LESSON NOTES SOCIAL STUDIES PRIMARY SEVEN TERM ONE.

TOPIC: THE PEOPLE OF AFRICA, ETHNIC GROUPS AND SETTLEMENT PATTERNS.

SUB-TOPICS:

- **Origin of different ethnic groups**
- **Movements of different ethnic groups into Africa**
- **Settlement patterns of different ethnic groups**
- **Tribes belonging to different ethnic groups**
- **Reasons for the migration and settlement of ethnic groups**
- **Problems met by different ethnic groups in during their movement and settlement in Africa**
- **Effects of ethnic migration**

SESN	COMPETENCE.	FACT/CONTENT	METHOD	RELEVA	LESSON ACTIVITY	SCENARIO
	Describes the Origin of different ethnic groups in Africa	Africans are people whose origin is in Africa. Africa is believed to be the cradle of mankind. This is because the oldest skull of man was discovered in Africa by Dr.Louis Leakey,at Olduvai Gorge in Tanzania. The oldest skull is believed to have been for a man called "Zinjanthropus" which means Black man. We can get information about the past through the study of history. History is the study of the past events. Sources of historical information include the following; Archaeology, Written history Oral tradition, Anthropology Linguistics The indigenous people of Africa include; The Berbers in North Africa. The Tuaregs of the Sahara. The Oromo, Afar, Beja and Somali of the Horn of Africa. The Yoruba, Fulani and Igbo of West Africa. The Pygmies (also Bambuti) of Central Africa.	Guided discovery Observation Brainstorming Question and answer Guided group discussion	To help the learners understand where differed African people came from To help the learner develop respect for people with differed backgrounds To help learners	Naming types of vegetation in some parts of Africa	The cultural Festival at school The market visit The village wedding The classroom The family roots The Tv news The food festival Language confusion

		The Khoikhoi (also called the Hottentots) of Southern Africa. The Bushmen of East Africa. Characteristics that make Africans different from other people. They have a dark skin. They have short hair. **MAJOR ETHNIC GROUPS IN AFRICA** An ethnic group is a large group of people with the same origin, same traditional occupation and speak related languages. A tribe is a large group of people with the same origin, same traditional occupation and speak the same language. Characteristics of an ethnic group. People have the same traditional occupation. People speak related languages. People share the same origin. People have the same ancestor. **Major ethnic groups in Africa.** The Bantu Nilotics Cushites The Khoisans. Semites Nilo-Hamites **Origins of major ethnic groups in Uganda.**		understand early human history and the roots of African civilisation		The school music competition

Ethnic group	Origin	Traditional occupation
❖ Bantu	❖ Cameroon highlands	❖ Crop growing/ cultivation
❖ Nilotics/River-Lake Nilotes	❖ Bahr el Ghazal	❖ Pastoralism/ animal rearing
❖ Hamites/Cushites	❖ Ethiopia/Asia	❖ Pastoralism
❖ Plain Nilotes/Nilo-Hamites	❖ Ethiopian Highlands	❖ Pastoralism
❖ Highland Nilotes	❖ Ethiopian Highlands	❖ pastoralism

Factors that affected settlement patterns of ethnic groups into East Africa.

Climate
Vegetation
Nature of the Soil
Water bodies
Availability of land.
Occupation.

		How the above factors influenced the settlement patterns of Ethnic groups in East Africa. **Climate:** Most people settled in areas with favourable climate for their traditional; occupation. Areas that receive much rainfall attracted the cultivators while areas that receive low rainfall attracted cattle keepers. Nature of the soils: The Bantu who were cultivators settled in the interlacustrine region which had fertile soils for crop growing. **Land:** Most ethnic groups migrated into East Africa to acquire enough land for growing crops and rearing animals. **Vegetation:** Most pastoral tribes settled in areas with savannah vegetation to get pasture for their animals. **Water bodies:** Most tribal groups settled around water bodies in order to get water for home use, for their animals and to carryout fishing. **Occupation:** Most ethnic groups in East Africa settled in areas that were suitable for their traditional occupation e.g. the Bantu settled in areas that had fertile soils				

