THE REAL SCHOOL

P.O.BOX 24344, Kampala
VICTORIA MUTUNDWE PRIMARY SCHOOL, MAKINDYE JUNIOR SCHOOL, AND GOLDEN JUNIOR SCHOOL TEL. 0778279090, 0706181607(VMPS) 0706181606 (MJS) AND 0705144035 (GJS)
website username: www.realschools.sc.ug Facebook page: real schools Kampala Uganda

OUR PROMISE: AN EXCELLENT FIRST GRADE AND EXCELLENT CHARACTER FOR EVERY PUPIL

PRIMAR FIVE TOPICL BREAK DOWN

THEME	TOPIC	SESSION	COMPETENCES	RELATED THEMES IN THEMATICS
SCIENCE IN OCCUPATION AND HUMAN ACTIVITIES	KEEPING POULTRY AND BEES	1	❖ Meaning of poultry ❖ Examples of poultry ❖ Reasons for keeping poultry ❖ External features of domestics ❖ Importance of each part ❖ Discussing feathers ❖ Discusses uses of feathers to man ❖ Differences between a hen and cook ❖ Types of chicken	LIVING THINGS ANIMALS IN OUR SUBCOUNTY PRIMARY THREE OUR ENVIRONMENT PRIMARY TWO

			❖ Breeds of chicken (local, exotics and cross breeds)	
	KEEPING POULTRY AND BEES	2	❖ Systems of poultry keeping ❖ Free range system ❖ Deep litter system ❖ Battery /cage system ❖ Fold/ark/pen system	
	KEEPING POULTRY AND BEES	3	❖ Management of poultry ❖ Reproduction in poultry ❖ Structure of an egg ❖ Abnormalities in eggs ❖ Incubation ❖ Types of incubation ❖ Egg candling ❖ Brooding ❖ Types of brooding ❖ Types of brooders	
	KEEPING POULTRY AND BEES	4	❖ Housing poultry ❖ Qualities of a good poultry	

			house ❖ Feeding chicken ❖ Poultry feeds ❖ Digestion in birds ❖ Poultry vices ❖ Causes of poultry vices ❖ Signs of poultry vices ❖ Control of poultry vices	
	KEEPING POULTRY AND BEES		❖ Poultry diseases	
		5	❖ Poultry parasites ❖ Endoparasites ❖ Ectoparasites ❖ Poultry management practices ❖ Record keeping	
	KEEPING POULTRY AND BEES	6	❖ Terms used in bee keeping ❖ Groups of insects ❖ Honeybees ❖ Types of bees ❖ Queen bee ❖ Structure ❖ characteristics ❖ Drone bee ❖ Structure	

			❖ characteristics ❖ Worker bees ❖ Structure ❖ Duties ❖ Uses of propolis	
	KEEPING POULTRY AND BEES	7	❖ Life cycle of honey bees ❖ Fertilization in bees ❖ Swarming in bees ❖ Conditions for swarming ❖ Reasons for swarming ❖ Bee hives ❖ Types of bee hives ❖ Local bee hives ❖ Modern bee hives ❖ Natural bee hives ❖ Methods of harvesting honey ❖ Steps of harvesting honey	
	KEEPING POULTRY AND BEES	8	❖ Equipment used when harvesting honey ❖ Extraction of honey	

			❖ Methods of extracting honey ❖ Floating the wax method ❖ Pressing the honey wax method ❖ Centrifuging method ❖ Care and management of bees ❖ Siting the bee hive ❖ Factors to consider when siting the bee hive ❖ Stocking a hive ❖ Ways of stocking bees ❖ Examples of bee baits ❖ Advantages of bee keeping ❖ Bees products ❖ Uses of beeswax Bee enemies	
MATTER AND ENERGY	**MEASUREMENTS**	9	❖ Meaning of mass ❖ Machines used to measure mass ❖ Meaning of weight	**MEASURES PRIMARY TWO**

