SCHEME OF WORK

SCHOOL: JOJANA PRIMARY SCHOOL

CLASS: PRIMARY SIX

SUBJECT: SCIENCE

TEACHER: MR. MUKALAZI GEORGE WILSON

TERM: ONE YEAR: 2026

JOJANA PRIMARY SCHOOL

SCIENCE SCHEME OF WORK FOR PRIMARY SIX TERM I 2026

THEME
The world of living things
TOPIC ONE
Classification of animals
LEARNING OUTCOME
The learner acquires the skills of identifying the characteristics of different groups of animals and their survival features.

THEME
Matter and energy
TOPIC TWO
Sound energy
LEARNING OUTCOMES
The learner;
- Appreciates the natural and artificial sources of sound.
- Acquires scientific knowledge on how sound is produced, stored and reproduced
- Appreciates the importance of the ear as the organ of perceiving sound.

THEME
Human body
TOPIC THREE
Circulatory system
LEARNING OUTCOMES
The learner;
- Appreciates the importance of blood in the body.
- Develops further understanding of how blood circulates in the body.

THEME
Human health
TOPIC FOUR
Alcohol, Smoking and Drugs in the society
LEARNING OUTCOME
The learner;
- Appreciates that smoking and drugs contain dangerous substances that are harmful to the body.
- Acquires appropriate life skills to safe guard against smoking, alcoholism and drug abuse.

MY GOALS AS A PRIMARY SIX TEACHER OF SCIENCE

- -To make all the necessary lesson notes for all the four topics.
- -To make all the necessary teaching/learning aids for all lessons using computer and my creativity.
- -To teach and complete all the four topics giving all the necessary notes to the learner using two classwork books and one homework/card work book.
- -To make topical questions for all the four topics and assign them to learners in groups.
- -To revise the taught work every Friday through tests, past papers and topical questions.
- -To carry out continuous assessment.
- -To make record of work as required.

WK	PD	THEME	TOPIC	SUB-TOPIC	CONTENT	SUBJECT COMPETENCES	LANGUAGE COMPETENCES	SUGGESTED ACTIVITIES	METHODS AND TECHNIQUES	T/L AIDS	LIFE SKILL AND VALUE	REF	REMARKS
1	1	The world of living things	Classifications of living things	Characteristics and kingdoms (Revision)	**-Definition of living things** **-Examples of living things** **-Characteristics of living things** • They feed • They respire. • They reproduce. • They excrete. • They are sensitive. • They move • They breathe, they grow. **-Definition of a kingdom** **-Kingdoms of living things** • Animal kingdom • Plant kingdom • Bacteria kingdom • Protoctista • Fungi kingdom	The learner -Defines living things. -States the characteristics of living things. -Describes the kingdoms of living things	The learner, -Spells out words correctly	- Defining living things - Stating characteristic of living things - Identifying the kingdom of living things	- Class discussion -Guided discovery -Think pair share method. -Group work	Different living things in the environment Chalk board illustration	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensive Sc P/s Bk 6 page 1- 16	
		The world of living things	Classifications of living things	Animal kingdoms	**The animal kingdom** -Definition -characteristics • They locomote. • They are multicellular. • They are heterotrophic - Examples - Illustrations - Classes/groups • Vertebrates • invertebrates	The learner; - Defines - States the characteristics -Gives examples -Draws/ pastes -Classifies animals.	The learner -Reads, Spells out and writes words correct	-Defining - Stating the characteristics -Giving examples -Drawing/ pasting - Classifying animals - Defining - Identifying the types/group - Reading, spelling and writing	- Class discussion -Guided discovery -Think pair share method. -Group work	-Word cards -Different living things in the environment -Chalk board illustration -Sentence strips. -a chart	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

1	**2**	The world of living things	Animal kingdom	vertebrates	**vertebrates** -Definition -examples -characteristics **-Groups of vertebrates** • Warm blooded (homoiothermic) • Cold blooded (poikilothermic) **Types or groups of warm blooded vertebrates** -Birds -Mammals **Types or groups of cold blood vertebrates** -Reptiles -Amphibians -Fish The classification table	The learner; -Defines -States the characteristics of vertebrates -Gives examples -Classifies vertebrates into warm blooded and cold blooded. -Gives types in groups of vertebrates	The learner -Reads, Spells out and writes words correctly	- - Stating characteristics - Reading, spelling and writing	- Class discussion -Guided discovery -Think pair share method. -Group work	-Word cards -Different living things in the environment -Chalk board illustration -Sentence strips. -a chart	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
	3	he world of living things	vertebrates	Warm blooded (Homoiothermic animals)	**Warm blooded animals (Homoiothermic animals)** -Definition -Characteristics of warm blooded animals. -Groups of warm blooded animals. -Examples in warm blooded animals. **Mammals** -Definition -Characteristics of mammals -Groups of mammals Examples of mammals	The learner -Defines -Names groups of warm blooded animals -Describes the characteristics of groups of warm blooded animals - Identifies the characteristics of mammals -Mentions different groups of mammals Gives examples of mammals	The learner -Spells out words correctly -Reads words related to groups of vertebrates correctly Act out the dialogue about groups of mammals	- Defining - Naming - Grouping warm blooded animals - Describes the mammals - Reading - Spelling	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -Summary table. A chart showing the groups. -Picture cards	- **Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

1	**4**	The world of living things	Warm blooded/Homoiothermic animals	Mammals (**monotremes and primates**)	**monotremes** -Definition -Characteristics -Examples -Illustration **Primates** -Definition -Characteristics -Examples -Illustration	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related to monotremes correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples -Picture cards	- **Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Mammals (**Cetaceans and rodents**	**Cetaceans** -Definition -Characteristics -Examples -Illustration **rodents** -Definition -Characteristics -Examples -Illustration **lagomorphs** Definition -Characteristics -Examples -Illustration	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related to cetaceans correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

1	**5**	The world of living things	Warm blooded/Homoiothermic animals	Mammals (**marsupials and chiropterans**)	**marsupials** -Definition -Characteristics -Examples -Illustration **<u>chiropterans</u>** -Definition -Characteristics -Examples -Illustration	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related to marsupials correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples. -Picture cards	**<u>Life skills</u>** -creative thinking -critical observation -problem-solving -decision-making **<u>values</u>** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Mammals(**Carnivorous mammals**)	**<u>Carnivorous mammals</u>** -Definition -The groups -Characteristics -Examples -Illustration -Scavengers -Predators -The cat family -The dog family	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related to carnivores correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples -Picture cards	**<u>Life skills</u>** -creative thinking -critical observation -problem-solving -decision-making **<u>values</u>** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

1	**6**	The world of living things	Warm blooded/Homoiothermic animals	Mammals(**The ungulates**)	**The ungulates** -Definition -Characteristics -Examples -The groups -Illustration	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related to ungulates correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Insectivorous mammals	**The insectivorous mammals** -Definition -Characteristics -Examples -The groups -Illustration **The groups of mammals in relation to the feeding habits.** -insectivorous mammals -herbivorous mammals -carnivorous mammals -omnivorous mammals	The learner: - Defines - States the characteristics - Lists examples - Draws	The learner -Spells out words related correctly	- Defining - Stating characteristic - Lists example - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Different living things in the environment -Chalk board illustration -A chart showing the examples. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

2	**1**	The world of living things	Warm blooded/Homoiothermic animals	Birds	**BIRDS** -Definition -Characteristics of birds -Group of birds and examples.	- The learner - Defining - Identifies the examples - States the characteristics of birds - Mentions the groups of birds -	The learner Reads, Spells out word and writes words related to birds correctly -Act dialogue about groups of birds	- Defining - Stating the characteristics - Mentioning the groups of birds - Spelling out words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Word cards -Chalk board illustration -A chart showing the groups. -Picture cards	- **Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Birds	**The external parts of a bird** -Adaptations of birds to their environment (life) -Advantage and disadvantages of birds	The learner; - Identifies the parts - Draws and labels - States the advantages, disadvantages and adaptations of bird	The learner Reads, Spells out word and writes words related to birds correctly	- Identifying the parts. - Drawing and labeling - Stating the advantages and disadvantages of birds - Reading words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Word cards -Chalk board illustration -A chart showing the parts. -Picture cards	- **Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