		and received reliable rainfall which support crop growing, the Nilotics were pastoralists which made them settle in areas that had plenty of pasture for their animal s.				
	Describes the Origin of the Bantu in Africa **Describes the movement of different the Bantu** **Identifies settlement patterens of the Bantu** **Identifies tribes that belong to the Bantu** **Identifies reasons why different tribes moved from their origins** **Discusses problems met by the Bantu during their movements and settlements** **Explains the effects of Bantu migration**	**MAP SHOWING MAJOR ETHNIC GROUPS IN AFRICA** **THE BANTU** The Bantu is the largest ethnic group in Africa The main occupation of the Bantu is cultivation. The Bantu are believed to have originated from Cameroon highlands and settled in the Congo basin in Central Africa, before spreading to other parts of Africa. The Bantu are so called because they speak related languages with a common suffix "ntu" when referring to people or things. The Bantu who came to East Africa mainly settled in the Interlacustrine region. <u>Interlacustrine region</u> is the land between the great lakes of East Africa. These lakes include; lake Victoria, lake Albert, lake Edward, lake Tanganyika and lake Kivu. **Why the Bantu settled in the Interlacustrine region.** The area receives plenty of rainfall.	Guided discovery Observation Brainstorming Question and answer Guided group discussion	To help the learners appreciate how movement shaped languages, culture and traditions To help the learner recognize the relationship between environment and	**Describing the Origin of the Bantu in Africa** **Describing the movement of different the Bantu** **Identifying settlement patterens of the Bantu** **Identifying tribes that belong to the Bantu** **Identifying reasons why different tribes moved from their origins** **Discusses problems met by the Bantu during their movements and settlements**	The clan meeting Traditional Dance festival The neighbourhood observation Dressing style The family tree The basket weaving workshop

		The area has fertile soils which support crop cultivation. Note. A tribe is a large group of people who have the same origin and speak the same language. The interlacustrine region was originally inhabited by the Bushmen. The migration of the Bantu into East Africa led to the displacement of the Bushmen. The Bushmen moved southwards and finally settled in the Kalahari Desert in Southern Africa. **Bantu tribes in East Africa** (see table below) **Note:-** The <u>Ngoni</u> were the last Bantu group to move and settle in East Africa. They migrated from South Africa.		movement To help learners understand why communities change places	**Explains the effects of Bantu migration**	The naming ceremony The market day The evening story telling The permanent homestead The iron tools collection

Country	Bantu tribes.
Uganda	-Baganda –Basoga –Bagishu – Batooro –Bakiga –Bakonzo– Banyankore –Banyoro.
Kenya	-Abaluhya –Akamba –Kikuyu –Meru – Mijikenda -Maragoli -Embu -Pokomo
Tanzania	-Nyamwezi –Ngoni –Yao –Sukuma – Hehe –Chagga
Rwanda	-Hutu
Burundi	-Hutu

They were escaping from the civil wars of Shaka Zulu. Migration groups of the Bantu.

Migration group	Bantu tribes
Central Africa Bantu	-Bakongo –Chewa –Bemba
Eastern Africa Bantu	-Baganda –Basoga –Bagishu –Bakonzo Nyamwezi –Ngoni –Yao –Hehe –Chagga
Southern Africa Bantu	-Zulu –Xhosa –Herero –Avambo –Shona – Venda –Tswana -Sotho

Some Bantu tribes that settled on slopes of mountains.

Mountain	Bantu tribe
Mountain Rwenzori	Bakonzo
Mountain Mufumbiro	Bafumbira , Bakiga
Mountain Elgon	Bagishu
Mountain Kilimanjaro	Chagga
Mountain Kenya	Kikuyu

Causes of the Bantu migrations.

Outbreak of epidemic diseases in their cradle land.

Internal and external conflicts.

The need for fertile land for cultivation.

Outbreak of famine.

Shortage of land.

		Over population in their cradle land. Prolonged drought. **Reasons for the migrations of the Bantu into east Africa.** They were looking for water and pasture for their animals. They were escaping from external attacks. They were escaping from epidemic diseases which attacked them. To look for areas that received reliable rainfall. . To look for enough land to carry out cultivation. To look for fertile soils for crop cultivation. **Countries in Africa where the Bantu mainly settled.** Uganda South Africa Zimbabwe Kenya DRC Botswana Tanzania Congo Brazzaville **Effects of the migration and settlement of the Bantu.** **Positive effects.** The Bantu introduced new crops where they settled.				

		They formed kingdoms and chiefdoms where they settled. They introduced new languages. They introduced new farming systems. **Note:-** The Bantu tribes were able to form kingdoms because they lived a settled life. **Negative effects.** It led to displacement of people from areas where they settled. (the Bushmen were displaced from the Interlacustrine region, they moved southwards and settled in the Kalahari desert) They caused wars and conflicts where they settled. They led to loss of culture through intermarriages. They led to increased population where they settled which caused shortage of land.				
	Describes the Origin of different the Nilotes in Africa **Describes the movement of different the Nilotes** **Identifies settlement patterns of the Nilotes**	**THE NILOTES** The Nilotes are called so because they had their origin along the Nile valley. The Nile valley countries include; Uganda, Ethiopia, South Sudan, Sudan and Egypt The main occupation of the Nilotes is pastoralism. The sub-groups of the Nilotes include the; River-lake Nilotes /Nilotics /Luo speakers.	Guided discovery Observation Brainstorming	To help the learners appreciate how movement shaped languages,	**Describing the Origin of different the Nilotes in Africa** **Describing the movement of different the Nilotes** **Identifying settlement patterns of the Nilotes**	The clan meeting Traditional Dance festival The neighbourhood observation