			❖ Force of gravity ❖ Machines for measuring weight ❖ Differences between mass and weight ❖ Up thrust force ❖ Volume ❖ Types of shaped objects ❖ Finding volume of regular objects	
	MEASUREMENTS	10	❖ Finding of irregular objects ❖ Capacity ❖ Behavior of objects in water ❖ Floatation ❖ Sinking objects	
HUMAN HEALTH	**IMMUNISATION**	11	❖ Meaning of immunity ❖ Types of immunity ❖ Ways of acquiring natural immunity ❖ Ways of acquiring artificial	**HUMAN BODY AND HEALTH** **PRIMARY TWO**

			immunity ❖ Importance of immunity in the body ❖ Meaning of immunization ❖ Importance of immunization ❖ Groups of people who are immunized	
	IMMUNISATION	12	❖ Childhood immunizable diseases ❖ Signs and symptoms, prevention and control of the following childhood immunizable diseases ❖ Measles ❖ Tuberculosis ❖ Polio ❖ Tetanus ❖ Whooping cough ❖ Diphtheria ❖ Hepatitis ❖ Haemophilus influenza	
	IMMUNISATION	13	❖ Vaccines ❖ Types of vaccines	

			❖ Examples of vaccines ❖ Storage of vaccines ❖ Methods of administering vaccines ❖ Immunization sites and schedules ❖ Reasons why different diseases have different immunization sites ❖ Reasons why immunization of children have different immunization schedules	
	IMMUNISATION	14	❖ Child health card ❖ Information found in the child health card ❖ Importance of child health card to the following; ❖ Parents ❖ Health workers ❖ School health committee	

			❖ Other immunizable diseases ❖ Roles of the following in the immunization; ❖ Individuals ❖ Families ❖ Community ❖ UNEPI	
HUMAN BODY	**DIGESTIVE SYSTEM**	15	❖ Meaning of digestion ❖ Parts of the digestive system ❖ Alimentary canal ❖ Structure of the digestive system ❖ Functions Of different parts of the digestive system ❖ Types of digestion ❖ Enzymes	**HUMAN BODY ANF HEALTH** **PRIMARY TWO**
	DIGESTIVE SYSTEM	16	❖ The process of digestion in the following parts; ❖ Mouth ❖ Stomach ❖ Gullet	

			❖ Duodenum	
	DIGESTIVE SYSTEM	17	❖ Adaptation of ileum to its functions ❖ Large intestines ❖ The process that take place in the large intestine ❖ Understanding the rectum ❖ Components of faeces ❖ The showing the summary of the digestive juice and where they produced from ❖ Importance of classes of food in the body ❖ Describes the process involved in nutrition	
	DIGESTIVE SYSTEM	18	❖ Diseases of the digestive system ❖ Describes the spread, signs and symptoms, control and	

			prevention of the diseases of the digestive system ❖ Appendicitis ❖ Cholera ❖ Typhoid ❖ Dysentery	
	DIGESTIVE SYSTEM	19	❖ Disorders of the digestive system ❖ Describes the causes, signs and symptoms and prevention and control of the disorders of the digestive system ❖ Constipation ❖ Indigestion ❖ Intestinal obstruction ❖ Diarrhea ❖ Worm infestation ❖ Ways of maintaining the efficiency of the digestive system	
THE ENVIRONME	**SOIL**	1	❖ Meaning of soil	**OUR ENVIRONMENT IN OUR SUB-COUNTY/DIVISION**

NT			❖ Methods of soil formation ❖ Decomposition of organic matter ❖ Weathering of rocks ❖ Types of weathering ❖ Factors that contributes to weathering ❖ Physical, chemical and biological factors ❖ Components of soil ❖ Organic matter ❖ water ❖ air ❖ living organisms ❖ importance of living organisms in the soil ❖ properties of soil	**PRIMARY TWO**
	SOIL	2	❖ soil profile ❖ structure of soil profile ❖ types of soil ❖ loam soil ❖ characteristics of loam soil	

			❖ importance of loam soil ❖ clay soil ❖ characteristics of clay soil ❖ importance of clay soil ❖ reasons why clay soil is not good for crop growing ❖ characteristics of sand soil	
	SOIL	3	❖ meaning of soil drainage ❖ experiment for soil drainage ❖ soil capillarity ❖ experiment about soil capillarity ❖ importance of soil	
	SOIL	4	❖ meaning of soil erosion ❖ agents of soil erosion ❖ types of soil erosion ❖ causes of soil erosion ❖ effects of soil erosion	
	SOIL	5	❖ methods of controlling soil	

			erosion ❖ mulching ❖ terracing ❖ Contour ploughing ❖ Harmful materials in the soil ❖ Examples of soil pollutants ❖ Biodegradable materials ❖ Non bio gradable materials ❖ Effects of harmful materials in ❖ the soil ❖ Soil exhaustion ❖ Causes of soil exhaustion	
	SOIL	6	❖ Meaning of soil conservation ❖ Methods of soil conservation ❖ Intercropping ❖ Meaning of crop rotation ❖ Factors tom consider before starting crop rotation	

