had to stop slave trade in their territories

iii) For any extension of rule, other European powers had to be informed

iv) Once land is claimed for, no other European country was to claim it again

Qn: How did the Berlin Conference affect African?

- African traditional leaders lost their political powers
- Africans lost their independence
- African culture was destroyed
- African technology declined

Qn: How did the Berlin conference speed up the colonization of Africa?

i) It gave European countries permission to claim for land in Africa

ii) It gave European countries permission to start occupying African land

**Colonial Agents/ Imperialists**

These were individuals who helped their countries to get territories in Africa.

**Examples of colonial agents**

| Colonial Agent | Country | Area of Operation |
|---|---|---|
| i) Dr. Carl Peters | Germany | Tanganyika |
| ii)Sir Harry Johnstone | Britain | Uganda |
| iii) Capt.Fredrick Lugard | Britain | Uganda |
| iv) Sir William Mackinnon | Britain | Uganda |
| v) Lord Delamere | Britain | Kenya |

**Establishment of colonial rule in East Africa**

- After the Berlin conference, Germany and Britain signed treaties which helped them to partition East African successfully

Treaties that were signed to partition

i) Anglo – German agreement of 1886

ii) Anglo – Germany Agreementof 1890/ Heligo – land treaty

## Anglo – German Agreement Of 1886

It was signed between Britain and Germany in 1886

It settled the first struggle for colonies in East Africa

It gave Kenya to Britain as British East Africa and Tanganyika to Germany as German East Africa

## Anglo – German Agreement of 1890

- It was also known as Heligo land treaty
- It finalized the partition of East Africa between Britain and Germany

Qn; Why was Heligo – land treaty called so?

- It is because Britain took over Uganda in exchange for the Heligo island in Europe

## Effects of Heligo – land Treaty

- Uganda came under British rule
- Rwanda and Burundi came under German rule
- Heligo island was given to Germany
- Zanzibar and Pemba were given to Britain

Qn; What name was given to all German colonies in East Africa

- German spheres of influence

Qn: What name was given to all British colonies in East Africa?

- British Spheres of influence

Qn: Write the colonial name of the following countries

i) Uganda _____ British protectorate

ii) Tanganyika _____German East Africa

iii) Kenya _____ British East Africa

## Methods Used to establish/extend colonial rule in East Africa

i) Signing treaties /agreements

ii) Through military means /force

iii) Using collaborators

iv) Using Missionaries

v) Through trading companies

Trading companies that operated in East Africa

i) IBEACO

ii) GEACO

Imperial British East Africa Company (IBEACO)

- It started as British East Africa Association in 1887(BAA)
- BEAA was given a charter in 1888 and its name changed to IBEACO
- IBEACO was formed by Sir William Mackinnon and was its leader in East Africa
- Capt.Fredick Lugard was sent to Uganda in 1890 as its representative and he became its leader in Uganda

## Aims /Objectives of IBEACO

i) To protect missionaries

ii) To promote trade

iii) To set up better transport and communication

iv) To promote British rule

Qn: Give two reasons why IBEACO withdfrew its operations in East Africa.

i) It ran bankrupt

ii) It faced constant civil wars

Reasons why IBEACO ran bankrupt

i) It had corrupt officials

ii) It lacked a reliable source of income

iii) It employed many workers who needed big pay

iv) It got involved in politics which was costly

Qn: Why Capt. Fredrick Lugard remained behind when IBEACO Collapsed/

i) To protect missionaries

ii) To maintain British rule in E. Africa

iii) He feared that civil wars would happen again

iv) He never wanted to leave the Sudanese soldiers he had just brought toUganda

## SAMPLE QUESTIONS

1. Where were the headquarters of IBEACO in East Africa?
   - Machakos
2. Where were the headquarters of IBEACO in Uganda?
   - Old Kampala
3. Name the first colonial flag to be used in Uganda
   - IBEACO flag
4. Name the two countries in East Africa where IBEACO Operated
   - Uganda
   - Kenya
5. Where did the British Establish their capital city in Uganda?
   - Entebbe
6. Write short notes on the following in relation to IBEACO

a) Sir William Mackinnon

- He was founder of IBEACO
- He was the leader of IBEACO in E. Africa

b) Capt. Fredrick Lugard

- He was the representative of IBEACO in Uganda
- He raised IBEACO flag at Old Kampala
- He was the leader of IBEACO in Uganda

c) Bishop Alfred Tucker

- He collected funds to Finance IBEACO

7. Which organization helped to fund IBEACO when it ran Bankrupt in1892?

- Church Missionary Society (CMS)

