SECTION A.

1. Why are vitamins regarded as protective foods?

   ……

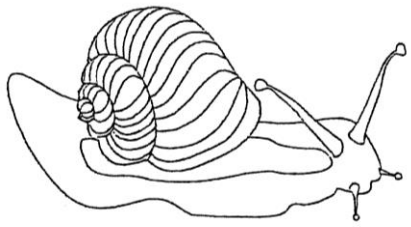

2. Give any **one** traditional method of preserving fish.

   …….

3. Why is it a good practice to wash your hands before eating food?

   ……

4. How is the invertebrate drawn below dangerous to people?

   ……

5. State the importance of including calcium in feeds for layers.

   ……..

6. Give the similarity between an Eagle and a dog in the way they feed.

   ……

7. Why would a potter choose clay for making pots?

   ……

8. Write any one disadvantage of washing vehicles near water bodies.

   ……

9. Identify any **one** commonly abused drug in your community.

   ……

10. Why is freezing referred to as a physical change?

……

11. Identify the kind of manure that is obtained from cow dung.

……

12. How are tendrils important to some plants like passion fruit plant?

……

13. Why is a windpipe made of rings of cartilage?

……

14. Give one reason why photosynthesis cannot take place at night.

……

15. By what natural process can animals as renewable resources be replaced?

……

16. Which gas enables a cook to easily light fire on charcoal in the kitchen?

……

17. **A P.7 child placed a container of water under direct sunshine as shown at A. The water level reduced after 5 hours as shown in B.**
Explain the cause of **water** reduction as shown at **B**.

……

18. Write any **one** tick-borne disease in cattle rearing.

……

19. Give any **one** advantage of breast feeding to babies.

……

20. Identify any **one** physical process which is involved in the formation of rain.

……

21. Give any **one** advantage of rotational grazing of livestock.

……

22. Write any **one** method of making water safe for drinking.

……

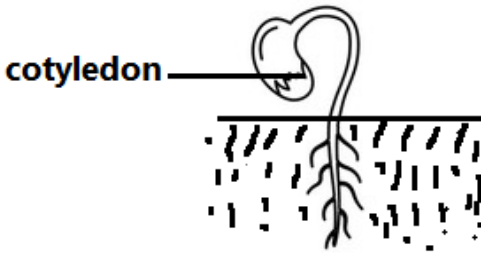

23. Why is it necessary to paint iron materials?

……

24. How does the changing of the skin colour protect a chameleon from its enemies?

……

25. Identify the type of seed germination shown below.

……

26. Mention any **one** solute used in the making of ORS.

……

27. State **one** food taboo which is obeyed by Muslims.

……

28. Why is it important to have a clean latrine at home?

……

29. Name any **one** reptile which can be very useful in controlling pests in a garden.

……

30. In which way is burning similar to germination?

……

31. Write any **one** item you can use to keep your body clean.

……

32. Give any **one** example of a communicable disease that affects the skin.

……

33. How does sound travel through matter?

……

34. State **one** way you can control the spread of malaria at home.

……

35. What is the role of the tooth drawn below during food digestion?

……

36. Of what importance is a queen excluder in a modern bee-hive?

……

37. Name any **one** material used to stop fire.

……

38. What is the importance of regular spreading of beddings in sunshine?

……

39. Why do farmers keep merino sheep?

……

40. Identify **one** accident that may occur in the swimming pool.

……

SECTION B.

41. **Match the items in list B with those in C by filling in the table correctly.**

B	**C**
Pig	byre
Fish	nest
Cow	water
Bird	sty

(i)	Pigs	……
(ii)	……	water
(iii)	Cows	……
(iv)	……	nest

42. (a) Identify any **two** elements of a good home.

(i) ……

(ii) ……

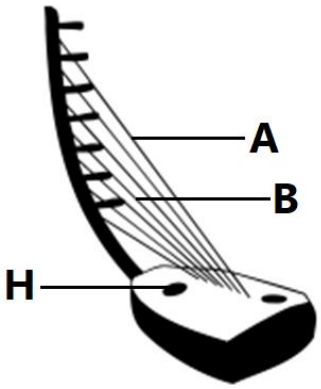

(b) How is the function of windows on a house different from that of ventilators?

……

(c) Why is it unhealthy to share a dwelling house with domestic animals?

……

43. **Study the musical instrument below and answer the questions that follow.**

(a) To which group of sound instruments does it belong?

……

(b) Which of the marked strings will produce:-

(i) the highest pitch of sound?

……

(ii) the lowest pitch of sound.

……

(c) How is the hole marked **H** useful when using the above instrument?

