LERNING AREA 3

Topics to be covered

Body parts

Food

Fruits

Caring for my environment

Dangerous objects

Things God created

LESSON 1

(LO iii)using the senses of touching and feeling to describe things and situations

Competences-learner differentiates between texture, temperatures and forms of objects.

Examples;

Cold water

Warm water

Hot water

Teaching tools

Water

Water jugs

Cups

Basins

Buckets

Glasses

Learners' activity

Identifying temperatures of water by washing hands with the help of a teacher

LESSON 2

Learners' activity;

Draw the basin of hot water

LESSON 3

Match to the correct word

Cold

Hot

Warm

LESSON 4;

Circle the old man out.

Hot table warm

LESSON 5

Match the same words

Hot warm

Cold water

Warm hot

Water cold

LESSON 6

Fill in the missing letters

C_ld

W_rm

H_t

Wat_r

LESSON 7

Read and draw the pictures.

Cold water

Warm water

Hot water

Project:

They will wash their hands with water using different temperatures of water in order to identify

Learning outcome iv:

Completences: Protects and cares for her/his body.

Importance of caring for his/her body

We bath to remove dirty

We brush the teeth to tooth decay

We bath to avoid bad smell

We wash our eyes to remove plunks

We wash our feet to remove bad smell

We clean our nose to remove mucus

We cut our hair short to look smart

We cut our finger nails short to remove germs.

Teaching tools:

razor blade

water

nail cutter

ear buds

sponge

soap

Vaseline

Towel

Face towel

Tooth brush

Tooth paste

Comb

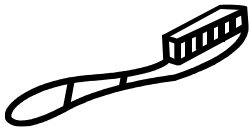

Learners' activity

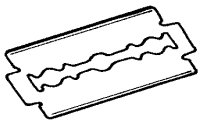

They demonstrate how to protect and cares for their body, through dialogues, role plays and stories

LESSON 2

Learner activity

Draw the pictures

Tooth brush 

Razor blade 

Water

LESSON 3

Match to the word

towel

water

Soap

Project:

Learners will use real objects e.g. towel, water, soap and sponge to clean their body.

LESSON 4:

Face towel	ear buds
Tooth paste	sponge
Vaseline	face towel
Ear buds	tooth paste
Sponge	Vaseline

LESSON FIVE

Fill in the missing letters

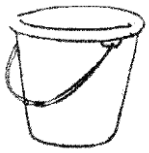

T_ _th paste

Raz_r blade

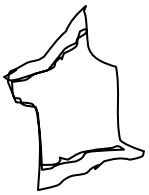

C_omb

LESSON 6:

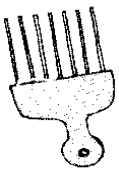

Name the pictures.

_____

_____

_____

_____

Learning out come V:

Using the sense of smell and caring for the nose.

Competences: Describes bad, good and dangerous things according to their smell.

Examples:

Things with a good smell

Things with a bad smell

Dangerous things.

Learners' activity:

Identify things with a good/bad smell and dangerous things which can harm their nose.

LESSON 2

Learners' activity:

Learning things with a good smell.

Perfumes

Vaseline

Flower

Powder

Food

Teaching tools:

Real objects i.e. flowers, perfume powder, Vaseline, food

LESSON 3

Read and draw things with a good smell.

Flowers

Perfume

LESSON 4:

Learning things with a bad smell

Rotten food

Fieces

Urine

Rotten rats

LESSON 5:

Match the same words

Fieces	urine
Urine	rotten food
Rotten food	fieces

LESSON 6:

Dangerous things which can harm the nose.

Pin

Beads

Beans

Needle

Stones

Safety pin

Learning out come vi:

Using the sense of test and caring for the mouth.

Competences: Appreciates different tastes of different food stuffs.

