SECTION A: (50 Marks)

1. Name any **one** type of feathers found on birds.

_____

2. Mention any **one** crop that can be grown in a school garden.

_____

3. Name any **one** disease spread by mosquitoes.

_____

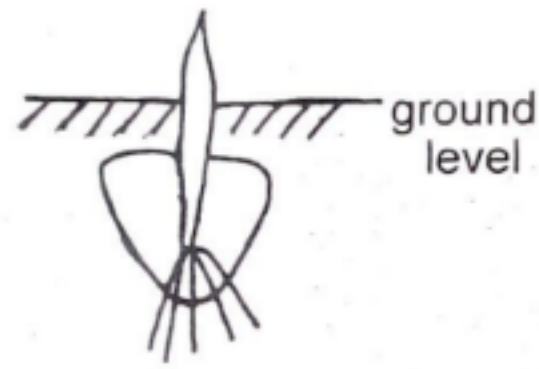

4. Apart from rainy weather, give any other type of weather.

_____

5. State any **one** way of promoting a good hygiene in a home.

_____

6. Identify the type of germination shown below.

_____

7. How is the habit of worker bees visiting flowers of crops useful?

_____

8. Name the disease that affects both rabbits and poultry.

_____

9. Identify any **one** material used for mulching.

_____

10. Name the instrument used by doctors to see germs.

_____

11. State any **one** quality of a good first aider.

_____

12. Which organs do insects use to breathe?

_____

13. Kato is a P5 boy who wants to find the volume of an irregular object. What method can you advise him to use?

_____

14. Name **one** product people can get from domestic birds.

_____

15. When should we brush our teeth?

_____

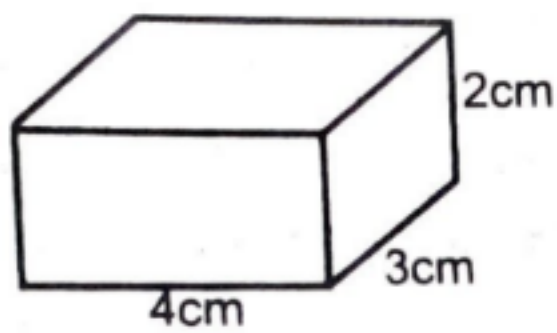

Scanned by TapScanner

16. Identify **one** condition needed for photosynthesis to take place.

17. Name any **one** of the major organs of the body.

18. What name is given to the first set of teeth in human beings.

19. Find the volume of the box below.

20. What type of immunity does a child acquire after receiving a vaccine?

21. Name any **one** animal that uses soil as its habitat.

22. Where does digestion begin in man?

23. State the importance of keeping our bodies clean.

24. In the space provided below, draw the type of tooth used for biting food.

25. Write the 4Fs in their correct order.

26. Mention **one** example of a leguminous crop.

27. Why is the measels vaccine given at the age of 9 months?

28. How is a stigma of a flower useful during pollination?

29. What is the main natural source of water in the environment?

30. Identify the vaccine given by drops in the mouth.

Scanned by TapScanner

31. What does the term poultry mean?

_____

32. Give the use of roots to a plant.

_____

33. What do we use the tongue for?

_____

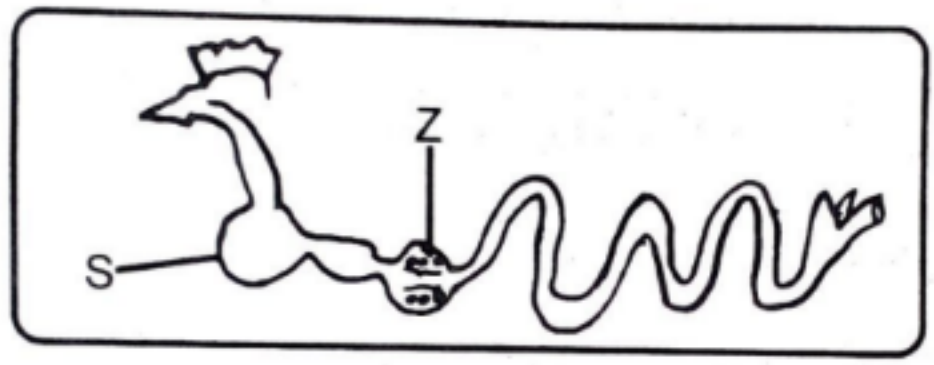

34. Write **one** activity done to keep utensils free from germs.

_____

35. Which weather change is the best for drying washed clothes?

_____

Below is part of the digestive system of a bird. Use it to answer questions 36 and 37.