8. How did Sir. William Mackinnon improve on infrastructure in E. Africa?

- He suggested for the construction of the Uganda railway

9. What is a mutiny?

- This is when soldiers rebel against their leader

  Or

- This is the refusal by soldiers to obey someone in authority

**Causes of the Sudanese mutiny in Jinja**

i) They were underfed

ii) They were underpaid

iii) They were tired of moving long distances

iv) They were tired of poor working distances

v) They were tired of poor working conditions

vi) They were tired of fighting

Roles played by chartered companies in colonization of E.A

- They drew sketch maps that guided colonialists
- They signed treaties on behalf of their home governments
- They trained African army that maintained peace
- They improved on transport and communication

10. Why did Capt. Fredrick Lugard bring Sudanese soldiers?

- To maintain peace and security in Buganda
- To control religious wars in Buganda

**GEACO**

- It stands for German East Africa Company
- It was founded by Dr. Carl.Peters
- It was aimed at administering Tanganyika
- Its headquarters were at Bagamoyo

**Aims of GEACO**

i) To promote trade in Tanganyike

ii) To set up better transport and communication in Tanganyika

iii) To promote German rule

iv) To promote legitmate trade in Tanganyika

Qn: How did GEACOcontribute to the development of transport in East Africa?

- It funded the construction of Tanga –Korogwe railway

Systems of administration used by colonialists in E.Africa

i) Direct rule

ii) Indirect rule

## INDIRECT RULE

This was a system of administration where colonialists used local leaders to rule the natives on their behalf.

Qn: Which group of colonialists used indirect rule?

- British colonialists

Qn: Who introduced indirect rule in the following areas in

a) **Uganda**

- Capt. Fredrick Lugard

b) **Tanzania**

- Donald Cameron

NB: Capt. Fredrick Lugard introduced indirect rule in Uganda in his book called **Dual Mandate**

**Advantages of Indirect rule**

i) It was cheap

ii) It solved the problem of language barrier

iii) It preserved African culture

iv) Local leaders learnt new methods of administration

**Disadvantages of indirect rule**

i) Local leaders were used as puppets

ii) It caused division among natives

iii) Local leaders lost total control over their areas

Qn: How was indirect rule cheap?

- It was cheaper to pay Africans than Europeans

Qn: Why did the British decide to use indirect rule?

- It was cheaper than direct rule
- They lacked man power
- They feared direct blame incase of any problems

**DIRECT RULE**

- This was a system of administration where the colonialists ruled the natives themselves.

Qn: Which group of colonialists used direct rule in East Africa?

- German Colonialists

Qn: **Why did the Germans decide to use direct rule in Tanganyika?**

- To ensure full exploitation of resources
- To get quick results
- To ensure effective control over their and areas
- They wanted to be respected by Africans
- It was costly to train Africans in Administration

**Disadvantages of Direct rule**

i) It led to languages barrier

ii) It caused a lot of rebellion

iii) African culture was destroyed

iv) It was expensive to the Germans

Qn: Name the countries where direct rule was used East Africa

i) Tanzania

ii) Rwanda

iii) Burundi

**Ways colonialists showed control over their areas**

i) By raising their national flags

ii) By collecting taxes

iii) They demarcated boundaries

iv) They taught their languages

v) They encouraged cash crop growing

## HISTRORICAL EVENTS INPRE – INDEPENDENCE EAST AFRICA

### Colonial rule in Tanganyika

- German East Africa(Tanganyika) was ruled by GEACO from 1887 to 1891
- There after, the German government took over the administration
- Bagamoyo was made the company's administrative base
- GEACO built the first railway in E.Africa called Tanga –Korogwe railway
- The Germans had no respect for Africans
- They set up rules which denied natives their rights in different ways

Qn: Name the European country that colonized Tanganyika

Germany

Qn; How did the Germans violate the rights of the natives in Tanzanyika?

i) They denied Africans to grow their own cash crops

ii) They over taxed Africans

iii) They forced Africans to provide labour

Qn: Why did colonialists impose taxes on Africa?

i) To get money for paying workers

ii) To get money for building administrative centres

iii) To develop their territories

Why Africans never wanted to pay taxes

i) The taxes were high

ii) The tax collectors were harsh

Qn: Why was German rule hated by the natives in Tanganyika?