Examples: sweet things

Sweets

Ice cream

Soda

Juice

Apple

Cakes

Sugar

LESSON 2:

Sour things

Medicine

Aloe vela

Lemon

LESSON 3:

Read and draw sweet things

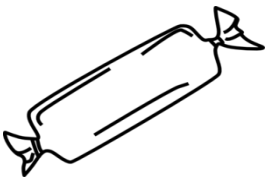

Sugarcane

Cake

Ice cream

Sweets

LESSON 4:

Mach to the pictures

Apple

Soda

Cake

LESSON 5

Match and draw sour things

Aloe vela medicine

Medicine lemon

Lemon aloe vela

LESSON 6:

Fill in the missing letters

Alo_ vela

Medi_ _ne

L_mon

Learning outcome vi:

Competences:

Protects and cares for his/her mouth

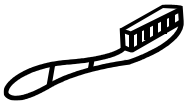

Activities:

- Making local toothbrushes and practicing brushing teeth
- Talking about what happens when our teeth go bad.
- Telling stories about the losing of teeth

LESSON 2:

Things used to clean our teeth

Tooth paste 

Toothbrush 

Clean water
Tooth Picks
Local toothbrushes
Charcoal

LESSON 3:

A story about losing teeth

Once upon a time
There lived a young boy
His name was Matina,
This boy could not brush
His teeth, his mouth was
Always smelling, he has
holes in the teeth, so his
teeth was paining him

so much and his mother
took him to the dentist
and they remove his
four teeth and remained
with gaps in the mouth
his firend started calling him
he could not meat again.

Learners' activity:
Children will answer the question from the story.
What was the name of the boy?
Why did he get holes in the teeth?
Why was his mouth smelling?
Where did his mother take him to remove his teeth?
What name was given by his friends after removing teeth?

LESSON 4
A rhyme:
Brush brush brush your teeth
Don't forget your hair daily daily
Daily daily you look very smart

Learners activity:
Reciting a rhyme

LESSON 5
Learners activity:
Matching words to pictures

Tooth brush

Water

Tooth picks

Tooth paste

Learning outcome vii: identifying and naming different body parts and their uses.

Competences:Describes activities performed by different body parts

Examples:
Walking
Touching
Seeing
Clapping
Dancing
Hearing
Loughing
Crying
Smiling
Running
Sitting
Nodding
Eating

TEACHING TOOLS
Drums
Food
Whistle
Balls
Chair

Learners activity: A learner will demonstrate the activities performed by body parts

LESSON 2
Uses of body parts.
Legs for walking
Ears for hearing
Eyes for seeing
Hands for touching
Waist for dancing

Learners' activity:
A learner will use the body parts to perform the activities.

LESSON 3
Learners' activity: learner will recite a rhyme about body parts

Parts of the body
Ears are part of_____
Eyes are part of_____
Hands are part of_____
Feet are part of _____
Legs are part of_____parts of my body

Learning outcome viii: having self concept confidence and self-esteem
Competences: expresses him/herself freely.
Examples:
News telling
Story telling

Teaching tools
Picture story

LESSON 2
Learners activity: learner will talk about himself by telling news.

News news
Yes tell us the news
My name is Annah
I live in Kikaaya
My teacher is teacher Teddy
My class is Top Pretty
My school is White Angels Nursery School
Bulenga campus
I am five years old
When I was coming to school this morning, I saw a bird flying over the house.

LESSON 3
Learners' activity: learner will talk about him/herself by telling the new at home.

News news
Yes tell us the news
My name is Tom
I am five years old
I live in Bulenga
My father is Mr. Bwanika
My mother is Mrs Mary Bwanika
I have one brother
I love my parents and my parents
Loves me too.

LESSON 4:
Learners' activity: learners will tell the story.
A story was about myself.
One day, I was coming to school I met an old man. This old man was feeling hungry. He requested me to take him to my mother and get some food. So I decided to take the old man at my mother's place. When we reached there they welcome him and gave him some food. This old man was very happy from then we became friends. This is the end of my story.
Learning outcome ix: Using gross and fine motor (large and small) muscles.

Competences:
Performs and responds to various situations with his/her body.

Examples:

Tearing pieces of papers
Threading beads with small holes
Twisting materials to make ropes and balls
Walking on a log / plunk
Modeling with clay
Playing airplanes over the chair (stretch out arms and legs)
Jumping some stretches and heights (long and high)
Walking backwards
Running and skipping
Throwing and catching a ball
Kicking a ball
Drawing things
Dodging
Targeting

Teaching tools:
Real objects i.e. papers, clay, beads, ropes, balls, chair

LESSON 2:
Learners activity: Learner will tear the papers

LESSON 3
Learners activity:
Learner will twist materials to make ropes and balls.
Threading beads with small holes

LESSON 4
Learners' activity: Learner will model with clay.
Learner will walk backwards.

