SECTION A (40 MARKS)

Questions 1 to 40 carry one mark each

1. Name the group of animals to which butterfly belongs.

   .....

2. Mention any one type of immunity.

   .....

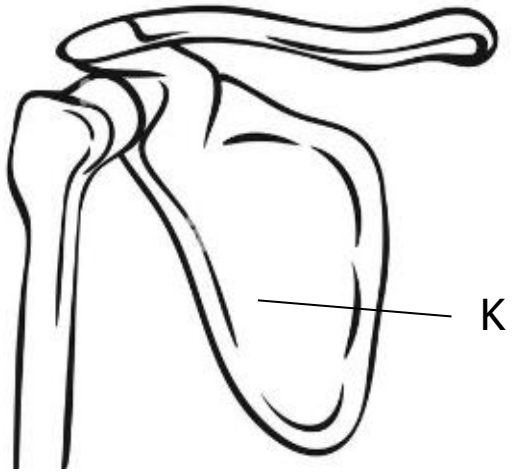

3. Give any one way in which earthworms are important in the environment.

   .....

4. State any one reason disorder of the human respiratory system.

   .....

   The diagram below shows a movable joint. Use it to answer questions **5** and 6**.**

5. Name part marked K.

   .....

6. Identify the part of the body where the above bone is located.

   .....

7. Give any one quality of a good stake when supporting tomato plant.

   .....

8. Identify any one way in which clouds are dangerous in the environment.

   .....

9. Give any one energy resource got from plants.

   .....

10. State any one way of maintaining soil fertility.

    .....

11. Name the type of teeth which does not appear in the milk set of teeth.

    .....

12. Write down the sign of marasmus in children.

    .....

13. State any one application of electricity in our daily life.

    .....

14. State any one way in which smoking is dangerous to a pregnant mother.

    .....

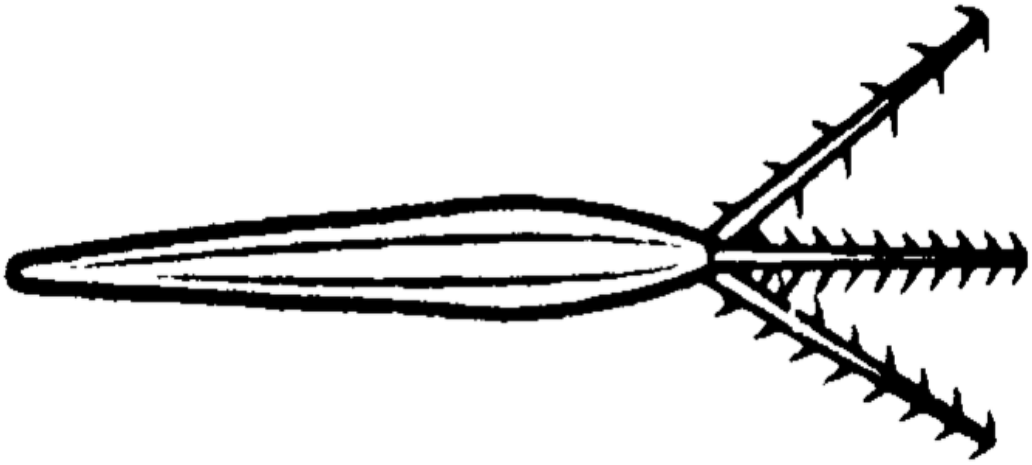

15. Give any one danger of air pollution in the environment.

    .....

16. State any one source of electricity in the environment.

    .....

Study the structure of the seeds shown below and answer questions **16** and **17**.

17. Give one reason why the above seed is dispersed by animals.

    .....

18. State any one way in which seed dispersal is important in to plants.

    .....

19. Mention any one way of keeping the digestive system in a good working condition.

    .....

20. Give any one property of matter.

    .....

21. State any one reason why farmers carry out docking in sheep management.

    .....

22. Write down any one example of biological changes in plants.

    .....