2	**2**	The world of living things	Warm blooded/Homoiothermic animals	Birds	**BIRDS OF PREY** -Definition -Examples -Characteristics -Mode of feeding **SCAVENGER BIRDS** -Definition -Examples -Characteristics -Mode of feeding	The learner; -Defines -Lists the examples. -States the characteristics -Describes the mode of feeding.	The learner Reads, Spells out word and writes words related to the group of birds correctly	- Defining - Listing examples - Stating the characteristics - Describing the mode of feeding - Spelling - Reading - Writing words related	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Chalk board illustration -A chart showing the examples and some characteristics. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Birds	**CLIMBING BIRDS** -Definition -Examples -Characteristics -Mode of feeding **SCRATCHING BIRDS** -Definition -Examples -Characteristics -Mode of feeding	The learner; -Defines -Lists the examples. -States the characteristics -Describes the mode of feeding.	The learner Reads, Spells out word and writes words related to the group of birds correctly	- Defining - Listing examples - Stating the characteristics - Describing the mode of feeding - Spelling - Reading - Writing words related	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Chalk board illustration -A chart showing the examples and some characteristics. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

2	**3**	The world of living things	Warm blooded/Homoiothermic animals	Birds	**SWIMMING BIRDS** -Definition -Examples -Characteristics -Mode of feeding	The learner; -Defines -Lists the examples. -States the characteristics -Describes the mode of feeding.	The learner Reads, Spells out word and writes words related to the group of birds correctly	- Defining - Listing examples - Stating the characteristics - Describing the mode of feeding - Spelling - Reading - Writing words related	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Chalk board illustration -A chart showing the examples and some characteristics. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	
		The world of living things	Warm blooded/Homoiothermic animals	Birds	**WADING BIRDS** -Definition -Examples -Characteristics -Mode of feeding **FLIGHTLESS BIRDS** -Definition -Examples -Characteristics -Mode of feeding	The learner; -Defines -Lists the examples. -States the characteristics -Describes the mode of feeding.	The learner Reads, Spells out word and writes words related to the group of birds correctly	- Defining - Listing examples - Stating the characteristics - Describing the mode of feeding - Spelling - Reading - Writing words related	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Chalk board illustration -A chart showing the examples and some characteristics. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

2	**4**	The world of living things	Warm blooded/Homoiothermic animals	Birds	**PERCHING BIRDS** **-Definition** **-Examples** **-Groups** **-Characteristics** **-Mode of feeding**	The learner; -Defines -Lists the examples. -States the characteristics -Describes the mode of feeding. - Identifies the types of perching birds	The learner Reads, Spells out word and writes words related to the group of birds correctly	- Defining - Listing examples - Stating the characteristics - Describing the mode of feeding - Spelling - Reading - Writing words related	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -Chalk board illustration -A chart showing the examples and some characteristics. -Picture cards	**Life skills** -creative thinking -critical observation -problem-solving -decision-making **values** appreciation accuracy responsibility care, love concern	Integrated Sc P/s BK 6 Pg 1-12 Fountain Sc P/s Bk 6 Pg 1-12 Comprehensions Sc P/s Bk 6 page 1- 16	

2	**5**	The world of living things	Cold blooded (poikilothermic animals)	Reptiles	**THE REPTILES** -Description of poikilothermic vertebrates and reptiles. -Characteristics of reptiles -Examples of reptiles. -Groups of reptiles. -Importance of reptiles • Sources of food. • Provide skins for making craft work. • Forms of tourist attractions • Sources of income. • Sources of medicine (anti-venom) • Feed on harmful organisms	- The learner; - Defines the term reptiles. - States the characteristics. - Lists examples. - Groups reptiles. Gives the importance of reptiles.	The learner -Reads words related to reptiles -Spells, pronounces words correctly	- Describing reptiles - stating the x-tics - Listing examples and grouping them. - Spelling , pronouncing and reading words correctly -	-Group discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards	-creative thinking -appreciation -making right decision -critical thinking -Problem solving -confidence -cooperation	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	
	6	The world of living things	Reptiles	Shelled and largest reptiles	**Tortoises , Turtles and terrapins (shelled reptiles)** -Characteristics -Their importance in the environment -Mode of reproduction **Crocodiles and alligator (largest reptiles)** -Characteristics -Importance to the environment -Their feeding / reproduction and defensive mechanisms - Differences **Alligators** - U-shaped snout - Sense organs are only on the snout. **Crocodiles** - V-shaped snout - Sense organs all over the body	The learner; - Describes shelled reptiles - Gives examples of shelled reptiles - Identifies their characteristics according to their environment - Describes the mode of reproduction in such reptiles - Describes the characteristics of crocodiles and alligators - Differentiates between crocodiles and alligators	-The learner, -Names the groups of such reptiles -Spells out words correctly	- Describing shelled reptiles - Stating the characteristics - Distinguishing between crocodiles and alligators - Read words and sentences about the groups of reptiles - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	

3	1	The world of living things	Reptiles	Lizards	**The lizards** - Examples of lizards - The importance of lizards -Characteristics of lizards Adaptations of lizards to their environment	The learner; - Describes the examples of lizard - Describes their mode of reproduction , feeding and protective / defense mechanism	The learner -Names the example of lizards -Spells out words -Investigates their mode of feeding , reproduction and protection	- Observing the groups of lizard - Reads and writes sentences about lizard - Spell out words - Drawing	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	
3	2	The world of living things	Reptiles	Snakes (limbless reptiles)	**Snakes (limbless reptiles)** - Characteristics of snakes - Examples of snakes. • Skaapstekers,boomslang • Cobra, black/green mamba • Adder snake, viper snakes • Python, boas, anaconda • Bull snake, king snake • Hognose snake, grass snake • Garter snake, rat snake - Groups/types of snakes. • poisonous snakes • non-poisonous snakes Note: Describe **constrictors** under non-poisonous snakes **The poisonous snakes** -Definition/description -Examples of venomous snakes • Skaapstekers, boomslang • Cobra, black/green mamba • Adder snakes like puff adder and night adder viper snakes like gaboon viper and sand viper	The learner; - Describes snakes - States the characteristics of snakes. - Lists examples of snakes. - Groups snakes -Defines/describes poisonous snakes -List example of poisonous snakes	The learner; - Uses correct English statements. -Reads and writes words correctly	- Describing snakes - Stating the x-tics - listing examples - Grouping snakes - Defining /describing - Listing examples. - Demonstrating and dramatising. - Reading and writing.	- Class discussion -Guided discovery -Think pair share method. -Group work	-picture cards -word cards -charts - chalk board illustrations	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg 14-15 Comprehensions Sc P/s Bk 6 page 18-28	

3	3	The world of living things	Reptiles	Snakes (limbless reptiles)	**<u>The non-poisonous snakes</u>** -Definition/description -Examples of non-venomous snakes • Python, boas, anaconda • Bull snake, king snake • Hognose snake, grass snake • Garter snake, rat snake -Mode of protection. **<u>The constrictors</u>** -Definition/description -Examples of constrictors • Python, boas, anaconda -Mode of protection. -First aid for venomous snakes	The learner; -Defines/describes non-poisonous snakes -List example of non-poisonous snakes -Demonstrates/ dramatises the mode of protection. -Demonstrates/ dramatises the first aid for poisonous snakes.	The learner; - Uses correct English statements. -Reads and writes snake names correctly	- Defining /describing - Listing examples. - Demonstrating and dramatising. - Reading and writing.	-Class discussion -Guided discovery -Think pair share method - demonstration dramatisation	-picture cards -word cards -charts - chalk board illustrations	creative thinking - appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg 14-15 Comprehensions Sc P/s Bk 6 page 18-28	
3	4	The world of living things	Cold blooded (poikilothermic animals)	Fish	**<u>THE FISH</u>** -Description of fish. -Characteristics of fish -The use of fish in the environment. -The examples of fish Tilapia, herrings, salmon, Nile perch, trout fish, sharks Dogfish, rays, skate fish, common lung fish, dipnoi Epiceratodous, catfish, silver fish, pikes, clarias, sprats eel fish -The illustrations	The learner; - Describes the fish. - States Characteristics and uses of fish. - Gives the examples of fish. - Draws different structures of illustrations.	The learner -Spells pronounces and writes words correctly	- Describing the fish. - Stating Characteristics and uses of fish. - Giving the examples of fish. - Drawing different structures of illustrations. -	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Word cards -chalk board illustrations -Picture cards - A chart - Real fish	-creative thinking - appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	

3	5	The world of living things	Cold blooded (poikilothermic animals)	Fish	**The parts of a fish** • eyes, dorsal fin, lateral line, mouth, tail/caudal fin • gill cover/operculum, anal fin • pelvic fins, anus/vent, nostrils • pectoral fins, scales -Structure of fish. -Functions of part of fish. -Ways in which fish protect themselves.	The learner; - Lists different parts of fish - Draws and labels the parts - States the functions. Gives ways in which fish protect themselves.	The learner -Spells pronounces and writes words correctly	- Listing different parts of fish - Drawing and labeling the parts - Stating the functions. - Giving ways in which fish protect themselves	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards - A chart - Real fish	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	
3	6	The world of living things	**Cold blooded (poikilothermic animals)**	Fish	**The types of fish** • Bony fish • Cartilaginous fish • Lung fish -Examples under each type.	The learner; - Identifies types of fish - Gives examples in each type. Observes and draws different structures of fish	The learners; -Spells pronounces and writes words correctly	-Identifying the types and example. - Observing and drawing different structures of fish -	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards - A chart - Real fish	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	