LESSON 5
Learners' activity: learner will throw and catch the ball with his/her friend.

Learning outcome (x)expressing creativity freely and independently

Competences: uses available materials with the environment to make some thing original

Examples:
Making masks
Drawing
Painting
Praising God through singing praying and dramatizing for the skills that God gave me.
Weaving e.g. Mats

LESSON 2
Learners' activity: Learner will make masks using papers.

LESSON 3:
Learners' activity: Learner will draw the pictures and shade them using colours.

LESSON 4:
Learners activity: Learner will sing and prays to God.

Learning outcome (xi) Keeping healthy and practicing good health habits.

Competences: Keeps him /herself clean

Examples
Weashing different items e.g. underwear dress/ shirt and feet
Practicing cleaning different parts of my body e.g. eyes, ears, mouth
Combining my hair
Brushing my teeth
Practicing good toilet habits
Thanking

Teaching tools
Underwear
Dress
Shirt
Handkerchief
Water soap
Basin/bucket
Ear buds
Face towel
Vaseline
Toothpicks
Tooth brush
Tooth paste
Comb

LESSON 2
Learners' activity: Learner will wash their items with help of a teacher.

LESSON 3:
Learner' activity: Learner will clean the body parts with the help of a teacher.

LESSON 4:

Learners' activity: Learner will comb her/his hair and brush the teeth with the help of a teacher.

LESSON 5:

Learners activity: Learner visits the toilet and answers the question e.g.
What do you when you visit the toilet?
Wht do you take when your going for along call?
After visiting the toilet what do you do?

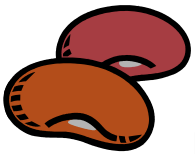

(LO XI)
Competences: I can tell the importance of a balanced diet
Examples:
Explaining what a balanced diet is
Naming the different foods in the environment
Talking about the importance of eating different types of food
Modeling different types of foods
Telling stories about good eating habits
Singing songs, reciting rhymes related to good feeding
Talking about foods that make up a balanced diet

Teaching tools

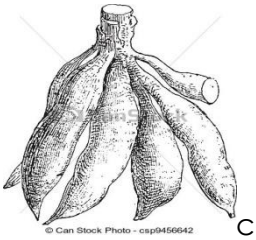

Different types of food
Cassava
Matooke
Sweet potatoes
Irish potatoes
Rice
Beans
Yams
Maize
Millet
Clay

LESSON 2

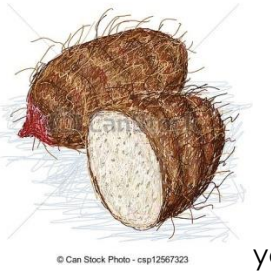

Learner2 activity: Learner will name the different foods in the environment

beans

cassava

yams

Teacher's activity: A teacher will explain what a balanced diet is.

LESSON 3:

Learners' activity: Learner will tell and answer the question about the importance of eating different foods. e.g.

Proteins

Milk
Eggs
Fish
Meat

Vitamins

Fruits
Vegetables

Carbohydrates

Rice
Cassava
Maize
Millet
yams

LESSON 4
Learners activity: Learner will model different types of food using clay.

LESSON 5:
Learners' activity: Learner will answer the questions.
Teacher's activity: Teacher will tell the story about good eating habits.

Once upon a time there was a boy called Bakaitandwe. He was humble and polite boy whenever he was given food he could first pray for it which made his mother happy and proud of him. He had good table manners like not talking while eating could not eat while walking even not playing on the dinning table while eating.

Questions
1. What was the name of the boy in the story?
2. Who wants to be like Bakaitandwe?
3. Which good table manners did Bakaitandwe have?

(LO xi)
Competences : I can say no and guard against abuse.

Examples:
Explaining the right of girls and boys to say no to sexual abuse and describing ways in which to do.
Talking about the different kinds of abuse
Singing songs
Dramatizing how to protect myself against abuse
Thanking God for the gift of skills of protecting ourselves from abuse e.g. through prayers and songs.

LESSON 2
Teachers activity: Teacher will explain the right of girls and boys to say no to sexual abuse and describes the ways in which to do it.
Learners' activity: Learner will listen to the teacher and also to be careful with the friends they play with.