36. Name part **S**.

_____

37. State the function of the small stones (grit) found in part **Z**.

_____

38. Name the force of the earth which pulls down objects towards it's centre.

_____

39. Give **one** example of a traditional bee hive.

_____

40. Write down any **one** thing used for bathing.

_____

SECTION B

41. (a) Name any **two** systems of keeping poultry.

(i) _____

(ii) _____

(b) State the reason why debeaking is carried out in poultry keeping.

_____

(c) How is a spur useful to a cock?

_____

Scanned by TapScanner

42. (a) Apart from clay soil, name any **two** other types of soil.

(i) _____

(ii) _____

(b) What name is given to the vertical arrangement of soil layers?

_____

(c) Which layer of soil is suitable for crop growing?

_____

43. (a) Identify any **two** exotic breeds of rabbits kept in Uganda.

(i) _____

(ii) _____

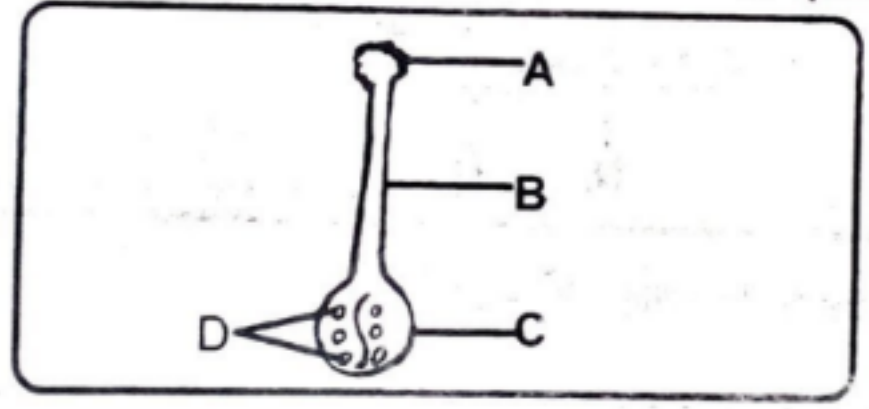

(b) Write the importance of keeping rabbits to a farmer.

_____

(c) What is the house of rabbits called?

_____

44. **The diagram below shows the female part of a flower. Study it carefully and use it to answer questions that follow.**

(a) Name the parts labelled **A** and **D**

(i) **A** _____

(ii) **D** _____

(b) What will these parts develop into after fertilization?

(i) **C** _____

(ii) **D** _____

45. (a) What is swarming in bees?

_____

_____

(b) Give **two** reasons why bees swarm.

_____

_____

(c) What is the main duty of a Queen bee in a bee hive?

Scanned by TapScanner

46. (a) Give **two** conditions needed by seeds to germinate.

(i) _____

(ii) _____

(b) Name any **one** part that makes up the embryo of a seed.