4	1	The world of living things	Cold blooded (poikilothermic animals)	Fish	**THE BREATHING OF A FISH** The parts and functions of different parts a gill The breathing mechanism -Adaptations of fish to living in water.	The learner; - Identifies the parts of a gills - Draws and labels - States the functions of different parts - Describes the breathing mechanism. - Identifies adaptation of fish to living in water	The learner; -Spells pronounces and writes words correctly	- Identifying parts of a gill - Drawing and labelling - Stating the functions - Describing the mechanism of breathing - Spelling, pronouncing and writing words correctly	-Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards - A chart - Real fish	-creative thinking - appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	
4	2	The world of living things	Cold blooded (poikilothermic animals)	Amphibians	**<u>THE AMPHIBIANS (AMPHIBIA)</u>** -Definition -Characteristics of amphibians. -The importance of amphibians. -Examples of amphibians. • toad, frog, newts, salamander • caecilian, axolotl NOTE **<u>Caecilians</u>** are limbless worm like amphibians External parts of a toad.	- The learner - Describes characteristics of amphibians - Names examples of amphibians Draws and labels the parts	The learners -Write stories and poems about amphibians -Reads words related to amphibians correctly	- Observing some amphibians common in the locality - Naming amphibians - Preparing a simple differentiation table for a fish and a frog Drawing and labelling	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Word cards -chalk board illustrations -Picture cards -sentence strips - A chart	-creative thinking - appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	

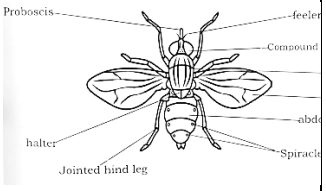

4	3	The world of living things	Cold blooded (poikilothermic animals)	Amphibians	-Differences between a frog and a toad **Frogs** • Brown tadpoles. • Moist, smooth/slippery skin • Mostly live in water. • Have teeth in the upper jaw. • Have fully webbed hind legs. • Lay eggs in big mass- like spawns • Have no poison glands • Breathe through their moist skin. **TOADS** • Black tadpoles, Dry rough skin • Mostly live on land. • Have no teeth. • Have partly webbed hind legs. • Lay eggs in long ribbon -like spawns • Have poison glands • Breathe through their moist skin. Reproduction/respiration amphibians	- Describes differences between a frog and a toad Describes breathing and reproduction in amphibians	The learner; -Spells pronounces and writes words correctly	- Giving differences - Describing the modes of breathing and reproduction	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Word cards -chalk board illustrations -Picture cards -sentence strips - A chart	-creative thinking - appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 18-28	

4	**4**	The world of living things	invertebrates	Classification of invertebrates	**THE INVERTEBRATES** -Definition of invertebrates. -Characteristics of invertebrates. -Examples of invertebrates -Classes/groups of invertebrates. **The sponge** -Definition -Characteristics -Examples of sponges Note; **Sea sponges** are the only examples of sponges and are said to be the most primitive animals on the planet. -**The structures**	The learner; - Defines - States the characteristics - Lists examples of invertebrate. - Gives different classes of invertebrates and mode of reproduction in invertebrates. Describes sponges.	The learners -Spells and reads words correctly -Writes stories about invertebrates	- Defining and stating x-tics. - Observing different invertebrates - Spelling exercise on words related to invertebrates - Writing poems and stories about invertebrates	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	
		The world of living things	Classification of invertebrates	Echinoderms and sponges	**The coelenterates** -Definition -Characteristics **-Examples of coelenterates.** • Hydra, jellyfish, sea anemones -The structures **The Echinoderms** -Definition -Characteristics of echinoderms -**Examples of echinoderms** • Starfish, sea urchins, sea lilies • Sea cucumber, sand dollars • Crinoids -The structures	The learners; - Defines - Describes characteristics of coelenterates and echinoderms. - Lists examples of coelenterates, echinoderms and sponges. Draws structures	The learner -Spells pronounces and reads words correctly	- Defining and describing - Observing diagrams of coelenterates and echinoderms - Drawing diagrams of coelenterates and echinoderms - Lists examples -	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

4	5	The world of living things	Classification of invertebrates	Molluscs	**The molluscs** -Definition -Characteristics of molluscs -Examples of molluscs • Oyster, octopus, cuttlefish • Snails, slugs, scallops, clams • Mussels, squids, cowrie/cowry -Adaptations of molluscs to their life -Importance of molluscs The structure	- The learner - Describe the characteristic of molluscs - Gives the examples of molluscs - Describes their defense mechanism in molluscs. - States the importance. - Draws the structures	The learner -Spells out words correctly -Write poems about molluscs	- Describing - Drawing example - Observing characteristics of molluscs - Read and write sentences about molluscs	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

4	6	The world of living things	Classification of invertebrates	Worms	**The worms** -Definition/description -Characteristics of worms -Examples of worms -Groups of worms -Importance of some worms and effects to our bodies. -The structures **The segmented worms/annelids** -Definition/description -Examples of segmented worms • Earthworms, leeches • Bristle worms -The structure Importance of the earthworms	The learner; - Describes the worms - Identifies the characteristics, groups and examples of worms - Describes their mode of reproduction - Identifies the effect of worms to human bodies -Describes the segmented worms	The learner; -Spells out Reads, pronounces and writes words related to worms correctly	- Drawing - Reading writing sentences about worms -Describing the worms -Identifying the characteristics, groups and examples of worms -Describing their mode of reproduction -Identifying the effect of worms to human bodies - -Describing the segmented worms	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts -real worms	**Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	
		The world of living things	Classification of invertebrates	Worms	**The flatworms/ platy- helminthes** -Definition/description -Examples of flatworms • Tapeworms/taeniae • Liver flukes/Fasciola hepatica • Bilharzia flukes -The structure and parts of a tapeworm. -The function of different parts. **The roundworms/nematodes** -Definition/description -Examples of flatworms. • Common roundworms (ascaris lumbricoides) • Hookworms, eelworms • Pin/threadworms, • guinea worms • filarial worms -The structure	The learner; -Defines and describes. -Lists examples -Identifies the infections caused -Draws and labels parts.	The learner; -Spells out Reads, pronounces and writes words related to worms correctly	-Defining and describing. -Listing examples -Identifying the infections caused -Drawing and labelling parts -Spelling out - Reading, pronouncing and writes words related to worms correctly	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts -real worms	**Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

5	1	The world of living things	Classification of invertebrates	Arthropods	**The arthropods** - Definition/description -Characteristics of arthropods -Examples of arthropods. -Groups of arthropods -Uses and dangers of arthropods -Mode of reproduction and feeding	- The learner - Identifies the characteristics, uses and dangers of arthropods - Mentions the groups of arthropods.. - Describe their mode of reproduction and feeding	The learner; -Spells out Reads, pronounces and writes words related to arthropods correctly	- Reading and writing sentences - Identifying the characteristics of arthropods - Mentioning the groups of arthropods.. - Describing their mode of reproduction and feeding -	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration -prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts showing different arthropods -real arthropods	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

5	2	The world of living things	Classification of invertebrates	Arthropods	**The insects** -Definition/description -Characteristics of insects -Examples of insects. • Dragon fly, housefly, tsetse fly • Praying mantis, black fly -Importance and dangers of insects to the environment. -The structures of insect  Note; Revision of the previous work in about insects in the previous classes should be done.	The learner - Describes insects - States the importance/danger of insects to man and environment - Draws and labels parts of an insect	The learner; -Spells out Reads, pronounces and writes words related to arthropods correctly	- Describing insects - Stating the importance/danger of insects to man and environment Drawing and labeling parts of an insect	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration -prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts showing different arthropods -real arthropods	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	
		The world of living things	Classification of invertebrates	Arthropods	**<u>Life cycle or metamorphosis in insects.</u>** This refers to different stages of development and growth that insects go through in their life time. **<u>The types of metamorphosis in insects</u>** ▪ Complete metamorphosis ▪ Incomplete metamorphosis	The learner; - Describes metamorphosis in insects. -Identifies the types -Defines each type and gives examples in each case.	The learner; -Spells out Reads, pronounces and writes words related to arthropods correctly	-Describing metamorphosis in insects. -Identifies the types - -Defining each type and gives examples in each case.	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration -prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts showing different arthropods -real arthropods	-creative thinking -appreciation -making right decision -critical thinking -Problem solving	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