	Identifies tribes that belong to the Nilotes **Identifies reasons why the Nilotes moved from their origins** **Discusses problems met during their movements and settlements** **Explains the effects of the Nilotes migration**	Plain Nilotes/ Nilo-Hamites Highland Nilotes Tribes under different sub-groups of the Nilotes. **Note;-** The Nilotics first settled at <u>Pubungu (presently known as Pakwach)</u> when they entered in East Africa.	Question and answer Guided group discussion Picture interpretation	culture and traditions To help the learner recognize the relationship between environment and movement To help learners understand why communities change places	**Identifying tribes that belong to the Nilotes** **Identifying reasons why the Nilotes moved from their origins** **Discussing problems met during their movements and settlements** **Explaining the effects of the Nilotes migration**	Dressing style The family tree The basket weaving workshop The naming ceremony The market day The evening story telling The permanent homestead

Sub-group	Origin	Country	Tribes under the Nilotes
River-lake Nilotes	Bahr-el-Ghazal	Uganda	-Acholi –Alur – Jopadhola
		Kenya	-Jaluo
		South Sudan	-Dinka –Nuer – Azande
Highland Nilotes.	Ethiopian highlands	Uganda	-Sabiny
		Kenya	-Nandi –Sabiny – Marakwet –Tugen –Kipsigis -Keijo
		Tanzania	-Dadong
Plain Nilotes	Ethiopian highlands	Uganda	-Iteso –Karimojong -Langi -Kumam
		Kenya	-Iteso -Masai - Turkana -Samburu
		Tanzania	-Masai -Barabaig

		The Legend of the Spear and the Bead explains the separation of the Nilotics while at Pubungu. The Alur tribe came into existence as a result of intermarriages between the Nilotics and the Lendu. The Sabiny are found in both Uganda and Kenya. The Masai are found in both Kenya and Tanzania. Some tribes under the Nilotes in Africa changed from pastoralism to mixed farming. **Reasons why some tribes under the Nilotes in Africa changed from pastoralism to mixed farming.** They settled in areas with fertile soils. They settled in areas that receive reliable rainfall. **Cause of the migrations of the Nilotes into East Africa.** Shortage of pasture for animals. High population which led to shortage of land. Internal and external attacks. Prolonged drought in their cradle land. Outbreak of epidemic diseases. Outbreak of famine in their cradle land. **Effects of the migration of the Nilotes.** **Positive effects.** They introduced Luo language where they settled. The number of domestic animals increased in East Africa.				The iron tools collection

They formed chiefdoms where they settled.
They introduced new crops such as millet, sorghum, and sweet potatoes in East Africa.
They founded the Luo-Biito dynasty.
They introduced new culture like pet names and luo languages.

Negative effects.

They displaced people where they settled.
The Luo invasion led to collapse of Bunyoro-Kitara empire.
Population increased where they settled which resulted into shortage of land.

THE CUSHITES

They are also called the Hamites.
They are believed to have moved from Asia and settled in the Horn of Africa.
Their main occupation is pastoralism / cattle keeping.
Tribes under the Cushites in Africa.

Country	Tribes under the Cushites.
Uganda	-Bahima –Basita –Bahinda
Rwanda	-Tutsi
Burundi	-Tutsi
Kenya	-Rendille –Boran -Galla -Somali
Tanzania	-Mbugu –Iragu

Ethiopia	-Afar –Ogaden –Oromo
Somalia	-Somali –Hawiyah.

Note:-

The Tuaregs of North Africa also belong to the Cushites.

THE SUDANIC.

The Sudanic people are believed to have migrated from Juba in South Sudan.

They settled in the West-Nile sub-region of Uganda.

They carried out mixed farming.

Tribes under the Sudanic in East Africa.

Lugbara

Madi

Okebu

Lendu

THE KHOISAN PEOPLE

This group is made up of the Khoikhoi and the Sans.

The Khoikhoi are the earliest inhabitants of Southern Africa.

The Khoikhoi were formerly called the Hottentots while the Sans were formerly known as the Bushmen.

The Khoisans are mainly hunters and pastoralists.

The Bantu and the Europeans led to displacement of the Khoisans from their fertile areas. They moved and settled in Kalahari desert, Namibia and Botswana.