- The Germans were harsh and cruel

### The end of German rule in Tanganyika

- As a punishment for causing world war 1, Germany was made to lose all the colonies she had acquired including German East Africa by the League of Nations.
- German East Africa was given to Britain as a mandate territory and changed to Tanganyika

Qn: How did German rule end in Tanganyika?

- After Germany was made to lose hercoclonies for causing world war.1

Qn; How was Germany punished for causing world war.1?

- Germany was made to lose its colonies

Qn: Name the East African country that suffered most during world war1

- Tanganyika/Tanzania

Qn; How did German East African come to be called Tanganyike?

- It was renamed by the League of Nations

## Tanganyika under British Rule

In 1919, Britain appointed **Sir HoraceByatt** as the first British governor of Tanganyika.

- He ruled Tanganyike on the some administrative system as used by the Germans
- He was later replaced by **Sir Donald Cameron**
- Sir Donald Cameron used indirect rule and divided the country into 11Provinces for easy administration.
- The Legco was formed and no African was a member and this did not please the natives
- However, Donald Cameron was not ready to give independence to Tanganyikans because he considered them not ready.

NB: **Richard Turnbull** was the last British governor of Tanganyika and demanded for its independence

Qn; Why did Sir Donald Cameroon divide Tanganyika into Eleven provinces

- For easy Administration

Qn: Why did Richard Turnbull demand for the independence of Tanganyika?

- Tanganyika had become too expensive for the British to develop

**Colonial Rule in Kenya**

- Kenya was colonized by Britain
- Kenya was ruled by IBEACO
- After occupying Kenya, the British government allowed in the white settlers
- The white settlers occupied Kenya highlands and forced the original inhabitats to leave their land for other places
- **Lord Delamere** was the leader of white settlers in Kenya highlands
- He introduced dairy farming in Kenya highlands
- **Sir James Sadler** formed legco in Kenya and it had only whites
- The first Kenyan to join LEGCO was **Eliud Mathu**

Qn: Who were the original inhabitants of the Kenya highlands?

i) Masai

ii) Kikuyu

iii) Nandi

iv) Samburu

NB: The government of Kenya resettled the Masai in the Nyika Plateau

Crops introduced by the white settlers in Kenya

- Tea
- Coffee
- Pyrethrum

Qn: Why did the British refuse Africans to grow their owncash crops in Kenya?

- They feared competition on the world market
- They wanted Africans to provide cheap labour
- They never wanted Africans to become rich

Qn: What was colour bar?

This was the racial segregation between the blacks and whites in Kenya

**How colour bar was practiced in Kenya?**

i) The blacks were denied quality education

ii) The blacks and whites had different means of transport

iii) The blacks were forced to carry identity cards(kipande policy)

iv) The blacks and whites had different hotels

v) Africans were not allowed to grow their own cash crops

Qn: Why did the white settlers introduce Kipande policy in Kenya?

- To limit the movement of the blacks in Kenya

Factors that attracted white settlers to Kenya Highlands

i) Presence of good climate

ii) Presence of fertile soils

iii) The place was free fromtse-tese flies

Economic activities done in Kenya Highlands

i) Dairy farming

ii) Crop growing

iii) Tourism

v) Trade

## AFRICAN REACTION TOWARDS COLONIAL RULE

The Africans reacted to colonial rule in two waysie;

i) Through collaboration

ii) Through resistance e.g staged rebellions

Qn: <u>Who is a collaborator?</u>

This is a person who willingly accepts to promote the interests of another person.