5	3	The world of living things	Classification of invertebrates	Arthropods	**The arachnids** - Definition/description -Characteristics of arachnids -Examples of arachnids. • Spiders, mites, ticks, scorpions -Importance and dangers of arachnids to the environment. -Structures of arachnids -Differences between insects and arachnids -	The learner; - Defines and describes - States x-tics, importance and danger. - Gives examples - Draws and labels parts - Compares insects and arachnid	The learner; -Spells out Reads, pronounces and writes words related to arthropods correctly	- Defining and describing - Stating x-tics, importance and danger. - Giving examples - Drawing and labelling parts - Comparing insects and arachnid Spells out -Reading, pronouncing and writing words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts -real arachnids	**Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	
		The world of living things	Classification of invertebrates	Arthropods	**The myriapods and crustaceans** - Definition/description - Characteristics of each - Examples of each -**Myriapods** • Millipedes or diplopoda • Centipede or chilopoda - **crustaceans** • Crayfish, crabs, lobsters • shrimps, prawns, Cyclops • sand hopper -Difference between millipedes and centipedes -The structures •	The learner; - Defines and describes - States x-tics, importance and danger. - Gives examples - Draws and labels parts Compares millipedes and centipedes	The learner; -Spells out Reads, pronounces and writes words related to arthropods correctly	- Defining and describing - Stating x-tics, importance and danger. - Giving examples - Drawing and labelling parts - Comparing millipedes and centipedes - Spells out - Reading, pronouncing and writing words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts -real myriapods	**Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

5	4	The world of living things	Protoctista kingdom	**The protoctista/Protista kingdom**	**The protoctista/protista kingdom** - Definition/description -Characteristics of organisms under Protoctista kingdom -Examples of organism under Protoctista kingdom • Algae , euglenas, protozoans -The structures **The algae** -Characteristics of algae -Examples of algae -Uses of algae -Diagrams of algae -Mode of reproduction and feeding Note; **Lichens** are organisms which result from a combination of fungi and algae Examples of lichens Parmelia and usnea	The learner; -Defines and describes - Identifies characteristics of organism under Protoctista kingdom - Names organism under Protoctista kingdom - Draws organisms - Identifies uses of algae	The learners -Spells , pronounces and reads words related to Protoctista kingdom correctly	Defining and describing - Identifying characteristics of organism under Protoctista kingdom - Naming organism under Protoctista kingdom - Drawing organisms - Listing examples of algae -	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts -real protista organisms like algae	- **Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	
		The world of living things	Protoctista kingdom	Euglena and ,protozoa	**The euglena** -Characteristics of euglena -Diagram of euglena - Mode of reproduction and feeding **The protozoa** – Definition/description -Characteristics of protozoa -Examples of protozoa • Paramecia, plasmodia, amoebae • Trypanosomes, vorticellas -How protozoa reproduce, feed and move -Dangers of protozoa -Diagram of protozoa	The learner - States characteristics of protozoa and euglena - Lists examples of protozoa - Describes mode of movement of euglena - Describes mode of reproduction of protozoa and euglena State the danger.	The learner -Spells and reads words correctly -Names examples of protozoa -Writes and reads sentences related to protozoa and euglena	- Drawing and labeling diagram - Stating characteristics of protozoa and euglena - Identifying uses of algae - Describing mode of movement of euglena Describing mode of reproduction of protozoa and euglena	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration prediction -hypothesis	-Word cards -chalk board illustrations -Picture cards -sentence strips -charts	- **Life skills** Critical observation -creative thinking -critical thinking -Problem solving **values** appreciation responsibility making right decision confidence	Integrated Sc P/s BK 6 Pg Fountain Sc P/s Bk 6 Pg _ Comprehensions Sc P/s Bk 6 page 29-41	

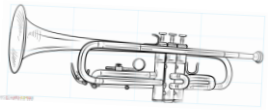

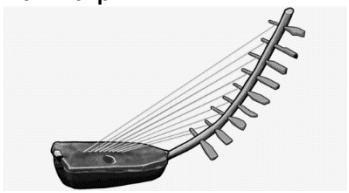

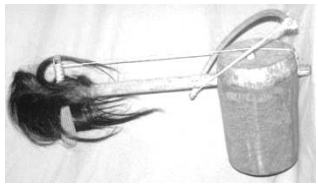

5	5	Matter and energy	Energy	Sound energy	**REVISION ABOUT ENERGY** **SOUND ENERGY** **-** Sound is a form of energy produced by the vibration of an object. **The production of sound** (How is sound produced) Sound is produced by the vibration of an object. -What is vibration? **Types or nature of vibrations** -regular vibrations -irregular vibrations **Types of sounds** - loud sound - soft sound	The learner; - Revises energy By defining and giving types - Defines sound - Demonstrates the production of sound. - Experiments on sound as a form of energy identify the nature of vibrations and types of sound	The learner; -Spells words related to sound correctly -Reads words sentences and stories about sound.	- Revising - Defining - Giving types and sources of energy - Carrying out experiment on sound energy - Reading words sentences and stories about sound	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	Word cards -chalk board illustrations -Rulers -Drums -Bells -Stones -Desks -Sets	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P5 Comprehensive text bk. Pg. 149-151 New fountain primary science pupil's bk. 6 page 28-42	
		Matter and energy	Sound energy	Sources of sound	**SOURCES OF SOUND** -A source of sound is anything which vibrates and produces sound. **Types of sound sources.** **Nature sources of sound** These are things in the environment with the ability to produce sound on their own without people's control **Examples of natural sources of sound** NB How different living thing produce sound **Artificial sources of sound** -**Examples of artificial sources**	The learner; -defines -mentions the types -lists examples -draws musical instruments. - -describes how different living things produce sound	The learner; Reads words sentences and stories about sound.	- Defining - Mentioning the types Listing examples	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Rulers -Drums -Bells -Stones -Desks -Sets	**Life skills** -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	MK integrated science pupil's book 6 page 29-43	

5	6	Matter and energy	Sound Energy	Musical instruments	**MUSICAL INSTRUMENTS** -These are artificial sources which produce organized sound. **Note.** Music is any kind of organized sound with regular vibration. Noise is any kind of disorganized sound with irregular vibrations. **Groups or types of musical instruments.** -String musical instruments -Wind musical instruments -Percussion musical instruments **Structures examples of each and how they produce sound**	The learner; -defines -mentions different groups of music instrument -names instruments under each group - Draw and labels parts of some music instruments -describes the way how sound is produced by each group.	The learner -Writes spells , Pronounces and reads words correctly -Writes words sentences and stories about music instrument	- Classifying music instruments - Drawing and naming simple music instrument	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Rulers -Drums -Bells -Stones -Desks -Sets -bow harp Picture cards	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. Pg.45 - 46 New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

6	**1**	Matter and energy	Sound Energy	Transmission of sound (how sound travels)	**How sound travels** - Sound travels through sound waves. NB. Sound needs a medium of transmission which may be a solid, liquid or gas Sound does not travel in a vacuum because these no any medium transmission **The string telephone** **<u>Waves</u>** **Definition** **Examples of waves** **Parts of a wave** ▪ **Crest ,trough** ▪ **Rarefaction, compression** ▪ **Amplitude, wave length** -	The learner - makes sound - Describes how sound travels through different media - Demonstrates with the string telephone - Describes wave -	The learner -Spells words related to sound correctly	- Identifying different sounds if different objects - Calculate numbers on sound in air	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Real insects -Drums -Desks Text books -Tins -Threads -picture cards	**<u>Life skills</u>** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **<u>values</u>** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. Pg.46 - 47 New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

6	**2**	Matter and energy	Sound Energy	The speed of sound	**SPEED OF SOUND** **Speed of sound** in different media Sound travels fastest in solids and slowest in gases. It travels faster or slower in liquids compared to solids and gases respectively. Factors which affect the speed of sound. -Temperature -Wind -Altitude -frequency -	The learner - make sound - Describes speed at which sound travels through different media - -Gives the factors and describes how they affect the speed of sound.	The learner -Spells words related to sound correctly	- Identifying different sounds if different objects - Calculate numbers on sound in air	-Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Real insects -Drums -Desks Text books -Tins -Threads	**Life skills** -Effective communication -problem-solving -decision-making **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	MK integrated science pupil's book 6 page 29-43	
		Matters and Energy	Pitch frequency and volume	Volume of sound	**VOLUME OF SOUND** Volume of sound is the loudness or softness of sound. Note; The volume of sound depends on its **amplitude**. Amplitude is the width of vibrations. **What determines the loudness or softness of sound?** Demonstration and illustrations of sound volume and amplitude	The learner; - defines - describes volume and amplitude of sound. - Experiments and demonstrations. -draws sound waves	The learner -Spells words related to sound correctly	- Defining and describing - Experimenting, demonstrating and drawing. - Reading and spelling words correctly	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Different musical instruments. -Radios - rulers	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility	P6 Comprehensive text bk. page 49 New fountain primary science pupil's bk. 6 page 28-42	