		THE PYGMIES. They are believed to be the earliest inhabitants of Central Africa. They are also known as Bambuti. They get their food by hunting and gathering fruits. The pygmies have reduced in number due to intermarriages. **Countries where the pygmies are mainly found** Democratic Republic of Congo Congo Brazzaville Gabon Central African Republic. **THE COLOUREDS** These were groups of people formed as a result of intermarriages between the whites, blacks and Asians.				
	Describes the Origin of different ethnic groups in Africa **Describes the movement of different ethnic groups** **Identifies settlement patterens of different ethnic groups**	**THE SEMITES** The Semites have a mixture of African, Arabic and Jewish blood. Arabs from Arabia and the Jews from Middle East settled in the Horn of Africa. They intermarried with the African people and formed the Semites. The Semites were basically pastoralists. **Tribes under the Semites**. The Nubians of Uganda, Kenya and Sudan. Eritreans of Eritrea.	Guided discovery Observation Brainstorming	To help the learners appreciate how movement shaped languages, culture and	**Describing the Origin of different ethnic groups in Africa** **Describing the movement of different ethnic groups** **Identifying settlement patterns of different**	The clan meeting

	Identifies tribes that belong to different ethnic groups **Identifies reasons why different groups moved from their origins** **Discusses problems met during their movements and settlements** **Explains the effects of ethnic migration**	The Amhara and Tigre of Ethiopia. **THE NEGROES**. These are the Africans who were victims to slave trade taken to America. **THE AFRIKANERS**. These were the descendants of the Dutch farmers who migrated and settled in South Africa. The Dutch farmers were also known as the Boers, which means farmers. Afrikaans is the language spoken by the Afrikaners. The Afrikaners is the largest European descendants' group in Africa. The Boers fought the Khoisans in order to take over their land. **Points to note**: The Pygmies are the shortest people in the world. The Fulani of West Africa (Nigeria) is the world's largest pastoral tribe. The Fulani of Nigeria practice Transhumance. (Seasonal movement of people with animals.) The Tuaregs are the oldest inhabitants of the Sahara. Buganda, Kikuyu and the Sukuma are the largest tribes in Uganda, Kenya and Tanzania respectively. The Zulu is the largest tribe in South Africa.	Question and answer Guided group discussion	traditions To help the learner recognize the relationship between environment and movement To help learners understand why communities change places To help the learner understand	**ethnic groups** **Identifying tribes that belong to different ethnic groups** **Identifying reasons why different groups moved from their origins** **Discussing problems met during their movements and settlements** **Explaining the effects of ethnic migration**	Traditional Dance festival The neighbourhood observation Dressing style The family tree The basket weaving workshop The naming ceremony The market day

		Problems faced by Ethnic groups during their migrations. Attacks from hostile people. Attacks from tropical diseases. Attacks from wild animals. Difficulty in crossing some physical features Shortage of food and water. e.g. rivers. Walking long and tiresome journey		the relationship between culture and environment To help learner understand where differed groups live today and why		The evening story telling The permanent homestead The iron tools collection Family meeting under the tree The village council of elders The clan leader
	Describes the organisation of People of Pre-Colonial Africa **Describes the different Ancient Political Units in Africa** **Identifies settlement patterens of**	**POLITICAL ORGANISATION OF PEOPLE OF PRE-COLONIAL AFRICA** Political organisation refers to the way people govern themselves. The people of Africa were politically organized; Through kingdoms. Through empires. Through chiefdoms. 		The Bachwezi had their headquarters at Bigobyamugenyi, in present day district Sembabule. King Ndahura was the first king of the Bachwezi while King Wamala was the last. **How the knowledge of iron smelting strengthened the Chwezi empire**. The Bachwezi made strong tools for cultivation. The Bachwezi were able to make strong weapons for defense. **Contributions of the Bachwezi in East Africa.** **Economic contributions** They introduced the knowledge of iron smelting. They introduced long horned cattle. They started salt mining at Lake Katwe. They introduced the knowledge of bark cloth making. They started coffee cultivation in East Africa. **Social contributions.** They introduced local chess (Mweso game) They introduced the knowledge of building grass-thatched houses. They introduced sandal wearing in East Africa. They introduced the idea of digging ditches for protection against their enemies. **Political contributions** They introduced a centralised monarchy system.	Guided group discussion	learner understand the relationship between culture and environment To help learner understand where differed groups live today and why		

		They introduced royal regalia. They introduced the idea of building reed palaces. **Reasons for the collapse of the Chwezi empire.** The empire was too large to be controlled by one ruler. Death of the beloved cow Bihogo. Outbreak of drought and famine in the empire. Disunity among the people in the empire. Rebellions by distant princes. The Luo invasion/ The coming of the Luo speakers (this led to final collapse of the empire) Note: The Luo-Biito dynasty replaced the Chwezi dynasty. The Luo-Biito dynasty was founded by Isingoma Mpuga Rukidi. Mpuga Rukidi is believed to be the first Omukama of Bunyoro kingdom, and his brother Kato Kimera founded Buganda kingdom. Bunyoro kingdom replaced the Chwezi dynasty. Kingdoms such as Buganda, Tooro, Ankole, Wanga, Karagwe etc were formed after the collapse of Bunyoro-Kitara empire. **Characteristics of kingdoms.** They have hereditary rulers. They have royal regalia as instruments of authority.eg. The royal spear, royal drum, royal crown, royal stool.				