23. Mention one factor in which a person can get malaria even when in a treated mosquito net.

    .....

24. Identify any one method of harvesting honey.

    .....

25. State any one way in which hookworms enters the human body.

    .....

26. Identify the major role of the kidney in the human body.

    .....

27. State any one primary sex characteristic which is present to boys.

    .....

28. Write down any **one** you should focus on when brushing the teeth.

    .....

29. State the main cause of fainting in people.

    .....

30. Name the type of mosquito which spread malaria.

    .....

31. State any **one** type of bacteria.

    .....

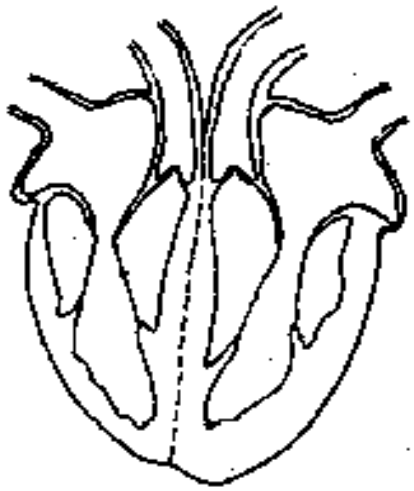

32. Name the form of energy that changes the temperature of an object.

    .....

33. Give any **one** characteristic of root tuber crop pests.

    .....

The diagram shows a part of the circulatory system. Use it to answer questions **33** and **34**.

34. Give any one way of keeping the above organ in a good working condition.

    .....

35. With the help of an arrow use letter **K** to show the septum.

    .....

40. State how isolation of infected animals prevent viral diseases.

    .....

SECTION B (15 QUESTIONS)

Questions 41 to 55 carry four marks each.

41. a) Give the meaning of the following terms;

    i) heat energy.

    .....

    .....

    ii) sound energy.

    .....

    .....

    b) Mention any two effects of heat gain on matter.

    i) .....

    ii) .....

42. A primary four class wanted to demonstrate a certain plant process. They were given a transparent polythene bag, a string and a potted plant. They tied it in a polythene bag. After the demonstration, they left the plant in hot sun for three hours.

    a) Identify the plant process the class demonstrated.

    .....

    b) Why did they use a transparent polythene bag?

    .....

    c) In the space below, draw a diagram to show the experiment demonstrated by the class.

43. a) Identify any two sources of electricity in the environment.

i) .....

ii) .....

b). Give any **two** ways in which electricity is useful in our daily life.

i) .....

ii) .....

44. a) Mention any **two** classes of food.

i) .....

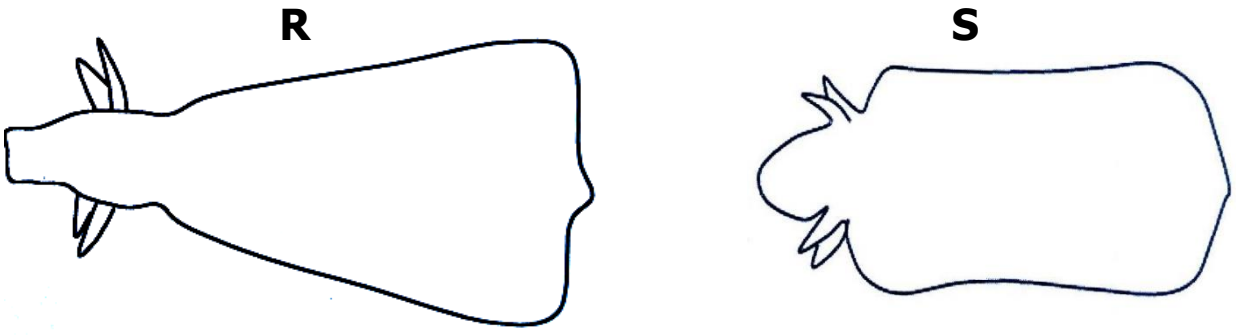

ii) .....

b) Give any **two** reasons why people eat food.

i) .....

iii) .....