**<u>Colonial collaborators in East Africa</u>**

i) SemeiKakungulu

ii) NuwaMbaguta — In Uganda

iii) Omukama Kasagama

v) Sir Apollo Kaggwa

vi) LenanaLaibon — In Kenya

vi) Nabong Mumia

Qn; <u>Why did some Africans collaborated with the colonialists?</u>

i) They wanted to get gifts

ii) They wanted to get protection

iii) Some wanted to regain their political powers

iv) Due to ignorance

Qn: <u>Who was the British collaborator in the following areas of Kenya</u>in?

a) **Masai land**

LenanaLaibon

b) **Wanga Kingdom**

Nabong Mumia

## African resistance towards colonial rule

The people of E. Africa resisted colonial rule in the following ways:

i) Staging rebellions

ii) Boycotting Europeans goods

iii) Through rioting/ demonstrating/striking

## REBELLIONS IN EAST AFRICA

Qn: What is a rebellion?

This is the act of using force against aperson or policy to prevent it from happening.

Why Africans resisted against colonial rule

**Political reasons**

i) African kings and chiefs wanted to regain political powers

ii) Africans wanted to fight for their rights

iii) Africans wanted to elect their leaders

iv) Africans wanted to be represented on Legco

**Economic reasons**

i) They wanted to grow their own cash crops

ii) They wanted to end high taxation

iii) They wanted high salaries and wages

iv) They wanted to overcome forced labour

v) They wanted to regain their lost land

**Social Reasons**

i) Africans wanted better education just like the whites

ii) Africans wanted to end racial discrimination

iii) Africans wanted to regain freedom of movement

iv) Africans wanted to practice their culture

**Rebellions in Tanganyika**

i) Majimaji rebellion

ii) Hehe rebellion

iii) Abushir rebellion

iv) Chagga rebellion

v) Nyamwezi rebellion

vi) Gogo rebellion

## MAJI MAJI REBELLION (1905 – 1907)

Qn: What does the word majimaji means?

- It means water

Qn: Why was the MajiMaji rebellion called so?

- It involved the use of magic water

QN: Name the river where magic water was got from during MajiMaji rebellion

- R.Rufigi

Qn: Who was the leader of Maji Maji rebellion?

- Prophet KinjekitileNgwale

Areas affectec by MajiMaji rebellion

i) Songea

ii) Mahenge

iii) Dar –es –salaam

iv) Kilwa

v) Lindi

vi) Kilosa

Tribes that participated in Maji Maji rebellion

i) Ngoni

ii) Pogoro

iii) Gindo

iv) Zaromo

v) Bena

vi) Mbuga

Qn: Where was Maji Maji rebellion staged in Tanganyika?

- Around River Rufigi

**Causes of Maji maji rebellion**

- Forced cotton growing } Main causes
- Harsh rule of the Germans }
- Over taxation
- Forced Labour
- Racial Segregatiom
- Low wages

Effects of the Maji Maji rebellion

- It led to death of people
- A lot of property was destroyed
- It caused famine
- Some families broke up
- It led to displacement of people

Qn: How Africans benefited from the Maji Maji rebellion.

i) Forced cotton growing was stopped

ii) Forced labour ended

iii) High taxes were reduced

Qn: How did Cotton growing lead to MajiMaji rebellions?

- Africans were forced to grow cotton

Qn: How did the Germans overcome the MajiMaji rebellion?

- They destroyed crops and caused famine

**AKIDASANDJUMBES**

**Akidas:**

- These were Arabs governors who helped Germans to govern Tanganyika

**Jumbes:**

These were half casts who were used by Germans as soldiers in Tanganyika

Qn: How were Akidas and Jumbes helpful to the Germans in Tanganyika?

i) They helped the Germans in administration

ii) They provided security to the Germans

iii) They collected taxes from the natives

## ABUSHIRI REBELLIONS (1888 – 1889)

- This was the first rebellion against German rule in Tanganyika and E.Africa
- It was staged at the coast of Tanganyika
- It was named after its leader called Abushir Bin Salim
- This rebellion affected all coastal areas of Tanganyika except Bagamoyo.