		They have a single supreme king at a time. They have social and cultural institutions. **ANCIENT KINGDOMS AND CHIEFDOMS IN EAST AFRICA.** **MAP SHOWING KINGDOMS AND CHIEFDOMS IN EA** **Advantages/importance of kingdoms.** They promote unity among people. They promote culture in the society. They help to mobilise people for national tasks e.g. elections, immunisation. They promote morals among the people. They promote development through the provision of social services. They offer scholarships to students. Disadvantages of kingdoms. They promote dictatorship. There is unequal distribution of wealth among the people. They promote tribalism. They promote the interests of the minority over the majority. They promote regional rather than national development. They promote dictatorship since the king is not elected.				

	Describes the Social organisation of People of Pre-Colonial Africa **Describes the social activities among the people of pre-colonial Africa**	**SOCIAL ORGANISATION OF PEOPLE OF PRE-COLONIAL AFRICA** Social organization refers to the way how people relate with one another. The people of pre-colonial Africa were socially organized under the following; They formed clan units. They had families. They had age groups. They had rules and regulations. They offered traditional education/ informal education. They carried out social activities. They had traditional ways of worship. They were believers in the African Traditional Religion (ATR) They performed traditional practices. They had taboos. (beliefs that forbade people from certain acts) ➢ Culture was highly respected by all people in the society. **Note:-** A family is a group of people related by blood, marriage or adoption. A clan is an organised group of people under one ancestor. Clans are formed by families related to each other.	Guided discovery Observation Brainstorming Question and answer Guided group discussion	To help the learners appreciate how movement shaped languages, culture and traditions To help the learner recognize the relationship between environment and movement To help learners	**Describing the Social organisation of People of Pre-Colonial Africa** **Describing the social activities among the people of pre-colonial Africa**	The extended family Family gathering for Christmas The Initiation ceremony The marriage introduction Traditional healers hut The communal work day The child naming ceremony

		A Lineage is a small group of people in a clan under one ancestor. Clan leaders were responsible for organising clan ceremonies that brought together different clan members. Each clan is headed by a clan leader who performs the following roles;- Keeping clan records. Presiding over clan ceremonies. Chairing clan meetings. Settling disputes among clan members. Distributing land among clan members. **Clan symbols of identification include:** Drumming. Totem Clan name Culture of the people of pre-colonial Africa. <u>Culture</u> is the way of life of the people in a given society. It refers to the behaviours, beliefs, norms, values and practices that are passed on from one generation to another. **Types of culture.** Material culture e.g. weapons, tools, clothes, food, royal regalia, crafts etc.		understand why communities change places To help the learner understand the relationship between culture and environment To help learner understand where differed groups live		

		Non-material culture e.g. taboos, customs, greeting, dancing, language, religion etc **Elements of culture:** Religion Dressing style. Greeting Food Dancing style. **Importance of culture.** Culture promotes unity among people. It promotes morals among people. It promotes identity. It promotes respect in the society. Cultural institutions promote development of areas **Ways of preserving/ promoting culture.** By protecting historical sites. By organising music festivals. By organising traditional games. By telling stories and legends. By wearing cultural clothes. By teaching culture in schools. By organising cultural games **Dangers of some cultural practices.** Some are painful. Some cause psychological torture to people. Some of them lead to body deformity. Some lead to violation of human rights. Some cultural practices lead to spreading of diseases. **Note:-**		today and why		

		Female Genital Mutilation was commonly practised by the Sabiny in Eastern Uganda. Circumcision is commonly practised by the Bakonzo and the Bagishu in Uganda. **SOCIAL ACTIVITIES AMONG THE PEOPLE OF PRE-COLONIAL AFRICA.** Social activities are activities which bring many people together in the community. **Examples of Social activities among pre-colonial societies** Wedding ceremonies. Children naming ceremonies. Circumcision ceremonies Initiation of the heirs ceremonies. Burial ceremonies **Note:-** Graduation ceremonies are also examples of social activities celebrated in our society today. **Importance of Social activities.** Social activities promote unity among people. They promote culture in the society. They promote identity. They promote moral values among people. They strengthen clan norms. They promote love among people.