6	**3**	Matters and Energy	Sound Energy	Pitch of sound	**PITCH OF SOUND** -This the highness or lowness of sound. Factors which determine the pitch of sound. -Size of the vibration space -Nature of materials of a vibrating body. -Tension of the vibrating object -frequency -Size of the vibrating object e.g. • Vibrating surface • Length of the string • Thickness or thinness of the string. **FREQUENCY OF SOUND** Definition How frequency determines the pitch of sound. Experiments and demonstrations.	The learner; -defines -states the factors -Describes the how frequency determines the pitch of sound. -Experiments and demonstrates the frequency of sound.	The learner -Spells words related to sound correctly	- Defining - Stating factors - Describing how frequency determines the pitch of sound. - Experimenting and demonstrating.	-Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Drums -Bottle -Water -Ropes -Rubber -Bands -Shakers -bow harps	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. Pg. 48 New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

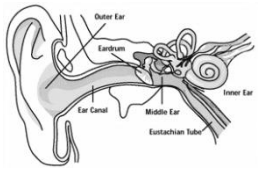

6	4	Matters and Energy	Sound Energy	Experiments to determine the Pitch of sound	**Size of the vibration space** (Wind musical instrument) -panpipes  -trumpet  **Size of the vibrating surface** (Percussion musical instrument) 	The learner; - Revises work about percussion and wind musical instruments - Lists examples of percussion and wind musical instruments. -Draws different percussion and wind musical instruments. - Experiments to determine the pitch of sound.	The learner -Spells words related to sound correctly	- Revising - Listing examples Drawing, experimenting and demonstrating.	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	Empty and half-filled bottles of water. Big and Small drums	**Life skills** -creative thinking -critical observation **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. Pg. 45- 46 New fountain primary science pupil's bk. 6 page 28-42	
		Matters and Energy	Sound Energy	Experiments to determine the Pitch of sound	**Length and thickness or thinness (Tension) of the string.** (string musical instruments) Bow harp  Tube fiddle 	The learner; - Revises work about stringed musical instruments - Lists examples of stringed musical instruments. -Draws and labels different stringed musical instruments. - - Experiments to determine the pitch of sound.	The learner -Spells words related to sound correctly	- Revising and listing examples. - Drawing and labeling and experimenting. - Reading and spelling words correctly	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	-Short and long strings -bow harps - charts of different musical instruments	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility	P6 Comprehensive text bk. Pg. 45- 46 MK integrated science pupil's book 6 page 29-43	

6	5	Matters and energy	Sound Energy	Echoes	**ECHOES** An echo is a reflected sound. **The cause of echoes** - Echoes are caused by the obstruction of sound waves **Uses/advantages of echoes.** **Disadvantages of echoes** **Ways of reducing, controlling or minimizing echoes** - Putting thick carpets on the floor. - Putting thick curtains in cinema halls, churches and disco clubs. - Putting soft boards on walls. - Putting ceiling in big buildings. •	The learner -Describes the term echo -States uses of echoes in nature -Outline disadvantage of echoes - States and describe the different ways.	The learner -Reads words and sentences related to echoes correctly	- Defining echoes - Starting the uses of echoes - Stating and describing different ways -	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-Empty classroom -Text books	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	New fountain primary science pupil's bk. 6 pg. 34-36 MK integrated science pupil's book 6 page 29-43	

6	6	Matters and energy	Sound Energy	Echoes	Calculations on how to determine the depth of water bodies **Formula** **Depth of water =speed of sound in water x Half the time taken.** **Calculation related to echoes** Example It took 3 seconds to hear the echo of a man chopping wood. How far was the man from the chopping place? **Distance = Speed x Time / 2** **Distance = (330 x 3) / 2** **Distance = 990 / 2** **Distance = 495 metres**	The learner; -Solves numbers related - demonstrate to find distance of obstacles, speed of sound and time take for echoes to be heard in different media. -Calculates in relation to echoes. -	The learner -Spells words related to sound correctly	- Demonstrating and calculating. - Spelling - Solving question related to echoes	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	-thick Curtains -thick carpets -soft boards	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	New fountain primary science pupil's bk. 6 pg. 34-36 MK integrated science pupil's book 6 page 29-43	

7	1	Matters and energy	Sound Energy	The storage of sound	**THE STORAGE OF SOUND** All sources of sound produce it. This sound can be stored **Way/methods of storing sound** - Physical/mechanical method - Magnetic method - Electrical method **Notations** Notation refers to the writing of sound using letters and symbols Note; Letters used to store sound by writing are **sol-fa notes** and symbols are **staff notes** **Types of notations** Staff notation Sol-fa notations **Devices used to store sound (The sound storage devices)**	- The learner - Defines sound storage and sound storage devices - Identifies ways/methods of storing sound - Describes notations. - Writes sound in notation form - Sings songs using sol-fa notes - Names devices used to store sound. - Draw different sound storage devices	The learner -Sings and reads sol-fa -Write words sentences and stories about storing and reproducing sound	- Observing devices used to store or reproduce sound. Drawing simple devices for storing sound	Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration	CD -VCDs -Memory Card -Ipads - hymn books	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	MK integrated science pupil's bk.6 pg. 37-38 New fountain primary science pupil's bk. 6 page 28-42	

7	2	Matters and energy	Sound Energy	Reproduction of sound	**REPRODUCTION OF SOUND** Sound reproduction is the producing of sound which was stored on devices or in notation. NB. Sound which was produced and stored can be reproduced Note; Sound stored in sol-fa notations is reproduced by singing the notes **Devices used to reproduce sound (sound reproduction devices)** -radio cassettes, gramophones, phones etc. **Ways of reproducing sound** -Singing using the human voice -Playing keyboards and pianos -	The learner; - defines sound reproduction and sound reproduction devices. -mentions and describes different sound reproduction devices. - draws and uses different devices	The learner -Spells words related to sound correctly	- Defining - Mentioning and describing Drawing and using different devices	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	- picture cards -Real devices -charts	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	MK integrated science pupil's bk.6 pg. 37-38 New fountain primary science pupil's bk. 6 page 28-42	

7	3	Matter and energy	Sound Energy	The human ear	**THE MAMMALIAN EAR** -definition **General uses of the human ear.** - Used for hearing. - Helps in body balance. **The structure of the human ear**  **The regions of the human ear** - outer ear - middle ear - inner ear **Part in each region of the ear** The ossicles - **has/mis** • hammer/malleus • anvil/incus • stapes/stirrup -	The learner - Names different parts of the human ear - Draws and labels the structure of the human ear - Identifies the regions and parts in each region. - Describes the order of ossicles states the general uses of the human ear	The learner -Names different parts of the human ear. insects, amphibians birds. -Reads and writes words related to human ear correctly	- Drawing the human ear - Naming parts of human ear - Labelling the human ear	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	Text boks -Charts showing the human ear. -Model of the human ear -Chart showing organs of hearing other in other animals	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. page 51-53 New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

7	4	Matter and energy	Sound Energy	The human ear	**Uses of part of the human ear.** -pinna -auditory canal -eardrum -ossicles -cochlea -auditory nerves -semi-circular canals -Eustachian tube	The learner; -reviews the parts of the ear -states the functions of different parts -	The learner -Spells words related to sound correctly	- Reviewing - Stating the function. - Giving general uses of the human ear. - Spelling , pronouncing and reading words correctly	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	- Word cards of different part name - A chart with uses of different parts	**Life skills** -creative thinking -critical observation -Effective communication **values** appreciation accuracy responsibility	P6 Comprehensive text bk. page 51-53	
		Matter and energy	Sound Energy	Working of the ear.	**How we are able to hear.** **How other animals fish, snake, insects, birds and amphibians hear sound.**	The learner; -Describes how we hear -Explains how other animals hear	The learner -Spells words related to sound correctly -Uses English statements correctly.	- Describing how we hear. - Explaining how other animals hear. - Spelling , pronouncing and reading words correctly	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	- Word cards - Different charts with the description - picture cards of different animals.	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	P6 Comprehensive text bk. page 51-53 New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

7	5	Matter and energy	Sound Energy	Diseases and disorders of the human ear and caring for the human ear	**Diseases of the human ear** - Boils - Otitis •Otitis externa (swimmer's ear) •Otitis media •Otitis interna (labyrinthitis) **disorders of the human ear** -Blockage of the outer ear - Perforated eardrum (tympanic membrane perforation) -Otosclerosis -Otalgia (earache) -Barotitis -Deafness -Tinnitus **Signs and symptoms of an infected ear** - painful ear - increase in temperature - swelling of the ear. - Pus in the ear. - difficulty in hearing **Ways of caring for the human ear** -	The learner; - Identifies the disease and disorder of the human ear. - States the signs and symptoms of an infected ear -Discuss ways of caring for the human ear -	The learner -Spell , pronounces and reads diseases and disorder of the human ear correctly -Reads sentences and stories on how to care for the human ear	- Identifying the diseases and disorders - Pronouncing words - Reading stories - Discussing ways of caring for the human	Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration	Water Soap Cotton pad	**Life skills** -creative thinking -critical observation -Effective communication -problem-solving -decision-making -self-esteem -self-awareness -empathy **values** appreciation accuracy responsibility care, logic concern sympathy, acceptance	New fountain primary science pupil's bk. 6 page 28-42 MK integrated science pupil's book 6 page 29-43	

