……..

34. Give the main reason for carrying out the health practice shown below.

……

35. State the method used to produce sound in string instruments.

……..

36. Differentiate between vegetative propagation and seed propagation.

……..

……..

37. What is the role of water when carrying out the experiment to show that air exerts pressure?

……..

38. How is heat transfer by radiation useful to people?

……..

39. What enables fungi like mushroom to produce spores?

……..

The diagram below shows a device used by health workers. Use it to answer question **40**.

40. What is the use of the above device to a health worker?

……..

SECTION B: 60 MARKS

Questions **41** to **55** carry four marks each

41. (a) Give any two reasons why people eat food.

(i) ……

(ii) ……

(b) Apart from plants, mention any two other sources of food.

(i) ……

(i) ……

42. (a) Which natural change enables living things to multiply in number?

……

(b) Suggest any two ways of managing floods in our environment.

(i) ……

(ii) ……

(c) Give one importance of chemical changes.

……

……

(c) How does leaching lead to soil exhaustion in the environment?

……

(d) Write one method crop farmers can use to conserve soil in the garden.

……

47. The diagram below shows three buses moving on a hilly ground. Study it carefully and answer the questions that follow.

(a) Identify the type of mechanical energy possessed by the bus at **C**.

.....

(b) Give a reason to support your answer in **(a)** above.

.....

(c) State the energy change that takes place to the bus at **C** and **B**.

.....

(d) Mention the type of mechanical energy possessed by passengers in a moving bus.

.....

48. (a) Give the function of each of the following parts in a modern bee hive:

(i) Honey chamber.

.....

(ii) Brood chamber.

.....

(b) State two disadvantages of traditional bee hives.

(i) .....

(ii) .....

49. Use the table below to match correctly list **Y** to list **X**.

List Y	List X
Incisor teeth	They have few cusps.
Canine teeth	They are the largest teeth.
Premolar teeth	They have straight edges.
Molar teeth	They are cone shaped.

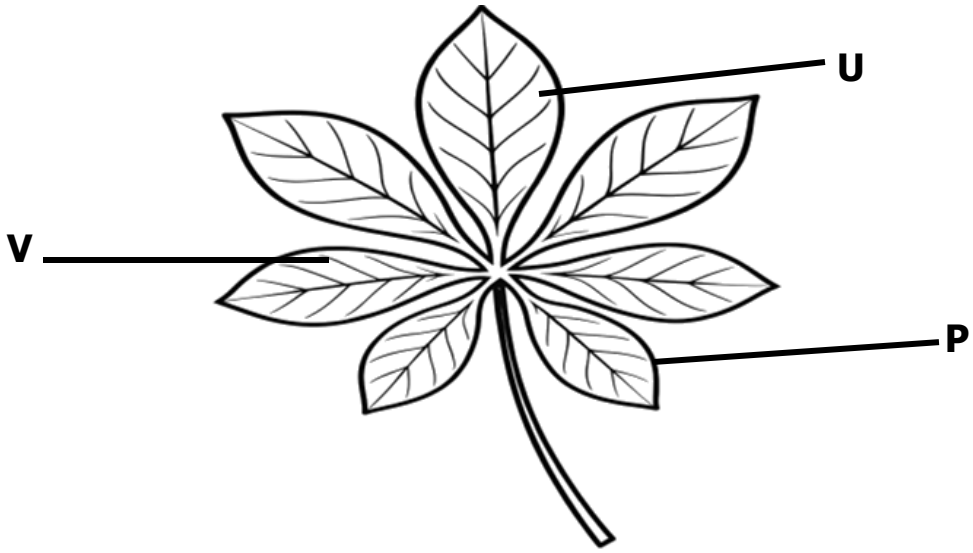

(a) Incisor teeth: ……..

(b) Canine teeth: ……..

(c) Premolar teeth: ……..

(d) Molar teeth: ……..

50. Below is the structure of a leaf of a plant. Use it to answer questions that follow.

(a) Name the parts marked with letter **V** and **P**.

(i) **V**:

……

(ii) **P**:

……

(b) How is the part marked with letter **U** important to a plant.

.....

(c) Name the structures on a leaf that plants use to carry out transpiration.

.....

51. (a) What do you understand by the term **sanitation**?

.....

.....

(b) Give two uses of a hoe during sanitation at home.

(i) .....

(ii) .....

(c) How does poor sanitation affect health of people at home?

.....

52. In four sentences, describe how rain is formed in the environment.

(a) .....

(b) .....

(c) .....

(d) .....

53. (a) Identify two factors that determine the pitch of sound produced by wind instruments.

(i) .....

(ii) .....

(b) Define **frequency** as a factor that determines the pitch of sound.

.....

(c) State the units used to measure frequency.

……

54. (a) Suggest two reasons why some farmers are convinced to keep rabbits not goats.

(i) ……

(ii) ……

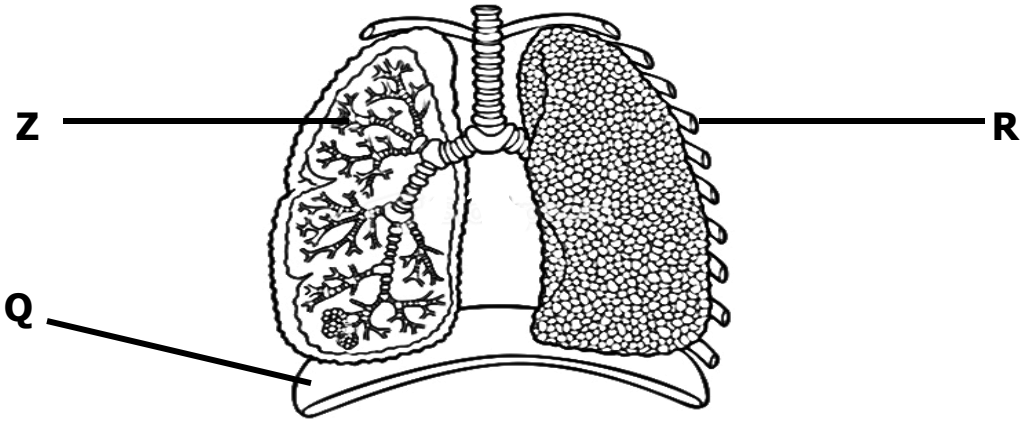

(b) Name the exotic breed of rabbits farmers mainly keep for production of cony hair.

……

(c) How can a farmer keeping rabbits improve on air circulation in a hutch?

……

55. The diagram below shows the human lungs. Study it and answer the questions that follow.

(a) Name the parts marked **Q** and **R**.

(i) **Q**: …… (ii) **R**: ……

(b) State the important process that takes place in the part marked **Z**.

……

(c) Write what happens to part marked **Q** during breathing out.

……