LESSON 3:
Teachers' activity: Teacher will talk about different kinds of abuse. E.g. beating starving.
Learners' activity: Learner will listen to the teacher.

LESSON 4:
Learners' activity: Learner will recite a rhyme about abuse.
I will never go to school anymore and more
where there is a fat teacher
who always beats me
He pulled my hair
He knocked my head
I will never go to school anymore and more

LESSON 5:
Learners' activity: Learner will act a short drama about child abuse with guidance of a teacher

LESSON 6:
Learners' activity: Learner will pray and thank God for the gift of protection.
Teacher's activity: Teacher will guide a learner to pray.

Learning outcome xii: Keeping safe and avoiding accident.

Competences: Responds to safety rules.
Examples:
Dramatizing and practicing road safety rules
Story telling
Telling news
Singing
Riddles
Talking about safety rules

LESSON 2:
Learners' activity: A learner will act a short drammar about road safety rules with the help of their teacher.

LESSON 3:
Learners' activity: Learner will listen and the answer the questions about the road safety rules. E.g.
How do you cross the road?
What is the use of a zebra crossing?
What is the use of traffic lights?

Teachers' activity: Teacher will create a story about road safety then will teach the road signs.

Zebra crossing

Project: Learner will be taken outside and draw a zebra crossing using chalk and powder paint (black and write).

LESSON 4:
Learners' activity: Learner activity will tell the news about safety road rules with the help of the teacher

LESSON 5:
Learners'activity: Learner will listen to the teachers.

I am a road sign with three colours red, orange, green. What am I?

(LO xii)
Competences: sensitive to dangerous things e.g. shakes, poison, sharp objects & road accidents.

Examples
Talking about first aid and what should be done to common accidents.
Singing songs about dangerous things
Dramatizing
Role playing
Drawing dangerous things
Teaching tools
First aid box
Real objects

LESSON 2:
Learners' activity: Learner will listen
Teachers' activity: Teacher will talk about first aid given to the accident people.

LESSON 3:
Learner activity: Learner will act as an accident person and her/his friends will care for her and give him/her first aid.
Teachers' activity: Teacher will help the learners.

LESSON 4:
Learners activity: Learner will draw dangerous things. e.g.

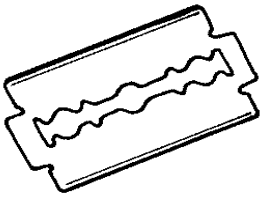

Snake

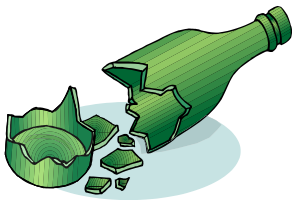

Dog

Razorblade

Broken bottle

Pin

Learning outcome xiii: knowing relating with God and his creation
Competences: Shows love and care for God's creation.

Examples:
Playing with pets
Playing with younger children
Miming care for the sick
Miming care for domestic animals
Practicing cleaning younger children
Practicing sharing with others.

Teaching tool:
Pets (structure)
Young children
Lab coat
Medicine
Snacks
Juice
Plaster
Water
Banana peels
Food
Soap
Towel
Vaseline
Tooth brush
Tooth paste

LESSON 2:
Learners activity: Learner will model pets using artificial clay.
Teachers activity: Teacher activity will help the learner to model.

LESSON 3:
Learner activity: Learner will play with young children.
Teachers' activity: The teacher will guide them while playing.

LESSON 4:

Learners' activity: Learner mimes how to care for the sick using real material like lab coat, medicine, plaster etc
Teachers' activity: Teacher helps a learner to care about the sick.

LESSON 5:
Learners' activity: Learner mimes how to care for the animals by using real thigfs like food, banana, peels, water.

LESSON 6:
Learners' activity: Learner will practice cleaning young children by the help of a teacher.

LESSON 7:
Learners' activity: Learner will practice sharing with others
Teachers' activity: teacher will show the learner the way they should share.

(LO xiii)
Competence: I can participate in religious practices.

Examples
Listening and re-telling stories
Listening to religious instructions and teaching
Leading prayers
Leading prayers
Participating in praying and praising God.
Composing and saying a prayer
Dramatizing religious events
Reciting religious events
Naming places of worship.