7	6	The Human body	Circulatory system	The Circulatory system	**THE CIRCULATORY SYSTEM** Description of a circulatory system (cardiovascular system) Note: A circulatory system is a group of body organs and tissues working together to ensure the proper movement of blood around the body. -Define blood circulation -Components of the circulatory system • blood • blood vessels • heart	The learner; - Defines -Gives examples of the body systems - Describes the cardiovascular system. - Mentions the components of the circulatory system	The learner –Spells, pronounces and writes words related to heart correctly (circulatory, circulation, component, tissue, cardiovascular)	- Defining - Giving examples - Describing - Mentioning the components - spelling - Pronouncing and writing words correctly	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-The Model of the heart -A Chart showing the heart and the blood vessel -A Chart showing blood circulation.	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 ScieCompBk 6 page 54-64	
		The Human body	Circulatory system	blood	**THE BLOOD** -Definition of blood -**Types of blood** • Oxygenated blood • Deoxygenated blood -**Components of blood** ed blood cells(erythrocytes) /hite blood cells (leucocytes) latelets (thrombocytes) lasma (blood plasma) -**Functions of blood** • Carries digested food. • Carries wastes • Carries hormones • Transports co_2andO_2 • Defends the body • Distributes heat	The learner - Defines/describes blood - Identifies the types of blood - Give the components - States the functions of blood -	The learner - Uses correct English to describe blood -Reads and writes words correctly (Oxygenated, Deoxygenated, Red blood cells, White blood cells, Platelets, Plasma)	- Defining and describing. - Naming types of blood and its components - Suggesting general functions of blood. - Reading and writing words correctly. -	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	

8	**1**	The Human body	Blood components	Red blood cells(erythrocytes)	**The Red blood cells(erythrocytes)** -Description -Functions of red blood cells -Characteristics • biconcave shaped • Lack the nucleus. • Red in colour. • Have haemoglobin. -Adaptations to their function of carrying oxygen • Many in number to..... • Have haemoglobin to..... • Lack the nucleus to..... -The structures **Note:** Describe the sickle cells (sickle cell anaemia)	The learner - Describes erythrocytes - States the functions - States the x-tics and the adaptations - Draws the structures.	The learner reads, spells and writes words correctly (nucleus, haemoglobin, biconcave, erythrocytes)	- Describing erythrocytes - Stating the functions - Giving the x-tics and the adaptations - Drawing the structures - reading, spelling and writing words correctly (nucleus, haemoglobin, biconcave, erythrocytes)	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations -A chart showing red blood cells	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	
		The Human body	Blood components	white blood cells (leucocytes)	**The white blood cells (leucocytes)** -Description -Functions of white blood cells -Characteristics • They are amorphous • Have the nucleus • Appear white -Different modes/ways of defense • Engulfing and digesting germs • Producing antibodies against germs. • Producing antigens against germs. The structures -Difference between red and white blood cell -	The learner; -Describes WBC -States the function. -Identifies the modes of defense. -Draws and labels the structures. -Differentiates between RBC and WBC -	The learner reads, spells and writes words correctly (leucocytes, amorphous, engulfing, antibodies, antigens)	-Describing WBC -Stating the function. -Identifying the modes of defense. -Drawing and labelling the structures. -Differentiates between RBC and WBC - Reading, spelling and writing	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations -A chart showing white blood cells	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	

8	**2**	The Human body	Blood components	Platelets (thrombocytes) and plasma	**Platelets (thrombocytes)** -Description -Functions -structures -blood clot formation -thrombosis **Plasma (blood plasma)** -Description -Functions -structures -**Components of blood plasma** • water, dissolved food, urea • Carbon dioxide, hormones mineral salts	The learner; - Describes thrombocytes and blood plasma - Gives the components of blood plasma - States the functions - Points out the difference. - -Draws the structures	The learner reads, spells and writes words correctly (platelets, thrombocytes, plasma blood clot, thrombosis, hormones)	- Describing thrombocytes and blood plasma - Gives the components of blood plasma - States the functions - Points out the difference. - -Draws the structures	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations -picture cards	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	
		The Human body	Blood	Blood groups.	-Types of blood groups. • Blood group A • Blood group B • Blood group AB • Blood group O -Recipients and donors' summary table. -Ways of increasing the volume of blood in the body • Taking enough of fluids. • Eating food rich in iron. • Through blood transfusion. Note; -Blood transfusion is the transfer of tested and screened blood from one person to another.	The learner - Describes blood groups - Mentions the types of blood groups. - Identifies the universal donor and recipient - Forms tables of recipients and donors - Suggests ways of increasing the volume of blood in circulation	The learner; - Uses correct Eng statements.	- Describing blood groups - Mentioning the types of blood groups. - Identifying the universal donor and recipient - Forming tables of recipients and donors Suggesting ways of increasing the volume of blood in circulation	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration -dramatisation	-Word cards -sentence strips -chalk board illustrations -table cards	**Life skills** -self-awareness -creative thinking -critical observation -problem Solving -self-esteem **values** -appreciation -care -concern -logic -love	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	

8	3	The Human body	The Blood vessels	Types of blood vessels(arteries)	**The blood vessels** -Definition -Types of blood vessels. -Functions of blood vessels. **The arteries** -Description -Characteristics -Function -Adaptations --The structures	-Defines blood vessels and arteries - lists the types of blood vessels - States the functions of blood vessels and arteries -States the characteristics and adaptations of arteries -Describes a pulmonary artery - -Draws arteries	The learner reads, spells and writes words correctly (blood vessel, artery, pulmonary, lumen, lumina)	-Defining blood vessels and arteries - listing the types of blood vessels - Stating the functions of blood vessels and arteries -Stating the characteristics and adaptations of arteries - Drawing and labelling arteries	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations -A chart showing the arteries.	**Life skills** -self-awareness -creative thinking -critical observation -problem Solving -Critical thinking **values** -appreciation -care -concern -logic -love	Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	
		The Human body	The Blood vessels	veins	**The veins** -Definition of veins. -Functions of veins -Structures -Differences between veins and arteries	The learner -Defines veins. -Describes a pulmonary vein(special vein) -Give the function. -Draws the structure. -States the difference.	The learner reads, spells and writes words correctly (veins, valves, vena cava, oxygen, carbon dioxide)	-Defining veins. -Describing a pulmonary vein(special vein) -Giving the function. -Drawing the structure. -Stating the difference.	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -sentence strips -chalk board illustrations -A chart showing the veins.	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59	
		The Human body	The Blood vessels	capillaries	**The blood capillaries** -Definition of capillaries. -Functions of capillaries. Structure of a capillary bed	The learner -Defines capillaries -Give the function. - -Draws the summary structure Of an artery, capillaries and a vein	The learner reads, spells and writes words correctly (capillary, capillaries)		-Class discussion -Group work -demonstration	-A chart showing the capillary bed.	**Life skills** -creative thinking -critical observation **values** appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59	

8	**4**	The Human body	The Circulatory system	Parts of the heart	**The human (mammalian) heart** -Parts of the heart. -The structure. -Description of the human heart	The learner - Identifies parts of the heart. - Draw the structure. - Labels the parts	The learner -reads, spells and writes words correctly (auricle, atria, atrium, aorta, ventricle, Septum, valve)	- Identifying parts of the heart. - Drawing the structure. - Labelling the parts	-Class discussion -Guided discovery -Think pair share method. -Group work - demonstration	-Word cards -picture cards -chalk board illustrations -Sentence strips -A chart showing the human heart.	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** - appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	
		The Human body	The human heart	Parts of the heart	**The functions of different parts of the heart** **Demonstration on how the human heart works**	The learner; - States the functions of the heart and different parts. - Describes how the heart works -	The learner -reads, spells and writes words correctly	- Stating the functions of the heart and different parts. - Describing how the heart works -	-Class discussion -Guided discovery -Think pair share method. -Group work - demonstration	-Word cards -picture cards -chalk board illustrations -Sentence strips -A chart showing the human heart.	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** - appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	