			❖ Advantages of crop rotation	
	SOIL	7	❖ Meaning of soil fertility ❖ Ways through soil loses its fertility ❖ Ways of improving soil fertility ❖ Fertilizers ❖ Types of fertilizers ❖ Natural fertilizers ❖ Artificial fertilizers ❖ Methods of applying fertilizers	
MATTER AND ENERGY	**HEAT ENERGY**	8	❖ Meaning of matter ❖ Properties of matter and describes the states of matter ❖ States of matter ❖ Solids ❖ Characteristics of solids ❖ Liquids ❖ Characteristics of liquids ❖ Gases ❖ Characteristics	**ENERGY IN OUR SUB-COUNTY/DIVISION** **PRIMARY THREE**

			of gases	
	HEAT ENERGY	9	❖ Solutes ❖ Solvents ❖ Solution ❖ Examples of the above ❖ Meaning of a mixture ❖ Examples of mixtures ❖ Methods of separating mixtures ❖ Decanting ❖ Filtration ❖ Crystallization ❖ Distillation ❖ Floatation ❖ Using separating funnel ❖ Using a magnet ❖ sorting	
	HEAT ENERGY	10	❖ meaning of energy ❖ types of energy ❖ kinetic and potential energy ❖ forms of energy ❖ meaning of heat energy ❖ sources of heat	

			❖ uses of heat energy ❖ effects of heat on matter ❖ changes of states of matter	
	HEAT ENERGY	11	❖ expansion and contraction of matter ❖ expansion in solids ❖ expansion in gases ❖ expansion in liquids ❖ prevention of effects of expansion and contraction of matter	
	HEAT ENERGY	12	❖ heat transfer in different states of matter ❖ conduction ❖ convection ❖ radiation ❖ application of form of heat transfer ❖ heat conservation ❖ vacuum flask	
	HEAT ENERGY	13	❖ meaning of conductors	

			❖ examples of good conductors of heat ❖ experiments about good conductors of heat ❖ uses of good conductors of heat ❖ meaning of insulators of heat ❖ examples of insulators of heat ❖ experiment to show water is a poor conductor of heat ❖ uses of insulators of heat ❖ applications of conductors and insulators in our daily life	
	HEAT ENERGY	14	❖ meaning of temperature ❖ types of thermometers ❖ clinical thermometer ❖ minimum and maximum	

			thermometer ❖ liquids used in thermometers ❖ reasons why mercury is used in thermometers ❖ conversion of scales ❖ burning ❖ experiments about burning ❖ methods used to put out fire	
SCIENCE IN HUMAN ACTIVITIES AND OCCUPATION	**CROP GROWING**	15	❖ tuber crops ❖ types of tuber crops ❖ stem tubers ❖ root tubers ❖ growing and caring different tuber crops ❖ common crop pests of tuber crops ❖ characteristics of tuber crop pests ❖ effects of pests to tuber crops	**LIVING THINGS PLSANTS IN OUR SUB-COUNTY**
	CROP GROWING	16	❖ methods of controlling tuber pests ❖ mechanical	

			method ❖ biological method ❖ cultural method ❖ chemical methods ❖ common tuber diseases	
	CROP GROWING	17	❖ methods of harvesting and processing tuber crops ❖ methods of storing tuber crops ❖ conditions for proper crop storage ❖ meaning of farm records ❖ examples of farm records ❖ importance of keeping farm records ❖ science orientated clubs ❖ examples of science orientated clubs ❖ importance or aims of science orientated	