Teaching tools
Bible
Charts showing places of worship

LESSON 2:
Learners' activity: Learner will listen to the bible story and the learner will answer the questions
Teachers' activity: Teacher will tell the story.

Once upon time there was a man called Zacheus, he was short. One day Jesus was passing through Jerusalem all people gathered together to see Jesus but Zacheus could not see him so he decided to climb a tree to see him.

Questions
Who climbed the tree?

Who was passing through Jerusalem?
Instructions and teaching.
Teachers' activity: reading the bible verses and explain to the learner.

LESSON 4:
Learners' activity: Learner will pray.
Teachers' activity: teacher will lead the prayer.

LESSON 5:
Learners activity: Participating in praying and praising God.
Teachers' activity: Teacher will lead in praising and praying.

LESSON 6:
Learners' activity: Learner will pray.
Teachers' activity: Teacher will compose a class prayer.

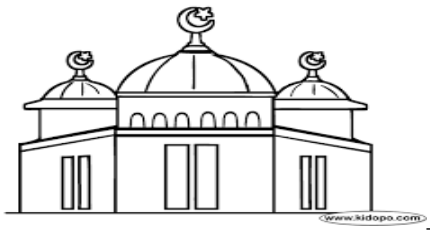

LESSON 7:
Learners' activity: Dramatizing religious events.
Teachers' activity: Teacher will baptize the children in the service.

LESSON 8:
Learners' activity: Naming places of worship.
Teachers' activity: Teacher will give learners exercise.

Name these;

_____

_____

(MORE WORK SUMMARY)

TERM II TOP HEALTH HABITS (LEARNING AREA 3)

WEEK 1 - 2

Body parts

Activity

- ✓ Name the body parts
- ✓ Fill in the missing letter
- ✓ Read and draw body parts
- ✓ Fill in correctly.
- ✓ Tick, circle the correct words

Read and fill in correctly.

My name is Betty.

I have ---------- eyes and ------- nose.

I use my legs for -------and ears for -------

Match body parts to there use.

Read and answer

What do you use for hearing?

----------is used for seeing. Etc

WEEK 3

Introducing food we eat.

Activity

- ✓ Read and draw
- ✓ Name the pictures
- ✓ Fill in the missing letter in words
- ✓ Read and match
- ✓ Find the picture number
- ✓ Talk about importance of food in the body orally.

Cassava meat milk bread matooke beans gnuts millet Maize sweet potatoes rice etc

WEEK 4

Caring for my environment

Things we use to clean the environment

Brooms rake panga hoe rag garden fork dustbin etc

Activity

- ✓ Name the pictures
- ✓ Read and draw
- ✓ Circle tick underline
- ✓ Fill in the missing letter
- ✓ Find the picture number.

Actions done when cleaning the environment

Mopping sweeping digging cutting washing dusting combing

Note:

Ask learners to mention actions performed during cleaning

Activity

Read and draw

Sweeping	Mopping	Dusting

- ✓ Name the pictures

Complete the sentences

 She is------

 He is-------

- ✓ Fill in the missing letter in the words
- ✓ Make sentences with the words orally
- ✓ Listen and write

WEEK 5 - 6

Introducing dangerous things (things which harm my body)

thorn needle stick broken bottle broken glass stone safety pin fire nail medicine etc

Activity

- ✓ Read and draw
- ✓ Match pictures to words
- ✓ Colour picture for a word
- ✓ Name the pictures
- ✓ Fill in the missing words
- ✓ Match and write
- ✓ Complete the sentences
- ✓ Listen and write
- ✓ Find the picture number
- ✓

WEEK 7 – 8

Introducing common insects

bees, grasshopper, caterpillar, termite/ants, wasp, butterfly, housefly, tsetse fly, bedbug, spider, maggot, mosquito, snail

Activity

Spell and learn

Read and draw

bee	butterfly	ant
maggot	worm	housefly

Fill in the missing letter.

b---d bug tset-----e w ----rm w-----sp sp----der gr----sshopper

Circle the correct word.

termite	tertim
spaw	wasp
maggot	ggotma
eeb	bee

Match the same words.

grasshopper	mosquito
spider	caterpillar
snail	grasshopper
caterpillar	spider
mosquito	snail

- ✓ listen and write
- ✓ cross a picture for a sound

Note:

This work should be done on paper work for insects because kids can not draw different insects.