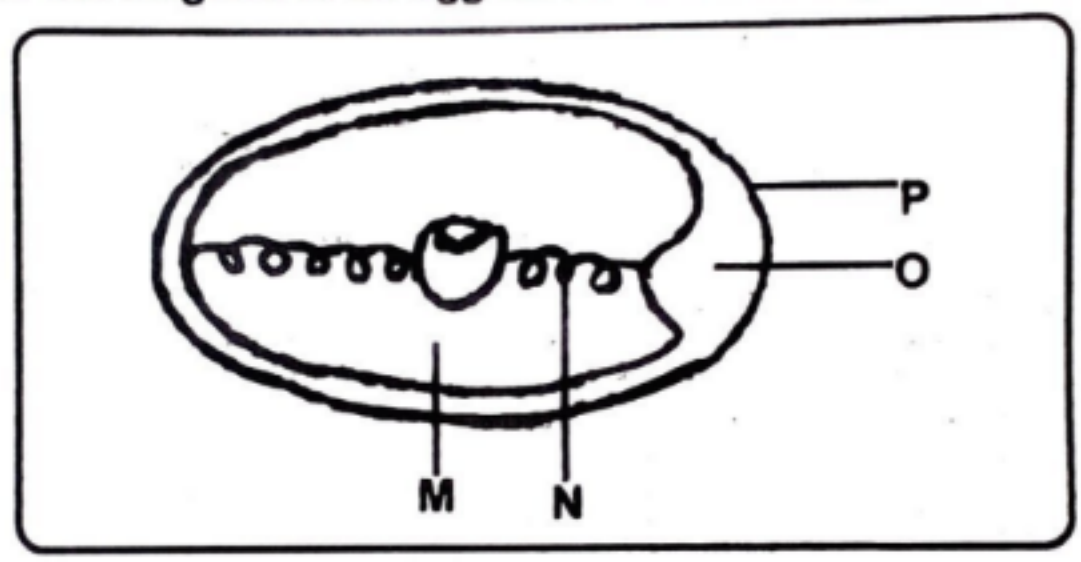

_____

(c) What role is played by water during germination?

_____

_____

47. **Use the diagram of an egg below to answer questions about it.**

(a) Name the parts labelled **N** and **P**.

(i) _____

(ii) _____

(b) Give the function of part **O**.

_____

_____

(c) What mineral salt is necessary for strong egg shells?

_____

48. (a) Give any **two** examples of objects that can float on water.

(i) _____

(ii) _____

(b) State the standard unit for measuring;

(i) mass _____

(ii) length _____

Scanned by TapScanner

49. (a) What is air?

_____

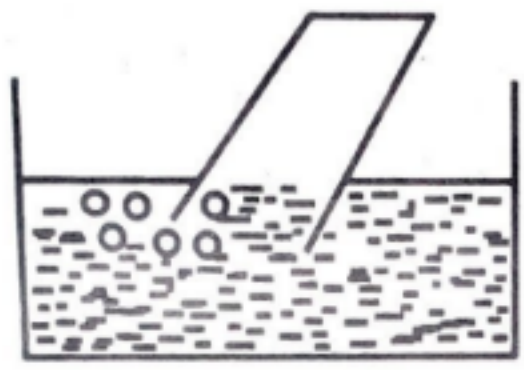

_____

(b) Give **two** uses of wind to man.

(i) _____

(ii) _____

(c) **The diagram below shows an experiment about air. What property of air is shown below?**

_____

50. (a) What is immunity?

_____

_____

(b) Mention **two** types of immunity.

(i) _____

(ii) _____

(c) State the importance of immunisation to people.

_____

51. (a) List down the **three** types of bees found in a hive.

(i) _____

(ii) _____

(iii) _____

(b) Why are honey bees called social insects?

_____

52. (a) Identify any **two** elements of weather.

(i) _____

(ii) _____

(b) State **one** reason people put on sweaters during cold weather.

_____

(c) What is the importance of a rain gauge at a weather station?

_____

Scanned by TapScanner

53. **Match parts of the digestive system with the digestive juice they produce.**

A	B
mouth	pancreatic juice
stomach	bile
liver	gastric juice
pancreas	saliva

(a) mouth _____

(b) stomach _____

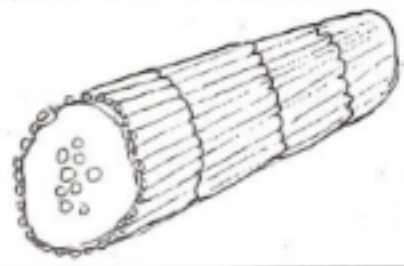

(c) liver _____

(d) pancreas _____

54. (a) Why do bees visit flowers? _____

(b) Which type of bees guards the hive? _____

(c) Name the traditional bee hive shown below.