	Describes the economic organisation of People of Pre-Colonial Africa **Describes the Long Distance trade in Africa** **Describes the Trans-Saharan trade in Africa**	**ECONOMIC ORGANISATION AMONG THE PEOPLE OF PRE-COLONIAL AFRICA.** African societies economically organised themselves under trade communities. Different communities exchanged goods to get what each society didn't produce. Economic organisation involves the various economic activities done by the people of Africa. **Ways the people of pre-colonial East Africa were economically organised.** Through practising their traditional occupation. E.g. cultivation, pastoralism, fishing etc. Through iron smelting. Through carrying out trade. The main system of trade was barter trade because there was no medium of exchange during that time. **Economic activities done by the people of Pre-colonial Africa.** Cultivation • Trading • Hunting. Weaving • Iron working. Pottery • Pastoralism **Trade in pre-colonial Africa.** <u>Trade</u> is the buying or selling of goods and services. The system of trade used was barter because there was no money/ medium of exchange by then.	Guided discovery Observation Brainstorming Question and answer Guided group discussion	To help the learners appreciate how movement shaped languages, culture and traditions To help the learner recognize the relationship between environment and movement To help learners	**Describing the economic organisation of People of Pre-Colonial Africa** **Describing the Long Distance trade in Africa** **Describing the Trans-Saharan trade in Africa**	The cattle keeping in the community The village market place Fishing Ironworking Salt mining Hunting Basket weaving

		Systems of trade. Barter trade. Monetary trade <u>Barter trade</u> is the exchange of goods for goods or services. **Factors that promoted barter trade long ago.** Absence of currency. Unity among the people. Production of different kinds of goods by different communities. **Advantages of barter trade.** It promotes unity among people. It favours people without money. It favours the illiterates. **Disadvantages of barter trade.** It is very difficult to transport some bulky There is no standard measure for the value goods over long distances. of goods. There is double coincidence of wants. It does not favour people without physical goods to exchange. **NB:** -Barter trade system was replaced by monetary trade. <u>Monetary trade</u> is the system of trade that involves the use of money as a medium of exchange.		understand why communities change places To help the learner understand the relationship between culture and environment To help learner understand where differed groups live		Brick making Supermarket

		-Cowrie shells was the first form of currency to be introduced in Uganda. It was introduced by the early Arab traders. Rupees was the second form of currency to be used in Uganda. It was introduced by the Indian traders. **Effects of barter trade on the people of pre-colonial Africa.** It promoted peace and unity. It enabled people get new items of trade. It promoted friendship among people. It led to development of trade routes. **LONG DISTANCE TRADE (Revision of P.6 work).** This was the trade carried out between the people at the coast and those in the interior of East Africa. It was called long distance trade because the traders moved very long distances carrying goods on foot. It was mainly between the coastal traders (Arabs) and the Africans in the interior of East Africa. Kilwa, Mombasa, Zanzibar, Bagamoyo, Tanga and Pangani were the main trading centres during Long distance trade. Traders moved in caravans for protection against hostile people and dangerous animals.		today and why To enable		

Slaves were needed to carry goods to and from the coast of East Africa during long distance trade.

A map showing the trade routes of the Arabs during Long distance trade in East Africa.

Active participants in Long distance trade

Baganda

Hehe

Chagga

Nyamwezi

Yao

Akamba

Kikuyu

Foreigners who took part in the Long distance trade

Arabs

Indians

Persians

<u>Trading centres/towns during Long distance trade</u>

Trade items from different tribes

Baganda	Nyamwezi	Kamba	Yao
ivory,slaves, hides, skins ,cattle	hoes, ivory, salt, iron ore, grains, wax	ivory, hides and skin, honey and wax.	ivory, slaves.

learners recognize the relationship between vegetation and animals

		Goods that were brought to East Africa during the Long distance trade. Guns Beads Clothes Mirrors Carpets Ornaments Swords Glasses **Effects of Long distance trade.** **Positive effects**. Kings and chiefs became richer. It led to introduction of new items in East Africa. It led to introduction of Arabic language. Long distance routes later developed into major roads. It led to development of coastal towns. It led to expansion of kingdoms. It led to development of Swahili culture in East Africa. It led to introduction of new dressing styles. It led to the spread of Islam in East Africa. **Negative effects**. It led to introduction of slave trade. It led to over exploitation of East Africa's resources. It led to loss of African culture.				

It lead to death of people as a result of slave trade.

It led to wars and conflicts among societies.

TRANS-SAHARAN TRADE.

This was the trade carried out between the people of North Africa and those of West Africa across the Sahara desert.

Traders moved in caravans for protection against hostile people and dangerous animals.

Camels were used as means of transport during the Trans-Saharan trade because they are able to resist the harsh desert conditions.