			clubs	
WORLD OF LIVING THINGS	**BACTERIA AND FUNGI**	18	❖ how bacteria reproduce ❖ examples where bacteria is found ❖ conditions that favors breeding of bacteria ❖ feeding in bacteria ❖ respiration in bacteria ❖ importance of useful bacteria ❖ dangers of harmful bacteria ❖ ways bacteria diseases can be spread ❖ how to control and prevent bacterial diseases	**HEALTH IN OUR SUB-COUNTY/DIVISION** **PRIMARY THREE**
	BACTERIA AND FUNGI	19	❖ fungi ❖ how fungi reproduce ❖ characteristics of fungi ❖ examples of fungi ❖ mushroom molds ❖ uses of useful	

			fungi ❖ dangers of fungi ❖ examples of fungal diseases ❖ prevention and control of fungal diseases	
MANAGING CHANGES IN THE ENVIRONMENT	**TYPES OF CHANGES IN THE ENVIRONMENT**	1	❖ types of changes in the environment ❖ meaning of biological changes ❖ characteristics of biological ❖ indicators of biological changes ❖ examples of biological changes in animals ❖ examples of biological changes in plants	**OUR ENVIRONMENT IN OUR SUB-COUNTY/DIVISION** **PRIMARY THREE**
	TYPES OF CHANGES IN THE ENVIRONMENT	2	❖ stages of growth in humans ❖ examples of body changes ❖ ways of	

			managing body changes ❖ examples of guidance in managing body changes ❖ sources of reliable sources about growing up	
	TYPES OF CHANGES IN THE ENVIRONMENT	3	❖ understanding chemical changes ❖ characteristics of chemical changes ❖ examples of chemical changes ❖ advantages of chemical changes ❖ disadvantages of chemical changes ❖ meaning of rusting ❖ conditions necessary for rusting to take place ❖ experiments about rusting ❖ advantages of rusting ❖ disadvantages of preventing	

			rusting ❖ ways of preventing rusting ❖ similarity between rusting and burning ❖ differences between rusting and burning	
	TYPES OF CHANGES IN THE ENVIRONMENT	4	❖ meaning of physical changes ❖ characteristics of physical changes ❖ examples of physical changes ❖ experiment to show physical changes in states of matter ❖ advantages of physical changes ❖ changes in the atmosphere ❖ examples of natural changes ❖ examples of manmade changes	

			❖ positive effects changes in the environment ❖ negative effects of changes in the environment	
SCIENCE IN HUMAN ACTIVITIES AAND OCCUPATIONS	**KEEPING GOATS, SHEEP AND PIGS**	5	❖ describing common terms used in goat keeping ❖ reasons for keeping goats ❖ importance of keeping goats ❖ external parts of goats ❖ breeds of goats ❖ local breeds ❖ exotic breeds ❖ characteristics ❖ examples ❖ advantages and disadvantages ❖ crossbreeds ❖ types of goats	**LIVING THINGS AANIMALS IN OUR SUB-COUNTY**
	KEEPING GOATS, SHEEP AND PIGS	6	❖ housing and management of goats ❖ reasons for housing goats ❖ features of a	

			good goat house ❖ feeding of goats ❖ breeding in goats ❖ heat period in goats ❖ signs of a nanny goat on heat ❖ caring for pregnant goat	
	KEEPING GOATS, SHEEP AND PIGS	7	❖ common terms used in keeping sheep ❖ external parts of a sheep ❖ reasons why people keep sheep ❖ importance of sheep to people ❖ breeds of sheep ❖ local and exotic breeds	
	KEEPING GOATS, SHEEP AND PIGS	8	❖ types of sheep ❖ wool breed ❖ mutton breed ❖ dual purpose ❖ breeding in sheep ❖ weaning in sheep	

			❖ factors considered when choosing ab good ram or ewe ❖ management practices in sheep ❖ docking and shearing ❖ methods of grazing ❖ advantages and disadvantages of the methods of grazing goats and sheep below ❖ free range grazing ❖ tethering ❖ paddocking ❖ zero grazing	
	KEEPING GOATS, SHEEP AND PIGS	9	❖ management practices in sheep and goat farm ❖ castration ❖ methods of castration ❖ advantages and disadvantages of castration	