8	**5**	The Human body	The circulation of blood in the body	How the heart works and double circulation	**<u>The circulation of blood in the body</u>** -Major organs involved in circulation of blood. -Definition of double circulation -Diagram showing double circulation. Use of parts related to double circulation.	The learner; Describes double circulation, single circulation, pulmonary circulation and systemic circulation.	The learner -Describe how blood moves through the heart -Describes double circulation -Spells, pronounces and writes words related to double circulation correctly	- Describing how the heart works - Drawing the diagram showing double circulation Labelling parts related to double circulation	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -picture cards -chalk board illustrations -sentence strips -A chart showing the human heart and a double circulation.	**<u>Life skills</u>** -self-awareness -creative thinking -critical observation -problem solving **<u>values</u>** -appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	
		Human body	The circulatory system.	Diseases and disorder of the circulatory system	**<u>Diseases and disorders of the circulatory system</u>** -Hereditary diseases -Blood diseases -Heart diseases -STDS (venereal diseases)	- The learner - Names diseases and disorders of the circulatory system - Groups hereditary diseases alone - States the causes, signs and symptoms of heart diseases and disorders. - Suggests the prevention or control. -	The learner -Spells, pronounces, writes and reads names of diseases and disorder correctly	- Listing blood groups - Naming diseases and disorders of the circulatory system - Identifying components of blood affected by some diseases	-Class discussion -Guided discovery -Think pair share method. -Group work -demonstration	-Word cards -chalk board illustration -a chart with disease and disorder names.	**<u>Life skills</u>** -self-awareness -creative thinking -critical observation Self-esteem -problem solving **<u>values</u>** appreciation -care -concern acceptance	-Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55 Scie Comp Bk 6 page 54-64	

8	**6**	The human heart	The circulatory system diseases	HIV/AIDS	**HIV/AIDS AND BLOOD** -HIV/AIDS in full. -Signs and symptom -Ways of spread. **How HIV/AIDS is spread** HIV/AIDS is spread through the following ways; • Through having sexual intercourse with an infected person. • Through sharing contaminated skin piercing/cutting instruments with infected people.	- States HIV/AIDS in full. - Identifies the cause and ways of spread. - Lists the signs and symptoms. -	The learner Spells, pronounces , writes and reads words correctly -Uses correct English statements	- Stating HIV/AIDS in full. - Listing the signs and symptoms - Identifies the cause and ways of spread.	-Class discussion -Guided discovery -Think pair share method. -Group work - demonstration	-Word cards -chalk board illustration -Sentence strips -charts	**Life skills** -self-awareness -creative thinking -critical observation -empathy	Integrated Scie P/s BK 6 Pg 44-59	
		The human heart	The circulatory system	Prevention or control	**PREVENTION OR CONTROL** • Abstinence from sex until one is married. • Having an HIV test before people get married. • Having only one lifelong sexual partner. • Being faithful to each other by married partners or spouses. • Educating people about transmission of HIV.. **ABC in full**	The learner - Suggests the ways of preventing HIV/AIDS - Describes the ABCs. Recites the poem.	The learner Spells, pronounces , writes and reads words correctly -Uses correct English statements	- Suggesting the ways of preventing HIV/AIDS - Describing the ABCs. Reciting the poem.	-Class discussion -Guided discovery -Think pair share method. -Group work - demonstration	-Word cards -chalk board illustration -Sentence strips -charts	**Life skills** -self-awareness -creative thinking solving **values** appreciation -care -concern Acceptance sympathy	Integrated Scie Comp Bk 6 page 54-64	
		The human heart	The circulatory system diseases	Maintenance of the proper working of the circulatory system	-Effects of HIV / AIDS on an individual family and community -Ways of keeping the circulatory system in a proper working order. -Advantages of regular body exercises. **A poem about AIDS in MK text book page 57**	- The learner, - Suggest ways of keeping the circulatory system in a proper working order. - List advantages of regular body exercises to the circulatory system - Gives the effects of HIV/AIDS to an individual, a family and a community. -	The learner -Uses correct English to discuss effects of HIV / AIDS on an individual , family and the community -Writes and reads **PIASCY messages**.	- Discussing effects of HIV / AIDS on an individual family and community -	-Class discussion -Guided discovery -Think pair share method. -Group work - demonstration	-Word cards -chalk board illustration -Sentence strips -charts - Different fruits like - Oranges - Water melons	**Life skills** -self-awareness -creative thinking -critical observation -problem solving **values** - appreciation -care -concern	Integrated Scie P/s BK 6 Pg 44-59 Fountain Scie P/s Bk.6 Pg 44-55	

9	**1**	Human heath	Alcohol, smoking and drugs in the society	alcohol	**alcohol** -Definition -Types of alcohol. • Methyl alcohol(methanol) • Ethyl alcohol (ethanol) -Examples in each type. -Uses of alcohol.	The learner; - Defines alcohol. - Mentions the types of alcohol. - Describes the types of alcohol -Gives examples of methanol and ethanol.	The learner -Reads, pronounces and writes words correctly.	- Defining alcohol. - Mentioning the types of alcohol. - Describing the types of alcohol -Giving examples of methanol and ethanol. -Stating uses and reason for taking alcohol. -Reading, pronouncing and writing words correctly.	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	Word cards Different brands of alcohol Methylated spirit Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	
		Human heath	alcohol	Making of alcohol	**Methods of making alcohol.** • Fermentation method • Distillation method **Fermentation method** -Definition/description Materials used to make alcohol • Cassava, bananas, sugar canes • pineapples, maize, millet, • sorghum -Alcohol made through fermentation. beers, wines,(tonto, malwa, kwete, kibuku)	The learner; - Points out the methods - Describes fermentation method. -Outlines the examples. -Lists the materials used - Experiments	The learner: –Uses correct English to describe the making of alcohol by fermentation.	- Pointing out the methods - Describing fermentation method. -Outlining the examples. -Listing the materials used Experimenting	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstration -prediction -hypothesis	Word cards Different real materials like; cassava, maize, pineapple/ passion fruit juice, water, sugar, sugarcanes, bananas	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

9	**2**	Human heath	alcohol	Uses of alcohol	**Distillation method** -Definition and description - Alcohol made by distillation Corn alcohol, pineapple alcohol, waragi -The process of distillation (locally) -Heading -Materials needed -Illustration -Sub processes involved. -Importance of each part. -Procedure	The learner; - Describes the distillation method -Draws the structures of a distillation experiment. -Identifies the examples of alcohol obtained by distillation -Experiments	The learner: -Uses correct English to describe the making of alcohol by heating and cooling	-Describing the distillation method -Drawing the structures of a distillation experiment. -Identifying the examples of alcohol obtained by distillation Experimenting	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	-A chart -jerry cans, sauce pans, basins, delivery tube, transparent bottles -Word cards	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy Innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

9	**3**	Human heath	alcohol	alcoholism	**Alcoholism** - Definition of alcoholism and an alcoholic -Factors which may lead to alcoholism -Reason for drinking alcohol. - Effects of drinking much alcohol for a long time (alcoholism). - Effects of alcoholism to an individual.	The learner: -Defines alcoholism and alcoholic -Describes the effects of alcohol. -States uses and reason for taking alcohol. -Dramatises -illustrates - Tells stories about those who take alcohol -Dramatises, demonstrates and role plays	The learner: -Read and writes statements /words correctly.	-Defining alcoholism and alcoholic -Describing the effects of alcohol. -dramatising -illustrating - Reading and writing statements/ words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis -story telling	Word cards Sentence strips Different brands of alcohol	**Life skills** Problem-solving Self-awareness Peer resistance Self-esteem Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	
		Human heath	alcohol	Alcoholism.	Effects of alcoholism to; -The family. -The community. Ways of preventing or controlling alcoholism (Methods of avoiding alcoholism) - Laws related to alcohol taking in Uganda	The learner; -Describes the effects of alcohol. - Suggests the methods/of control -States the laws related to alcohol. -Describes the groups of people concerned with the law. -Dramatises, demonstrates and role plays	The learner: -Read and writes statements correctly.	- Suggesting the methods/of control -Stating the laws related to alcohol. -Describing the groups of people concerned with the law.	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	Sentence strips Chalk board illustrations	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