Qn: Why are camels able to resist the harsh desert conditions?, give any three reasons.

Active participants in Trans-Saharan trade.

Foreigners	-Arabs –Romans –Jews –Greeks
Africans	-Berbers –Hausa –Tuaregs – Ashanti –Mandingo -Soninke

Trade items during Trans -Saharan trade.

Goods brought to West Africa	-mirrors –guns –beads – carpets –glasses –swords –clothes -ornaments

Goods obtained from West Africa	-gold –slaves –hides and skins –bee wax –ivory - wheat

Effects of Trans-Saharan trade/ Long distance trade.

a) Positive effects.

It led to expansion of kingdoms e.g. Mali, Ghana etc.

It led to development of towns.

It led to introduction of Islam in West Africa.

New trade items were introduced in west Africa.

Trade routes later developed into permanent roads.

b) Negative effects.

It led to introduction of slave trade.

Africa's valuable resources were taken away.

It led to loss of culture due to intermarriages between the local people and the foreigners.

Families broke up due to slave trade.

Reasons for the decline of Trans-Saharan trade

European colonization of West Africa.

Shortage of some trade items like gold.

The rise of Trans-Atlantic trade

	Describes the Migration today **Describes the different types and forms of migration today** **Identifies settlement patterns of different people today** **Identifies reasons why different groups moved from villages to towns and vice versa** **Discusses problems met during their movements and settlements** **Explains the effects of migration today**	**MIGRATIONS TODAY** Migration is the movement of people with their property from one place to another for settlement. **Types of migration** Internal migration External migration. **EXTERNAL MIGRATION.** This is the movement of people with their property from one country to another for settlement. **Forms of external migration** Immigration Emigration Emigration is the process by which a person leaves his/her country and goes to live permanently in another country. Such a person is called an emigrant. Immigration is the process by which a person comes to live permanently in a country that is not his/hers. Such a person is called an immigrant. **Causes of immigration and emigration** Civil wars/ internal conflicts. Unemployment. Shortage of land. To invest their excess capital. Need for better social services. Job transfers.	Guided discovery Observation Brainstorming Question and answer Guided group discussion Picture interpretation	To help learners understand how migration shaped modern Africa To enable learners learn how new languages, culture, and technologies spread To enable the learners understand the positive	**Describing the Migration today** **Describing the different types and forms of migration today** **Identifying settlement patterns of different people today** **Identifying reasons why different groups moved from villages to towns and vice versa** **Discussing problems met during their movements and settlements** **Explaining the effects of migration today**	water shortage too much heat human activities Family moving to town for work Learner going to school Refugees crossing borders A farmer moving to find better land Technology workers moving to tech hubs

		Marriage bondage **Effects of immigration and emigration.** It leads to population increase in areas of settlement. It leads to introduction of new languages. It leads to intermarriages among people. It leads to land shortage in areas of settlement. It leads to loss of culture through intermarriages. It leads to large labour force in new areas of settlement. **Reasons why people leave their own countries to settle in others permanently.** To look for better paying jobs. To look for areas that are free from wars. To look for enough land. To look for better social services. To look for trade opportunities. **INTERNAL MIGRATION.** Internal migration is the movement of people with their property from one part of a country to another for better settlement. The migrant remains within his own country. **Forms of internal migration.** Rural-urban migration. Rural-rural migration. Urban-rural migration. Urban-urban migration		and impacts To help learners develop critical thinking about how migration affects development today		Athletes moving for training opportunities Tourists

		RURAL-URBAN MIGRATION. This is the movement of people with their property from villages to towns looking for better settlement. **Causes of Rural-Urban migration.** Unemployment in villages. Job transfers from villages to towns. Poor health services. Internal conflicts. Poor transport systems in villages. Insecurity in villages. Poor education services in villages **Reasons why people move from villages to towns.** To look for better paying jobs. To look for better education services. To look for a large market for their goods. To get access to/enjoy social amenities like electricity and piped water. To look for better health services. To look for wider market for their goods. To run away from dangerous cultural practices like Female Genital Mutilation. **Effects of Rural-Urban migration.** It leads to depopulation in rural areas which reduces market for goods in rural areas. It leads to shortage of labour in villages. It leads to low food production. It leads to high crime rate in towns.				

		It leads to a high rate of unemployment in urban areas. **Ways in which the government can reduce rural-urban migration.** By setting up industries in rural areas to create jobs for people. By extending electricity to villages (rural electrification). By improving the social service delivery in villages. By encouraging people in villages to start up small-scale industries. **Note:-** Rural electrification is the extension of electricity to rural areas. **Problems faced by people living in urban centres/ towns.** High crime rate. High rate of unemployment. Congestion/traffic jam. High cost of living Easy spread of communicable diseases. Poor sanitation. Poor housing facilities e.g. slums **Reasons why urban centres/ towns are densely populated.** They have better paying jobs. They have better health services.				