Qn: Why didn't Abushir revolt effect Bagamoyo?

i) Bagamoyo was the main capital city of Abushiri

ii) It is where the Germans had established their headquarters

**Causes of Abushiri revolt**

i) The Germans wanted to control the coastal trade

ii) The Germans overtaxed the Arabs and Africans

iii) The Germans stopped slave trade at the coast

**Results /effects of Abushiri revolt**

i) Death of people

ii) It led to famine

iii) Displacement of people

iv) Destruction of property

NB: Abushiri Bin salim was arrested and hanged at Bagamoyo.

**Gen Von Wissman** was sent as a German Commissioner and defeated the Arabs and hanged Abushir

**HEHE REBELLION**

- It was staged in southern part of Tanzania
- It was staged by the Hehe tribe led by their leader called **chief Nkwawa**

Causes of Hehe rebellion

i) High taxation

ii) The Germans undermined Nkwawa's authority

iii) The Hehe wanted to control the southern trade route

Qn: Why was Chief Mkwawa's head cut off and taken to Germany?

- For a scientific research on how African brain functions

**Results of Hehe rebellion**

i) Death of people

ii) Famine outbreak

iii) Displacement of people

iv) Destruction of property

v) Some local leaders were imprisoned

## REBELLIONS IN KENYA

i) MauMau rebellion

ii) Nandi resistance

### MAU MAU REBELLION (1951 – 1958)

- Mau Mau stands for Mzungu ArudiUlayaMwafrikaApate Uhuru "Let Europeans go back to Europe and Africans get independence"
- It was staged in Kenya by the Kikuyu from 1951 to 1958
- Its leader were Dedan Kimathi and Gen China (WaruhiaItote) .These were military leaders
- Jomo Kenyatta was also taken as the leader. He is taken as its political leader

### Causes of MauMau Rebellion

i) Need for independence (major)

ii) The Kikuyu wanted to regain their land(major)

iii) Denial of Africans to grow their own cash crops

iv) Kenyans wanted to end Kipande Policy

v) Underpayment of Africans by the British

vi) High taxation

vii) Africans wanted more representatives onLegco

### Results/Effects of the Mau Mau rebellion

i) Death of people

ii) Displacement of people

iii) Destruction of property

iv) Famine outbreak

Qn: How did Kenyans benefits from MauMau rebellions?

i) Kenya got independence

ii) Kenyans regained their land

iii) They got more representatives on LEGCO

iv) High taxation ended.

v) Kenyans started growing their own cash crops.

Qn: How did the MAU MAU rebellion contribute to Kenya's independence?

- It sped up the independence process of kenya

Reasons Why MauMau rebellion lasted for long

i) It had well trained fighter

ii) The MauMau fighter hid in thick forests and highlands

iii) Many Kenyan took part in it

Qn: How were the Aberdare forests useful to the Mau Mau fighters?

- It is where the MauMau fighters hid

Qn: Why was MauMau rebellions called a nationalist movement?

- Many people took part in it

Qn: Name the place where Mau MauMaurebellion was staged in Kenya

- Kenya highlands

Qn: Which tribe staged the Mau Mau rebellion?

- Kikuyu

## NANDI RESISTANCE (1895 – 1906)

- It was staged in Kenya , in the Kenya Highlands by the Nandi
- Its leader **was KoitalelArapSomoei** the chief of Nandi
- **Orkoiyo**t is the title of the chief of the Nandi.

- OrkoiyotKimunyole had foretold the coming of the Europeans and the construction of the Kenya – Uganda railway which was going to affect the Nandi

Causes of the Nandi resistance

i) The Nandi feared to lose land

ii) The Nandi feared to lose animals

iii) The Nandi never wanted to be under British rule

NB: In 1896, the Nandi killed a British trader called West who tried to cross their land.

The British Commander **Col. Meinsertchagen** visited KoitaleArapSemoei the chief of the Nandi in1905 and shot him dead.That marked the end of Nandi resistance

Why the Nandi resistance lasted long

i) The Nandi warriors were brave and strong

ii) The Nandi fighter hid in highlands

iii) The fighters were supplied with food

Results of the Nandi resistance

i) KoitaleArapSomaoei was killed

ii) There was loss of lives

iii) A lot of property was destroyed

iv) The Nandi were displaced

Reasons why Africans were easily defeated during rebellions

i) Africans lacked military skills for fighting

ii) Africans had weak weapons

iii) Africans had weak leaders

iv) Africans were not united/some Africans collaborated with the whites.

