……

37. Which structures on an insect help it to balance during flight?

……

38. State any **one** material used as litter in a deep litter house of poultry.

……

39. Why is a stone called an irregular object?

……

40. Where does digestion begin in man?

……

SECTION B (60 MARKS)

(*Questions **41** to **55** carry **4** marks each.)*

41. (a)How are babies protected against measles?

.....

(b) Name **two** childhood immunisable diseases immunized at birth.

(i).....

(ii).....

(c) Which immunisable disease enters the body through fresh cuts and wounds?

.....

42. (a) What are enzymes?

.....

(b) State any **two** characteristics of enzymes.

(i).....

(ii).....

(c) Apart from acidic, name any other condition in which enzymes work.

.....

43. (a) Give any **two** factors considered when classifying birds.

(i).....

(ii).....

(b) Mention any **two** reasons for classifying birds.

(i).....

(ii).....

44. (a) What is transpiration?

.....

.....

(b)Give **two** factors that affect the rate of transpiration.

(i).....

(ii).....

(c) In which **one** way do some plants reduce the rate of transpiration during the dry season?

.....

45. (a) Mention **two** exotic breeds of rabbits.

(i).....

(ii).....

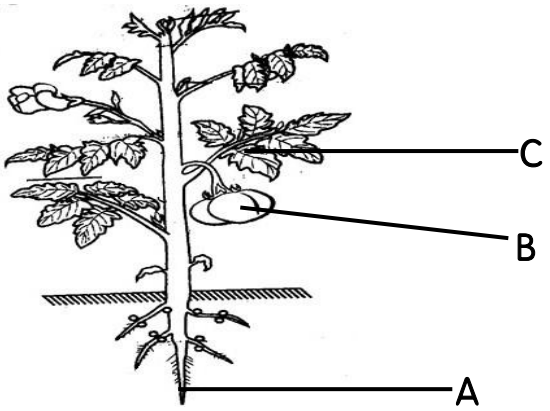

(b)State **one** disease that attacks rabbits and poultry.

.....

(c)How are rabbits important in our daily lives?

.....

46. **Below is a structure of a plant. Use it to answer questions that follow.**

(a) Name parts marked **B** and **C**

(i) **B:** .....

(ii) **C**: .....

(b) What name is given to the system of the plant marked with letter A?

.....

(c) Give the function of part marked **C** to plants.

.....

47. (a) What is dehydration?

.....

(b) Mention **two** causes of dehydration.

(i).....

(ii).....

(c) Suggest **one** way of rehydrating a child suffering from diarrhoea.

.....

48. Match the deficiency diseases in list A to their causes in list B.

A	B
kwashiorkor	lack of iron
marasmus	lack of vitamin C
anaemia	lack of iodine
goitre	lack of proteins
	lack of carbohydrates

a) Kwashiorkor:.....

b) marasmus :.....

c) anaemia :.....

d) goitre :.....

49. (a) How can a mother promote sanitation in a home?

.....

(b) Write down **two** elements of PHC.

(i)……

(ii)……

(c) Suggest any **one** danger of poor sanitation in a home.

……

50. (a) What is free range system as used in poultry keeping?

……

(b) State **two** advantages of free range system in poultry keeping.

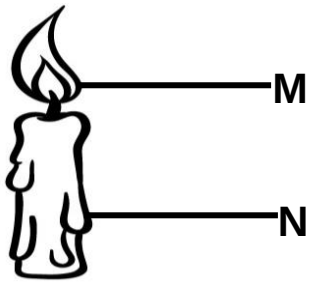

(i)……

(ii)……

(c) Mention **one** disadvantage of the free range system.

……

51. **The diagram below is of a burning candle. Use it to answer the questions that follow.**

a) Name the type of change which take place at:

(i) M: ……

(ii) N: ……

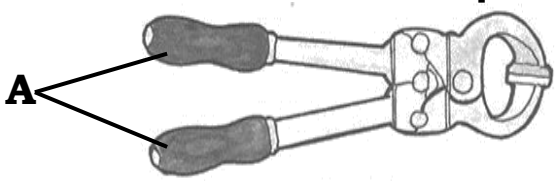

b) State any **one** form of energy got from a burning candle.

……

c) Mention any **one** condition necessary for burning to take place.

……

52. **Below is a farm tool. Use it to answer questions that follow.**

(a) Name the farm tool shown above.

……

(b) How is the above tool important to the goat and sheep farmers?

……

(c) How important is the part marked with letter **A** important to the tool above?

.....

(d) State **one** advantage of castration to goats and sheep.

.....

53.(a) Define the term **density**.

.....

(b) In which units is density measured?

.....

(c) Why do some objects weigh less when put in water?

.....

(d) Calculate the density of an object whose mass is 20g and volume 5cc.

54(a) What name is given to the materials which pollute the environment?

.....

(b) Mention any **two** examples of pollutants.

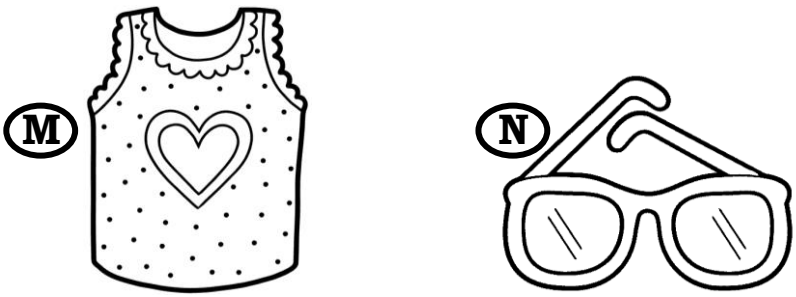

(i).....

(ii).....

(c) Name any **one** respiratory disease caused by pollution.

.....

55. **Study the diagram below carefully and answer questions that follow.**

a) Name the item marked with letter **M** and **N**.

(i) M..... (ii) N.....

b) Name the main type of weather managed using item marked **N**.

.....

c) State any **one** importance of nimbus clouds to the crop farmers.

.....
