SECTION B: 60 MARKS

Answer **all** *questions in this section*

Questions **41** *to* **55** *carry four marks each*

41. (a) Identify any **one** disease that results from active smoking.

.....

(b) Give **one** reason why people smoke.

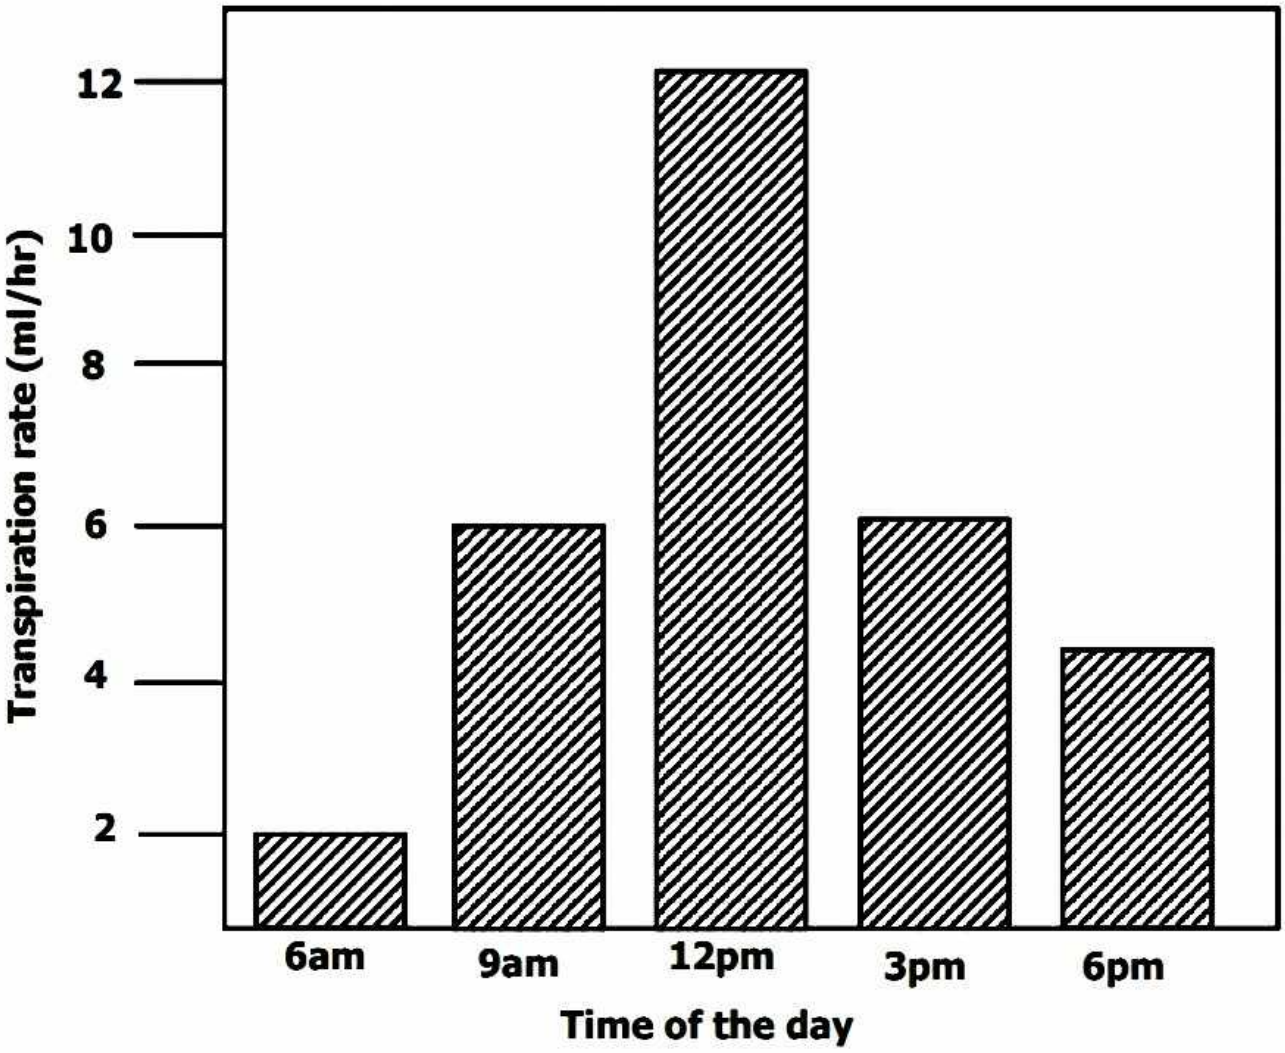

.....

(c) Name any **two** life skills that can safeguard against smoking.

(i).....

(ii).....

42. The graph below shows the rate of transpiration of a banana plant at different times of day. Use it to answer questions

(a) Determine the time of the day at which the rate of transpiration was highest.

.....

(b) Give the reason why the rate of transpiration was highest at the above time.

.....

(c) State any **one** factor that may have caused the reduction in the rate of transpiration after 3pm.

.....

(d) Give **one** importance of transpiration to plants

.....

43. A mango was placed on a plate and left outside in the sun for three days. On the third day, the mango had become soft, had black spots and flies were seen around it.

(a) Name the process that took place in the mango.

.....

(b) Give **one** sign that shows the mango underwent the above process.

.....

(c) Name any **one** organism that aided the process mentioned in (a) to take place.

.....

(d) State any **one** way in which fruits can be prevented from undergoing the process mentioned in (a).

.....

Turn Over

44. (a) Mention any **two** activities done to keep the body clean.