		They have better education services. They have better business opportunities. They have better social amenities. **URBAN -RURAL MIGRATION** Urban-rural migration is the movement of people with their property from towns to villages for better settlement. Causes of Urban-Rural migration. Insecurity in towns. Job transfers from towns to villages. High costs of living in towns. Need for large vacant land for crop growing. Retirement from jobs in towns. Unemployment in towns. Outbreak of epidemic diseases in towns. **Reasons why people move from towns to villages**. To look for land for farming. To look for areas which are free from natural disasters. To extend their businesses to villages. To get market for their goods. To look for areas with low costs of living. **Effects of Urban-Rural migration.** It leads to shortage of labour in towns. It leads to shortage of market for goods in towns. It leads to land shortage in villages. It leads to population increase in villages.				

		Ways the government can encourage Urban-Rural migration. By extending electricity to rural areas (Rural electrification) By encouraging the setting up of small-scale industries in villages. By building better hospitals in villages. By constructing better schools in villages. By providing better security in villages. **URBAN-URBAN MIGRATION.** This is the movement of people with their property from one town to another looking for better settlement. Causes of Urban-Urban migration. Job transfers from one town to another. High costs of living in some towns. Low market for goods. Poor sanitation in some towns. Insecurity in some towns. Natural disasters in some towns e.g. floods. **Reasons why people move from one town to another.** To look for better jobs. To look for a large market for their goods. To look for better security services. To invest their capital in other towns.				

		To look for towns which are free from natural disasters. **Effects of Urban-Urban migration.** It leads to population increase in new towns where people settle. It leads to shortage of market where they leave. It leads to shortage of labour where they leave. It leads to shortage of land in the new areas of settlement. **RURAL-RURAL MIGRATION.** This is the movement of people with their property from one village to another looking for better settlement. Causes of Rural-Rural migration. Social conflicts. Shortage of water and pasture. Soil infertility in some villages. Shortage of land. Insecurity in some villages. Outbreak of epidemic diseases. **Reasons why people move from one village to another.** To look for fertile soils for crop growing. To look for water and pasture for animals. To run away from social conflicts. To look for areas with better security.				

		To look for areas which are free from epidemic diseases. To look for areas which are free from natural disasters. **Effects of Rural-Rural migration.** It leads to conflicts with the inhabitants of the places they migrate to. It leads to intermarriages. It leads to introduction of new cultures. It leads to low population in places where people migrate from. It leads to introduction of new languages where people settle. **How do people in Urban areas benefit from those living in Rural areas.** People in urban areas get food from villages. People in villages provide market for goods produced in towns. Industries in towns get raw materials from villages. **Problems faced by people living in urban areas/ towns.** Congestion of people in towns. High cost of living. High crime rate. Traffic jam. Sound pollution. Unemployment among people.				

		Development of slums. **Possible solutions to the above problems.** Deploying more security officers to improve security. By building storeyed houses. By constructing wider roads in towns. By building flyovers and foot paths. By teaching people the dangers of poor sanitation. By installing/putting security cameras on houses and along the roads. **Ways people in Rural areas benefit from people in Urban areas.** People in towns provide market for food from villages. They provide rural areas with goods produced in towns. People in towns provide farm inputs to farmers in villages e.g. insecticides, fertilizers **Problems faced by people in rural areas.** Poor health services. Shortage of safe water. Poor transport system. Poor education services. Low electric power supply. Poor housing facilities **Possible solution to the problems faced by people in rural areas.**				

		By constructing better roads in rural areas. By starting up small scale industries. By extending electricity to rural areas/by promoting rural electrification. By setting up better health centres in villages. By building better schools in rural areas. **Note:-** Brain drain is the movement of highly trained/ qualified people from one country to another for settlement. **Causes of brain drain.** Underpayment. Political instability as a result of civil wars. Seeking for higher education. Search for employment opportunities. **Reasons why people migrate today.** To search for better jobs. To get access to better social services. To search for areas which are free from disasters To search for areas with fertile soils. To get enough land for crop growing. **Effects of migrations today.** **Positive effects** It creates a large market for goods in towns. It leads to introduction of new languages. It leads to high revenue collection in towns. It leads to cheap labour force in towns.			.	

		It creates job opportunities to people. **Negative effects.** It has led to land fragmentation in towns. It leads to limited labour force in villages. It leads to brain drain. It promotes the spreading of communicable diseases. It leads to loss of culture through intermarriages. It has led to increased crime rate in urban areas. It leads to over exploitation of resources in densely populated areas. It leads to limited market for goods in villages.
