51. **Read the story below and answer the questions that follow in full sentences.**

On Monday 18th July, 2018, our class teacher told us that Primary Four pupils were going on a tour. His name is Mr. Arinaitwe Moses. He teaches us social studies. Every child was to pay forty thousand shillings. We were going on 30th July, 2018. We were going to the Uganda Meseum and the Uganda Parliament. I was very happy when I heard the news.

After school, I went home running. I told my parents the news. They were also very happy. They accepted to pay me the money.

Finally the day for the tour came. I woke up early in the morning that day. I was the first to reach school. Later, other children also came. Our teacher read the names of children who paid. We used a bus called Bamboo Bee. It was big with nice colours. We went singing from school to the meseum and then to the parliament. We learnt a lot of things and also had fun.

We are plants
We are green in colour
We make the environment beautiful
For other creatures to stay.

We are plants
Very important to other creatures
That live on earth
Because without us
They will have no food to eat.

We are plants
Sometimes we feel so bad
When they kill us
By cutting our stems and burning us
To end our lives.

Diana Gets a New Home

Two weeks after our trip to the zoo, my guardian died. I felt very sad and scared. I did not have anybody to take care of me. I stopped going to school and slept out in the cold. I was always hungry and thirsty.

A month later, I fell very ill. Luckily enough, a kind nun saw me lying by the road side, shivering and vomiting. She moved near and talked to me. After telling her about my sad story, she took me to the hospital for treatment. When I got better, she took me to the church parish house. At the parish house, I got all the help I needed. I was given food, shelter, clothes and love.

The Man who loved Nature

Adam loved all animals. Although he feared some, he did not want to see any of them suffering. One day, as he was driving, he came across a dog that had been hit by a motorist. He wondered by the motorist who had hit it.

As he drove on, he marveled at the vast area of land that was full of stone buildings. He wondered how it would have looked beautiful if it was all surrounded by trees and sweet smelling flowers. Bees would be happily collecting nectar, birds and monkeys would fill the air with their melodious songs.

Ahead of him, he saw a donkey. It was pulling a cart full of logs and timber, it looked tired and hungry but there was a man whipping it. This man was not only a threat to the donkey but also to the environment because he had cut down trees and this could lead to desertification.