(d) Why do some farmers keep bees? _____

55. **Complete the table below by filling in the missing parts correctly.**

	Disease	Vaccine administered
(a)	Polio	_____
(b)	_____	BCG vaccine
(c)	Measles	_____
(d)	_____	DPT vaccine

TAAND P.5 SCIENCE END I TERM I MARKING GUIDE, 2023

SECTION A

1. Flight feathers or quill feathers / Body feathers or covert feathers / Down feathers / Filoplume or hair feathers
2. Any crop grown
3. Malaria / Yellow fever / Dengue fever / elephantiasis.
4. Cloudy / Sunny / Windy
5. Washing utensils / sweeping compound / sweeping houses / Mopping houses / picking rubbish.
6. hypogeal germination
7. It enables crops to be pollinated.
8. coccidiosis / pneumonia
9. banana leaves / banana fibres / dry grass.
10. microscope
11. should be kind / should be quick / should be helpful should know what to do.
12. spiracles
13. displacement method
14. meat / eggs / feathers
15. After having a meal / Early in the morning after waking up.
16. water / carbon dioxide
17. The heart / kidneys / liver / stomach / pancreas / gall bladder / lungs / The tongue / Skin.
18. Milk teeth
19. $V = L \times W \times H$
    $V = 4cm \times 3cm \times 2cm$
    $V = 12cm \times 2cm$
    $V = 24cm^3$
20. Artificial immunity
21. earthworms / termites / snakes / insects / hares / squirrels
22. In the mouth
23. It prevents diseases / it removes and prevents bad smell
24. 
25. Faeces , Flies , Food , Fingers.
26. beans / groundnuts / cow peas / soya.
27. it is because a child is born with the immunity against measles that lasts for 9months
28. it receives pollen grains.
29. rain
30. polio vaccine
31. poultry means domestic birds.
32. They absorb water and mineral salts for a plant.
33. for tasting
34. washing them / drying them / keeping them in a cupboard
35. sunny
36. crop
37. They help to grind food
38. gravity
39. Kigezi bee hive /Dug out log hive
40. soap / water / sponge

SECTION B

41. (a) Free range system / Deep litter system / Battery cage system / Fold pen system.
    (b) To control poultry vices
    (c) It is used for protection
42. (a) loam soil / sand soil
    (b) soil profile
    (c) Top soil
43. (a) Chinchilla / Calfornia / New Zealand white / Angora.
    (b) gets meat / it is a source of income.
    (c) a hutch
44. (a)(i) A - stigma
    (ii) D - ovules
    (b)(i) C - a fruit
    (ii) D - seeds
45. (a) It is the massive movement of bees from one place to another looking for a new hive.
    (b) Due to overcrowding / When another queen is produced in a hive / Due to shortage of food and water / due to drought / Due to dampness of the hive / Bad smell / noise / Disturbance by enemies.
    When the queen is old or infertile / when the hive is leaking
    (c) To lay eggs
46. (a) water / oxgyen / warmth
    (b) plumule
    (c) water softens the testa / water dissolves food in the cotyledon
47. (a)(i) N - chalaza
    (ii) P - egg shell
    (b) supplies air to the embryo.
    (c) Calcium.
48. (a) leaves / papers / corks / polythene bags / feathers / rubber / plastics / boats / sponge / dry wood
    (b) (i) Kilogram / gram
    (ii) metre
49. (a) Air is a mixture of gases
    (b) For winnowing / helps in cooling / runs windmills / takes away bad gases / helps in drying
    (c) Air occupies space
50. (a) Immunity is the ability of the body to fight against diseases
    (b) Natural immunity / Artificial immunity
    (c) It prevents diseases.
51. (a) queen bee / worker bees / drone bees
    (b) They live, work and move together
52. (a) rain / sunshine / cloud cover / humidity / wind
    (b) To prevent loss of heat / To be warm
    (c) To measure the amount of the rain received in an area
53. (a) mouth - saliva
    (b) stomach - gastric juice
    (c) liver - bile
    (d) pancreas - pancreatic juice
54. (a) To collect nectar
    (b) worker bees
    (c) Kigezi bee hive
    (d) To get honey / To get income (money)
55. (a) Polio vaccine
    (b) Tuberculosis
    (c) Measles vaccine
    (d) Diphtheria / Pertussis or Whooping cough / Tetanus