			❖ dehorning ❖ advantages of dehorning ❖ hoof trimming ❖ deworming ❖ identification in goats ❖ advantages of numbering goats ❖ methods of identification	
	KEEPING GOATS, SHEEP AND PIGS	10	❖ diseases of goats and sheep ❖ bacterial diseases ❖ viral diseases ❖ protozoan diseases	
	KEEPING GOATS, SHEEP AND PIGS	11	❖ parasites in goats and sheep ❖ types of parasites ❖ endoparasites ❖ ectoparasites ❖ ways of controlling external parasites ❖ ways of controlling internal parasites	

			❖ products got from goats and sheep	
	KEEPING GOATS, SHEEP AND PIGS	12	❖ common terms used in piggery ❖ reasons for keeping pigs ❖ advantages of keeping pigs ❖ breeds of pigs ❖ exotic ❖ local breeds ❖ crossbreeds	
	KEEPING GOATS, SHEEP AND PIGS	13	❖ management of pigs ❖ proper housing of pigs ❖ advantages of housing pigs ❖ features of a good pig sty ❖ breeding in pigs ❖ signs of heat period in pigs ❖ gestation period in pigs ❖ meaning of steaming up ❖ advantages of steaming up ❖ Weaning piglets ❖ Importance of weaning	

			piglets	
	KEEPING GOATS, SHEEP AND PIGS	14	❖ Systems of keeping pigs ❖ Extensive system ❖ Advantages ❖ Disadvantages of extensive system ❖ Intensive system ❖ Advantages and disadvantages of intensive ❖ Feeding pigs ❖ Advantages of feeding pigs	
	KEEPING GOATS, SHEEP AND PIGS	15	❖ Diseases of pigs ❖ Viral diseases ❖ Bacterial diseases ❖ Protozoan diseases ❖ Reasons for starting a piggery project	
HUMAN HEALTH	**FOOD AND NUTRITION**	16	❖ Meaning of nutrition and food ❖ Meaning of breast feeding ❖ Importance of colostrum to the baby	**FOOD AND NUTRITION PRIMAARY ONE AND TWO**

			❖ Advantages of breast feeding to a baby, mother and the family ❖ Disadvantages of breast feeding to baby, mother and family	
	FOOD AND NUTRITION	17	❖ Meaning of bottle feeding ❖ Factors can make the baby to bottle feed ❖ Advantages of bottle feeding to a baby, mother and family ❖ Disadvantages of bottle feeding a baby, mother and family ❖ Weaning in babies	
	FOOD AND NUTRITION	18	❖ Vulnerable groups of people ❖ Examples of vulnerable groups of people ❖ Food for vulnerable groups of	

			people ❖ Pregnant mothers and unborn babies ❖ The sick an invalid and convalescent ❖ Weaning babies ❖ Breastfeeding mothers	
	FOOD AND NUTRITION	19	❖ Meaning of food customs ❖ Examples of food customs ❖ Food taboos ❖ Example of food taboos ❖ Food beliefs ❖ Advantages of food beliefs and food taboos ❖ Eating habits	
HUMAN HEALTH	**PRIMARY HEALTH CARE**	20	❖ Meaning of PHC, health, community ❖ Meaning of health concerns ❖ Elements of PHC ❖ Activities in elements of PHC ❖ Health education	**FOOD AND NUTRITION PRIMARY TWO** **THE HUMAN BODY PRIMARY TWO**

			❖ Control of communicable diseases ❖ Maternal and child health care ❖ Food and nutrition	
	PRIMARY HEALTH CARE	21	❖ Activities in the elements of PHC ❖ Immunization ❖ Water and sanitation ❖ Provision of essential drugs ❖ Personal hygiene ❖ First aid and basic curative service ❖ Oral and dental health care ❖ Family hygiene ❖ Family planning	
	PRIMARY HEALTH CARE	22	❖ Principles of PHC ❖ Responsibilities of individual and communities in health promotion	
	PRIMARY HEALTH CARE	23	❖ Suitable lifestyles and	

			good health practices ❖ Examples of suitable life styles ❖ Examples of good health life styles ❖ Importance of physical exercise in the body ❖ Ways of controlling diseases without treatment ❖ School health parades ❖ Activities carried out health parades ❖ Importance of health parades	
	PRIMARY HEALTH CARE	23	❖ School health committee ❖ Importance of school health committee ❖ Child to child programs ❖ Activities involved ❖ symbol