9	**4**	Human heath	smoking in the society	Smoking	**Smoking** -Definition -Types of smoking. • Active smoking • Passive smoking -Factors that lead to smoking • Social acceptability, ignorance • Pleasure, availability, • Advertisemen. -Reasons for smoking -**Harmful components or substances in tobacco.** • Nicotine • Tar • Carbon monoxide **Harmful /poisonous drugs** • Nicotine • Tar **Harmful /poisonous gas** • Carbon monoxide	The learner: - Defines smoking. - Identifies the types of smoking - Describes active and passive smoking. - States the factors and reasons for taking alcohol. - Identify the components of tobacco.	The learner -Uses words like active, passive and smoking in sentences correctly. - Reads, spells, pronounce and writes words correctly	- Defining smoking. - Identifying the types of smoking - Describing active and passive smoking. - Stating the factors and reasons for taking alcohol. - Identifying the components of tobacco.	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	Tobacco Cigarette Word cards Other substances smoked Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Self- esteem Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	
9	**5**	Human heath	Smoking	effects of tobacco	**Effects of smoking to an individual (a smoker)** **Effects of smoking to a pregnant women** Effects of smoking to; - The family. (a non-smoker) - The community. (a non-smoker)	The learner -Describes the effects of smoking to an individual -Tells stories about those who smoke. - Gives the effects of smoking to a non-smoker.	The learner -Read, pronounces and writes words correctly.	- -Describing the effects of smoking to an individual -Reading, pronouncing and writing words correctly.	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis -story telling	Tobacco Cigarette Word cards Other substances smoked Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

9	6	Human heath	Alcohol, smoking and drugs in the society	Drugs in the society	**drugs** -Definition of a drug. -Examples of drugs. -Types of drugs. • Essential drugs • Drugs of dependence/narcotics -Places/areas where drugs are supposed to be got. -Way of introducing drugs into the body. • Swallowing, drinking, injecting • Smoking, smearing, sniffing -Uses of drugs .	The learner; - Defines - Outlines the examples - Mentions the types of drugs. - Identifies the methods of drug storage - Suggests ways of introducing drugs in the body - States the uses of drugs	The learner: -Reads, spells, pronounces and write words correctly.	- Defining - Outlining the examples - Mentioning the types of drugs. - Identifying the methods of drug storage - Suggesting ways of introducing drugs in the body - Stating the uses of drugs	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	Different drugs Word cards Chalk board illustrations Sentence strips Picture cards	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	
		Human heath	Drugs in the society	The essential drugs	**The essential drugs** -Definition of essential drugs. -Examples of essential drugs. -Characteristics/qualities of essential drugs -Types of essential drugs Laboratory manufactured drugs/modern drugs. traditionally manufactured drugs/traditional drugs **Traditional drug** -Definition of traditional drugs (traditionally manufactured drug) -Characteristics/qualities of traditional drugs. -Examples of traditional drugs.	The learner; - Defines - Identifies the examples and types. - Describes traditionally manufactured drugs	The learner: -Reads, spells, pronounces and write words correctly	- Defining - Identifying the examples and types. - Describing traditionally manufactured drugs - Reading, spelling, pronouncing and writing words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis	Different drugs Word cards Chalk board illustrations Sentence strips Picture cards	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

10	1	Human heath	Drugs in the society	modern drugs (laboratory manufactured drug) -	**modern drugs** **(laboratory manufactured drug)** -Definition of laboratory manufactured drugs. -Examples of modern drugs -Qualities/x-tics of laboratory manufactured drugs. - Places/areas where modern drugs are supposed to be sold/ got -Classifications/groups/types of laboratory manufactured drugs. • Preventive drugs • Curative drugs • Pain killers • Contraceptives Definition and examples in each case.	The learner; - Defines - Lists the examples. - Describes laboratory manufactured drugs	The learner: -Reads, spells, pronounces and write words correctly	-Defining - Lists the examples. - Describing laboratory manufacture d drugs -Reading, spelling, pronouncing and writing words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstrat ion -prediction -hypothesis	Different drugs Word cards Chalk board illustration s Sentence strips Picture cards	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibilit y Care Honesty Sympathy innovativene ss	Integr ated Sc P/s BK 6 Pg 60-77 Fount ain Sc P/s Bk 6 Pg 58-73 Compr ehensi ons Sc P/s Bk 6 page 65-78	
		Human heath	Drugs in the society	Prescriptions	**Prescriptions** -Definition of prescriptions. -Information on a prescription. -The illustration of a prescription -Advantages or uses of prescriptions. -Under dose and overdose -Dangers of buying drugs from shops or market places.	The learner; - defines and describes - gives examples - states the advantages. -describes under dose and over dose -Gives the danger of buying drugs from common shops and markets	The learner: -Reads, spells, pronounces and write words correctly	- defining and describing - gives examples - stating the advantages. -describing under dose and over dose -Giving the danger of buying drugs from common shops and markets	- Class discussion -Guided discovery -Think pair share method. -Group work Demonstrat ion -prediction -hypothesis	Different drugs and forms of prescriptio n Word cards Picture cards Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibilit y Care Honesty Sympathy innovativene ss	Integr ated Sc P/s BK 6 Pg 60-77 Fount ain Sc P/s Bk 6 Pg 58-73 Compr ehensi ons Sc P/s Bk 6 page 65-78	

10	2	Human heath	Drugs in the society	Drug use and drug misuse	**Drug use, drug misuse and drug abuse** -Definition of drug use, drug misuse and drug abuse -Ways through which drugs are misused. -Effects of drug misuse	The learner; -Defines -Suggests ways -Discusses the effects. –Tells stories about drug use and misuse.	The learner; -Uses correct English statements to discuss	-Defining -Suggesting ways -Discussing the effects. -Telling stories about drug use and misuse.	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis -story telling	Different drugs of dependence Cannabis plant Word cards Picture cards Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy Innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

10	3	Human heath	Drugs in the society	Drugs of dependence	**Drugs of dependence (narcotics) and drug abuse** -Definition of drugs of dependence, drug dependency and drug abuse -Examples of drugs of dependence. -Factor that lead to drug dependence or use of narcotics/drug abuse. -Reasons for taking drugs of dependence/abusing drugs	The learner; -Defines and describes of narcotics. -Lists examples of narcotics. -States the factors -Gives reasons for taking narcotics. - Tells stories about drug abuse.	The learner: -Reads, spells, pronounces and write words correctly like; narcotics	-Defining and describing of narcotics. -Listing examples of narcotics. -Stating the factors -Giving reasons for taking narcotics	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis -story telling	Different drugs of dependence Cannabis plant Word cards Picture cards Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	
		Human heath	Drugs in the society	Drugs of dependence	-**Effects of drug dependency and drug abuse to:** An individual The family The community **How to avoid drug abuse**	The learner; -States the effects of drug dependency -Tells stories about those who take narcotics –Dramatises, demonstrates and role plays	The learner: -Reads, spells, pronounces and write words correctly	-Stating the effects of drug dependency -Reading, spelling, pronouncing and writing words correctly	- Class discussion -Guided discovery -Think pair share method. -Group work - Demonstration -prediction -hypothesis -story telling -role play	Different drugs of dependence Cannabis plant Word cards Picture cards Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Self-esteem Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

10	4	Human heath	Drugs in the society	Drugs of dependence and drug abuse.	-Life skills to safeguard against alcoholism, smoking and drug dependency. -Importance of life skills	The learner; -Defines life skills. -Lists examples of life skills -states the importance of different life skills -Dramatises, demonstrates and role plays different life skills	The learner; -Uses correct English statements to discuss	. -Defining life skills. -Listing examples of life skills -stating the importance of different life skills -Dramatising, demonstrating and role playing different life skills -	- Class discussion -Guided discovery -Think pair share method. -Group work -Demonstration -prediction -hypothesis -role play -Dramatization	Different drugs of dependence Cannabis plant Word cards Picture cards Sentence strips	**Life skills** Problem-solving Decision-making Peer resistance Critical thinking Creative thinking **Values** Appreciation Responsibility Care Honesty Sympathy innovativeness	Integrated Sc P/s BK 6 Pg 60-77 Fountain Sc P/s Bk 6 Pg 58-73 Comprehensions Sc P/s Bk 6 page 65-78	

10	5	The world of living things	Classification of animals	revision	QUESTIONS AND ANSWERS	The learner; -Carries out quiz and answers a number of questions -Asks a number of questions. -Interprets a number of questions.	The learner; -Reads questions in different forms -Writes key word in answers correctly. -Uses correct Eng. To answer questions	-Carrying out quiz and answers a number of questions -Asking a number of questions. -Interpreting a number of questions.	Class discussion -Guided discovery -Think pair share method. -Group work -Question and answer technique	-Different question banks. -Passed papers -Exercise books -sweets -snacks -biscuits	**Life skills** Problem solving Critical thinking Self-awareness Self-esteem **Values** Confidence Appreciation Cooperation Accuracy	P6 MK REV TEXT BK. P6 COMP REV TXT BOOK. P6 SIPRO LNR'S WRK BK TERM 1 P6, P5, P4 & P7 PASSED PAPERS	

10	6	Matter and energy	Sound energy	revision	QUESTIONS AND ANSWERS	The learner; -Carries out quiz and answers a number of questions -Asks a number of questions. -Interprets a number of questions.	The learner; -Reads questions in different forms -Writes key word in answers correctly. -Uses correct Eng. To answer questions	-Carrying out quiz and answers a number of questions -Asking a number of questions. -Interpreting a number of questions.