……

44. (a) What do the following animals use to protect themselves against enemies?

(i) Wasps

……

(ii) Caterpillars

……

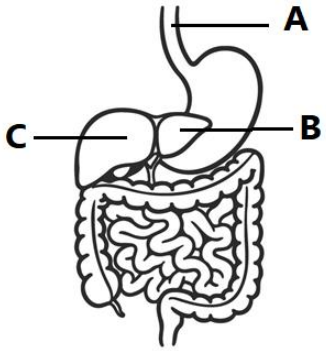

(iii) cows

……

(b) Give any **one** example of a marine mammal.

……

45. **<u>The diagram below shows some organs of a body system. Use it to answer the questions below</u>.**

(a) To which body system do the above organs belong?

……

(b) Identify the organ marked **B**.

……

(c) Point out any **one** disease and disorder of the above system.

(i) Disease

……...……

(ii) disorder

……...

46. (a) Give any **one** example of exotic rabbits.

……

(b) State the gestation period of a doe.

……

(c) Name any **two** common diseases that attack rabbits.

(i)……

(ii)……

47. (a) What is personal hygiene?

……

(b) Give any **two** ways you can promote personal hygiene.

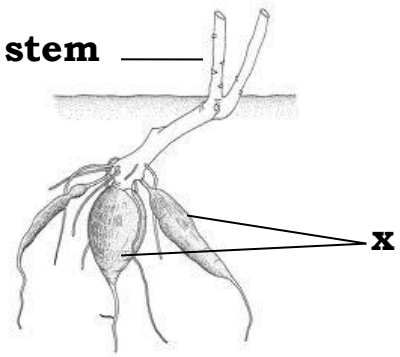

(i)……

(ii)……

(c) State any **one** danger of failing to observe proper personal hygiene.

……

48. **<u>The diagram below shows part of a flowering plant. Study it carefully and answer the questions below.</u>**

(a) What is the function of a stem to the above plant?

……

(b) Why are the roots labelled **X** swollen?

……

(c) Give any **one** plant in your environment with such roots.

……

(d) How are structures marked **X** useful to people?

……

49. (a) What is meant by the term "environment"?

……

(b) Identify any **two** components of environment.

(i)……

(ii)……

(c) How do plants benefit from animals in the environment?

……

50. (a) Apart from viruses, give any **one** other type of germs.

……

(b) Give any **one** danger of germs in our environment.

……

(c) Write any **two** ways of controlling the spread of germs.

(i)……

(ii)……

51. (a) Give the use of the following parts of the human body.

(i) Ears

……

(ii) Eyes

……

(b) Identify the part of a grass hopper which does a similar function as the ears of man.

……

(c) Give any **one** way of caring for our eyes.

……

52. (a) What is a balanced diet?

……

(b) Identify any **two** food values that made up a balanced diet.

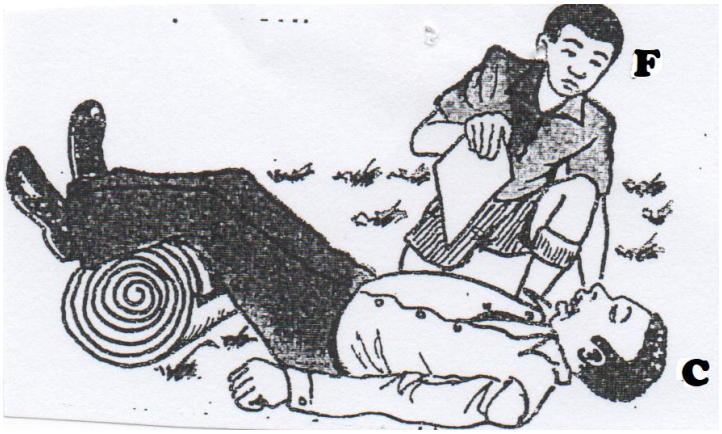

(i)……

(ii)……

(c) Give any **one** way of preventing food from getting contaminated.

……

53. **<u>The diagram below is a latrine. Use it to answer questions below.</u>**

(a) What science term is used to describe the person marked **F**?

……

(b) Why are the legs of the casualty raised higher than the head?

……

(c) Why is it important to fan the casualty as shown above?

……

(d) Give the cause of fainting.

……

54. (a) Write STDs in full.

……

(b) Write any **two** examples of STDs.

(i)……

(ii)……

(c) How can a P.7 child protect herself from STDs?

……

55. (a) Briefly explain the meaning of dehydration.

……

(b) Write down any **two** substances used to make ORS.

(i)……

(ii)……

(c) How can you prevent ORS from getting contaminated as you prepare it?

……