(i).....

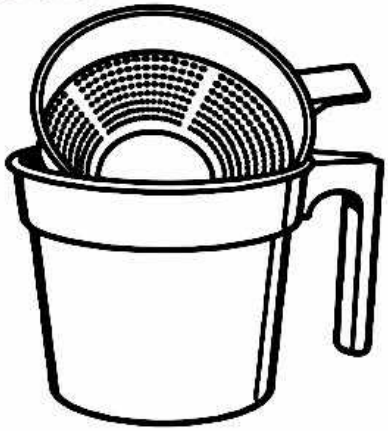

(ii).....

(b) Give any **two** effects of failure to keep the body clean.

(i).....

(ii).....

(a) Name the equipment shown above.

.....

(b) Mention the type of cattle where the farmer is likely to use the above equipment.

.....

(c) Briefly explain how a lactometer works. (02 marks)

.....

.....

46. (a) State the difference between music and noise.

.....

(b) Give **one** way of varying the pitch produced by a whistle.

.....

(c) Give **one** way the following groups of people use reflected sound.

Sailors: .....

Fishermen: .....

47. (a) Give the meaning of the term "**mulching**"

.....

(b) State any **one** advantage of mulching the garden.

.....

(c) Give **one** reason why it is not advisable to mulch some crops like cassava.

.....

(d) Mention **one** reason why mulch is dried before being used in the garden.

.....

48. The table shows types of dispersal in **A** and their examples in **B**, but in a wrong order.

A	B
Wind dispersal	castor oil
Water dispersal	dandelion
Animal dispersal	black jack
Self dispersal	lotus

Match correctly the types of dispersal in **A** to their examples in **B**.

Wind dispersal .....

Water dispersal .....

Animal dispersal .....

Self dispersal .....

49. (a) Give any **one** example of each of the following organisms.

Crustaceans: .....

Myriapods: .....

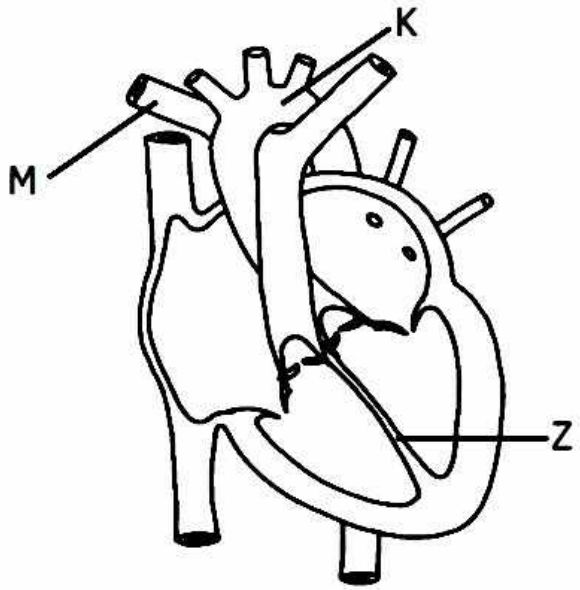

(b) Mention the group of invertebrates to which a spider belongs.

.....

(c) Give a reason why a scorpion is different from other arachnids.

.....

50. Study the diagram of the human heart and answer the questions that follow.

(a) Name the blood vessel marked with **K**.

.....

(b) State the function of part marked **Z**.

.....

(c) Give a reason why blood vessel **M** is called an artery.

.....

(d) State any **one** way in which the volume of blood can be increased in the human body.

.....

51. (a) State the chemical change that affects metallic objects made out of iron.

.....

(b) Give a reason why an iron nail does not change colour when kept indoors, even though oxygen is present.

.....

(c) State **one** importance of the change mentioned in (b) above.

.....

(d) Give **one** danger of the change mentioned in (b).

.....

52. (a) Name the type of weather in which children are advised to take off their sweaters.

.....

(b) Apart from showing the strength of wind, give any **one** importance of a windsock at a weather station.

.....

(c) State **one** importance of rain to cattle farmers in your community.

.....

(d) Mention the weather instrument which uses millimetres.

.....

53. (a) Mention the term used to describe the attachment of an embryo onto the walls of the uterus.

.....

(b) Name the important process that takes place in the fallopian tube besides fertilization.

.....

(c) Mention **two** disorders of the female reproductive system.

(i).....

(ii).....

54. (a) Give **one** product got from keeping sheep apart from mutton.

.....

(b) Mention any **two** local breeds of sheep kept for mutton.

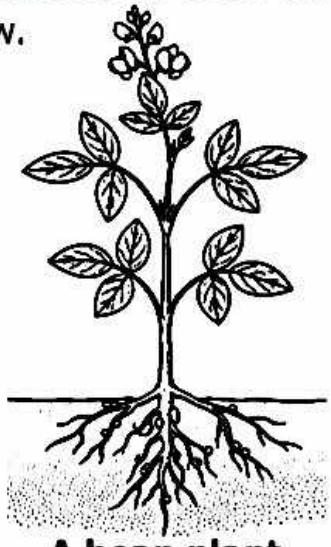

(i).....

(ii).....

(c) Give a reason why sheep's shed should be constructed with slanted floor.

.....

55. The diagrams below show the formation of manure. Use it to answer questions that follow.

A bean plant

Wilting

Manure

(a) Name the organic fertilizer obtained in the diagram above.

.....

(b) State the reason why legumes are used to make the above organic fertilizer.

.....

(c) Give a reason why the flowering stage of legumes is suitable for making the type of organic fertilizer in (a)

.....

(d) Apart from green manure, give any other **one** example of organic fertilizer.

.....