## INDEPENDENCE

Qn; What is independence?

Independence is the political freedom from colonialism

Ways Africans demanded for independence

i) They staged rebellions

ii) They demonstrated/rioted /striked

iii) They formed political parties

iv) They boycotted European goods

Qn: Give two peaceful means used by Africans to demand for independence

i) They formed political parties

ii) They wrote news articles against colonial rule

Violent ways used by Africans to demand for independence

i) They formed political parties

ii) They wrote news articles – against colonial rule

Violent ways used by Africans to demand for independence

i) They staged rebellions

ii) They demonstrated /rioted striked

iii) They boycotted European goods

Why Africans wanted independence?

i) They wanted to fight for their rights

ii) They wanted to elect their own leades

iii) They wanted to regain their lost land

iv) They wanted to end racial segregation

v) They wanted to promote African culture

vi) They wanted to grow their own cashcrops

## FORMATION OF POLITICAL PARTIES IN E.AFRICA

Qn: What is a political party?

A political party is a group of people with the same ideas to run the affairs of a country

Characteristics of a political party

i) It should be registered

ii) It should have a name

iii) It should have a symbol for identification

iv) It should have a surpreme leader

v) It should have a constitution

## Political parties in Tanganyika

### I. Tanganyika African Association(TAA)

- It was the first Political party to be formed in Tanzania in1929

- In 1954, TAA changed its name to Tanganyika African National Union(TANU)

Qn: Why did TAA change toTANU?

- To unite all the people of Tanganyika

NB: TANU was founded by **Mwalim Julius Kanbarage Nyerere**

Aim/Objectives of TANU

i) To unite all people of Tanganyika

ii) To struggle for independence of Tanganyika

iii) To promote democracy in Tanganyika

iv) To have more Africans on Legco

2. **United Tanganyika Party (UTP)**

It was founded in1956

During the general elections of 1958, UTP was defeated and banned

**The 1960 Elections in Tanganyika**

- TANU won the elections of 1960 with 70 seats out of 71seats
- Julius Nyerere became the first Prime Minister and first leader of internal government
- On 9th December 1961, Julius Nyerere led Tanzania to independence

Qn: Which political party led Tanzania to independence

- Tanganyika Africa National Union(TANU)

Qn: Name the current ruling political party in Tanzania

- Chama ChamaPinduzi

Qn; Why Tanganyika got independence earlier than other East African countries?

I) Tanganyika was a trusteeship of UNO

ii) Tanganyika formed political parties earlier than other East African Countries

iii) Governor Richards Turnbull demanded for its independence

Qn: How did Tanganyika change its name to Tanzania?

- After the Union of Tanganyika and Zanzibar

Qn: Who spearheaded the union of Tanganyika and Zanzibar in 1964?

- Julius Nyerere

Qn; What political event took place in Tanganyika in 1964?

- The union of Tanganyika and Zanzibar

NB: After the union,Julius Nyerere became the first President of Tanzania and **AbeidKarume** became the vice President

Qn: Which country colonized Zanzibar?

- Britain

**Political parties that struggled for the independence of Zanzibar**

i) Afro ShiranziParty(ASP)

ii) Zanzibar and Pemba people's party (ZPPP)

iii) Zanzibar National Party (ZNP)

Qn: Which political party finally led Zanzibar to independence?

- Afro ShiranziParty(ASP)

Qn: Who led Zanzibar to independence?

- Sheik Mohammed Shante in 1963

Qn: Who led the revolutionary struggles in Zanzibar in1964

- John Gideon Okello

**People responsible for Kenya' independence**

a) **DedanKimath and GeneralChina**
- These were the military leaders of MAUMAU rebellion

b) **James Gichuru**

- He was the founder of Kenya African Union(KAU)
- He was also among the founders of KANU
- He was the first President of KANU

c) **Ronald Ngala**