45. The diagram shows two types of cattle in our community. Use it to answer the following questions.

a) Identify the type of cattle represented by letter **S**.

.....

b) Name the main reason why cattle **R** are kept.

.....

c) Mention any two ways of improving the quality of products from cattle shown by letter **R**.

i) .....

ii) .....

46. Match items in A about terms used in poultry keeping and their meanings in B correctly.

A		**B**
Cannibalism	-	care for chicks to grow
Incubation	-	removing a part of the upper beak
Brooding	-	eating another one of its kind
Debeaking	-	sitting on eggs to hatch them

a) Cannibalism .....

b) Incubation .....

c) Brooding .....

d) Debeaking .....

47. You are provided with the following materials.

wire ring, source of heat, pair of tongs and metallic ball.

Describe the steps you would show that solids expand when heated

i) .....

.....

ii) .....

.....

iii) .....

.....

iv) .....

.....

48. a) Mention any two causes of dehydration in adults.

i) .....

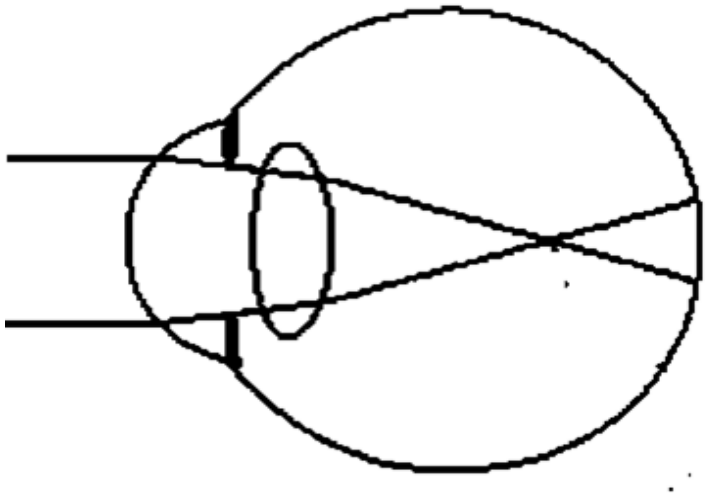

ii) .....

b) State the reason why the following are given to a dehydrated patient.

i) Sugar.....

ii) Salt.....

49. The diagram below shows an eye defect. Study and use it to answer the questions that follow

a) Name the eye defect shown in the diagram above.

.....

b) Mention any two causes of the above eye defect.

i) .....

ii) .....

c) State one way in which the above eye defect be corrected.

.....

50. a) State any two ways in which fiction is useful in our daily life.

    i) .....

    ii) .....

    b) Write down any two ways of reducing friction in moving parts of a machine.

    i) .....

    ii) .....

51. a) Name the element of weather measured using a rain gauge.

    .....

    b) State the importance of a funnel placed in a rain gauge.

    .....

    c) Give a reason why:

    i) placing a rain gauge in an open place

    .....

    ii) place a rain gauge at least 30 cm above the ground.

    .....

52. The table below shows groups of crops. Study and use it to answer the questions that follow.

a) Name the group of tuber crops at **X**.

.....

b) Apart from white yams, give any two other tuber crops that can be placed at **Z**.

i) .....

ii) .....

c) State one way in which white yams are propagated.

.....

53. (a) Give any two non infectious diseases that attack the lungs.

(i) .....

(ii) .....

(b) State any two ways of controlling non infectious diseases of lungs given above.

(i) .....

(ii) .....

54. a) Mention any two elements of Primary Health Care (PHC).

i) .....

ii) .....

b) Give any two principles of Primary Health Care (PHC).

i) .....

ii) .....

55. a) Give **two** examples of natural magnets.

(i) .....

(ii) .....

b) State the property of magnets used by pilots in compasses to show direction of flight.

.....

c) Write any one way of making magnets lose their magnetism.

.....
